Lake City, where he has been on busi-ness connected with the school district He was successful in securing a loan The sale of the bonds has been completed and only a few of the minor de-tails remain to be attended to before the money for them will be handed over to the district. Mr. Pack says that all parties in Salt Lake City were aston-ished at the result of the election.

The following five cases of "small pox" were reported to the board of health yesterday afternoon: Thomas Smith, aged sixty, residing on Eleventh Weat between Ninth and Tenth South street, his wife Sarah Jane Smith, aged 48, son Cephus J. Smith, aged 23, and daughter Angelina J. Smith, aged 11; Delbert Love, 436 south, Second West. At least one of the afflicted persons had been vaccinated.

The officers and soldiers of the Salvation Army are exerting their cus-tonary energy in getting up a Thanks-giving dinner for the destitute of the city. They are working under a great-er disadvantage than in previous years for they are not permitted to levy upon the school children, whose contributions the school children, whose contributions the school children, whose contributions heretofore, though small individually, were sufficient in the aggregate to almost supply the dinner without other assistance. The members of the army, however, are not daunted, relying upon the generous instincts of the Sall Lake member of provide for the next, of this people to provide for the needy of this city a wholesome dinner on the day that the entire nation is giving thanks for the blessings of Providence.

# FAVORS EXAMINATION.

#### Chairman Wilson Thinks Dr. King's Suggestion a Good One.

In regard to the recommendation made by Health Commissioner King to the school board that the public school children be inspected by an expert in children's diseases, as a measure to prevent the further spread of contagious diseases in the schools, Chair-man Wilson of the board expresses nimself as being heartily in favor of it. He did not presume to speak for the board, for the matter will not be formally presented to that body until its next meting. But he thought that the suggestion was practicable even when the health conditions were nor-mal, and that now the schools are threatened with an epidemic it was dauble account to adout such a doubly necessary to adopt such a measure. He thinks also that the physician that is set apart for the work of inspection should instruct the teachers as to methods for preserving the health of the children, and mainaining a sanitary condition of the school rooms.

The next regular meeting of the school board is called for the first Tuesday in December, but it is quite likely that a special meeting will be called to perfect preparations for the school board election on December 5th and at that time the matter of inspecting the children will be considered.

Price -- Larger Acreage of Sugar Beets to be Planted.

Special Correspondence. Manti, Utah, Nov. 20 .- The Saraete and Sevier Beet Sugar club held a convention at 2 o'clock at Manti. Manager Cutler and Supt, Austin of the Lehl

factory were in attendance. The meeting was called to order by the chairman, and after a few preliminaries, Manager Cutler was introduced to the convention. He briefly narrated the history of the Utah Sugar company.

then stated in detail what conditions must of necessity exist before capital could be enlisted for the erection of a sugar plant, the principal one of which was, he stated, the necessary amount of beets of a good quality. He further

stated that when Sanpete had complied with all the conditions and had dem-onstrated beyond question that the elevalion was not detrimental, and that Sanpete and adjoining countles had surprise that they could make a beet sugar factory remunerative, then the Utah Sugar company was in a position to extend its operations in Sanpete

Those present were very much enthused over the question, and unani-mously expressed themselves in favor of going ahead another season, shipping their beets to Lehi, and redoubling their efforts in trying to prove that Sanpete and Sevier counties had the necessary qualifications to attract capital, so that factory might be erected in the year

Mr. Cutler also stated that the Utah Sugar company would assist the farmers in these two counties the coming season, by paying one-fourth of the freight to Lehi, in addition to 25 cents rise in price, which will make the price of beets \$4.00 per ton net to the farmer here.

This pleased the convention very much, and from the spirit of the meet-ing the acreage will be very materially increased the coming season, notwith-standing the loss which has been incurred by the drouth, etc., during the past year

Mr. Austin took up the agricultural side of the subject, and answered ques-tions relative to the planting and grow-Judging ng of the beet sugar crop. The convention consisted of about 60 has Arizona.

epresentative men of Sanpete. At the conclusion of the meeting a vote of thanks was tendered to Bishop

C. A. Madsen of Gunnison, for his earnest and untiring efforts in promoting the beet sugar industry in Sanpete counties.

Plaintiff prays for a dissolution of the marriage ties and the custody of their child.

# LIVE STOCK NOTES.

Farmers are keeping their helfer calves these days and this is one rea-son why the demand for feeders from the West is falling off so rapidly, says the Denver Stockman. Some years ago then cattle were cheaper than they are now, the farmers sold their calves for whatever they would bring rather than stand the expense of raising them. Then the boom same on and they had to come West for cows and heifers to stock up. For the past three years the West has been shipping a steady stream of she stock into the corn States, and there is little cause to wonder now why the farmers are not buying as many the farmers are not buying as many steers out West as usual. It is just about time that those cows that went back to the farms from the Western range were being heard from and the decrease of 100,000 head in the market decrease of 100,000 head in the market demand for feeders can readily be un-derstood. Next year the decrease will be even greater, and then what? To one on the outside it would look like the era of high priced feeders had passed for a time at least.

The livestock men are getting toge-ther again, in an effort to induce rallways to run stock trains through on reasonable time. They claim that the present method is slower than need be, and causes much loss to the owners of stock in transit.
