

## THE REPUBLICANS ELECT DELEGATES

Names of Those Chosen to Attend  
the State Convention at Provo.

### A CONGRESSIONAL CONTEST

Each Candidate Claims a Majority of  
the Delegation—Meetings  
Well Attended.

The Republicans held primaries in the five city precincts and county districts last evening and elected delegates to the state convention, which meets at Provo next Tuesday. The attendance at all the meetings was unusually large and thoroughly representative. Interest of course, centered in the Congressional fight. Each of the three candidates claims a majority of the delegation. James Devine, who has fifty seven per cent, and William G. Hammon makes the same claim. Major F. A. Grant thinks he has at least 50 per cent of the delegation. No instructions were given except in the Fifth-third district, where Attorney C. S. Patterson, the delegate, was told to vote for George Sutherland.

### FIRST PRECINCT.

Meeting was held in the Ninth Ward Annex.

The first precinct primary was held in the Ninth ward annex. Precinct Chairman W. J. Meeks presided and Joseph Christensen acted as secretary. The result was as follows:

## \$100,000 IN GOLD SAID TO BE GONE

Money to Pay Soldiers in the Philippines Reported Stolen.

### HUNTINGTON'S SUCCESSOR.

Spyers are Reported to Have in Mind an Eastern Man Not Spoken of Before.

Immediately upon receipt of information with reference to the hold-up on the Union Pacific Wednesday night, General Superintendent E. E. Catlin of the Oregon Short Line had a copy of the following notice sent to every agent on the system, in order to assist in overhauling the bandits:

"Union Pacific train No. 2 was held up and robbed near Tipton, Wyoming, the evening of August 29th, by four masked men, description as follows:  
"First man—About 5 feet 10 inches in height, smooth shaven, sandy complexion, gray eyes, and in speaking talks rapidly.  
"Second man—About 5 feet 7 inches tall, sandy complexion, coarse voice, was wearing an old corduroy pants, and muddy work shoes.  
"Third man—About 5 feet 9 inches tall, dark complexion, wore flannel shirt, no coat.  
"Fourth man—No description obtained."

"He on the lookout for these parties and report to W. L. Park, superintendent of U. P. Cheyenne, Wyo., by wire promptly, the company having no other means of communication with the district office."

### THIS IS 'TOO THIN.'

A Cheyenne dispatch to the "News" this morning says an unidentified person is in circulation here that the Union Pacific express car robbed by five men at Tipton Wednesday night, contained \$100,000 in gold destined to pay off the soldiers in the Philippines and that the robbers secured the whole shipment.

### AN EASTERN PRESIDENT.

London Advice About Successor to C. P. Huntington.

A London dispatch says that Collis P. Huntington's successor as president of the Southern Pacific railway will not be any man now identified with the management of the Southern Pacific. It is stated that the great railroad builder is dead, the interests which for several years controlled the majority of the stock of the Southern Pacific propose to take a more active part in the operation of the system. The first step to be taken is the election of a new board into the management. This news comes from an authoritative source.

### SPENDING MILLIONS.

New York Central May Establish Line of Steamers.

The construction of a fleet of large ocean steamers for carrying both freight and passengers by the New York Central railroad has been under discussion of late. This improvement has been projected in connection with the improvement of the terminal at Westchester, New York, and the expenditure of between \$3,000,000 and \$4,000,000 in enlarging the docks there, building new piers and wharves, and a general improvement of freight facilities. Some time ago the New York Central increased its capital stock to \$15,000,000 and this money was spent in buying new rolling stock. It has just been announced that the company has decided that even this enormous expenditure for equipment had been insufficient and that another \$1,000,000 would now have to be added to it for engines. The road has not enough cars and engines to handle the enormous traffic offered. The decision to expend between \$3,000,000 and \$4,000,000 on the Westchester terminal is only one item of the extraordinary expenditure. Other millions have been spent in bridges, structural steel, improved grades and tracks and stations. It is this increase in traffic and the decision to reconstruct the Westchester terminal that has suggested the building of a line of steamers. The increasing demand for American coal in European markets, it is believed, may have some bearing on the project. The Westchester terminal now has a large coal yard belonging to the New York, Ontario and Western, and in the work of reconstruction, the capacity of the yard will be increased and facilities for coal export provided. However, owing to the absence from the city of nearly all of the directors of the New York Central there has been no board meetings for some time, and the matter will probably not come before the board this fall.

### ENGLISH SAFETY LAW.

It is Much More Drastic Than in the United States.

Information has been received by the Interstate Commerce Commission at Washington that on July 20, of the present year, the British act for the better regulation of accidents on railways, received the assent of the queen and became a law.

The board of trade, one of the departments of the government, is invested with extensive power and is charged with the carrying out of the provisions of the safety appliance law. More authority is given the board of trade in this respect than the United States Interstate Commerce Commission and in many respects the British law is considered much more drastic than ours.

If after a reasonable time the railway companies in Great Britain fail to obviate the dangers by use of safety appliances, the board will order the use of such plants or appliances as it may consider best calculated to reduce the danger of persons employed, or the danger of any plant or appliances shown to involve danger. Penalties are provided for non-compliance with any rules prescribed by the board. The rules prescribed by the number of men employed in coupling and uncoupling cars in England is not less than one to three hundred. This percentage, as shown by the reports of the Interstate Commerce Commission, is in great contrast to this country in 1893, where at present the ratio has been reduced to one man killed out of six hundred engaged in coupling and uncoupling cars.

