CHARLES W. PENROSE, EDITOR.

Wednesday, - Nov. 28, 1883.

EDITORIAL NOTES.

By private note from the editor-in-chief we learn that he and Mr. Savage had been delayed by slow trains on their journey westward on the southern route, and would not reach San Francisco as early as anticipated. They will probably arrive home about the end of the present week.

A startling discovery was recently made by the landlady of a Berlin public-house, frequented by journeymen bakers. She found a bomb in the stove of a room where 200 persons were assembled. It was by the merest accident that she saw the curious looking article sticking out between the firewood which she was about to light.

It is proposed in Russia to celebrate the three hundredth anniversary of the death of Ivan Feodorof, the first Russian printer. It is eminently proper to celebrate his death, rather than his birth, in view of the fact that about half the printing presses in Russia at present are concealed in garrets and cellars, and that an editor runs the risk of going to jail every time he writes a leader.

"There are some great troubles that only time can heal, and perhaps some that can never be healed at all; but all can be helped by the great penance, work. When grief sits down, folds its hands, and mournfully feeds upon its own tears, weaving into a funeral pall the dim shadows that a little exertion might sweep away, the strong spirit is shorn of its might, and sorrow becomes our master."

At a meeting of poorhouse guardians in England the topic for discussion related to the expediency of supplying paupers with fish dinners once a week. Mrs. Charles, one of the members of the Board, insisted that fish was not fit food for paupers because it contained phosphorus, which, while it was excellent for brainworkers, was not needed by paupers, as they did not use their brains. The measure was carried, however.

The politics of Germany are exceedingly complicated. The imperial parliament is divided into ten parties: Government conservatives, free conservatives, national liberals, liberals under Volk, progressionists, ultramontanes, Poles, social democrats, radicals, and independents. An eleventh party—a split from the national liberals—is now forming itself under the leadership of Rickert, of Dantzig. It opposes Bismarck's present policy.

The New York *Herald* remarks: "Fifty western mills devoted to the manufacture of wrapping paper are arranging to 'shut down' for nine weeks—cause, an overstocked market. Wrapping paper is used all over the civilized world and freights are low, but American manufacturers are so heavily handicapped by "protection" of everything they use, except raw material, and they cannot compete in foreign markets with foreign mills. The thousands of workmen who will be thrown out of employment by the closing of these mills will have leisure in which to discover how protection protects them."

A man who was convicted of theft and sentenced to the State prison in Philadelphia, the other day astonished the judge by making these pointed remarks in court: "I worked three years in your State prison making shoes, and I know as much about making shoes as I do about watches. They taught me to be dishonest. My principal work was to paste leather and pasteboard together to make a thick sole to impose on the public. The man who had the contract was a Christian, a member of the church, and at the time I called his attention to the pasteboard business he was foreman to the grand jury."

Emulating the enterprise of the States of the great Northwest, Missouri shipped to England 20,000 copies of a pamphlet descriptive of Missouri soil, climate, resources, and inducements to immigrants, but when the shipment, which weighs nine tons, reached Liverpool there wasn't a cent to pay even the landing charges. Happily, the Iron Mountain and Southern Railroad Company's advertisement is in the brochure, and the company's agent advanced the money to pay the charges. But now Governor Crittenden declines to reimburse the agent, and it is possible that the tons of Missouri literature in warehouses in Liverpool may be seized and sold as old paper to meet a charge of $60.

The frequency and destructiveness of tornadoes are exciting inventive genius to providing means for warning the people of towns of their approach. Prof. E. S. Holden has devised an apparatus for that purpose. He proposes to run a line of telegraph wire on the sides of a town from which tornadoes approach and bring it into the town, letting it end at the telegraph office. It is grounded at each end and connected at the telegraph office with a battery which sends a constant current over the line, connection being also made in various houses within the town with magnets, each of which holds a detent which prevents a bell from being rung. If, however, the tornado approaches the town, and its wind velocity rises to the dangerous rate of seventy miles per hour, the wire breaks, the circuit is broken, and instantly each bell begins to ring the alarm.

THE UNDERGROUND COMBINATION.

