## OHIO MINE SOLD.

#### Colorado Springs People Get a Nevada Producer.

It was learned today that W. B. Andrew has about concluded a deal which involves the purchase of the Ohio mine, located in Humboldt county, Nev., for Colorado Springs people, who conduct-ed an examination of the mine some time ago. The property is owned by Wells, Fargo & Co., and has been quite noted producer.

At one time its former owner endeav-ored to effect a sale to an English syndicate for \$3,000,000. consideration in the pending deal

was not ascertained.

### BLUE ACRE DEVELOPMENT.

#### Horse Whims Have Been Installed Recently,

Henry M. Crowther consulting englneer of the Blue Acre Copper company, ne of the coming Beaver county bo-lanzas, was returned from camp after tour of inspection. He found satisfac-ory conditions at the property and re-ports that the horse whim at shaft No. I is in working order and another is peing installed at shaft No. 1. Sinking will be carried on vigorously at these places.

Green River is not far distant from the Emery county coal lands, included in the fron deal, from which the syndicate expects to obtain its supply of coke. The location of the works at this point would mean the early completion of the Salina cut-off, and an extension of the Bal and an extension of the Rio Grande from Marysvale to the iron mines near Cedar City.

Louis, Chicago and Farmington Mo.

Manager Clive is of the opinion that this new disclosure will prove to be an important one, but he does not believe that the values will quite come up to those contained in the Charm's main ore chote, which varies in width from 35 to 75 feet.

At the Copperhead property, developments have assumed an interesting na-ture. The ore coming in now carries very encouraging gold values.
