Local and Other Matters.

THEATRE.—The performance of the Theatre on Sunday schools and their friends have an excursion to Lakeview on the 30th inst.

Injured.—This morning at Mr. George H. Knowlton was getting out of a wagon the horse gave a sudden jump, throwing him upon the hub of the wheel, considerably injuring his back.

Accident.—Yesterday the little son of Brother and Sister James Saville, of the 18th Ward, was severely lashed upon the neck, breast and shoulders, by pulling over upon himself a vessel containing a quantity of boiling water.

Killed by Lightning.—The following dispatch came by Deseret Telegraph—

Franklin, June 22.
About five o'clock yesterday evening, Mrs. Ann Smart, wife of Thomas Smart, Sen., of this place, was struck by lightning while sitting in her house and instantly killed. The lightning came in at the south end of the roof, passed down across the house, and struck her on the head, burning her nearly all of her hair and clothes on fire, and then passed out at the chimney, knocking it down. There were four other persons in the room, but none of them were hurt.

Mormonism in our Midst.—For some time past Mormon Elders have been engaged in preaching their doctrines in this vicinity, and, strange as it may seem, have met with considerable success. We learn that on Saturday last they adopted into their church six new members by baptism and confirmation, and on Sunday morning organized a new branch church in this place, to be known as the Marion County Branch. They elected our townsman, H. J. Hill, as their president, and ordained J. H. Ward, of Provo, an Elder in said church. They will hold communion meetings every two weeks.

Not Lost.—The friends of Bishop Joseph Horne and Elders Thomas Bradley and N. M. Peterson have found some uneasiness on account of these brethren not having sailed, as intended, on the steamer on which they were to sail, and have been left in New York, and no intelligence having been received of their whereabouts. We are pleased to be able to state that Brother Joseph Horne of the 14th Ward, father of the Bishop, has received a letter from Elder W. C. Staines, enclosing a note from the Inman Steamship Company, stating that the brethren sailed on one of their vessels, the *City of Berlin*, on May 27, the same day they arrived in New York, the missionaries apparently preferring the sail for Liverpool at the earliest opportunity rather than to stay in New York three days.

High School for St. George.—A few days since the Rev. Dr. Ferguson and wife, late of Normal, Illinois, arrived in this city and proceeded to St. George, with a view to establishing at the latter place, a high school. The Doctor is a gentleman of excellent educational attainments, and of extended experience, having been for many years the principal of one of the leading seminaries of Illinois, and he is the author of several able written works. Mrs. Ferguson has also had much experience in the same direction, and is especially proficient in music and languages, being thoroughly conversant with several of the latter, besides her mother tongue.

We wish the Doctor and his amiable wife success in their new undertaking, and trust the climate of Southern Utah will be conducive to the maintenance of their good health.

Bad for Wiggins.—Yesterday Marshal Nelson and Sheriff Taylor having reasons for suspecting that John G. Wiggins, lying in the County Jail, was the author of the death of the murdered John Kremer, alias "Dutch John," was fortifying for an attempt to escape from custody, proceeded to the jail in which he is confined. It was mentioned in the News some time ago that Wiggins had saved through his wits, and yesterday the officers named found that he had repeated that operation, by means of a steel shank from the sole of his boot. They made a search of the person of Wiggins, and also of the compartment, but nothing further was discovered until they examined what purported to be a number of cans of fruit, received by Wiggins, from some friends on the outside, some weeks ago. On being carefully shaken some of the cans appeared to really contain fruit, the sound of the juice being distinctly heard, but there were two that did not give forth the sound, and, on being opened, it was discovered that they each contained a Colt's five-shooter, which had been taken to pieces and carefully packed in cotton wadding. On being asked for the ammunition, Wiggins produced about a dozen cartridges from a quantity of clothing of mine, kept for disinfecting purposes in one corner of the room.

It has been known that a number of characters of the same "ilk" as Wiggins arrived in the city lately, to use every means available, fair or foul, to obtain his release. These attempts, however, will probably have the effect of rendering his slim chances of evading the execution of his sentence still more shadowy. The discovery made by the officers yesterday made him feel considerably "down in the mouth."