To-day we present the full text of the address to the public issued by the "National League for the Suppression of Polygamy" recently organized at Cleveland, Ohio. We do not entertain the idea for a moment that the object of the combination is defined by its name. Its purpose we believe to be the injury and, if possible, destruction of "Mormonism" as a whole, as an organized religious body. Having this opinion we are certain that the scheme is not only conceived in darkness, but born of hypocrisy.

The last paragraph but one makes this conspicuously clear, for if "wickedness, hypocrisy and moral corruption" were the real and not merely the pretended objects of the threatened onslaughts of the Society, more of these abominable conditions of a horrible and startling character could be found in Cleveland, or any other of the large cities of the country in one week than could be discovered in the "Mormon" community in a decade. While the land is filled with whoredoms, murders, robberies and every species of violence, works of darkness and all manner of abominations, the hypocrites pass them by as practices too common or too congenial for notice. Yet they hold up their hands, and raises their voices against the Latter-day Saints because of the conscientious belief in, and practice by a limited number of them of, the Bible form of marriage. They cannot be truthfully accused of being other than a pure, virtuous, sober and industrious community.

If this secret abomination initiated at Cleveland shall spread all over the country, surely the deep hypocrisy of the nation, steeped as it is in the slough of iniquity, shall bring upon it the swift judgment of offended heaven.

The stars which appear in the circular indicates omissions from the full document prepared by the supposedly unknown inquisitors, for the government of their "star chamber" proceedings. The omitted parts are not for the public eye. They probably would explain other objects held in view by the inquisitors. What would doubtless define the nature of the more nefarious duties of the members of the League and the Reserve Legion is not given. Neither are the more subordinate executive officials, nor the mode of procedure of the inquisitors in their dark seances.

We have already explained somewhat copiously, the predictions in the Book of Mormon, and others given directly through Joseph Smith in relation to the establishment of this secret combination, and what the result will be should it spread over the nation. Unless it is checked in its incipiency the prediction in relation to its effect will follow just as surely as that regarding its inauguration has been fulfilled.

MR. GLADSTONE'S ATTITUDE.

The attitude of Mr. Gladstone toward the anti-"Mormon" committee that waited upon him on the 23d inst., did good credit to his capacious brain and generous heart. It would be well for our leading men of national reputations to consider the position on this question of one of the foremost statesmen in the world.

It appears that the committee was grossly ignorant of the subject regarding which they solicited Mr. Gladstone's aid. They represented that the Elders were traveling about the country making a special business of entrapping young girls and shipping them off to Utah for sinister and immoral purposes. Doubtless they unjustly judged the Elders from the standard that prevails only too widely in the world. It is easily ascertainable by all who wish to inform themselves on the subject, that the missionaries preach the gospel of faith, repentance, baptism for the remission of sins, and the imparting of the Holy Ghost by the laying on of hands, and all who believe and obey their message, male and female, old or young, are admitted into the church. That people of no one sex or age predominate could readily be ascertained by observing the companies of emigrants which leave the port of Liverpool.

But notwithstanding the representations, or rather misrepresentations of the committee, the venerable Premier stood by the position he assumed on a former occasion of a similar character. He did not know that the Elders resorted to any illegal methods to obtain proselytes, and did not see that he could interfere. He appeared pronouncedly opposed to any legislation whose object would be the prevention of Mormon emigration from the country. Although Mr. Gladstone was mistaken in his opinion "that it was generally some hope of material benefit that caused people to fall into the arms of Utah missionaries," his remark that measures looking to the improvement of the material condition of the working classes would be a better method than a resort to legislation, was a mild yet somewhat cutting rebuke to the committee.

THE EASTERN REVOLUTIONIST.

The New York *Herald* gives the following as the prophecy concerning the appearance of El Mahdi, called the "False Prophet:"

"On the 1st of the month of Moharrem, in the year 1300 (November 12th, 1882) will appear El Mahdi or Messiah. He will be exactly 40 years of age, and of noble bearing. One arm will be longer than the other. His father's name will be Mohammed and his mother's name Fatima, and he will be hidden for a time prior to his manifestation."