It is believed that the action of the United States government in the matter of safety appliances has been largely instrumental in bringing about the enactment of the British law.

### SEEMS AUTHORITY.

Brother of Senator Clark Talks of Salt Lake-Los Angeles Line.

At a banquet held in Los Angeles last night, J. Ross Clark, a brother of Senator Clark, made a speech in which he expressed the opinion that the Salt Lake-Los Angeles line still be built. Indeed, work is said to have actually commenced, and so far as human perception is concerned, the railway seems to be a sure thing. Fact is, David Clark and Thomas Kearns of this city are on their way to Los Angeles, supposedly on business connected with the project, and inasmuch as it is announced that the Salt Lake-Los Angeles line is to be built, it is not stretch of imagination to believe that these gentlemen recognize a good opportunity for investment and are determined to secure the first on the ground. Speaking of the project, the Los Angeles Herald says:

"There are many features of a road to Salt Lake which will be surprising to all who study the possibilities. For instance, it will place Los Angeles as close to Montana by rail as San Francisco or Portland, the two points from which supplies in Montana are at present transported. It will connect the whole of the state of Nevada and Utah and will so strengthen them that they will be stronger factors in other markets than they are at present. The city's benefits of a great mineral district, rich in iron, coal, gold, silver and copper. It will make of Los Angeles the only city in the southwest with three through railroad lines, and will make of its port at San Pedro a shipping point second to none on the Pacific coast."

### SPICE AND RAIL.

A new time table will go into effect on the Salt Lake & Ogden on Tuesday.

It is hoped that good results may come from the "cheap big talk" at Glenwood Springs.

Denver has a story that the Denver & Rio Grande will add to Salt Lake to a connection with the Los Angeles road.

Lagoon will be closed after next Monday, and for the fall, winter and spring months of the Salt Lake & Ogden will be confined to rural passenger and freight traffic.

About fifteen minutes before midnight three men held up twenty-seven Union Pacific workmen less than twenty miles from Denver, and according to their report, secured money and valuables, amounting in all to \$500.

General Agent Walker of the Chicago & Northwestern has received word from the head offices of the company which states that the double tracking of the main line west will be completed by January 1, 1901, with the exception of 41 miles.

The first stop at Lagoda, so far as the public is concerned, will be the high noon on labor day, Monday, on Tuesday, the hamburger employees will have a day to themselves out there, and the president of the Salt Lake & Ogden promises all of them a splendid time.

The Oregon Short Line brought up a lot of people from Utah county today for the occasion of the Salt Lake centennial.

On September 7th the Tabernacle choir will go to Ogden over the Short Line. They will go up the picturesque canyon there and in the afternoon will give a program at Lester park.

C. P. Trailer, station agent for the Union Pacific at Lincoln, Neb., is visiting Excursion Agent Mann of the Salt Lake & Los Angeles. Mr. Trailer is surprised at Salt Lake and is so much taken up with the beauties of the city and the climate that he has his belongings left at home, and is waiting for a change of homes.

On September 15th the Union Pacific will change time of trains. No. 1 and No. 101 will arrive in Ogden forty-five minutes later than at present, or 2 p. m. and 1:30 p. m. respectively. This will mean that the short line train will arrive at Salt Lake about 2:45 p. m. No. 2 will be an hour later, arriving Ogden 4 a. m. and Salt Lake 5 a. m. No. 6 will have Ogden at 7:30 a. m. instead of 5:30 a. m. and Salt Lake at 8:30 a. m. instead of 6:30 a. m.

The first great railway system to grant a special rate for the annual convention of the National Live Stock association in Salt Lake City next January, is the Oregon Short Line. ### PERSONAL.

Dr. W. R. Pike is up from Provo.

A. L. Toomey, of North Ogden, was a visitor in Salt Lake today.

Misses Blanche Mackintosh and Emily Read will leave for Europe tomorrow.

I. E. Ditch, editor of the Mammoth Recorder, is here and stopping at the Walker.

Walter Nickum, of the telephone company, has gone to Butte for a few weeks.

Louis Simon, of the Paris Millinery Company, has just returned from a lengthy purchasing trip in the East.

Dr. E. D. Woodruff and his charming family have returned from their summer stay at Silver Lake.

Joshua Midgley, who has been very ill for some time past, is now fast recovering and is expected to soon be about again.

Morris Sommer leaves this evening for Park City, where he will spend the next few days examining the mining properties in which he is interested.

Mr. Alexander H. Tarbet has been confined to his home for some days, but was again able to be on the streets today.

A. Knouse, one of the members of the big manufacturing drug firm of Chapman & Co., Chicago, is in the city. He reports his firm as being behind with its orders, and says that business through the West is picking up in a wonderful manner.

Ralf Haag, the receiving teller at Wells-Fargo bank, returned last evening from Marysville, where he has been for the past few days. He says that the influx of Eastern capital, represented by Denver mining men mostly, is making the action of the country point. The entire camp is active and on the tip of expectancy for the advent of the first train over the Rio Grande Western, which event was looked to take place the last of the coming week.
