

STILL HARKING ON THE "MOR-

MONS' ARMING."

The New York Herald is still harking on the "Mormons' Arming" in a feeble sort of way. That paper of May 16, in its editorial on the "Mormons' Arming," commences thus: "The more persistently the Mountain Meadows massacre is investigated the more actively the Mormons arm and drill." Which excites tremendous commotion in this region at the tremendous extent to which the Herald people have been duped in relation to the situation in this Territory.

The Herald concludes thus:

"The prophet, Young, thought it was to dispatch the New York Herald in his laudable mission on Sunday. But the Herald only demands justice. Does Mr. Young intend to defend the means by which the persons concerned in the Mountain Meadows massacre were carried to their graves? He has never denied that these murders were committed. The officers of the army are trying to discover the murderers. They have brought one of them, Lee, to execution. We want them to go on fearlessly and should like to see Brigham Young and the Mormon leaders generally helping District Attorney Howard. Instead of that they are prancing about like mad bulls and crying out blood."

There is reason to denounce the

Herald because of its repeated attempts to create unjustifiable public excitement against the "Mormons."

If the Herald only demands justice,

it demands precisely what the "Mormons" desire.

Mr. Young does not intend to defend or protect any such persons as the Herald mentions.

Mr. Young and the "Mormons" leaders generally, regarded proper judicial investigation of the affair named years ago, but their request was not complied with.

District Attorney Howard has received considerable help from the gentlemen named in the prosecution of the affair, so far as he has gone with it.

"Instead of that they are" not "prancing about like mad bulls and crying out blood," it was lawyer Baskin, and nobody considers him anything of a "Mormon," that saw bayonets and blood before him, and he spoke up in a meeting to that effect. Meanwhile, has anybody seen any "Mormons" prancing about like mad bulls? That is not exactly their style, though the Herald does not seem to know it. But it may be the style of a man in this city who writes to the Herald, when he lends himself with more than he can otherwise carry.

"What is the matter? Yes, what can the matter be? The fact is, there is no matter to it. There is nothing at all in it. Some people, when in certain conditions and subject to certain spiritual influences, see snakes, watching and twisting and hissing around, and many other horrible and indescribable things. This is probably the origin of the mad bull prancing and blood crying, on which the Herald expatiates. The truth is, this "Mormon" arming and drilling excitement, of which the Herald enjoys the full benefit, is simply a very windy and extremely expanded case of much ado about nothing."

The Removal of the Pool Rooms.

NEW YORK, 22.—The pool rooms were all removed to Jersey City, yesterday, where pools are being sold on the races at Louisville and Baltimore. Oompel concerns acquiesce in the removal, and the river boats are expected to return for Sunday school excursions.

Arrival in Washington.

The World's Washington office says a letter from an American officer on the Rio Grande, received yesterday, speaks of the successful capture of a band of the border and of the friendly relations existing between the Americans and Mexicans. The raids which are complained of are said to be confined to the border, and are made acquainted with the steps taken by the administration to suppress them. The letter is being communicated to General Order commanding on the Rio Grande, in the present visit to the former's headquarters at Chicago.

Arrangements for the Trunk Lines.

Arrangements were entered into yesterday by the general agent of the trunk lines running from this city, agreeably to instructions received from the president, by which the revenues of western bound freight shipments are to be pooled and divided between the different roads, who participate in the pooling. The trunk lines are to each receive 33 per cent. Pennsylvania 33 per cent, and the Baltimore and Ohio 33 per cent. A general agent will be appointed, whose duty will be to superintend the signing of all bills relating to and to see that the agreement is carried out.

The Rescue of the Bismarck.

The Graphic has a dispatch from Washington to the effect that the postponement of the extra session of Congress was due to the discovery of a conspiracy on the part of the congressmen of both parties, headed by David Dudley Field, to introduce a resolution declaring Samuel J. Tilden the honest president-elect, and inviting him to take his oath of office in Washington.

A Negro Lynched.

CAIRO, Ill., 22.—On Sunday night a party of disguised men went to the jail at Blountville, Ky., took the negro Levi Ellis, who was being held for trial, and attempted to escape. He was shot and killed. The party was composed of C. R. Rice, and dragged him away to the woods. Ellis' body was found in the woods, and a man with the clothing burned off.
