THE EVENING NEWS.

Thursday, - - August 24, 1871.

PRICE OF GOLD.

Corrected Daily by HOOPER, ELDREDGE & Co., *Bankers.*

SALT LAKE CITY, August 24, 1871.

Buying at $1.10; Selling at $1.12.

WEATHER ITEM. — The highest point reached by the thermometer to-day was 90.

THE LAST APPEARANCE. — To-night is positively the last appearance of "Help" and "Joe" Murphy, at the Theatre; and all who mean to see them must invest their means to-night or not at all. The performance is very laughable, and exceedingly talented, the concert room scene alone being worth more than the money.

GEOLOGICAL SURVEYING EXPEDITION.— Mr. M. J. Shelton, Indian interpreter, called in this morning. For the last month he has been travelling as guide and interpreter with Major Powell's exploring party, during which time they have had pleasant journeying from the Uintah Reservation to a point about two hundred and twenty-five miles south-west of it. In their rambles they have passed through many valleys susceptible of cultivation, and the Indians all through the country, are peaceable and talk nothing else.

The Major's party is seventeen in number, ten of whom have now gone down the Colorado with the boats; the remainder go across the Pah-goo country, and will intercept the river party with supplies at the head of the Pah-goo. The trip thus far has been very pleasant.

BUSINESS IN COURT.—Sometime early in the present month the citizens of Coalville, Summit Co., were holding a meeting in the school house for the purpose of considering the expediency of assessing a tax for school purposes; and during their deliberations a person named Spriggs, a resident of the place who has gained some notoriety of late for his intemperate habits, entered the building, and soon after arose to speak, making offensive and abusive remarks. The Chairman called him to order, but he persisted in his conduct, and seemed determined to create a row. Two policemen were edging toward him with the intention of enforcing quiet, when Thomas Copley, irritated beyond endurance at Spriggs' insolence and seeing that the "order" of the chairman had no effect seized a chair, and went for him, determined if he he would not regard the chairman, he should the chair. The result was that Spriggs got a blow which induced him for the time to hold his tongue. In consequence of this he sued out a writ against Copley and he was summoned to appear in the United States Third District Court, to answer a charge of "Assault, with intent to commit bodily injury."

The investigation took place yesterday before Judge Strickland, and Copley was bound over in $1,000 bonds to appear for trial at a future day.

This done the prosecutor stepped up to the judge and informed him that he wanted Bishop W. W. Cluff who was present as a witness, to be put under bonds to keep the peace towards him. Judge Strickland said that it would be necessary for him to swear that Bishop Cluff had attempted or threatened to take his life, and that he would also have to produce witnesses whose testimony would substantiate his statement.

The Bishop, being in the Court-room and hearing the remarks referring to him, instantly informed Judge Strickland that, as it was a busy time and difficult for witnesses to come to the city, he would save that trouble by giving any amount of bond required,—from ten to thirty thousand dollars, ensuring the personal safety of Spriggs if he would only keep sober and not trample upon the laws of the Territory, the ordinances of the city of Coalville or interfere with the rights of his neighbors. Judge Strickland, to his praise be it said, administered excellent reproof and advice to Spriggs, telling him to go home, keep sober and mind his own business, and he felt confident he would not be molested by the people of Coalville.

UNSUCCESSFUL.—Some weeks since we noticed the arrival in this city of a road steamer, the property of Hyde & Son, of San Francisco, to be used for the hauling of ore from East Canyon to Lake Point landing. Yesterday it again arrived, this time coming from East Canyon, with a tender and five empty back action wagons —the full train intended for hauling ore— attached to it. The proprietors failed to find employment out west and, after sinking $4,000 to $5,000 on the venture, have concluded to abandon the project, sell out their wagons and return with their "overland steamer" to California. Considerable difficulty was experienced in bringing it here from East Canyon, the road being so soft near the Point of the Mountain that the steamer was almost submerged in mud.

GENERAL FAIR IN THE SOUTH.—It has been determined to hold a general fair for Southern Utah, at the St. George Hall, on Friday September 1st, 1871, at 10 a. m., for the exhibition of Southern products, manufactures, skill and enterprise; at which premiums will be awarded. Efforts are being taken to create a general interest in this Fair, and it will doubtless be a gathering from which much instruction will be derived, and a more general knowledge of the resources of the country be made public. Gatherings of this description are always interesting when properly arranged and managed, and we imagine that the coming Fair at St. George can be made especially so. Probably as grand a display cannot be made there as might be witnessed at a Fair in an old settled, populous and wealthy country; but it will be none the less advantagous and profitable on this account.

