## MANAGEMENT OF WATERWORKS

Solons Wrestle With Problem and Will Ask Legislature to Help Solve It.

### BIG FAIR OPENS TOMORROW.

Tabernacle Choir Concert—Sunday School Organization of Weber Stake—County Board Meeting.

Ogden, Sept. 29.—Preliminary steps are being taken by the city to take over the plant of the Ogden Waterworks company recently bought by the city. At last night's session of the city council, City Atty. James Devine presented a written opinion in which he stated that the city has no legal power to create a waterworks commission for the management of the plant, but that the matter was one for state legislation. The attorney submitted a bill which will be presented by representatives of the legislature from Weber county for passage at the next session of the legislature. The ordinance providing for the purchase of the system passed its second reading last night and a special session was called for Wednesday night when the ordinance will be brought up for its third and final reading. The city recorder was also instructed to have the city advertise for bids for the \$450,000 bonds. The bonds are "four per centers" and the city reserves to itself the right to sell any number less than 450.

A lengthy discussion followed the presentation of a communication submitted by E. E. Harrison, manager of the local Rocky Mountain Bell Telephone company, regarding the failure of the company to lay its wires underground in compliance with the provisions of its franchise. Mr. Harrison says that the failure of the company to remove its wires and place them underground on Twenty-fourth street between Washington and Grant avenues was due to the fact that P. J. Moran, the contractor who laid the asphalt in this block, had forbidden the company digging any trenches along the thoroughfare until his work had been paid for. For this reason, Mr. Harrison claims that his company has not been able to comply with the provisions of its franchise. Councilman Dana, who introduced the resolution at the last session ordering the company to ground its wires in the business section of the city within 90 days, insisted that this was no excuse for not placing the wires underground on Washington avenue. After considerable discussion the city attorney was called upon for a legal opinion regarding the Twenty-fourth street difficulty. Atty. Devine gave as

his opinion that the company was in no way bound by the advice of the contractor as to the laying of the wires underground was anticipated when the contract was made by the city with Mr. Moran and expressly provided for in the contract. Councilman Dana then insisted that his resolution should stand. By a majority vote the council decided to enforce the resolution and ordered the telephone company to complete the work within 90 days or the city will proceed to collect damages from the \$25,000 bond furnished by the company at the time the franchise was passed.

A number of the officials of the Big Four County fair appeared before the council and requested that the incandescent lights which have been out of use on the two principal streets of the city for the past year, be illuminated the five evenings of the fair. Some of the members of the council thought that the county should bear a portion of the expense, but it was finally decided to use the lights and \$50 was appropriated to put them in repair for the occasion.

### COUNTY BOARD MEETING.

At a short session of the board of county commissioners held yesterday no action was taken upon the application of David Eccles and associates for the building of a road through Ogden canyon.

Neither did the commissioners take any action upon the petition of the Reels Carnival company for the removal of the portable stores traveling throughout the county. The reason given for the latter was that the county clerk had rendered an opinion upon the subject.

In 1855 he married Mrs. Trena Christensen, a widow. They made their home for a time at Little Cottonwood and the next year moved to Spanish Fork, where he took up land. In the spring of 1859 he moved to Mount Pleasant with the first settlers, where

he helped to build forts and fight the Indians. In 1860 he went into the dairy business, being the first to enter into that industry in Mt. Pleasant. He followed the dairying business until a few years ago when his health would not permit him to work at any longer. He has promoted five flourishing dairies in Sanpete county, each time adding the latest improvements.

Mr. Fechner was a kind, big-hearted, progressive man and highly esteemed by all who knew him. He was most loved and cherished by those who knew him best. He leaves 12 children, 33 grandchildren and two great-grandchildren.
