MINING, BUSINESS AND STOCKS.

MAKES $42,000 FINAL PAYMENT.

President Lewis Completes Purchase of Beaver County Property.

PRICE WAS OVER $100,000.

Property Includes Harrington-Hickory and the Summit and Gothand Groups, 10 Claims, Patented.

For the purpose of making final payment of $42,500 on Beaver county properties today, President A. B. Lewis of the Majestic company arrived in Salt Lake from Milford this forenoon. The properties involved are the Harrington-Hickory and the Summit and Gothand groups of eleven claims, all of which save one are patented. The option on the properties was obtained from the late A. G. Campbell some two years ago and the payment today was made to his estate. The purchase price was considerably above $100,000, and today's payment completes title to an important and very promising part of the Majestic holdings, which will be developed together with other of the company's extensive holdings. Mr. Lewis reports progress being made very satisfactorily at the O. K. mine, and the company's smelter with a small army of men.

THE DAY ON 'CHANGE.

Century Stopped Downward Course — Wabash and Star Con. Lower.

At this morning's call on the mining exchange buying was fairly moderate with 20,625 shares selling for $15,428.88 on the regular call and open board. Carisa continued a heavy seller and 5,200 shares went on an even market from 22¼ to 22⅜ cents. Century continued active and scored a stop to its downward course and was favored with a slight reaction. The sales were measured by 3,300 shares on a market that opened at 79½ cents, then reached 79 cents, and reacted to 83 cents a share. Wabash was weaker and 2,000 shares sold from $1.57 to $1.43, and closed at $1.44½. Star Con. shrunk to 20 cents. The following quotations follow:

AD MINING NOTES

The Taylor and Brunton sampler this morning reports ore receipts including six cars from Tintic, three cars from Frisco, and one car from Stockton.

The Gemini is among the shippers today with six cars of ore.

The Horn Silver contributed three cars of ore to today's market.

The Hercules of Stockton appeared at the sampler today with a car of ore.

GIANT RIVAL TO GUGGENHEIMS.

Railway, Smelter and Mine Interests Form Big Corporation.

TO DEVELOP MEXICAN MINES

Vast Area of Rich Mining Ground —Enterprise Favored by Abundance of Fuel.

A formidable rival of the Guggenheim Exploration company which is officered and managed by the distinguished smelter operators of that name now looking after their smelter interests in Salt Lake is said to exist in the Rio Yaqui International Transportation and Metallurgical company recently organized under the laws of Arizona with a capital of $20,000,000. Among the organizers and promoters are Gov. Orman of Colorado, a number of well known mine operators of the Centennial state and numerous prominent and wealthy Mexicans who have turned in their valuable properties to the new concern.

The first field for development by this company will be on the western slope of the Sierra Madre mountains in the state of Sonora in Old Mexico and the operations, it is said, will surpass the most gigantic undertakings in that country.

The plans of the company include the building of a 24 furnace smelter and refinery at San Antonio de la Huerta and the construction of over 300 miles of railroad which will connect the various mines owned by the company with the smelter and also with the sea coast. The smelter will be equipped with modern appliances, and its capacity will approximate 3,000 tons of ore a day. Adjacent to the smelter site is a large area of excellent coal which is also owned by the company.

The company owns some 200 mining claims and has options on nearly 600 more. These are said to include some of the richest mines in the world but which have never been worked except by the crude methods of that country. Some of these ores recently shipped to Denver after deducting smelter charges and enormous freight rates, netted the shippers $112 a ton. Other bodies sampled show a possible net value of over $500 a ton, while on the dumps of the old workings are vast tonnages of ore which are said to have in them values reaching into the millions.

MIDWAY IN VIPONT DISTRICT.

Property Visited by George F. Hicks Who Returns With Rich Samples.

Geo. F. Hicks has returned from an inspection of the Midway property in the vipont district west of the Park Valley Coventry. A tunnel is now in 1,500 feet, and at a distance from 1,250 feet from its mouth a 30-foot vein was cut which goes well in silver and from which numerous samples were brought in for assay purposes by Mr. Hicks. Considerable high grade ore is already sacked ready for shipment and he considers the future prospects of the property as promising.

CACTUS STRIKE IMPROVES.

Body of Rich Copper Ore Shows Permanance.

At the Cactus near Frisco encouraging developments have followed the strike registered a week ago. The new body of rich copper bearing ore has been followed from the 300-foot level for 60 feet while on the 200-foot level, it has been explored to a heighth of 50 feet. It is believed that the chute will be continuous to the surface.
nMiing

The B. W. & H. Sends Up Lot 6.

J. M. Barlow and John E. Clark of this city, who are acting as sales agents for the B. W. & H. Gold and Silver Mining company of Sevier county, have just marketed lot No. 6 from that promising property, obtaining $1,528.32 for the shipment of 16½ tons, nearly $100 a ton. The ore went 1.98 ounces gold and 130.45 ounces silver. The B. W. & H. is located about four miles from the famous Annie Laurie.

GOLD DUST PROPERTY.

