

STATENEWS

LEHI PIONEER MONUMENT

Impressive Services Held in Honor of Town's Founders—Their Good Works Commemorated.

Special Correspondence.

Lehi, Utah Co., Nov. 26.—The unveiling of the Lehi pioneer monument and program in commemoration thereof was held today.

The program already published was given in the new tabernacle at 1 p. m. before a large audience of school-children, citizens and visitors. The tabernacle was decorated very tastily with flags, flowers, and pioneer colors.

The orator of the day, David Evans, son of David Evans, first bishop of Lehi, dwelt on the life and labors of the pioneers of Lehi and Utah, and contrasted the great difference in the surroundings of Lehi now and 50 years ago. He read a list of the pioneers of Lehi and spoke of the building of the Fort wall by the inhabitants of Lehi, who numbered about 500.

Mrs. Zuby Cox Hardwick, the first child born in Lehi, Nov. 1831, and H. M. Royle, Sr., first boy born in Lehi, June 23, 1831, each spoke a few moments.

Jacob Cox, James Bushman and James Harwood, early settlers of Lehi, also made brief addresses, and Mr. Cox sang "Hard Times Come Again No More."

Hon. T. R. Cutler, second bishop of Lehi, spoke of the hardships of those

Dyspeptics

Sugar-coated tablets, quickly relieve Sour Stomach, Heartburn, Nausea, Wind in the Stomach, Seasickness, Sleeplessness arising from Indigestion or Dyspepsia. They are composed of the best digestives, carminatives and correctives, and are agreeable and economical. Put up in three sizes, 10c, 25c and \$1. Sold by all druggists, and sent promptly by mail on receipt of price by C. I. Hood Co., Mfg. Chemists, Lowell, Mass.

early days and of the blessings the people now enjoy.

Miss May Lott, a member of the D. R. Society, read some original sentiments in memory of the pioneers.

Elder John Henry Smith of the council of twelve paid a fine tribute to the pioneers, feelingly referring to their integrity and untiring labors, and admonished the young people to so conduct their lives that they may perpetuate the memory of and be an honor to the good name of their forefathers. The singing of "Utah" by the public school-children closed the program, followed by benediction by the chaplain, A. B. Anderson.

The people then marched to the monument, where the master of ceremonies, Hon. A. J. Evans, made a few remarks, after which Mrs. Zuby Cox Hardwick, H. M. Royle, Sr., Hon. David Evans and Margaret Evans Thurman, first children born in Lehi, unveiled the monument, while the schoolchildren sang "Utah."

The dedicatory prayer was offered by Elder John Henry Smith.

At the meetinghouse, Hon. A. J. Evans made a motion that be adopted by acclamation, that the committee

which had the monument work in charge, get up a history of Lehi and the pioneers. The monument is 16 feet high and is made of Vermont granite, on which is inscribed "The Pioneers," "Fort Wall" also the date the city was established, the names of the first mayor and first bishop, and the plan of city of 16 blocks enclosed in the old Fort wall. This evening a grand ball was held in the City pavilion in honor of the pioneers.

HENEFER.

Richins-Wilson Nuptials—Much Fall Grain Planted—Heavy Snowfall.

Special Correspondence.

Henefer, Nov. 24.—Winter appears to be here, there is about seven inches of snow on the level this morning. Mr. Walter Watson Jr. of this place and Miss Florence Richins of Councilville are to be united in marriage on Thanksgiving day. The young couple are very popular here, and have the best wishes of all. There has been much grain planted here than usual. It is the only grain for a sure crop.

MONROE.

SPLENDID CROP OF BEETS.

Farmers Handicapped in Delivery of Beets by Car Shortage.

Special Correspondence.

Monroe, Sevier Co., Nov. 24.—F. B. Gould, agent for the Utah Sugar company for this county, reports that from the Elsinore station there have been shipped 3,750 tons. There are on the ground awaiting shipment 5,543 tons, making a total from this station alone of 9,293 tons. This amount comes from Monroe, Elsinore, and Austin, each place having in the order named, 313 acres, 111 acres and 170 acres. This brings into Monroe proper about 22,000, and as Austin is in Monroe precinct, it would add much to the amount in the precinct. Many people have visited the big beet pile to see the sight and satisfy their curiosity.

All the beets in the county are dug and many of the farmers are exasperated, as they have to pile them in their fields, awaiting cars, which is an outrage upon the farmer. The county acreage approximates 1,550 acres, and Monroe has one-third of the amount. A larger acreage is looked for next year as the people are awakening to the benefits of the industry, and no doubt an effort will be made to secure a factory in this neighborhood.

