Books Found.—The owner of a small package of books, picked up on the street, can get it at this office.

Called.—Hon. C. W. Penrose, editor of the Ogden Junction, was in the city and dropped in to see us yesterday.

Reeled Silk.—Today we were shown a sample of silk. The cocoons were raised at President Young's coconery, Forest Farm, and the reeling was done by Mrs. Bryant Stringham and Miss Rockwood.

The Fourth at Cottonwood.—The people of South Cottonwood are making preparations for a celebration of the Centennial Fourth. There will be instrumental music, singing, the amount of display of "soul-stirring" oratory, dancing and other things to match.

Horse Stealing.—At a late hour last night, or early this morning, thieves entered the stable of Captain Thomas Jack, First Ward, and took out a couple of horses belonging to him, one of which, however, broke away from the scoundrels, so they only got away with one.

Supposed Horse Stealing.—A man residing at Bountiful states that a band of horses belonging to people of that place, and which were located somewhere between the head of City Creek and Morgan County, were driven off by thieves, on Monday afternoon, who were tracked by him, and subsequently by others. Also that ten head of the animals were recovered, and the others were driven down Emigration Canyon, by the parties who had run them off.

G. P. Pay Car.—The pay car of the Central Pacific Railroad Company came into Ogden to-day, somewhat to the surprise of certain of the boys, who had been told it was not expected for some time yet. We have not learned, however, that any of them object to receiving the deuce due them, even if it is paid in silver, that useless coin which Mr. Sargent fears will drown out all other money if it should be used to any considerable extent.

The amount paid out by Ogden cannot be very large, but will doubtless be sufficient to make its recipients feel good-natured, and as they will likely to disburse a portion of the same received, we shall expect to see a slight change in the financial affairs of Ogden. We do not know when the Union Pacific Company will pay about the glorious Fourth would be a good time to liquidate however. Send along the greenbacks, they will be accepted here.

Tasker.—John F., otherwise known as "Ben," Tasker, who bears the questionable reputation of being the most cunning and dexterous horse and cattle thief in the west, was before Justice Pyper this morning, to answer to a charge of stealing twenty-four head of cattle from various parties. Tasker waived an examination, and he was held in bonds of \$500, to answer to the grand jury.

Of course Tasker will find the bonds, as there are not a few persons who, for some reason best known to themselves, appear some times at court refusing to comply with the law, and "Ben" may make of them in that line.

Tasker, once at liberty, can prepare this evidence for defense against the day of trial.

A man from Cedar Valley has identified seven cattle as belonging to persons living in that locality.

City Council.—The Council met last evening, Mayor Little presiding.

Petition of the various druggists in the city, asking that the section of the ordinance prohibiting the sale of soda water, from fountains, on the Sabbath day, be repealed, referred to the committee on municipal laws.

Supervisor's report for the quarter ending May 31, 1876, was presented and referred to the committee on claims.

The report of the city assessor and collector, for 1876, was presented. The latter showed the assessed value of property to be \$7,000,000. Report adopted and read or taxation for the current year fixed at three-fourths of one per cent. The 15th of August, at 2 p. m., was fixed as the time for the Council to meet for the purpose of considering the same.

Complaints of the various citizens, and the remuneration for the

year of the assessor and collector, including office rent, clerk hire, stationery, etc., was fixed at \$2,500.

Bill of Kirk & Co., for white washing Fireman's Hall, \$15; allowed.

The waterworks ordinance was considered and dismissed for some time, after which the Council adjourned till Friday evening next.

The Convicts.—Marshal Nelson has returned from the pursuit of the three supposed convicts who are suspected to have gone south, the deputies being still on the hunt for them. No news from any of the runaways.

Marble.—We have seen polished specimens of the marble brought from San Francisco Mining District, by Prof. Clayton. They are white and variegated, the latter being very beautiful, the colored veins being bold and distinct.

Lost Pocket Book.—A gentleman lost his pocket book, containing a sum of money, this morning. The finder should leave it at this office and be rewarded.