Ida Property Managed by Salt Lakers Will Build Mill.

The Gold Dust Mining company with properties at Leesburg, Ida., after making experiments and practical mill tests with its ores have determined upon the erection of a 50-ton daily capacity mill. It is a gold proposition and stamp and cyanide processes will be employed. W. S. Burton will go to the location in a few days to decide upon a site and lay plans for the mill. The company owns nine claims and cover a 35-foot vein for 2,000 feet. Values of $35.20 in gold with a small amount of silver have been obtained from mill tests and the promoters of the enterprise are confident of the merit of the ground. Among the well known Salt Lakers interested in this property are Henry Harker, Benjamin and Robert Harmon, Judge Wenger, R. E. Rex and Dr. Hasbrook. Work on the mill will be begun at an early date.

VISIT COMMERCIAL.

Bingham Con. Officials Pleased With Developments in Mine.

President White and TreasurerWeller of the Bingham Con. smelter yesterday made an inspection of a part of their Bingham holdings, including the Commercial property and a small part of the Dalton and Lark grounds. While withholding details of showings resulting from recent development work they were positive in expressing satisfaction over what they saw and indicated that they considered the recent finds among the important ones made under their administration. In the lower tunnel of the commercial a six foot vein of high grade copper ore at a vertical depth of 800 feet is said to have been encountered and the entire body carrying good values also in lead, silver and gold.

WORK AT WABASH.

Col. Treweek Meets Acquaintances Among Visiting Smeltermen.

Work at the Wabash is being pushed with satisfactory speed and encouraging showings. Col. Treweek, its manager with others interested in the proposition are hopeful of a successful future for the property. They do not consider the fluctuation of the price of the stock on the local market to have any hearing on the value of the stock or conditions of the mine. Col. Treweek has been meeting several of the visiting smelter operators the last two days, some of whom he has known for many years, having been employed at the Flagstaff mine by Mr. Anton Eilers 26 years ago.

Kennebec Lets Contract.

A contract for 100 feet of tunnel work in the Kennebec at Alta has been let by Manager W. J. Craig. From this property a regular output of ores is predicted by the management at an early date.

Magnates at the Smelters.

A good part of the representatives of the American Smelting and Refining company who are in Salt Lake went to Murray this morning to inspect the company's plants at that point.

MINING NOTES.

Frank C. Morehouse has gone to Idaho on a business trip of a mining nature.

Hartwig A. Cohen, manager of the De La Mar extensive interests, is stopping a few days in Salt Lake.

An unverified but not unlikely report of a rich strike of horn silver in the Climax group in the Clifton district is afloat.

J. J. Trenam is looking over his interests at Stockton today.

Thomas Weir of the Ajax and the Laclede properties at Tintic is spending the day in that camp.

Manager Samuel McIntyre of the Mammoth mine is in the company's office today, after a several deys' stay on his Nevada ranch.

A. E. Beveridge left for Park City this morning, where he will pass the remainder of the week looking at a number of mining propositions.

John P. Meyer, mine superintendent of the Ben Harrison at Milford, is in from camp for the first time in several months and will pass the coming week with his family in Salt Lake. Mr. Meyer is also interested in the Utah Southern holdings in the same vicinity. He reports work progressing satisfactorily at both properties.

A copy of the articles of incorporation of the Apollo Copper Mining and Milling company of Frisco, Beaver county, was filed in secretary of state's office today. The capital stock is $40,000, divided into 400,000 shares of the par value of 10 cents each. The company owns a group of 10 claims in Beaver county.

STOCKS WERE UNDER PRESSURE.

Supporting Orders in Evidence For a Number.

FLUCTUATIONS LIMITED.

Room Traders Promptly Covered Where Most Pronounced Weakness Was Shown Yesterday.

New York, Oct. 30.—Supporting orders were in evidence in some stocks at the opening, particularly St. Paul and some of the Pacifics and coalers. Other stocks, however, were under pressure. Fluctuations either way were limited to small fractions and trading was dull. Room shorts promptly covered in the stocks which showed the most pronounced weakness yesterday. St. Paul, Mo. Pac., Texas and Pacific; B. & O., Manhattan, Brooklyn Rapid Transit, Cotton Oil and Rock Island averaged a point above yesterday's final prices, while New York Central, Illinois Central and L. & N. sold as much above the opening figures. Small realizing sales followed the advance but the market readily absorbed these offerings and recovered to the highest. Delaware & Hudson gained three points but Norfolk & Western lost two. The market lapsed into its recent stagnancy again before noon but held steady. Less apprehension existed about the probability of early gold exports, demand sterling bills selling a shade below yesterday's close and the market tending toward a further ease.

Bonds were steady at noon.

St. Paul declined nearly a point to 187, causing a fractional reaction elsewhere. Business, however, continued very small and comparatively few stocks were dealt in.

MONEY AND BONDS.