Many private social gatherings are planned for Thanksgiving, and a dance for the old people's night. The public schools will give an entertainment on Wednesday night at the Auditorium, which with the abilities of the present corps of teachers, will no doubt be a success. Now that the best digging is over, it is expected the schoolrooms will be crowded.

CHANGE IN BISHOPRIC.

At the ward conference held lately at W. Bolman resigned as counselor to Bishop Joseph H. Jensen of the North ward, and Joseph F. Anderson was installed in his place. The young people forming the Dramatic association, gave a very creditable performance to a well filled house last week.

The lesser priesthood and other organizations are entering upon their winter labors.

SALINA.

VOTE FOR WATERWORKS BONDS.

County Teachers' Institute—Strong Agitation for Prohibition.

Special Correspondence.

Salina, Sevier Co., Nov. 21.—The bond election for waterworks, which occurred Saturday, Nov. 21, resulted in favor of bonding, 105 to 13. No time will be lost now in setting things in motion to secure to Salina one of the best water systems in Utah. The biggest drawback to the town will then be removed.

COUNTY TEACHERS' INSTITUTE. The Sevier county teachers met at Salina for their first institute of the

year, Thursday, Friday and Saturday of last week. The institute was well attended and highly instructive. In addition to the excellent lectures delivered by Prof. Evans and Prof. Tip-ton, the following teachers read papers, which were followed by discussions: Sophia Goldbranson, "Parental Co-operation;" A. H. Ashman, "School Organization;" Miss Olive Casto, "Social Incentives in the School Room;" Miss Stena Scorp, "Physical Condition of Children in the Schoolroom;" Principal Earl Thompson, "School Organization."

MISSIONARY SOCIALS.

Elders Carl Christensen and Walter Bird departed for the mission field this week. A delightful social was given for their benefit, by the auxiliary organizations of the ward in which liberal donations were contributed to aid in the good work.

AGITATION FOR PROHIBITION.

There is considerable agitation on the prohibition question here at present. A petition is being circulated, asking the town board to grant no more saloon licenses after the first of the year. The people are out for prohibition, and hope the coming legislature will do its utmost to abate the saloon evil.

AMERICANS LACK COMMON SENSE, SAYS WESTERNER

Told Well-Known New Yorker He Was Living Like a Fool, So Far As His Stomach Was Concerned.

L. T. Cooper, who is at present explaining his medicines to the public of this city and attracting a great deal of attention, thinks that Americans are lacking in common sense. Cooper claims that most ill-health is due to stomach disorders caused by improper living. When interviewed Thursday, he said: "While modern conditions are largely responsible for many half-sick, run-down people in America today, lack of common sense can also be blamed. "It is impossible to lead the active outdoor life that nature demands. It is impossible for many to exercise the body sufficiently to make the gastric juices wholly active and virile. It is impossible to spend as much time as we should in the fresh air and sunshine. But it is possible to treat a stomach already weakened by these facts with a little consideration. "If the American people would think half as much of their stomachs as they do of their pocketbooks, there wouldn't be so much of this tired-all-the-time feeling. "If we would sit down quietly to a plain, common sense meal, eat slowly, chew every mouthful thoroughly, and then give it time to digest, there wouldn't be so many droopy, listless, sallow-faced men and women. But we don't; we are a nation of bolters. We bolt our food and expect our stomachs to do the work our teeth were intended for. We rush through our meals as though to catch a train. Time is money. In consequence we are the richest nation on the face of the globe, but we are slowly becoming a lot of chronic dyspeptics. "Our forefathers gave us two things—First, a glorious land with unlimited resources and opportunities. Second,

sound constitutions, with good, healthy digestive organs. We are developing the first and letting the second go to ruin. "The amount of half-eaten, hastily eaten food the average American stuffs into himself during the day is positively wicked. Then when he feels dull and nervous and tired he begins to imagine he has kidney trouble, or liver complaint, or heart trouble, or nerve exhaustion, or goodness knows what. There is just one thing the matter with him. He has abused the one organ in his body most essential to good health—the stomach—and until the gastric juices in his stomach perform their functions as they should, all the doctors between here and San Francisco will not make him well. "The other day a man well known in New York, who takes almost no exercise and who is a big feeder, called on me and said, from what a friend told me about your medicine I think it will help me—at least I am willing to give it a trial; but, supposing it does get my stomach in shape, how long will it last? I replied: "If you take Cooper's New Discovery at the end of six weeks your food should be digesting perfectly once more, and you will feel like another man. But if you continue to act like a fool, so far as what you eat and the way you eat it are concerned, you will be right back where you are now inside of six months. "What I said to this man can be applied to thousands just like him all over the country. Cooper's New Discovery is a great medicine. Mr. Cooper has made an astonishing success with it. Now on sale at leading drug stores throughout the United States. Ask your druggist for it.
