ON ANARCHY.

It Can Neither be Excused Nor Tolerated in America.

REMEDY FOR EVERY WRONG

Under Our System of Government—Czolgosz's Punishment Should be a Warning to Others.

Buffalo, Sept. 9.—William J. Bryan today telegraphed the Times as follows: "Free governments may be overthrown, but they cannot be reformed by those who violate the commandment, 'Thou shalt not kill.' Under a government like ours, every wrong can be remedied by laws and the laws are in the hands of the people themselves.

"Anarchy can be neither excused nor tolerated here. The man who proposes to right a wrong by taking the life of a human being, makes himself an outlaw and cannot consistently appeal to the protection of the government which he repudiates. He invites a return to a state of barbarism, in which one must at his own risk defend his own rights and avenge his own wrongs.

"The punishment administered to the would-be assassin and to his co-conspirators, if he has any one, should be that while this is an asylum for those who love liberty, it is an inhospitable place for those who raise their hands against all forms of government."

"W. J. BRYAN."

HENRY WATTERSON SPEAKS.

"All of Us This Night Are McKinley Men," He Declares.

Louisville, Ky., Sept. 9.—Speaking tonight at a mass meeting called to demand vigorous laws against anarchy, and to express sympathy with President McKinley, Henry Watterson said: "We must meet the blood-stained hands of anarchy not merely with cleaner hands, but with a purer public spirit. It is not a deeper philosophy. We must disseminate the lesson that government exists not for the private gain of any nor for the cure of any private grief, but for justice, the citadel and the bell-tower of the public peace and order.

"All of us this night are McKinley men. We pray this night that God spare his life."

A DAY OF PRAYER.

Gov. Orman Appoints Sept. 11 as One.

Denver, Colo., Sept. 10.—Gov. Orman has issued a proclamation setting aside Wednesday, Sept. 11, as a day of prayer, for the recovery of the president McKinley, and requesting that every loyal citizen of the state join in a prayer service for the speedy recovery of the chief magistrate.

France Will Have Flotillas.

Paris, Sept. 10.—The Matin announces M. De Lanesan, minister of marine, has decided upon the creation at certain seaports and various coast points of flotillas of submarine boats. The flotillas, consisting of six vessels, will be established at Cherbourg.

Sultan of Morocco Defers.

London, Sept. 10.—The Tangle correspondent of the Times says:

"The sultan defers to give effect to the convention agreed to between his plenipotentiaries and Lord Lansdowne in London last June. Letters have been received permitting the exportation of potatoes and other vegetables, the shipping of which was formerly not allowed, but this formed only one clause of the convention.

"This action of the sultan does not illustrate the sincerity of his protestations of friendship for England.

"The disturbances in the country are increasing, and amount almost to anarchy in many districts. The minister of foreign affairs believes that the Spanish captives carried off last May have been put to death. The Spanish government claims from the sultan \$200,000 for the ransom of the captives, until next Thursday, when it will take further steps. There is no indication that Madrid has yet decided what steps will be taken."

Southern Opens in New York.

New York, Sept. 10.—B. H. Southern opened his season at the Garden theatre, presenting Lawrence Irving's "Richard Lovelace," a play written about some facts of the 17th century soldier poet's life. Miss Cecelia Loftus takes the part of "Lucasta" (Lady Sackville) delightfully.

The cast is small and the minor parts are intelligently taken.

The play is perhaps too sad to achieve the greatest popularity.

An Aged Couple Suicides.

Chicago, Sept. 10.—Peter Jackson and his wife both past 60, were found dead in their flat at 540 Belmont street last evening. The gas jets in the parlor, dining room and bedroom were wide open. The stove connection in the kitchen was also turned on. It is the belief of the police that the aged couple died together by agreement.

VAUGHAN ON CATHOLICS.

