## LOCAL AND OTHER MATTERS.

PRESIDENT AND PARTY .- A dispatch per Descret telegraph line says the President and party stayed at Cove Creek last night, they started for Beaver this morning at 9.15, and will stay there to-hight.

BOUNDARY LINE.-This morning Genoral Jesse W. Fox and assistanta left this city by the first train to locate the boundary line between Davis and Weber counties. quickly found, in township five North, two and a quarter miles north of the township line, between four and five North, and a stake set in, having "Davis county" paint-ed on the South side and "Weber county" on the North side. The party returned to the city by the first down train, taking the cars at the Sand Ridge, near the boundary line, and arriving in town a little after

PLYNOUTH BRETHREN. - We had a visit from Mr. Henry Moore house, from Lancashire, England, and Mr. Harper Taylor, from London, England, Evangelists of the Society of Plymouth Brethren. The former gentleman will address the people at the Thirteenth Ward School-house at half past six to-morrow evening, while Mr. Taylor will speak to the people at the Fourteenth Ward School-house, at the same time, and also to-morrow evening.

OLE BULL'S CONCERTS .- We had a call to-day from Mr. Watson, agent for Ole Bull, who arrived by the murning train from the West. As previously stated, the great violinist will give two concerts on Tuesday and Wednesday evenings. He will be assisted by Miss Hattie Safford, soprano, Mr. Wm. McDonald, tenor, and Mr. Edward Hoffman, planist. Everybody will, of course, be anxious to hear this great master of his instrument; and our Scondinavian friends will, beyond doubt, turn out in force to the concerts of their eminent countryman. The artists assisting him have a high reputation.

CORN HUSES WANTED. - We are in want of corn husks for use at the paper mill, who among our subscribers and friends can furnish them. Let us hear from you

PRICE OF DOORS .- We have received a lengthy communication from a gentleman connected with one of the leading building firms in this city, replying to that portion of our leader yesterday, in which the price of home-made and imported doors was referred to. In making that allusion we had no wish to single out that particular article of manufacture, but merely to illustrate the principle; the allusion, however, was Heber C. Kimball, 20; George Crismon, 5; or two of the articles named from the firm to which our correspondent belongs, and others, imported, in Ogden, the difference in the price being as great as we mentioned. He did not say when the doors were purchased, and our correspondent and the firm to which he belongs not ladvertising, the reduction which he says they have made will easily account for our ignorance of that important fact.

We coincide with the remarks of our correspondent as to the style of sawing and the price at which fumber is sold in this city, and we are of the opinion that lumbermen here will have to reduce their prices and improve their material as well as every other class of producers and manumoturers.

THAT MENAGERIE. - Is beginning to look something like a menagerie. The cages have been removed from the small space they formerly occupied into a spacious yard behind, where the animals have room to breathe and where visitors can walk around and be comfortable. A commodious den has been erected for the bears, and a pole erected on which they can ex-hibit heir powers as gymnasts. The latest additions to the collection of animals are several varieties of the monky tribe and a parrot. A camel is expected every day, and in a very short time the Descret Menagerie and Museum will well repay a visit and is sure to become a fashionable place

SOMETHENS ABOUT THE NAVAJO RAIDS. A letter handed to us by Brotlier Solon Foster, of this city, from Brother James G. Bleak, of St. George, Washington county, contains the following interesting item:

"We have moved the authorities of Wash lugton D. C. to interfere with the Navajos. The Commissioner has sent to the agent of the Navajos to enquire about the raids upon us He says, 'I immediately called a council of all the principal chiefs and explained to them the complaints made and my visws on the subject in very short terms, after which I left them to council. They talked all one night in my office and then asked them plainly and candidly to tell me whether they and their good then could and would without fall stop these raids. They then promised me faithfully that upon hearing of any raid or campaign, they would immediately organize and go to the place and stop it, using force if necessary. They admit that two raids have been made into the Mormon country this year, but that they have tried to stop them. They appear very much excited in regard to the letter of the Commissioner. The Superintendent of Indian affairs for New Mexico has sent orders to have the maragding parties arrested on their return and turned over to the military as prisoners of war."

