CHLORIDE POINT ADVANCES

Mammoth Weaker—Nevada Sellers—Bunker Hill Not So Strong—Ingot Bought.

TODAY'S METALS:

SILVER 60
LEAD, \$4.57 1/2
CASTING COPPER 15

Considerable activity is noticeable today among the lower priced stocks. As a rule prices show a slight decline from Saturday. Exceptions are seen in Chloride Point which sold up to 20 and Centennial Eureka, which was handed out at \$23. Lower Mammoth shows itself unchanged at 48, while Joe Bowers and May Day appear a little weaker. The former participated at 10, while the latter receded to \$35.

Yankee Con. started out at 11 but weakened to 10% before call closed. Mammoth brought \$2.01. Daisy commanded 8 at the outset but sold down to 7 1/2.

Petro fell back to 37 1/2 and Bunker showed a softening tendency at 2 1/2. Ben Butler was traded in at 1 and Martha Washington at 2 1/2, while Nevada of Galena, Nevada, brought 3 1/2. Ingot let go 1,000 at 4 1/2 and Golden Eagle was handed out at 2 1/2.

STRONG AND ACTIVE TODAY

That Was the Opening, but a Drop Soon Came.

This Was Checked, and Prices Improved—Live Stock Unsteady—Produce Lower.

New York, Feb. 5.—There was a strong and active opening in the stock market today, dealings being well distributed throughout the list. Metal stocks were the leaders. Sugar was under pressure and fell over 2 points. The rapid decline in sugar unsettled the market and there was a general reaction. A subsequent active demand for low priced railroad stocks developed strength returned to the general market and many stocks rallied sharply. A spurt of 2 1/2 in American hoop helped the general list to a higher level. Traders' offerings then appeared, which made marked inroads on the prices of some stocks, the Baltimore & Ohio stocks reacting nearly a point. Business slackened somewhat, but near midday the activity was resumed and prices improved again.

The closing was active and strong at net gains throughout.

Bonds showed irregularity and transactions were in normal volume.

LOCAL MARKETS.

Below are wholesale buying figures on poultry, butter, eggs and cheese. Quotations are corrected semi-weekly by J. M. Christensen & Co., wholesale produce dealers.

Spring chickens, dressed, 11c to 11 1/2c.

Hens, per lb., dressed, 10c to 10 1/2c.

Turkey, per lb., 12c to 13c.

There is no change in the egg market, which is demoralized, as in addition to the Eastern supply the Utah product is coming in in excess of demand.

BUTTER AND CHEESE.

The tone of the butter market is slightly improved. Ranch butter does not move at any price, but creamery is in fair demand at 29 cents.

Cheddar, Utah (new), 10c to 12c.

Family, Utah (new), 10c to 12c.

GRAIN.

MEETING OF THE

DALTON AND LARK

Overwhelming Vote in Favor of Resolution to Sell.

FAMOUS GOLD MINE IS SOLD

Governor Brady Anticipates Lawlessness at Nome—Joe Bowers Extension.

The stockholders of the Dalton & Lark Mining company met at the office of the company today as per arrangement to vote upon the proposition to transfer 22 claims of the company's property to Hon. P. T. Farnsworth for the sum of \$300,000. The vote resulted in only 453 votes against the proposition out of a total of 1,753,493 votes cast. It is stated that others are known to be in favor of the resolution who were not present at the meeting. Were all present, it is stated that about four-fifths of the stock would have been voted. As it is, enough votes were secured to carry the proposition, which, when the indebtedness of the company is paid, will give a fraction over 11 cents a share to the stockholders.

The conditions of the purchase could not be learned, further than it is not a spot cash bargain. It is said the dividends will be paid out to the stockholders as the payments are made by the purchasers.

From all that can be learned the Dalton & Lark company were almost compelled to sell by J. C. Coffin, who secured an option on the property some time ago he went to work, and after pumping the water from the mine he expended some like \$25,000 in development work, making about \$50,000 in profit.

The option expired, and in spite of the representations of Mr. Farnsworth Mr. Coffin forfeited his right, as is well known. This left the mine in better shape for the continuance of active work than it had ever been before.

ITEMS FROM TINTIC.

Buckeye to Resume—Gunyon Company Will Sink Deeper.

Thos. Sappington, superintendent of the Buckeye, came out from Salt Lake yesterday to arrange for the resumption of work at the mine. Some time ago a contract was let for sinking the shaft another 100 feet, but the contractors were unlucky with the machinery and stopped work. The company will, however, push the shaft on down to the 600 level at once.

E. D. Swan, president, and J. W. Campbell, managing director of the Gunyon Mining company, were out from Salt Lake this week and let a contract to sink another 100 feet from which point a cross-cut will be run to the ledge. The Gunyon property, which consists of a group of three claims, is located at Diamond, and lies between the Buckeye and Fisher. The shaft is now down 290 feet and is timbered in excellent shape all the way down. A cross-cut has been run from the bottom of the shaft to the ledge, a distance of thirty feet. The cross-cut extends to the ledge eleven feet, but hanging wall has not yet been reached, and the size of the mineralized zone has not yet been ascertained. The ore is a lead carbonate and samples have been sent to Salt Lake to be tested.—Mammoth Record.

BOWERS EXTENSION.

Some Concentrating Ore Reported—Drifting on Vein in Progress.

F. E. Wilson reached town this morning from Tintic where he went to inspect the Joe Bowers Extension. Mr. Wilson reports some good concentrating ore has been discovered on the 400 level. Small patches of high grade ore have also been encountered but the bodies found do not warrant the erection of flgs. The vein has been crossed and found to be 47 feet wide. At the present time drifting on the vein is in progress. The management is seeking to get under ore chutes exposed nearer the surface. It is hoped that this will be done within the next 50 feet.

GOLD AMALGAMATORS.

W. F. Mitchell Contemplating the Manufacture of His Machine.

W. F. Mitchell has arrived in the city from Colorado River, where he has been working his flour gold amalgamator with great success. Mr. Mitchell has received a number of enquiries regarding his machine, and he is considering the advisability of manufacturing his amalgamators for the trade.

FAMOUS MINE SOLD.

Over a Quarter of a Million Paid for Cherokee Hydraulic Gold Mine.

The famous Cherokee hydraulic gold mine from which \$12,000,000 in gold has been taken, and comprising 100 miles of water ditches, thirty miles of "de-

bris" canals and 1,500 acres of patented channels, has been sold. The purchasers are a syndicate of Pittsburgh and Washington capitalists, headed by E. B. Hamilton, of Pittsburgh. The price paid was over a quarter of a million dollars. The mine is located about 100 miles in Butte county and has been worked for forty years.

BULLION-BECK MILL

Will Likely be Renovated in the Near Future—Mine Unchanged.

A decision will likely be reached within the next few days as to what place the Bullion-Beck mill will be placed to occupy in the future operation of the famous property. A trial a short time ago resulted in a loss it is said, of several thousand dollars to the parties who owned it. It is stated that the machinery is much worn and needs a thorough overhauling. An inspection will shortly be made by Mr. P. T. Farnsworth at which time the course of procedure will be decided upon. It is intended to make the mill pay if possible.

Regarding the reported strike on the 800 level Mr. Farnsworth said today that there was nothing in it further than the encountering of a kidney of ore which in of quite frequent occurrence at the Beck property.

NEVADA MINES.

Mach. Activity Reported in Lincoln County.

There is more general prospecting and developing work going on in the Lincoln county of Nevada than for many years past, says the Pioche Record. Aside from gold discoveries, which have received attention only in the past few