We are glad to learn that this Fair is to be held; the community will be amply repaid by the benefits which will accrue from it for all the trouble and expense in getting it up. If they were more common in the Territory, we think it would be better for agriculturists, manufacturers, mechanics, and, in fact, every class. They would afford opportunities for the members of these classes to mingle together, interchange views, compare products and collect a stock of ideas that would last them until another Fair would be held; besides arousing a spirit of healthy emulation and progress that would be attended with immense results to the country at large. The last exhibition of this kind that was held in this city was attended with excellent results, greater, probably, than the Society under whose auspices it was conducted, hoped for. Since then the community has made considerable progress, and a very creditable Fair could now be held in this city, if early and thorough steps were taken to have one. But we have wandered from the Fair to be held at St. George, and have entered into the advocacy of the holding of Fairs at other places. Every one who can contribute to make the St. George Fair a complete success, should spare no pains to do so.

Under the efficient management of Jos. E. Johnson, Esq., who is chairman of the committee (M. P. Romney, Esq., being Secretary) to arrange for and manage the Fair, we feel assured that it will be a great success.

IN TOWN.—Mr. E. Shaw, who represents the house of Cutting & Co., manufacturers of Hermetically Sealed Goods, of San Francisco; and Mr. Jas A. Folger, of the firm of J. A. Folger & Co., proprietors of the Pioneer Steam Coffee and Spice Mills, also of San Francisco, arrived in the city yesterday, and are stopping at the Salt Lake House. Some idea of the progress which is being made in manufactures in California may be gathered from the statement, made by Mr. Shaw to us, that Cutting & Co. employed 700 men in canning fruit, putting up pickles, &c., in their establishment. These gentlemen are doing a satisfactory business here.

GIPSIES.—The *Junction* of yesterday says a family of English gipsies, ten in number, —parents and eight children, reached Ogden from Oregon a few days ago. They came to this country eight years ago, and have traveled through the States and Mexico. The eldest of the juveniles did some fortune telling during their stay in Ogden, which terminated on Tuesday, as the whole family left that evening, for Egypt, *via* Omaha and St. Louis.

Special Notices.

Ask Your Grocer for Cutting & Co.'s California Canned Fruits and Jellies—far superior to all others. For sale everywhere. d233

MUSEUM AND MENAGERIE. — For a few days the celebrated **Educated Hog** will be on exhibition and perform his astonishing feats in calculation: will tell the time of day by any watch, fire off a pistol, play a game of cards with any one of the company, etc., etc.

All the usual sights at the usual prices.

JOS. L. BARFOOT, Manager.

d231 tf

NOTICE OF REMOVAL! — On August 31st I will have removed to Commercial St. West side, right opposite German Bakery and Coffee Rooms, where I will be pleased to wait upon my many friends and patrons, until the New "Lions Den" on East Temple Street will be completed.

DANIEL GRENIG,
Baker and Grocer.

d231 1w

FOUND! — Sight draft (second) on Wells, Fargo & Co, N. Y. for $115. Owner can have it by applying to

JOHN G. PINDER.

NEW REFORM.—The introduction of Soda Water and Sarsaparilla, by Day & Co., has done more in the way of a Temperance Reform than all the lectures that have been delivered in the country. The natural condition of man is a thirsty one, and it has long been an established fact that water will not quench thirst. The question then arises, can we find a substitute as harmless in its effects, and more delicious in taste than anything yet discovered? We find it in Day & Co.'s Soda and Sarsparilla. If every one would sign the Pledge and drink nothing but this Celebrated Beverage, much degradation, misery, shame and crime would be prevented in this world. If any one doubts the truth of our remarks let them step into the first place they come to and try it. It will vouch for itself. em(170)tf

EDUCATIONAL.

UNIVERSITY OF DESERET.

THE FALL TERM of the University for the year 1871-2, will open on Monday, August 28th, at 9 a. m., in the University Buildings, Salt Lake City.

—:o:—

MOTHERS, READ THIS!

THE

EUREKA DIAPER!

IS JUST THE ARTICLE NEEDED BY EVERY MOTHER WHO CONSULTS THE HEALTH and Comfort of Her Child!

THE EUREKA DIAPER Is designed as a shield to protect from moistdre the clothing and bedding of children, and also the clothing of those who have the care of them. It is made *thoroughly water-proof*, there being no *sewed seams*, the threads of which rot when exposed to moisture.

THE EUREKA DIAPER is so constructed as to fasten below the stomach, and to conform to the shape of the child's body; therefore it is not liable to fall off, and consequently securely retains the linen diaper in its place, at the same time giving perfect ease and comfort to the child. One of the many advantages of the EUREKA DIAPER is, that the danger and trouble of using pins is avoided; another is, that it permits a free circulation of air. They are manufactured in four different sizes, so as to suit the age and growth of the child, No. 1 being the smallest and No. 4 the largest.

We call the attention of our Lady Friends to the **Newest, Rarest and Most Exquisite**

Hamburgh Edgings and Insertions.
