

FIGHTING BOB TO REVIEW CADETS

Notable Feature in Connection With His Visit Here Next Saturday.

LECTURES IN TABERNACLE.

Governor Spry Will Introduce Admiral Evans—Big Choir Will Sing "Hail to the Chief."

Much activity is being displayed in Tabernacle choir circles in arranging for the coming lecture of Rear Admiral Robley D. Evans, on the evening of April 2. The function will take place in the tabernacle, and will be one of the big events of the year. The sub-

REAR ADMIRAL ROBLEY D. EVANS.

ject that will be discussed by "Fighting Bob," as he is known throughout the civilized world, will be "From Hampton Roads to San Francisco in Command of the Atlantic Fleet." During the lecture Gov. William Spry and staff, with state, county and city officials and leading citizens, will occupy places on the platform, and Admiral Evans will be introduced by Gov. Spry. As the lecturer enters the building he will be greeted by the choir in the rendition of the inspiring selection, "Hail to the Chief." In the audience will be seated the high school cadets, who will arise in a body in deference to the great representative of the navy.

DRESS PARADE AT 3 P. M.

A notable feature in connection with Rear Admiral Evans' visit will be a special dress parade of the Salt Lake High school cadets, who acted as the admiral's personal escort and body-guard in the San Francisco parade, at his own request. The parade will be held at 3 p. m., next Saturday, on the high school campus, and every member of the battalion is drilling and doing its level best generally to make of this the greatest event in the history of the school. Capt. W. C. Webb, the commandant of cadets, is leaving no stone unturned to make of the function a marked success. The only fear is that in their parsimonious anxiety to make a specially excellent showing, some of the cadets may become over nervous, and not come within the plumb line of exact requirement in some of the maneuvers and the drill manual. However, Capt. Webb will guard against that, and impress upon the mind of every boy the necessity of feeling at perfect ease and in full command of himself.

This drill and dress parade of the Cadets in honor of the veteran's visit will take place under the eyes of the admiral himself. The governor and full uniformed staff, many officers and soldiers from Fort Douglas, officers and member of the national guard, city, county and state officials, parents, relatives and friends of the cadets, and interested citizens will all be on hand, making of the occasion something to be ever remembered. Of course the photographers and kodak shooters will be out in full force, so there is sure to be pictures taken, both in the daily papers and elsewhere.

THE ADMIRAL'S LECTURE.

Admiral Evans will give a resume of the development, in 1897, of the fleet from a squadron and its first duty, to assist in making a success of the Jamestown expedition. At that time there had been no promise with the guns, and some of them had never been fired. After the expedition the fleet proceeded to sea for practice, for the first time in the history of the navy. Then came preparations for the proposed voyage around the world, and the ships went to the navy yard to be made ready for the cruise. Next in the lecture will come a description of the departure from Hampton Roads, the review by President Roosevelt and the start to sea. Then follows an account of the reception at 150; the passage through the Straits of Magellan; the review by the president of Chile off Valparaiso; in the presence of hundreds of thousands of people, the fleet passing into and around the harbor without anchoring—creating by that country in striking contrast, the admiral noted, to his last visit. Then he describes the arrival and reception at Callao, and the review of the fleet by the president of Peru. Next, the passage to Magdalena Bay and the excellent target practice at that place, for which practice the men were organized at sea, since there was no time for target training. Toward the close of his lecture, Admiral Evans will speak of the cruise of the fleet on the coast of California and of the final review, in San

Francisco harbor, by the secretary of the navy. Admiral Evans is becoming renowned as a public speaker. It is said that he speaks with a directness and intensity that might vie with the blunt and strongest words of Prosper Merimee. His "talks," as he chooses to call them, abound in wit and daring, are original and shrewd, and he gives the listener no time for weariness.

GOOD TIME ENJOYED.

Fifth Anniversary of Organization of Salt Lake Stake Celebrated.

The reunion celebrating the fifth anniversary of the organization of Salt Lake stake was attended last night by an audience that completely packed Odson hall. The grand march was led by President Nephi L. Morris and Mrs. Harriet B. Harker, 129 couples participating.

The program was unique and carried out in a thoroughly interesting manner. Various nationalities were represented in song and dance, most of the performers being dressed in the costumes of their fatherland. Twelve young girls engaged in the Swedish weavers' dance, to the music of an accordion played by Peter A. Anderson. Four little girls, Flora Hood, Sadie Stephens, Bessie and Viola Service, danced a Scottish reel, to the bag-

HAD CATARRH THIRTY YEARS.

EX-CONGRESSMAN Meekison Gives Praise To Pe-ru-na For His Relief From Catarrh.

"I have used several bottles of Peru-na and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

OTHER REMARKABLE CASES.