Accordingly Mohammed Achmet, son of Mohammed and Fatima came forth from retirement, on the date stated. One of his arms is of such unusual length that while standing erect he can touch his knee with his hand.

Home missionary meeting in the Social Hall at 7 o'clock this evening.

THE SECRET ANTI-MORMON LEAGUE.

Office of the National League for the Suppression of Polygamy,
Cleveland Ohio, Nov. 20, 1883.

To the Public:

The National League for the Suppression of Polygamy was organized in Cleveland, O., October 27, 1883. The object of the League is the atolition of polygamy as practised by the Mormons. The following preamble and constitution fully explain the position of the organization.

PREAMBLE.

Whereas, It is our solemn duty, as citizens, to promote the welfare of our country and to preserve for coming generations a government founded upon righteous principles, free from all that tends to disgrace us as a people; and

Whereas, We recognize in the system of polygamous marriages inaugurated, fostered and perpetuated by the Mormons, an institution that is a curse to the nation, a foul blot upon the face of the earth, and a dangerous foe to the liberty of the Republic, striking, as it does, at the very basis of good government in bringing into jeopardy the homes of the Nation, and in violating the sanctity of the marriage relation; and

Whereas, We recognize the lamentable fact that the debasing institution is growing in power and wealth, we associate ourselves for the purpose of organizing a Society, the one aim and object of which shall be the total and absolute extirpation of polygamy. In accordance with this determination we establish the following

CONSTITUTION.

ARTICLE I.—NAME.

Section 1.—The name of this Society shall be *"The National League for the Suppression of Polygamy,"* with headquarters in Cleveland, Ohio.

ARTICLE II.—OBJECT.

Sec. 1.—The object of the League shall be the extirpation of polygamy in the United States of America.

* * * * *

ARTICLE III.—MEMBERSHIP.

Sec. 1.—Citizens of the United States shall be eligible to regular membership, but can be admitted only by a majority vote of the charter members. The name of no applicant shall be voted upon until two weeks after it is proposed by a charter member in good standing.

Sec. 2.—Any moral citizen shall be eligible to membership in the Reserve Legion, which shall be the title designating an auxiliary to the League. The duty of the members of the Reserve Legion shall be to assist in the work of the League.

* * * *

Sec. 3.—Members of the Reserved Legion shall be honorary members of the League, but shall not be permitted to participate in the meetings of the League, nor shall they be asked to contribute funds for the support of the League.

ARTICLE IV.—DUTIES OF MEMBERS.

* * * *

Section 2.—No member shall disclose the proceedings of any meeting of the League, nor the names of the charter members.

Sec. 3.—Each member shall take an oath solemnly obligating himself to observe the provisions of the two preceding sections.

ARTICLE V.—OFFICERS.

Section 1.—The officers of this League shall be one President, one Vice President, one Secretary, one Disbursing Treasurer one Receiving Treasurer, one Auditor, and one Sentinel.

* * * * *

ARTICLE VII.—MEETINGS.

Section 1.—Regular meetings of the League shall be held at least twice each month.

* * * * *

During the coming winter it shall be the purpose of the League to agitate the subject of polygamy; to expose the wickedness, hypocrisy and moral corruption existing among the Mormon bishops and saints, and to use all legitimate means to root out the debasing practices of the Mormon church.

It is suggested that Auxiliary Leagues be organized in every city, town and school district of the United States, in order that public sentiment be aroused and new ideas conceived. Auxiliary Leagues can be formed by the application of ten citizens in good standing to the National League for a charter, for which twenty-five cents will be charged.

"Truth" Stranger than Fiction.

New York, 28.—London *Truth* says: A party of Mormon missionaries from Utah have been working actively for the last six months in the western counties, and I regret to hear that they have induced quite a large number of persons in the rural districts to join that egregious body. Many converts have already gone out to Utah, and a still more numerous contingent have been baptized, pending the time when they will be ready to start for the promised land. It is lamentable to think that after the repeated exposures of the Mormon creed there still remain in this country, people capable of being ensnared by the outrageous fictions of the plausible vagabonds who are regularly dispatched to Europe from Utah in search of recruits. In America the humbug Mormonism has long been so thoroughly exploded that converts are rarely forthcoming except in the persons of individuals whose room would usually be considered preferable to their company.