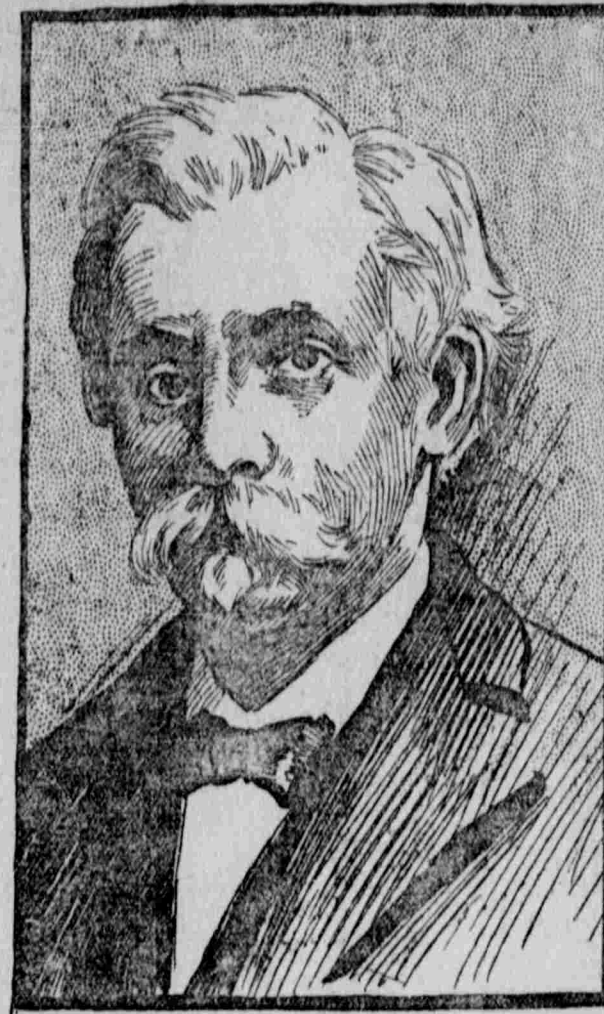

Should Call Themselves "Catholics" Rather Than "Roman Catholics."

New York, Sept. 10.—Cardinal Vaughan made a striking address at the opening of the Catholic conference in Newcastle last night, says a London dispatch to the Times. The cardinal implored Catholics to call themselves Catholics—Roman Catholics, if they pleased, but preferably Catholics.