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peru-na I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peru-na has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peru-na. I felt better immediately, and five bottles restored me to complete health."

A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, and was debilitated. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peru-na advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

Mr. Kilpatrick is a junior and is editor of the Oregon college weekly. The debate will be held in the Salt Lake Theater Monday evening, March 22, at 8 p. m. Gov. Spry will preside. The judges will be ex-Gov. Hober M. Wells, Geo. P. Hollman and A. C. Nelson, state superintendent of education.

The third weekly reception given by the Women's League will be held in the college reception room Monday from 3 to 6 p. m. The ladies of the sophomore class will be the hostesses. The members of the Ladies' Literary club, the College club, the Author's club and the P. E. O. will be the guests of honor. Faculty, students and friends of the university are invited.

THE LURID GLOW OF DOOM

was seen in the red face, hands and body of the little son of H. M. Adams, of Henrietta, Pa. His awful plight from eczema had, for five years, defied all remedies and baffled the best doctors, who said the poisoned blood had affected his lungs and nothing could save him. "But," writes his mother, "seven bottles of Electric Bitters completely cured him." Eruptions, Eczema, Salt Rheum, Sores and all Blood Disorders and Rheumatism Electric Bitters is supreme. Only 25c. Guaranteed by Z. C. M. I. Drug Dept., 112-113 S. Main St., Salt Lake City.

JAP MAKES CONFESSION

When Confronted With His Photo, Yasuhito Torabiko Admits He Killed Foreman.

After denying his identity and after declaring he knew nothing about the murder for which he was arrested here several days ago, Yasuhito Torabiko, wanted at Berkeley, Cal., for the murder of John Kyle, a section foreman, broke down last night, admitted his identity and confessed to striking Kyle over the head with a hammer. Thomas Mulhall, chief deputy under Sheriff Langford of Santa Clara county, Cal., arrived here late yesterday afternoon and at once went to police headquarters. He was taken into the prison and when he confronted the Jap, the latter denied all knowledge of the crime. Deputy Mulhall produced a photograph of the Jap and then the latter broke down and confessed. Deputy Mulhall will take the man back to California either today or tomorrow.

The story told by the prisoner in broken English is as follows: "Yes, I struck him with a hammer, but I was not the only one for all of my countrymen in the camp wanted to kill him, and after the first blow was struck, they all hit him. He was a bad boss and picked on Japanese all of the time. There were 50 of us in the camp, and few white men. One night, when he had bothered us all day, we got drunk on sake and made up our minds that we would kill him. It was fixed among us that whoever he swore at first was to hit him, and the others would finish the job. He called me a name and I struck him over the head with a hammer. He fell, but jumped up and ran at me. Then the rest of the Japanese closed in around him, and I ran away, while they were beating him with clubs, pick handles, shovels and crow-bars. I did not kill him myself."

MAY CHANGE AUTO ROUTE.

Alkali Lands Held at City Lot Prices Along Right of Way.

The committee having in charge the securing of the right of way for the Saltair speedway, held a meeting yesterday afternoon, at which some feeling was manifested against a few property owners along the proposed route who are holding out for high prices for the right of way through their land. Those present at the meeting were: W. F. Hoar, O. H. Heckart, J. E. Langford, M. D. Joseph, Thomas Homer and C. W. Dapino.

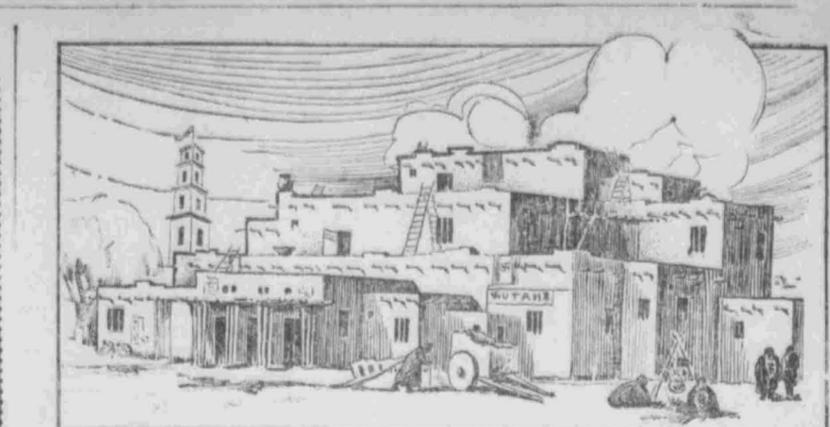

While the proposed plans may simply path their own story, we are to the library of the riding body the distance of the scheme while they are as a means of advertising Utah's Indian purchase are coming with the nation event. It is a novel not laded with much statistics, I one that will be sticking to all a bold this building in its first steps to others at the R. Y. The act and fastness by a well pronounced type. Right house of 10-12 the cost of the building, put into substance or classed building would only work such a structure as would be lost among more ornate buildings. It has been for the reason partly, that we have seized the opportunity our ancient cliff dwellings afford, to arrange something unique, thoroughly native to the country, and so dramatic in its contrast to other buildings that we feel confident of its power to command interest. Small printed pamphlets giving a brief history of the first known dwellings of Utah, with a few sketches cut from the San Juan country showing their native houses distributed generally about the fair as well as at the building, would not only advertise our state in a distinctive way but would be giving an historical story that has been smothered up by more overblown story that southern Utah should be proud to contribute to.

