Populists Nominated a Ticket of Their Own.

Denver, Sept. 10 .- When the convention reassembled, the conference com-mittee reported that the Poulists demanded three places on the ticket, that they had been offered one place and had rejected the offer. A resolution was then offered for a straight ticket and inviting the Populists to join the Democratic party.

Senators Patterson and Teller both spoke against the resolution, declaring that it would endanger the success of the Democratic ticket if the convention And gentle applications of Cutiturned its back upon the Populists. cura Ointment, purest of emol-

They de-clared it was of the utmost importance that I leave, so I lost no time in shav-ing off my moustache and changing stead. It was anthoritatively denied tonight that the United States government has sounded the German government as to the appointment of Bellamy Storer as the successor of Andrew D. This, and the further fact that owing to the low price of bonds there was a greater profit in circulation than formerly, is said to account for the very large amount o national bank potes outstanding in that year.

So far as is known here, there are no Americans in that section of China, and if it should appear later that there are some American prospectors in that country, it is not probable the decree would be enforced in their case, as while general in terms, the decree real-ly is aimed at the British and marks a determination on the part of Russia to retain the actual control of customs in Manchuria in her own hands, while nominally recognizing Chinese sover-eignty. eignty.

eignty. The British customs employes re-ferred to are British by nativity, but are actually in the employ of the Chi-nese government, and it may be that Russia will insist that the question raised by Mr. Lessar's order concerns only Russia and China. It is improbable, however, that the British gov-ernment will take this view of the matter, and it is fully expected that the British minister at Pekin will call on the Chinese government to retain these British customs officials, despite the

American ambassador to Germany. It can be stated by the same authority that the successor to Mr. White has not yet been selected. The name of Mr. Storer is being considered, as is also that of Mr. Tower, the ambassador to Russia. It is expected that the name of the ambassador will be announced

# Carnegle's Gift Accepted.

London, Sept. 10 .- After considerable debate the Battersea boroug council has accepted the gift of \$75,00 from Andrew Carnegie to build three libraries in the borough. Councilman Raynor, one of the chief objectors, de-scribed the gift as "blood money, for men have died in earning it." Councilman Rogers declared that Battersea should have nothing to do with Mr Carnegie and the surplus wages ob-tained from thousands of his employes. The gift was finally accepted by a vote of 27 to J3.

STRAINING A POINT.

Confederate Veterans on

Dignity. New Orleans, La., Sept. 11. -The Confederate Veterans of New Orleans have refused the proffered aid of Gen. Torrence, commander of the Grand Army of the Republic. They decline with thanks the money to build a home for indigent confederate soldiers in Ala-bama. The Army of the Tennesso bama. adopted resolutions referring to Gen Torrence's offer in the kindest terms declaring that he "possesses a noble heart, full of brotherly love," but, the resolution says: "We cannot recept even this generously proffered assistance from any source save from our own people. It is the duty of the south and the south alone to provide for confederate soldiers who may need assist ance. To permit others to do that duty would, in our judgment, be both unbeance. coming and wrong in the southern peo-

ple. "But let it be well understood that we are grateful just in the same way that a man is grateful to a neighbor who offers financial assistance when the angel of death visits his home. In both cases we must politely but firmly de-cline to accept the offer. There are certain duties which a high-minded people cannot permit others to perform, and this is one of them."

## BAD BUT NOT DESPERATE.

Such is Pronounced the Colombian Situation.

Panama, Sept. 11 .- The situation of Panama, Sept. 11.—The situation of the Colombian government on the isth-mus is thought to be more serious than it has been for some time past, yet it is not very desperate. It-is reported here that Gen. Herrera's revolutionary army consists of nearly 5,000 men, who are encouraged by their recent success-ful engagements with the government troops. The principal strength of the revolutionists lies in the fact that with their fleet of gunboats, composed of the Padilla. Boyaca, Gaitan and Darien, supplemented by numerous sailing ves-sels, they can maneuver and operate at

supplemented by numerous sailing ves-sels, they can maneuver and operate at sea without molestation. The conservatives on the isthmus have much faith in Gen. Salasar, who has assumed supreme command of all the forces in this district. He is ably seconded by Gens. Quintro and Guiter-ries, who are active and brave fighters.

rce the sol diers here and at Colon. Two thousand more troops, according to military men, would not only make Panama secure, but would render Gen. Herrera's position very delicate should he locate on the railroad line, where food is scarce. Gen. Herrera's plans are not known.

but from the latest reports he was ad-vancing towards Panama, Judging from his method of campaign, his inten-tions would seem to be to surprise the government by some extraordinary movement.

The situation here in the summer of 1900, when Gen. Porras attacked Panama, was worse than it is now. the revolutionary forces defeated the government soldiers at Bejuco and

Corosal, a few miles from Panama; two conservative generals fied the field and the population was panic-stricken; still the defense of Panama, under the late Gen. Alban and Gen. Salazar, was suc cessful.

Gen. Salazar is considered to be a daring leader. At Mirilabaja, in the department of Bolivar, he was surrounded last year by a strong force un-der Gen. Uribe-Uribe, which he sur-prised during the night and completely routed with the small force under his command. The recollection of deeds like this inspires Gen. Salazar's troops ith faith in their leader. Partisans on the isthmus of the lib-

or insurgent parties believe that Gen. Herrera wil be victorious over the government. Gen. Herrera is undoubt edly a great organizer. When he land. ed his expedition in Colombia no one thought he would succeed in organiz-ing the army he has drawn to his cause. His success or his defeat is thought to depend on his next movement. Should he wait for 15 days before making an attack it is thought he will be defeated. Thei There is little doubt here that Gen. Salazar and the troops under him will ight valiantly.

No definite news has reached here of the revolutionary fleet since last Sur-lay, when it was at San Carlos.

## Lipton's Challenger.

New York, Sept. 11 .- Statements that actual work has not yet begun on Sir Thomas Lipton's new American cup challenger are confirmed by a Glasgow dispatch to the Herald, which says: "The building shed in Denny's ship yard is empty, as well as that in Thompson's ship yard. Messrs. Watson and Fife have both been about Denny's of late. Numerous experiments have been going on in the tank there. There is little question that Mr. Fife has plans for a new yacht prepared and that she will be similar in rig to the previous Shamrocks, but lighter in It is said that Mr. Fife would not accept the commission unless the chal-lenger was deferred until his designs insured a speedier boat than the pre-vious challengers.