Ocons,-Improvements are rapidly going on in Ogden. A considerable number of buildings are being finished or in course of erection. Business, however, is not very lively at present, but "hope springs exultant on triumphant wing," or something of that sort, as everybody is looking for brisk times when Spring fairly opens. Last night there was a remain Reisef Society ball, in Mr. C. Woodmansee's building. on Main street, which was nemerously attended and was a success. There is some mud around; in fact a man wearing No. 13's might help himself to enough real state to make a respectable lot, by walking about a day or two and regularly scraping into the presence of Boet, who, without enusing any examination whatever, gave off in one spot; but dry weather will soon settle that matter, until it begins to "get up

ing from Paris, Rich county, on the 28th to be seized, he ordered, at once, a body ult., says:

"A gloom has been cast over this town by the death of Sister Rebecca K. Eldredge, who died on the 24th inst. She was the daughter of William and Eliza Derr, and

which showed the great respect and sympathy felt for our sister and her husband. Suitable addresses were delivered on the occasion by President David P. Kimball and Elder George Osmond.

Sister Eldredge was twenty-five years of old and died five days after childbirth, leaving behind her the record of a faithful saint and affectionate wife, "The Saints in Bear Lake Valley are very generally enjoying the blessings of

peace, union and good health."

IMPORTANT TO LANDOWNERS.-A meeting of the landowners interested in the Spencer ditch and the waters which have overflowed the 7th Ward pasture was held last evening at the 14th Ward Schoolhouse, to hear the report of the committee By the United States survey the point was appointed to survey the best practicable route to carry those waters to the Jordan-The chairman of the committee, Heber P. Kimball, Esq., made a report as to the best route, it having been unanimously decided upon by the entire committee and Surveyor General Fox, who did the levelling. General

Fox also made a strtement of the cost of digging the proposed route; after hearing which, a motion was made that the committee continue its labors by ascertaining the names of the owners of the land which will be benefitted by the construction of this ditch or canal; and a meeting was appointed for seven o'clock, on Monday evening, at the 14th Ward School-house, when it was expected that all the landowners interested, or some one to represent their interests, would be present.

All who were at the meeting last night agreed upon the necessity of something being done, and yoted to adopt the report of the committee recommending this route. The digging proposed will be expensive, but in the opinion of those most familiar with the matter, it is the only way these waters can be controlled.

We hope that the county and city authorities will feel sufficiently interested in the matter to render aid in the construction of this canal, as every acre of land that is made available for the production of hay or for farming purposes, so close to the city as this land is, adds to the wealth of the community and is a direct advantage to every consumer.

The following is the list of names, which has been handed in to us by the committee for publication, with the number of acres opposite each name. There will be a tax. doubtless, assessed on the land for the purpose of defraying the expense of constructing the ditch. All interested should endeavor to be present at the meeting on Monday evening that their views may be understood:

NEW YORK .- Captain C. F. Hall proposes to make another trip in search of the North-west Passage. He intends to start with a hundred and fifty ton steam propeller, to be provided also with sails. He will also have a top-sail schooner of about the same tonnage. His route will be into James' Sound, and thence by sea or land, as circumstances favor, to the Pole, After taking the vessels as far as practicable, Captain Hall intends to use Esquimaux dogs and sledges to prosecute the search. A large force is at work at the gun-

boat Canandaigua, at present undergo-ing repairs in the dry dock at the Brooklyn navy yard. A Spanish ironclad, now in harbor, is to succeed her in that locality, to undergo thorough repairs. The Guerrier is ordered to be fitted out as quickly as possible; she is to be used as the Commodore's ship in the South Pacific Squadron. Altogether there are seventeen hundred men now employed about the yard; one hundred and fifty additional caulkers were taken on yesterday.

At the approaching trial of McFarland, John Graham, Chas. Spencer and Eldridge T. Geary, will appear for the de-fense. These counsel have been working steadily to be ready for the trial; they have made many private examinations, and have now a great mass of evidence before them. Commissions for taking testimony have been sent to a distant part of the States and Europe. Besides this, many witnesses have been summoned to appear in person.

CURTIS MODELS-PRICES REDUCED TO MEET THE TIMES!-The merits of this system for Cutting all kinds of garments worn by Ladies, Gentlemen and Children are known by scores of ladies in this City and Territory; but the sure way is to prove it for one's self which may be done without charge. This system removes all anxiety regarding the FIT or garments, as all its directions are absolutely positive. There will be ro altering no taking up or letting out, which not only injures the material but destroys the proportions and often ruins the garment. The system is very

simple and can be learned in a few hours. 43 MRS. JOSEPH BULL, 17th Ward, Agent AT CUTTING and FITTING done in all