PROPOSED UTAH BUILDING AT THE ALASKA-YUKON-PACIFIC EXPOSITION AT SEATTLE.

The Utah state building is fully described in a descriptive letter written by the architects, Ware & Truesdale, to Utah state commissioners of the Alaska-Yukon-Pacific exposition, as follows: While the proposed plans may simply path their own story, we are to the library of the riding body the distance of the scheme while they are as a means of advertising Utah's Indian purchase are coming with the nation event. It is a novel not laded with much statistics, I one that will be sticking to all a bold this building in its first steps to others at the R. Y. The act and fastness by a well pronounced type. Right house of 10-12 the cost of the building, put into substance or classed building would only work such a structure as would be lost among more ornate buildings. It has been for the reason partly, that we have seized the opportunity our ancient cliff dwellings afford, to arrange something unique, thoroughly native to the country, and so dramatic in its contrast to other buildings that we feel confident of its power to command interest. Small printed pamphlets giving a brief history of the first known dwellings of Utah, with a few sketches cut from the San Juan country showing their native houses distributed generally about the fair as well as at the building, would not only advertise our state in a distinctive way but would be giving an historical story that has been smothered up by more overblown story that southern Utah should be proud to contribute to.

One proposed treatment for the interior is similar in its appropriateness to that shown for the exterior. Rough timbers, coated white to increase the light facilities will be utilized, while skylights advanced in the flat roof will make the lighting scheme elaborate and ample, thus guaranteeing to exhibit a suitable showing for his display. The plan allows the greatest possible exhibit space for the appropriation. The outside is to be plastered and the plastering to be colored to imitate adobe construction, with a water-proof coloring material. On some of the longer blank wall surfaces, panels are placed containing the characters and hieroglyphics of the Hopi race. These to be brought out in bright colors to give character and vigor to the low gray tones of the adobe. One of these to contain the word "Utah" inlaid with silver.

The form of construction we believe to be not only the most economical from the standpoint of effectiveness, but from the small amount of money that would be invested in materials which would not have a good market value when the fair was closed. The size of the Pueblo is 96x125 feet, with a piece at the rear, 30x50 feet, for the operation of a concentrator.

SHIP RESTAURANT TO BE THE FEATURE AT THE LAKE THIS SUMMER.

The above picture shows a most unique attraction that will meet the eye of the tourist at Saltair the coming season, in the shape of a restaurant built in the general shape of a big passenger steamer, with three decks. Architect E. O. Meeklenburg has completed the plan, as above indicated, the "ship" to cost \$30,000. It will be 244 feet long by 100 feet wide, and seat 2000 people at one time on the second or cafe deck, and accommodate 5,000 people on the bowery or lower deck. A promenade surrounds the lower deck while on the roof is a full promenade deck. To add to the general ensemble, there are to be two smoking stacks, from which the kitchen waste will issue. This feature suggests the Canary Island elephant.

Monday these features: Unusual linen and white goods sale 250 suits at reduced prices Big dress goods sale Features in Millinery. Popular priced millinery on 3rd floor.'

LESS MEAT

Advice of Family Physician.

Formerly people thought meat necessary for strength and muscular vigor. The man who worked hard was supposed to require meat two or three times a day. Science has found out differently. It is now a common thing for the family physician to order less meat, as in the following letter from a N. Y. man: "I had suffered for years with dyspepsia and nervousness. My physician advised me to eat less meat and greasy foods generally. I tried several things to take the place of my usual breakfast of chops, fried potatoes, etc., but got no relief until I tried Grape-Nuts food. "After using Grape-Nuts for the several years of my illness for two years, I am now a well man. Grape-Nuts benefited my health far more than the \$200.00 worth of medicine I had taken before. "My wife and children are healthier than they had been for years, and we are a very happy family, largely due to Grape-Nuts. "We have been so much benefited by Grape-Nuts that I would be ungrateful not to acknowledge it. "Name given by Postum Co., Battle Creek, Mich., Read 'The Road to Well-Being' in plain. "There's a reason." "Ever read the above letter? A new and appetizing breakfast cereal. The above is genuine, true, and full of human interest."
