A Storm Which Extends From the Missouri to the Atlantic Ocean. SPARTA, Wis., 9 .- To-night the reports of the damage from last night's storm continue to come in, and the indications are that it will yet be several days before all the small towns in the interior will be heard from. The storm appears to have passed entirely across the State diagonal ; from northwest to

walks demoralized and fences blown lown. Several fine residences and a This powder never varies. A marvel of purity, strength and wholes manes: More economical than the ordinary kinds, and connet be sold in competition with the mulnumber of those quite pretentious, are a mass of ruins. Farther reports place the loss well up in the thousands

of dollars. No estimates of the losses at other points is made. At Painfield the storm was the most titudes of low test, short weight, slum of phosphate pewders.

Sold only in cass. Boyal Daking Powterrific ever seen. A large number of buildings were blown down or unroofed, and freight cars were smashed into splinters. Port Edwards, in Wood county, had a planing mill, store and five dwellings blown out of sight, lum-ber yards scattered to the winds, and other property injured. About Edger-ton more than 200 tobacco sheds were demolished. Houses, barns and other buildings suffered a like fate, and con-COTTON CANNAS OF AITHUMBERS IN TO IA INCHES WINDOWS AND LOVE Deck, Car. Trust and Wagon Coverings, Machine Aprous and for other purposes, constantly in store and made to order. siderable five stock was killed, The new Cathore Church, the flax mill and residences and barns were destrayed at Appleton.
About Stoughton, the scene of the gaest tobacco warehouse fire of last Sunday, tobacco sheds, houses and barns were demolished and a large number of horses and cattle killed.

From the small towns reports of the storm's destruction are received, but yery few estimates of the actual loss

are made. Inquiry of places where the destruction by wind was not severe shows that great damage was done by At Whitewater, Fall River Elroy the loss by particularly severe. At Desterville, Wood county, the loss by wind and lightn'ng will not fall short of \$15,000, and at Wellsylle, and at Wellsylle, and at Wellsylle, and a north, the loss is also severe. In all sections of the State struck by the storm the crops

have suffered great injury.
Chicago, 9.—The Inter-Ocean has a
special from Oshkosh, which states that a excient and a waterspout of terriffic velocity met twelve miles south of here swept along the river, mill and lumber districts. It struck this city with terrible violence. Hundreds of houses were entirely or partially demolished. Among the large buildings which are now heaps of ruins are the Exposition building, St. Paul's and St. Peter's churches. Two persons are reported killed and twenty hurt. Many families are homeless add much property de-

IN NEW YORK AND THE EAST. New York, 9.-Dispatches received ere to-night show that marked meteprological disturbances were experinced at different times during the day along the entire Atlantic Coast, almost from the mouth of the St. Lawrence the mouth of the Mississippi. In this city the day was very hot and the atmosphere close and sticky. Only those who were compelled were out, and they mopped their faces and sought the shady sides of the streets. A number of people were prostrated by the heat. The temperature continued to mount till 3:30 o'clock, when it

At Dover, N. H., the murcury ranged from 93 to 103 in the shade. Several persons were prostrated. There was a wind storm at Water-bury Center, Vermont. Two barns were blown down and several girls were buried in the ruinst They are in At Nyack, N. Y., an excursion barge, with 700 Sunday-school children on neard had its roof blown off, and a panic resulted which threatened most serious results for a time. Several persons attempted to jump overcoard. At Waterbury, Vermout, there was cyclone at 1.30 o'clock, and considerthle damage was done to houses and trees. A covered bridge 212 feet long, was blown into the Minooski river. At Baitimore the temperature was 94 and there was one sunstroke. were damaged by the wind and rain.

At Wilkesbarre, Pa., there was a ter-rific storm, accompanied by thunder and lightning, and the country crops At Lowell, Mass., there was a sterm of wind, rain and lightning. The light-ning ran into the tower in which all the telegraph and telephone wire were concentrated, setting it on fire and de-stroying the telephone and telegraph system of the city for some time. Some buildings were blown down and others struck by lightning. In New Orleans there was a storm in the morning, during which a house in

course of erection was struck. Two boys were in it at the time. One was killed the other badly stunned.
At Scranton and Carbondale, Pa., considerable damage was done by lightning. A tree was blown across of George Krimentz, a prominent the track of the Delaware, Lackawana & Hudson Railway, and a passenger train ran into it and was wrecked. No box wrapped in paper, and on opening one was hurt. A number of dwellings were struck and several persons At Burlington Vt., buildings were unroofed, trees blown down and much damage was done. The lightning struck in many places and several horses were killed. Telegraph and telephone poles were generally blown down. It is reported that some lives were lost in the lake.

