WE have received the full text of the bill, reported by Senator Hoar, January Judiciary, a synopsis of which with lowstone country, reciting in part that habitants of towns. comments we gave to our readers a the Crow reservation, consisting of few days ago. of the Utah Legislature "creating, organizing, amending or continuing" the Prepetual Emigrating Fund Company, but provides that, "it shall not be lawful for the Legislative Assembly of the Territory of Utah to create, organize, or in any manner recognize any corporation or association for the purpose of or operating to accomplish the bringing of persons into the said Territory for any purpose whatever."

This is very funny. The encouragement of immigration in sparsely settled regions has been part of the polley of the UnitedStates from the beginning, and organizations to promote and assist in filling up the empty spaces with working people, have received legislative sanction and encouragement in all the new States and

Territories. There is room enough yet in Utah for thousands of families, who if brought here in not too great numberg at once, could make homes and achieve independence in a very few lized Indians have armed against the years. But it appears that a committee of grave and sober Senators have Bishop and refuse to receive the Indian decided that people shall not be brought agent, saying that their land had never into this Territory for any purpose been paid for and they would defend it chatever, under an organization or com- at all hazards. by this is not very clear, but we suppose they imagine it will cripple the work of the gathering by the Church of Jesus Christ of Latter-day Saints. And this makes us smile, while we marvel at the stupidity of the originators and supporters of so absurd a | cook stove was whisked up into the air messure.

It will be observed that this provision runs directly counter to the dificial recommendation of his Excellency Ell H. Murray, formerly of Kentucky and now Governor of Utah. He wants a "Bureau of Immigration entirely free from ecclesiastical control; and under the supervision of an officer or board of the territorial government." Of course there could be no objection Wednesday, near his cabin, a short No. 18.

The Winter Carnival at Montreal. MONTREAL, 5.—The Winter Carnival opened to-day under, the brightest auspices. Immense numbers of visit-ors, chiefly from the United States have arrived since Saturday, and hotels were all nearly illed for hours before the arrival of the Governor General. Thousands collected on the street through which his Excellency and suite had to proceed. The Marquis and Marchioness of Landsdowne had an enthusiastic reception. As they step-ped from the car the band played the national anthem, and as the Vice-Regal party proceeded to the hotel, the cheers of the people were loud and hearty. The Snow Shoers welcomed the distin-guished visitors from the Arc de Tri-omphe near the hotel, while 300 voices gave the national anthem of the empire and Canada.