Money on call steady at 4 per cent. Prime mercantile paper 5½@6 per cent. Sterling exchange fairly steady, with actual business in bankers' bills at 4.86.75@4.86.876 for demand and at 4.83.50@4.83.625 for 60 days. Posted rates 4.84@4.84½ and 4.87½@4.88.

Commercial bills—4.82.75@4.83.25.

Mexican dollars—39¾.

Eggs—Receipts, 8,200 packages; irregular. State and Penna., 24@25; western, candled, 22@24.

BUSINESS NOTES.

Dun's Review gives the following summary of business conditions in Salt Lake: "Wholesale business in all seasonable lines is satisfactory, and conditions on the whole are fairly healthy. A good and steady business is had in groceries, hardware and drugs, and satisfactory sorting orders in dry goods, notions, clothing and shoes. Retail trade is very fair, though continued mild weather is not beneficial. Collections improve somewhat, though still dragging. Money continues in liberal supply, with a light demand, and local securities are inactive."

HE STOLE CHICKENS.

Brown in Trouble Again—Dodson Gets Fifty Days.

John Brown, the old-time offender, was arraigned before Judge Diehl this morning on three charges of petit larceny, each allegation being that he stole chickens from different persons. Brown pleaded not guilty to each charge and his case was set for trial for Saturday morning at 10 o'clock.

Ernest Dodson, the young man accused of stealing two side saddles from James Edwards,was brought into court and changed his plea of not guilty to that of guilty. The charge was that of petit larceny, and Judge Diehl sentenced him to 50 days in the county jail.

SHORT CIRCUIT.

Janitor and Bucket of Water, Then There Was Trouble.

A short circuit, occasioned by a small arc in the meter room on the second floor of the Deseret News building yesterday made things lively for a time. Had not the building been absolutely fireproof an electrician who examined the trouble after the current had been shut off is the authority for the statement that the results would have been serious.

One of the janitors who had occasion to go into the room noticed that the insulator on two of the wires was burning. Accordingly he picked up a bucket of water and dashed the contents in the direction of the trouble. The top of the pipe through which the wires are carried to the floor below was not closed, so the water went running down the pipe carrying the current of electricity along with it. The result was hardly what was anticipated. There was a succession of blinding flashes with the attendant burning off of the insulation of the wires as far as the water flowed, while the copper wires were fused and two meters were wrecked in a shorter space of time than it takes to tell.

Col. Swayne Raches Berebada.

Aden, Arabia, Oct. 30.—Col. Swayne, the British commissioner in Somaliland, has reached Berbada in safety. His wounds are doing well No further movement of the British troops against the Mad Mullah will be made until a large force is collected, which will be about two months hence. There is no doubt that the Somali levies showed the white feather in the recent fighting with the Mullah's followers.

Col. Cobbe is in command at Bohotle, where the guns have arrived. The garrison there is not threatened.

Purchase Price of White Star Line

London, Oct. 30.—It was officially announced today that the purchase price of the White Star line (on its joining the International Mercantile Marine company), is $53,497,180, of which $15,736,180 is payable in cash; $25,174,600 in preference shares and $12,587,000 in common stock. The shareholders thus recived over $50,000 for each $5,000 shares.

MINING EXCURSION.

Park City and Return $1.50.

By special request of many who are interested in this famous Bonanza Camp the R. G. W. Ry will operate another popular excursion, Sunday, November 2nd, leaving Salt Lake 8:15 a.m. Everybody invited.

NEW PERFUMES.

So many new perfumes to show you.
Some of the nicest odors we ever had too.
One new one of Pinauds—Fascarina.
One new one of Le Grandes—Apotheose.
Both of these in bulk or in fancy packages.
Get all our Uerfume in bulk now.
Cause it's so convenient for you.
Get all our Perfume in bulk as you want.
Tell what you're getting too.
A half hundred or more odors to show you.
There's one point you'll find about Schramm's perfumes that you won't find in any others,
They last.
F. C. SCHRAMM.
DRUGGIST.
Where the cars stop. McCornick Blk

MILL MEN
Will save money and delay by communicating with our agent,
JOS. W. WILSON,
237 South Sixth East, St., Salt Lake City. Telephone, 736 D.

He has constructed more Roller Flour Mills than any other man in the Rocky Mountain country. Also improved more Water Powers than any other man in the West. His estimates are always correct and satisfactory. He is also among the very best informed men either east or west, as to Salt Refining Machinery.

He handles mill supplies of every description, steam boilers and pumps, steam engines of every popular make, together with steam and belt hoists, with levers interchangeable from right to left hand; screens, rotary bolters, races and roller mills.

Great Western Mfg. Co.

Phone 808. Yard, 5th South & 3rd W est

Are You Worrying?

Through your reading and sewing with eyes that smart, burn and ache? With blurring print and stitches that seem to run together?

Don't you know that your eyes can't stand this forever? If you wait too long all the spectacles on earth won't help you. Better come at once and find what eye comfort there is in a pair of our restful lenses.

DR. J. J. BUSWELL,
Ophthalmic Specialist.
Rooms 328-330 "News" Building.
PRESCRIPTION WORK.