Wired from Washington. Washington, 9.—The President to-day made the following appointments: Wm. K. Mead, of Arizona, to be United States marshal for the Territory of Ari-zona, vice C. I. Tidball, and Joseph L. Morgan, of South Carolina, to be Secretary tof legation to Mexico. Mr. Morgan has been a resident of Mexico

some time and speaks the language of Win Kidder Mead, who was to-day appointed U. S. marshal for Arizona, years. He has served in both branches of the Arizona Legislature, where he has made a good record. At the last National Democratic Convention he did excellent, work in bringing the did excellent, work in bringing the did excellent, work in bringing the did excellent. has been a resident of Arirona for 11 Z. C. M. I. SOLE AGENTS. Can be ob-ained at all their branch stores throughout he Terrstory. das alt appointment, says an old Arizonian, will give entire satisfaction to the de-

mocracy of Arizona. DISARMING THE CHEYENNES. An Important order was issued by the War Department to-day and sent to Gen. Miles, who is to take the field in command of the troops now in Indian Territory to suppress the trouble with the Cheyennes. Army officials are reticent as to the contents of the message. Persons not in authority, however, say that the order contained instructions to the commanding officer, directing him to disarm the Indians. It was sent by Lleutenant-General Sheridan. The Cheyenne Indians are armed with the best make of rifles and have considerable quantities of ammuhave considerable quantities of ammunition. For some time they have anticipated an attempt by the army to take their arms from thein and have in some instances hidden them, it is thought by the officials here who have dealt with the Cheyennes, that they will resist until overpowered. There are between twelve and fifteen hundred fighting Indians among them, and it was said here to-day that General Augur favored disarming these Indians, but considered the present force insufficient for the purpose.

MURDER AND SUICIDE. To-day Charles Knott, a shoemaker, entered the house of Geo. Morris and

asked Mrs. Morris for the phot eraph which he had given the lamily. Mis-Morris turned to get the picture, and as she did so Knott drew a revolver 1 and shot her twice, the first ball tasked effect in her head, and the second passes ing through her left lung. Knott FURTHER DETAILS OF THE CON-and Mrs. Morris is not expected to live through the night. Knott is beout his brains, dying instanti;

(Signed) I. R. Blocker, Tayas: W. S.

Washington, 9.—The second day's session of the agricultural convention began this morning. The committee went from Marseilles to the village of this intention to ask Sir Richard Agricultural Matters. beartly endorses the suggestion of the Commissioner in his address, and requests him to endeavor to secure the endowment; and if it be possible, to accomplish this important matter through the War department and the chief signal officer." The Commission-diately transmissible, often when er was requested to refer the subject, placed under favorable with his recommendation, to the com-mittee on legislation of the convention, thing, textiles and merchandise are far with his recommendation, to the comand to thus co-operate in securing nitional legislation. After one hour's discussion, the resolution was unaninously adopted.
The same committee then reported

the following resolution:
WHEREAS, One of the principal objects of this convention is the establishment of closer relations between the Department of Agriculture and all liquid chloride of zinc, 1% ounces to a institutions systematically engaged in quart of water; bi-chloride of mercu. active labors for agricultural purposes,

therefore,
Resolved, That in the opinion of this convention the first practical measure to secure co-operation in the fulfillment of the admirable suggestions of the Commissioner is the creation of a division or office in the Department of Agriculture supplied with the necessary clerical force, which office shall be the special medium of inter-communication and exchange between institu-tions intended to be represented by this convention and the general centre for plans for co-operation.

Resolved, That this convention respectfully recommends to the Commis-sioner, as one of the most important functions of the proposed bureau, the compilation and publication of periodical bulletins of agricultural progress, not less than quarterly, and an annual report based thereon. The bulletin should contain in popular form ready for use by the people and press, the latest experiences and results in the progress of agricultural education, investigation and experiment in this and

all other countries.

Resolved, That as a necessary part of the intended co-operation, the colleges and experiment stations on their part here represented, regard themselves as bound to make definite plans for sugplying such office with such regular reports of their operations as may b called for by the commissioner. The rumainder of the morning bession and the entire afternoon session was devoted to discussion and the reading of papers upon general sub-jects of "Union in Agriculture" and "Mechanical Arts in Colleges." During the noon intermission the delegates called in a body at the White House by appointment and were received by the