The Cattle Question.

J. B. Grinnell of Iowa, in conformity with the recomendation of the late meeting of cattle men in Chicago has prepared a circular showing the amount of capital invested in the cattle and swine industry and the losses on exportation consequent upon the restrictive regulations and decreased relative consumption of beef. Grinnell finds that there is invested $168,000,000 in cattle representing 4,117,109 animals. The losses on exportation of cattle approximate, comparing 82 and 83 with 80 and 81, 155,909 animals valued at $11,536,000. Grinnell had an interview with President Arthur on this matter with a view to secure some remedy. The President is greatly interested, and will treat on the question in his next message. The heads of the treasury and agricultural departments, he also found anxious to extend some aid, and will do all they can to secure the framing of laws for the consideration of Congress. After consulting with the Commissioner of Agriculture as ex-officio chairman of the committee, Grinnell has called a meeting to be held at the United States Department of Agriculture in Washington, Jan. 10, 1884. He hopes that western people interested in the cattle industry will enlist their congressional delegations in its behalf.

Amicable Railroad Arrangements.

Chicago, 28.—Representatives of five roads composing the Iowa pool have been in session here all this forenoon and have been considering the proposition put forward by the Milwaukee and St. Paul road for a reorganization of the pool, under which that company shall be allowed increased percentage. It is stated on good authority, that five of the roads directly interested, have reached an amicable understanding as to the main point at issue, and that the continuance of the pool is now assured. Details of the agreement have not been given.

Sentenced for 20 Years.

Chicago, 28.—The State Legislature at its last session passed a habitual criminals act which provides that if anyone commits a crime, that after conviction for the first offense, he shall be punished to the full extent allowed by law for such offense and for a crime committed after the second conviction, receive not less than 15 years. The first conviction under the statute was that of Wm. Sullivan, who had served two terms for shooting at a police officer and for burglary. He was tried for burglary this time, and the jury awarded him 20 years.

FOREIGN.

LATEST TRANS-ATLANTIC DISPATCHES.

American Pork.

Paris, 28.—The decree rescinding the prohibition of importation of American pork was published in the official gazette.

The Situation in Egypt.

Cairo, 28.—The reported capture of Khartoum is unfounded. Turkish officers of the contingent ordered for service in Soudan consent to join the expedition under the command of Baker Pasha. All the English non-commissioned officers in Egypt have volunteered to go to the front. There is much enthusiasm among the troops.

Opening Japan.

London, 28.—A Tokio correspondent had an interview with the Japanese foreign minister, who stated that the Japanese government is most anxious to open the interior of Japan to foreign trade, stipulating only that foreigners availing themselves of the privileges granted shall be under the jurisdiction of Japanese courts. This will involve the revision of present treaties and the abolition of all foreign legal jurisdiction in the open parts.

The Peace of Europe.

Berlin, 28.—The Emperor at the reception of the President and Vice-President of the lower house of the Prussian diet, expressed confidence that the peace of Europe will be maintained. He referred in that connection to the good relations of Germany and Russia.

Thanking the Pope.

Rome, 28.—The American bishops are preparing an address thanking the Pope for summoning them to Rome and expressing unchangeable devotion to the holy See.

Railroad Wreckers.

London, 28.—Eight blocks of stone were placed upon a railway track near Wolverhampton. It is surmised that they were placed there for the purpose of wrecking a train in which Gladstone was expected to travel.

French Factories on Fire.

Paris, 28.—This afternoon at Roubaix, Dillies factory, covering 1,500 square metres, was burned this morning. The flames spread to the factory of Watle & Miellizon, which is now burning. The whole town is in danger, and the people greatly alarmed.

BORN.

WADE—In this city, November 27th, 1883, to the wife of Charles Wade, a son. All well.

DIED.

LUNN—At Bradley, near Dudley, Staffordshire, England, October 13, 1883, Richard Lunn, aged 72 years. He had been a member of the Church of Jesus Christ of Latter-day Saints about thirty years, and lived and died faithful.—*Mill. Star.*