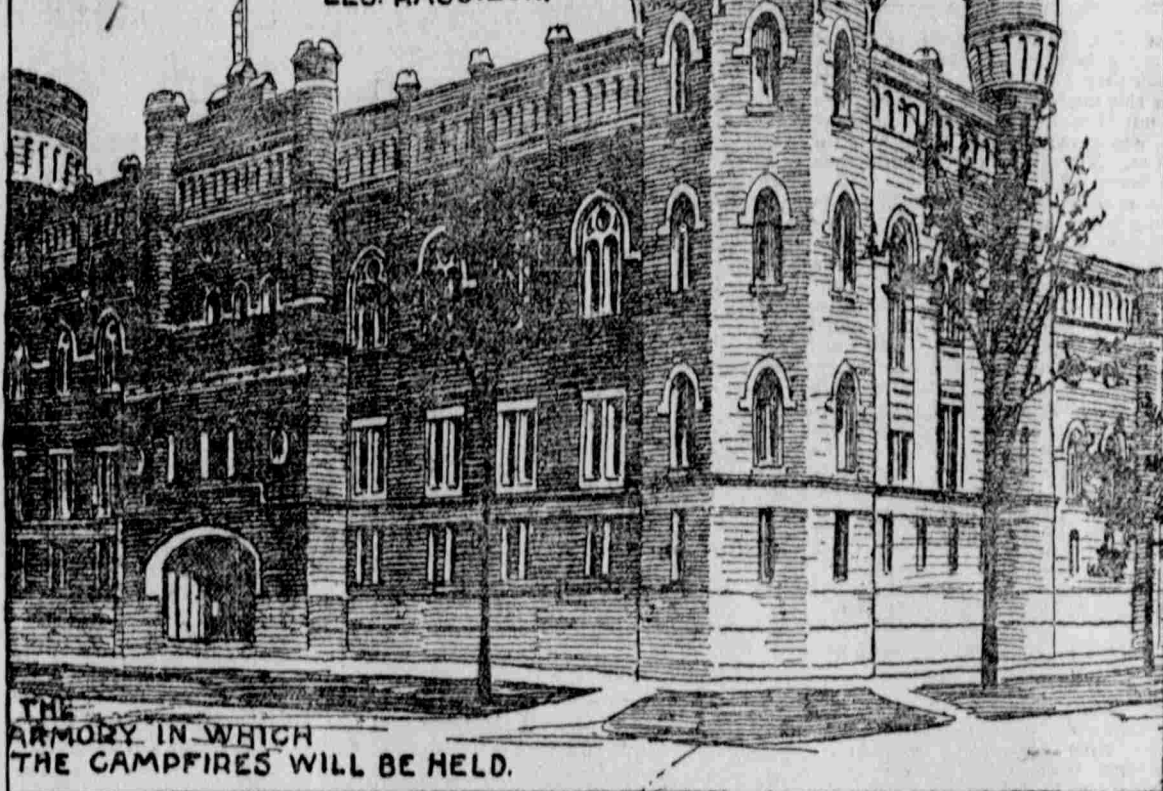

"Indeed," the cardinal went on to say, "it is important in this country that we call ourselves 'Catholics' rather than 'Roman Catholics,' because a false meaning is more often attached to the latter than the former term."

In speaking of the royal declaration, the cardinal said that it was the acing belief of the country that the king must be a Protestant. It was a religion that the king should be of the religion of the overwhelming majority of his subjects, Catholics, however, and a difficulty in giving their royal allegiance to a Protestant sovereign, and in this they seemed more liberal and of a more confident temperament than those who refused allegiance to a king not professing their creed. Catholicism, he said, was a religion of peace and devotion and gave him as hearty devotion as had ever been shown to his Catholic successor. Sixteen millions of German Catholics were not less loyal to their Protestant emperor than the Protestants of his subjects who were Protestants or of no religion.

The cardinal pointed out that it would be no gain to the English Catholics to have a Catholic king. The king was not an absolute monarch. They

THE ARMORY IN WHICH THE CAMPFIRES WILL BE HELD.

THE BIG GRAND ARMY ENCAMPMENT IN CLEVELAND.

The present Grand Army encampment in Cleveland seems likely to be one of the most successful and best attended gatherings of Union veterans in the history of the organization. The big test of the reunion will be the great parade on Wednesday, when it is expected that nearly 70,000 veterans will be in line. Today Cleveland is crowded with visitors, and the excursion trains are landing thousands more every hour.

must first convert the house of commons.

Next session, continued the speaker, parliament might settle forever the position of Christianity in this country, when secondary and middle class education would be "thrown in the melting pot."

The gravamen of the king's declaration, said the cardinal later on in his speech, did not lie with his majesty, but on religious prejudice. Bigotry had never tainted King Edward's conduct. The declaration as it stands was called by Cardinal Vaughan blasphemous and an insult to three-fourths of Christendom. As a guarantee, he said, it was a sham. As for the house of lords amendment, it singled out the Catholics' holy religion for solemn denunciation. If there must be a declaration, let it be one to the effect that the king was a Protestant and let it end there.

No. 2 Hard Winter-Wheat.

New York, Sept. 10.—At a meeting of the grain trade held in the produce exchange it was decided that No. 2 hard winter wheat on and after June 1, 1902, shall constitute a good delivery on an equal footing with other contract grades of wheat.

