we treat the Indians the result would territorial fair not long ago. The Pue-

Navajo progressed, but rather to the

squick to learn, however, snd he will

done more than an execution toward

inspiring these Indians with a dread of the law, With all their short com-

ings the Navajoes are a fine race, and offer an excellent example of a people

developing from savagery to civiliza-

an outbreak. The Commissioner of a military company, which has arrived tions. Any and almost every subject is

indian affairs says, in his report for issue at such a degree of efficiency, that it is indian affairs says, in his report for said to have carried off the prize at the instrumental manufacture. At one

At any rate it is quite evident that they

cannot be bound by the same rules

necessary to the control of the Apaches

or even the Navajos. The Pima, Maricopa and Pahago In-

dians, numbering about 12,000, belong in the scale between the Apaches and

Navajos. They are comparitively in-

justrious, and give the government

little trouble. The Mohaves, Cheme-huvas and Yumas, who are under one

tripes, number about 2,000, and though of a roving character, have been gen-

erally orderly and pcaceable, and promise well. The land reserved for

them is of very poor quality, and water is scarce, so that, farming is

carried on with consideradle difficulty

portion of the United States, and the

summer with the usual results. They

subsisting on government rations, and

probably waiting for an excuse for an-

ther campaign. There seems, nowever, to be reason to

however, to be reason to believe that they were imposed upon last year by the large cattle men

in their vicinity. The several other tribes in the Southwest are small

and some of them are not on

reservations or under any con-

trol. The Mission Indians of Cali-

fornia, however, must be excepted. They are about 3,000 in number, being

civilized costume, and are generally

honest and peaceable. One fact prought

Southwest is that they are not dying

out, but on the contrary are increasing.

This is especially marked in the case

of the Navajos, who are so prosper-

ous and who have increased rapidly

since the termination of their war against the government. With pro-

per direction and education the In-

dians of the Southwest would soon be of no more trouble than the Mexicaus.

and they could be left to take care of

brother to the Navajo, is a good example of the first classification of this true, however, that all locali-ties are equally well adapted to the growth of the pear, nor are all varie-ties equally productive and paying. The summer varieties, especially, do the cloth cannot be borne, lay it on with a feather. It is almost magical. A little child was burned all or the sum of the sum of the pear and winter varieties, besides they have down in arizona, for their nearest kin are on the shores of Lake Superior. sometimes of twenty-four hours to cured her, and another little girl being

soon be free from many of his super-stitions. So far he has been taught order among the 16,000 or 17,000 members of the tribe as will be found throng the same number of people inywhere. Disputes and differences ite usually settled by one Boo-koo-dy, who is what may be termed the Navajo attorney-general. They have no systematic government and are poly-ramous. From time to time white men who have ventured into the inte-ROLLER MILL rior of the reservation have been murlered by bad Indians, and these Indians have seldom been brought to justice. in a case which occurred last year several of the offenders were captured. confined in the gardhouse at Fort Winate, and finally taken to St. Johns, Arizona, for trial. Here they were kept imprisoned for some weeks, and were finally released on a technicality. The mystery of their imprisonment far themselves.—Bradstreets. from their homes had, however, a good effect on the Navajo nation, and if it could have been prolonged for some years it would probably have
