AMERICAN. REPORT FILED.

The Utah Commission Makes its Washington, 6.—The Utah Commission, by its chairman, A. B. Carleton, has filed with the Secretary of the Interior its annual report, of which the following is a synepsis: During the year, the laws regarding disfranchisement of polygamists and those living in unlawful cohabitation have been fully and successfully enforced. All such persons, with very few, if any, exceptions have been ex-

It is reported and believed by many resident non-Mormons that during the year a large number of polygamous marriages have taken place in the Temples at Logan City and St. George. have not the means of verilying such reports, yet we have no doubt that a considerable number of such marriages have been celebrated, with the knewledge, approbation and active co-operation of the leading men of the Mormon Church. Upon the whole, that polygamous marriages are on the decrease in Utah is a matter on which different pinions are expressed. but undoubtdly many have been restrained by fear of disfranchisement and the penitentiary, and we think it is safe to say that in the more enlightened portions of he Territory, as for example Sait Lake

City and its vicinity, very few polyga-mous marriages have occurred within the last year. Referring to the JOINT RESOLUTION now pending in both Houses of Con-

gress, proposing an amendment to the Constitution of the United States prohibiting and punishing polygamy in all the States and Territories, and extend-ing the judicial power of the Federal Government to the prosecution of such offenses, the report says: "White we are of the opinion that this should not tor in effectuating the desired result. settlement; that Wyoming's mail faby the Judiciary Committee, we sug-gest that the incorporation of this pro-vision in the Constitution would serve gest that the incorporation of this pro-vision in the Constitution would serve as an advertisement to the people of all civilized nations that in the United States polygamy had been put under States polygamy had been put under Congress increase the number of mem-the ban in the most authoritative and bers allowed for the Legislative Asemphatic manner. The report calls attention to the

magnitude of the evil by saying: "There are more than 200,000 Mormons in the world, a large majority of whom live in Utah, and that while only a portion of them practice polygamy, they all believe in it as a Divine reve lation; have been taught it in their schools and churches for a third of a century; and are led by men of great skill and ability, and fanatical to a marked degree. ganization of a pool, the contractors who receive all the coal tar made at the Philadelphia Gas Works have made a steady advance in the price of that residue. Until recently the price asked was \$3 50 and \$4 per barrel. The price paid by the contractors to the city is about 80cts, per barrel. It is learned that they have entered into a combinathat they have entered into a combina-tion with the leading tar distillers of the United States to keep all other tar from coming into Philadelphia. In consideration of this the Philadel-phians agree not to bid in any other city, and the contractors of other cities have agreed not to bid for Philadelphia tar, leaving the present contrac-tors free to get it at their own price to the end of the present contract, one year and a half from now. For the mutual protection of all parties to the agreement, Mr. W. R. Fowler, of New York, has been appointed commis-sioner, with power to order the de-struction of as much tar as he may doem necessary in order to keep up the deem necessary in order to keep up the price, and whenever the tar is destroyed, a sum equal to the cost price of the tar is to be paid by the pool to the contractor in whose possession it was. This combination has excited considerable flurry among the moters and pavers of New York and Philadelphia.

The Crushed Comstock.

VIRGINIA, Nev., 6.—Orders have been received from San Francisco to stop all works in the Chollar mine, and to immediately strip all the levels below the 2,400 feet. The order also necessitates the immediate suspension of all operations in the Hale & Norcross lower level. This action is the result of the flat refusal on the part of the Savage trustees to pay their one-third proportion for keeping the pumps in motion at the Combination shaft. The lower levels in both mines will be lower levels in both mines will be shandoned and flooded as soon as the penderous pumps are shut down. The stoppage of these mines throws several hundred men out of employment, and it is believed sounds the death knell of deep mining on the Comsteck.

The Peabody Fund. NEW YORK, 6.—The trustees of the Peabody Educational Fund acid their annual meeting to day at the Fifth Avenue Hotel in this city. The following were present: Ex-President R. B. Hayes of Onio, Robert C. Winthrop and Theodore L. man of Massachusetts, Chief Justice Waite, Bishop H. B. Whipple of Minnesota, Thomas C. Manning of Lonisville, Anthony J. Drexel of Penpsylvania, Samuel Gunn of Massachusetts, and James D. Porter of Tennessee. President Cleveland was expected, but was unayoidably detained in Washington.

BRAKEMEN'S DEMANDS.

They are not Granted and a Strike CLEVELAND, S.—The freight brakemen on the Assorbing division of the New York, Pennsylvania & Ohio Italiread made a demand several days ago for an increase of wages from \$1.75 to \$2 per day, and presented several other grievances. Among other things they asked that they be given extra pay for all time over nineteen hours consumed Nausea, n making the round trip. At present they get extra pay only when it requires more than twenty hours to make the trip. The engineers and firemen come within the nineteen hour limit, and the brakemen asked the same. They also demanded one-quarter of the day for time lost when called to go out with a train which failed to go out with a train which failed to start, as was frequently the case. Gento go out with a train which failed to start, as was frequently the case. General Manager Shaler forwarded the demands of the men to the Eris head-quarters in New York, promising to give them a reply to-day. This morning the officials submitted a proposition to the effect that they will agree to pay wages as high as any other road competing with the N. Y., P. & O. Railway, the men to be given time to investigate for themselves, to ascertain the prices paid by competing lines. If satisfactory arrangements could not be made, each party was to select a If satisfactory arrangements could not be made, each party was to select a man and those two a third, to constitute an arbitration committee, whose decision was to be considered final, and for both to bind themselves to abide the decision randered by the committee. The committee refused to accept the proposition and ordered the brakemen to quit work at noon. The order was compiled with here and about sixty men struck. Freight is blockaded in the yards here. It is hinted by the strikers that the entire Erie system will yet be involved.

THE PRESIDENT'S RECEPTION

This afternoon was the largest held since his return from the mountains. The callers numbered 500 and completely filled the East room. F. E. Warren, Governer of Wyoming Territory, has submitted to the Secretary of the Interior his report of affairs, progress and development of the Territory during the last year. He says: "The general business depres sion of the country during the year has been quite generally felt in Wyoming. Cattle growing-the leading industry of the Territory—has suffered severely from the unsatisfactory beef market and emigration and the settlement of public lands is being sensibly checked by the severe requirements exacted from settlers by the new rules and regulations of the General Land Office. Aside from these retarding influences the Territory is making rapid progress. Very flattering results at-tend all efforts in developing our mineral resources and railroad building is pushed with remarkable vigor."
The report speaks flatteringly of Wyoming's products, and states that the attention of the whole world at no distant time will be

DIRECTED TO WYOMING on account of her oil and other min-

ral productions. The Governor offer the following recommendations: That all enclosures of certain public lands, alternating with railroad sections, re ceive attention, and the necessary reg stration; that certain public lands b either leased or sold; that final proofs upon public lands by bona fide settlers be made easier, and that patents may speedily is sue after final proof and necessary inspection: that school and university lands be leased and thus be made useful to the schools of the Territory; that no existing privileges un-der the land law be repealed as regards are of the opinion that this should not supersede other measures, we are satisfied that it would be an efficient fac-In addition to the reasons presented cilities be greatly increased without delay; that Congress reimburse Wy sembly of Wyoming, and also increase their compensation, and that four United States judges should be pro-vided for Wyoming Territory, instead of three, as at present.