The grade represents a large proportion of the winter wheat crop grown in the southwest. Its introduction as a contract grade, it is said, will militate against "corners" as it gives so much more wheat to deliver. A special committee of the trade appointed some time ago recommended that this grade be made deliverable at a discount of two cents a bushel, but a strong minority among its members has been doing some hard work since in the trade, and it was to their work that the vote to make the grade a full contract was due.

Machinists Go On Strike.

San Bernardino, Cal., Sept. 10.—Three hundred mechanics employed at the Santa Fe shops here quit work because the company refused to pay them extra for working on a holiday. The men will report for duty today, but there is some doubt as to whether the company will allow them to come back.

Cloakmakers in Mass Meeting.

New York, Sept. 10.—Six thousand cloakmakers attended a mass meeting held last night at New Irving hall. An assessment of 50 cents per capita was ordered levied on the 15,000 cloakmakers of New York for the purpose of fighting injunctions against the cloakmakers' strike pickets.

KNOWLEDGE OF FOOD.

Proper Selection of Great Importance in Summer.

The feeding of infants is a very serious proposition, as all mothers know. Food must be used that will easily digest, or the undigested parts will be thrown into the intestines and cause sickness.

It is important to know that a food can be obtained that is always safe; that is Grape-Nuts.

A mother writes: "My baby took the first premium at a baby show on the 5th inst. and is in every way a prize baby. I have fed him on Grape-Nuts since he was five months old. I also use your Postum Food Coffee for my self." Mrs. L. F. Fishback, Alvin, Tex.

Grape-Nuts food is not made solely for a baby food by any means, but is manufactured for all human beings who have trifling, or serious, difficulties in the stomach and bowels.

One special point of value is that the food is predigested in the process of manufacture, not by any drugs, or chemicals whatever, but simply by the action of heat, moisture, and time, which permits the digestive to grow, and change the starch into grape-sugar. This prevents food to the system ready for immediate assimilation.

Its special value as a food, beyond the fact that it is easily digested, is that it supplies the needed elements to quickly rebuild the cells in the brain and nerve centers throughout the body.

CAN'T EXCLUDE ANARCHISTS.

So Says Immigration Commissioner Fitchie.

READY TO DRAW DRAGNET.

Conspirators Against President's Life to be Taken in Details of a Previous Plot.

New York, Sept. 10.—Immigration Commissioner Fitchie, who is in charge at Ellis Island, says that it is impossible to keep anarchists out of the country.

"The law at present states plainly that no one shall be refused admission because of his political beliefs," the commissioner added, "and the only way that an anarchist can be kept out is by proving that he had a criminal record on the other side."

The declaration was made in response to a query as to what would be done in regard to a number of anarchists who are on their way over here from England. Scotland Yard officials had cabled descriptions of these men, and it was thought that their entrance to this country could be prohibited.

"These anarchists in most cases are not paupers and meet all the requirements of the immigration laws," the commissioner said.

READY TO DRAW A DRAGNET.

New York, Sept. 10.—A special to the Herald from Buffalo says: From two sources, each of which is unimpeachable, it is learned that the police of the United States are nearly ready to draw a dragnet and capture a host of anarchists, all of whom are believed to be concerned in the plot to murder President McKinley and other representatives of the government.

Emma Goldman is believed to be a leader in the conspiracy. She was here in Buffalo the day before President McKinley arrived. The police of this city have questioned a relative of hers, from whom much information of value was obtained. The Goldman woman's arrest, it is said, will occur within a few hours, if, indeed, it has not already been effected. Evidence is not lacking that the plot was at least partly concocted in Buffalo.

DETAILS OF A PREVIOUS PLOT.

