### THE "MORMON" EMBARGO ADVOCACY.

Somm time since the N. Y. Mail. some time since the N. Y. CONSPICUOUS INCONSIS-TENCY.

To-DAY we present an article from the St. Paul and Minneapolis Plo neer. It is conspicuous for clearness. There is a potent point, how ever, which it omits to mention. Several of the anti-"Mormon"

bills that have been at different times presented for passage through Congress, have incorporated an amendment to the Constitution forbidding the practice of polygamy within the confines of the United States. In advocating legislation of It is the general opinion that that character, the Onio auti-it Morfloral decorations at funerals are now mon" Leaguers have but followed minded portion of the public.

The point we wish to draw attention to now is the fact that the aut'-polygamy proposition is in the character of a hage loke upon goaded that august body into passtice of polygamy. The proposal to make such an addition to the "Su. preme Law of the Land" amounts to saying, in so many words, that all legislation heretofore passed for the suppression of polygamy is unconstitutional. If it were otherwise

It is reported that recent orders for the evacuation cred precincts of this favored land is reverend gentleman's misconduct to make a constitutional amendment to pass a constitutional amendment forbidding it. It asserts incidentally that "Congress has taken little interest It would be quite as consistent to in the matter," whereas the interest lay his lack of sense to monogamy, taken is such as to have become slightly wearisome to the country; and it concludes with the appeal al-ready referred to, asking that peti tions be everywhere circulated for the submission of an anti-polygamy amendment to the national constitution. It would be cruel to inflict at present any farther discussion of the polygamy question upon a long-stiffering public. The matter is now in proper shape for congressional action, and no doubt such measures will be passed as will aid in enforcing the laws of the United States in Utah. But the spread of the idea that anything and everything can be done by constitutional amounts. thing worthy of public attention. How this flimslest of all fallacies can find ledgment in the brain of any intelligent person must remain as much of a mystery as if educated people were to call in an Indian medicine man to heal them of their ills. Everybody knows that a constitution is no place for specific regulations aimed at particular practicular. Everybody is supposed to know that a constitution is merely as much waste parson until legisla.

MESSES, J. C. AYER & Co., Gentlemen:
Last winter I was troubled with a most uncomfortable fiching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and Itching were allayed, and all signs of irritation of the skin disappeared. My estarrh and cough were also cured by the same means, and skin disappeared. My estarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred percent stronger, and I attribute these results to the use of the Sansaparilla, which I recommend with all confidence as the nest blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. Wilds."
