

# COOK'S MESSAGE TO AMERICAN PEOPLE

## Piles

Begins With The Same Letter as Purgatory And There Are Other Resemblances.

**SUPERIOR**—Oh, no! "Purifier" doesn't express it, but there is the PYRAMID PILE CURE. It's a Cure that comes to stay and gives one a fresh grip on things.

**HAS RECORDS OF OBSERVATIONS MADE BY HIM WHICH WILL PROVE HIS CLAIM.**

## SWISS SCIENTIST FOR HIM.

**Querian, Head of Greenland Expedition, Tested His Figures And Is Convinced.**

On board the steamship Oscar II, at sea, Sept. 17, via Marconi wireless to Cape Race, N. E., Sept. 17, the people of America to the full confidence in my conviction of the pole, I have records of observations made by me which will prove my claim. I shall be glad to let my fact on American soil.

This was the brief message Dr. Cook today asked the Associated Press to give to his countrymen as he nears home on the steamer Oscar II, due in New York Monday.

Dr. Cook discussed freely the assertions of Commander Peary that he had never reached the north pole and gave a detailed story of the cause which brought about the dissension between the two explorers.

When he departed for the north, Dr. Cook said he left provisions at Annoosuk, north of Etah, in charge of Rudolph Francke and several Eskimos. Francke had instructions to go south aboard a whaler and return later. This he did, but missed the returning vessel and took to a slight illness. He then took aboard Peary's ship, the Roosevelt, and proceeded north.

## SUPPLY DEPOT INCIDENT.

"Commander Peary found my supply depot at Annoosuk. Dr. Cook continued, and when I was in charge told him that I was dead, which they fully believed to be true at the time.

Peary placed two men in charge of the depot, Boatswain Murphy and another Harry Whitney, a New Englander, also remained there. Murphy was not under contract for me, but was paid what he could send Eskimos north in the following spring.

When I returned from the pole unexpectedly, Harry Whitney was placed in the promotion to the next higher grade of assistant engineer. Thomas L. Sherrill, lighthouse board, Maj. William L. Sherrill, one of the engineers of the Panama canal, Capt. Harry Burgess First Lieut. William L. Guthrie and Second Lieut. F. D. Downing all of the engineers were told to maintain the strict silence.

When I went into the depot there was a dispute between myself and Murphy as to whether he had received from Peary although he himself could neither read nor write. These instructions showed that he was making a trading station of my depot, the contents of which had been used in trading with the skins."

Dr. Cook said he was intensely annoyed at this use of his supplies and threatened to kick out Murphy and his compatriots. Finally, however, he consented to their remaining at the depot, as there was no other shelter for them, and on occasion Murphy asked me whether "Harry you been beyond?" Dr. Cook said:

"But I was determined not to let Harry know of my movements and relied evasively that I had been much farther north. From this statement it was concluded that he had been released from the Bear Cub mining case. Dr. Cook said he had agreed with the two Eskimos who came with him to the pole, and Knoedt, whom he met in Greenland, to go to New York and confirm the story of his discovery.

All the passengers are impressed by the story of Dr. Cook, as indicated by his conversation with him in regard to his discovery of the pole. He says he has given the Danish government proofs of his achievements and now is prepared to lay these proofs before a competent body in America.

**DR. QUERIAN FOR HIM.**

The Swiss scientific expedition to the Arctic Europe to prove to the world that Dr. Cook in Greenland after the American explorers return from the north pole had indeed been there. Dr. Querian says that having tested Cook's figures and statements he is convinced that Cook reached the north pole.

## AEROPLANE FLIGHTS.

**Some to Rise and Alight on Water May Be Held in Washington.**

Washington, Sept. 18.—Flight by airplane which will rise from and alight on water probably will be held in Washington before the end of October. The machine is being built by Charles B. Nichols of Washington, who was Prof. Langley's first model builder. It is expected that the machine will develop a large power. It is designed to drive the machine at a rate of about 35 miles an hour.

The main wings of the propellers, which will be located in the front, are to be 3 feet long. The body of the machine will be in the form of a boat. The first trials will be held on the Potomac River.

**HAZING BECOMES INDECENT AT COLORADO COLLEGE**

Colorado Springs, Sept. 18.—Indignant at the climax of the class meeting between the freshman and sophomore classes at Colorado college, when a freshman was stripped of his clothing prior to a time in full view of hundreds of spectators yesterday, Mrs. E. C. G. Ward, social leader and president of the county humane society, declared that she will take steps to see that class rushes are discontinued.