New York, Sept. 10.—Details of a previous plot against the life of President McKinley are given out on authority, it is said by Senator T. E. Ellsworth, according to a special to the Tribune from Lockport, N. Y. He is credited with the statement that the plot was hatched in Paterson, N. J., about the first of May, and Emma Goldman, Louis Blinstein and other prominent anarchists are said to have been concerned in it. A young tailor, Michael Anzani, it is said, was the one to whose lot it fell to do the deed. At that time the President was on his tour of the West and Anzani left for San Francisco where he expected McKinley would be by the time he reached there. But he arrived several days ahead and attended several anarchist meetings, where he met a young man to whom he told his purpose. The young man was none other

than a secret service detective and Anzani was promptly arrested, but upon lack of evidence and certain advice from Washington, only the charge of vagrancy was entered against him.

The condition of Mrs. McKinley is said to have had some bearing upon the matter which was hushed up, the president being sentenced for eight months in the San Francisco work house.

HEAD CONSPIRATORS PLOT.

Chicago, Sept. 10.—Charles P. McMurray, employed by a wholesale grocery house in this city, has notified the police that on the night of July 12 or 13, he is not sure which, while waiting for his suburban train at the main station of the Illinois central road, he overheard three men discussing plans to kill President McKinley and two well known New York capitalists. After talking a few minutes the three shook hands and went toward the Michigan central train for Buffalo. McMurray says he told the policeman on duty at the station, and after a few days had practically forgotten the occurrence.

The description of one of the men given by McMurray is not unlike the appearance of Czolgosz and it is known that on July 12 he was in Chicago, going east to Buffalo that night.

GLAD PRESIDENT WAS SHOT.

A New York Mail Carrier Expressed Himself to This Effect.

Washington, Sept. 9.—Second Postmaster-General Shallenberger today summarily canceled the contract of a mail-carrier for expressing satisfaction over the shooting of President McKinley. The name of the person thus dealt with is Charles F. Cortright, and he had a contract for carrying the mail between Homer, Cortland county, New York, and Spafford, in Onondaga county, at the same rate.

The information concerning his offense came to the postoffice department through the postmaster at Homer, who reported the matter to the postoffice of the place confirming his report.

It appears that when Cortright first received the announcement of the news of the attempt on the President's life he remarked with the remark, "he was glad of it," and added that the President should have been killed years ago. Hearing of this remark, three citizens of the town called upon Cortright and asked if the remark were correct, and he replied that it was. Upon receiving this information, duly supported by the oaths of the citizens who had heard this statement made, Mr. Shallenberger took prompt action to cancel Cortright's contract on the ground that a person capable of such sentiments is not a fit custodian of the mails of the government.

A NEW MEXICAN ANARCHIST.

Arrested by U. S. Marshal on Instructions from Washington.

Silver City, N. M., Sept. 9.—Antonio Maggio, the musician and alleged anarchist, who is said to have predicted the assassination of President McKinley before October 1901, was arrested at Santa Rita, N. M., a mining camp near Silver City, at 5:30 this afternoon by United States Marshal Foraker, on instructions from Washington. Maggio has been playing a piano in a saloon at Santa Rita for some time. He is said to have frequently made the prediction that the President would be killed before October 1st, since coming to this section in February last. He is quoted as saying that Emperor William of Germany will be the next ruler assassinated.

Gambling Houses Raided.

New York, Sept. 10.—Justice Jerome, Dist. Atty. Gavan and Frank Mosh last night raided an alleged gambling house on East Ninth street in this city. Five arrests were made. When the raiding party arrived they found the doors barricaded. Sledge hammers were used and an entrance quickly made. There were about thirty people in the room, but only five for whom warrants had been issued were held.

SUPPRESSION OF ANARCHISM.

Lesson of the Attempt on Life of The President.

COMMENTS OF ENGLISH PRESS

Would be a Mistake to Stir Up Public Feeling on Behalf of a Vendetta Against Anarchists in General.

London, Sept. 10.—The papers again occupy themselves fully with President McKinley's state and the anarchist peril.

