FIGHTING FOR THEIR RICHTS

Democrats in the House Blocking Legislation.

ANOTHER STORMY SESSION.

Bolleall Succeeded Holicall - Cause of Trouble is the Unseating of Mr. Butler of Missouri.

Washington, Feb. 27.-The Democrats of the house today carried out their threat of yesterday that if Mr. Butler was unseated they would do everything a their power to block legislation from now until Congress expires, March 4. The result was another stormy session, prolonged from 11 o'clock this morning unil 7 o'clock tonight. One rollcall needed another and at every pause party passion manifested itself in bit-

and acrimonious denunciation. Two special rules were brought in to excedite appropriation bills and con-time the legislative day of yesterday the minority's power, to obstruct legis-black. During the debate on the rule the Democrats voiced their condemus order to reduce as much as possible the Democrats voiced their condennation don of what they denominated yester-ay's outrageous action of the chair. The Republicans declared that they the Republically declared that they were willing to assume responsibility what they had done and explained to necessity of the drastic rules pre-nted today. Mr. Dalzell said that also tousy. All, Dataen said that best this course was pursued, the emocrats could consume 137 hours, or legislative days on rollcall on the amendments to the appropria-

in bills. It is agreed on both sides that the resent situation sounds the death pell of practically everything except propriation bills. The friends of mnibus public building bill who erlay were threatening to defeat rules if they were not modified to nclude their measure, were placated by promise which it was understood was irea, that their bill would be covered tives, that their bill would be covered by a special rule to be brought in later. Even with the special rules in opera-ian getting appropriation bills into conference was a tedious and laborious process an eight-hour session and a rolcalls being necessary to get the sphry civil, military academy and exercise appropriation bills into confice appropriation bills into conwe and to adopt the conference reort on the Indian appropriation bill. All eventures from the Republican the to the Democrats to induce the latabandon their fillbuster hav in fuilless and there is every indi-on that they will continue their tactics to the end of the ses-

You can secure the utmost that medicine will do by simply writing a postal card, or sending me the coupon below. All I ask is your name and address, and to know the book you need. I will then mail you an order on your druggist for six bottles Dr. Shoop's Restorative. You may take it a month on trial. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And the sick one's mere word shall decide it.

You must realize tha this offer would be impossible if I did not know that my Restorative will cure. A nan doesn't take a risk involving \$5.50, and with hundreds of thousands of people, without knowing what a remedy will do.

I spent a lifetime in perfecting my Restorative before such an offer was possible. I tested it thousands of times, in hospitals and homes, in cases as difficult as physicians ever met.

Then I let the world know of it. For twelve years I have offered it on terms so fair that no reasonable sick one cauld neglect it. About 550,000 people have accepted that offer, and 39 out of each 40 have paid for it gladly, because they got well

My success comes from strengthening the inside nerves. My Restorative brings back this power which alone operates the vital organs.

The common way is to doctor the weak organ itself, and many of you know how temporary are the results. I give the weak organ power to do its duty, and the results are not only sure but enduring.

In little troubles my Restorative is the quickest help. In difficult troubles it is usually the only way to a cure.