The Daily Telegraph says: "President McKinley has a wonderful constitution as has indeed been proved by the incidents of his illness. The simple, almost austere life he has led has helped him at the crisis of his fate, while the devotion and fortitude of his wife, with whom, as the President has said, he has often conquered both difficulty and danger, have profoundly touched and inspired the sympathetic pity of the world."

The Daily Mail remarks: "Both in this country and in the United States public opinion has hitherto been slow to recognize that the unwillingness to act harshly toward political fugitives cannot be permitted to condone the crimes of ruffians who preach sedition and plot assassination. Even the latest anarchist outrage will not have been in vain if it should determine on both sides of the Atlantic a boundary between the exercise of national hospitality and harboring national pests."

The Daily News says: "The cry of 'Down with the anarchists' is being raised, as it was certain to be raised in various quarters. It is as well as American—but it seems to us that the worst possible way of going about the business is to stir up public feeling on behalf of a vendetta against anarchy in general. The greater the pressure, the more violent the resistance."

The Daily Graphic writes: "There is one obvious means of discouraging the anarchist propaganda, which has been too much neglected in the United States, and the continent, namely, to treat the advocacy of crime itself as criminal."

"In this country that principle is accepted and acted upon. Probably if a score of so of philosophic anarchists were sent to cool their heels a year in prison they would grow considerably more cautious in the use of their words and their disciples would begin to learn something of the same reticence in using revolvers."

The Morning Post believes that the characteristic feature of recent events is that all governments are exposed to the same danger. "It is not this or that particular form of authority that is aimed at but all authority. Wherever the anarchist strikes, no matter what its origin may be, this is the lesson which is being driven home in the United States by the brutal attack on President McKinley."

"While it would appear that certain measures may be taken by the United States on its own account in order to combat this new evil, it would be better if all such measures were adopted in concert by the great powers after an international conference. There is certainly solidarity between all civilized nations now that America is no longer outside the circle of its influence."

POPE ON ANARCHY.

Will Take Initiative in Joint Action by Christian Powers.

London, Sept. 9.—"The pope has been so impressed by the attack upon President McKinley," says the Rome correspondent of the Daily Mail, "that he intends to take the initiative in joint action by the Christian powers against anarchy. He is writing an important encyclical on the subject, which will be published next month."

Porto Rican Affairs.

New York, Sept. 10.—L. S. Rowe, chairman of the Porto Rican law commission, is now in New York, having arrived yesterday from San Juan. Speaking of the outlook on the island, he is quoted as saying:

"With two such men as former Gov. Allen and Judge Hunt to serve the American people in the first colonial experiment, the success of the ultimate outcome was to be foreseen. Under Gov. Allen's direction the broad foundations of civil rule were laid, but it remains for Gov. Hunt's administration to work out in detail the new system of government, the most important and necessary need of the island at the present time is the opening of the

The Art of Self-Defense.

The popular idea expressed in the phrase, "the art of self-defense," shows the opinion that the chief enemies a man has to defend himself from are visible and external. But the real danger of every man is from minute and often invisible foes. In the air we breathe and the water we drink are countless minute organisms leagued against the health of the body.

The one defense against these enemies is to keep the blood pure. Dr. Pierce's Golden Medical Discovery thoroughly purifies the blood, removing poisonous substances and accretions. When the blood is pure there is no harborage for the germs of disease which find a lodging only when the blood is impure and corrupt.

"Consider your Golden Medical Discovery one of the best medicines on the face of the earth," writes Mr. Wm. Fisher, of Redox, Montgomery Co., Iowa. "While in the south-west, three years ago, I got possessed with venereal poison. The poison settled in my blood and the horrors I suffered cannot be told in words. I thought I would go crazy. I tried different kinds of medicine, tried different doctors, but all the relief they could give me was to make my back ache. I was in a bad way. I took Dr. Pierce's Golden Medical Discovery. Took four bottles without relief. Kept taking it. I took all the bottles and was cured. Dr. Pierce's Pleasant Pellets cure constipation."

PE-RU-NA INVIGORATES. PE-RU-NA REFRESHES.

Miss Maggie Becker, 653 Lake Street, Appleton, Wis., writes:

"It is with pleasure I recommend Peruna as a splendid tonic to any overtaxed persons. When the mind is wearied the body will soon be worn out also, but Peruna invigorates the body and refreshes the mind. I have also found it a relief in cases of severe backache. We are never without it at home, and consider it a household blessing."—MISS MAGGIE BECKER.

Has Better Health Than for Six Years.

Mrs. W. E. Llewellyn, Florence, Ala., writes:

"After using six bottles of Peruna my health is better than it has been for six years. I always recommend your medicines to my friends and will do all I can for you. I had been in bad health for two years before I took Peruna."—Mrs. W. E. Llewellyn.

Suffered Five Years.

Mrs. Christopher Flehmman, Amsterdam, N. Y., writes:

"In speaking of your remedy I have been sick with catarrh of the stomach and pelvic organs for about five years and had many a doctor, but none could help me. Some said I would never get over it. One day when I read your almanac I saw those who had been cured by Peruna, then I thought I would try it. I did, and found relief with the first bottle I took, and after two more bottles I was as well and strong as I was before. Now I can eat most anything, and it don't bother me."—Mrs. Christopher Flehmman.

Peruna The Best Medicine in the World.

Mrs. Fredericks Hopfinger, writes from Tilden, Madison County, Neb., the following:

American market for Porto Rican coffee.

"One danger which has considerably disturbed the exportation of coffee from the island of introducing Brazilian coffee into the island and re-exporting it as the Porto Rican product. The simplest remedy is a re-enactment of the provision of the Foraker act imposing a duty of five cents per pound on all coffee coming into Porto Rico. With the additional stimulus of a protective duty against Brazilian coffee it is more than likely that the coming year will witness the complete restoration of those districts which were laid waste by the hurricane and in which little or nothing has been done since."

Exclude Anarchists from Wisconsin.

Milwaukee, Wis., Sept. 10.—Senator Julius E. Roehr will introduce a bill in the next session of the legislature to exclude from the state all anarchists and all those engaged in teaching the doctrines of anarchy.

"I believe," he said, "that the best way to fight anarchy, anarchists and anarchism is to make this class keep out of the state. Every state ought to pass such laws and then there would be no open preaching of lawlessness in the country. I intend to introduce such a measure at the next session of the legislature unless before that time there are better plans devised for fighting anarchy and anarchism."

Czolgosz's Mother in Buffalo.

New York, Sept. 10.—A special to the Herald from Buffalo says: Mrs. Czolgosz, mother of the man who attempted to assassinate President McKinley, was in Buffalo today (Monday). She made no attempt to see her son. In some mysterious manner, however, he learned of her presence here and when Dist. Atty. Penney asked him if he wanted a lawyer, Czolgosz said: "No, I want no lawyer now. When the time comes I will be supplied with counsel and there will be plenty of money for my defense."

Winter Kyle Murdered.

Astoria, Ore., Sept. 10.—Winter Kyle, aged 23, a well known young man of this city, was murdered shortly before daylight. Robbery was the motive. As yet there is no clue to the perpetrator of the crime which was committed with some blunt instrument. Kyle's body was found on the river bank. He recently arrived from Alaska.

A New Stock Disease Appears.

Vancouver, B. C., Sept. 10.—A new disease, very widespread among horses, cattle and swine, has appeared on ranches in eastern British Columbia and is quoted as saying:

"With two such men as former Gov. Allen and Judge Hunt to serve the American people in the first colonial experiment, the success of the ultimate outcome was to be foreseen. Under Gov. Allen's direction the broad foundations of civil rule were laid, but it remains for Gov. Hunt's administration to work out in detail the new system of government, the most important and necessary need of the island at the present time is the opening of the
