FRAGMENTS.

A GREEN hide has been lost, for which or information of which a reward is offered.

THE party who found a lady's black lace shawl near the Utah & Nevada Railway depot on the Fourth will confer a favor upon the owner by leaving it at this office for her.

THE delegates from the Twelfth Representative District can obtain their credentials by applying to H. G. Park, Esq., at the City Hall, next Friday evening, at half past seven o'clock.

THE monthly evening meeting of the High Priests' quorum will be held tomorrow (Thursday) at 7:30 p. m., at the Social Hall. High Councilors, Bishops and Counselors and all other High Priests are invited.

IT is somewhat remarkable that notwithstanding the immense crowds that thronged this city and vicinity on the Fourth, and the amount of fire and powder that came in contact on that day, there was not a fire of any magnitude nor a single fatality reported.

R. CLEGHORN wants information as to the vandals who destroyed his shade trees on the night of the Fourth, and offers $50 reward for their arrest and conviction. We hope the people of the neighborhood will lend all the assistance in their power and make an example of the miscreants.

IN OUR present issue is a notice in regard to sprinkling which is published by the Superintendent of Water Works. It has been called forth by the low stage of water in City Creek, and prohibits the use of city water by private parties for sprinkling between the hours of eight o'clock in the morning and six in the afternoon.

A Heavy Affliction.

As will be seen by the death notices elsewhere in this issue, Brother D. L. Davis, of the firm of Barnes & Davis, has lost two bright, promising children, by that fell destroyer, diphtheria. We sincerely sympathize with the family in their heavy affliction.

Police Court.

Wm. Burton and Samuel Williams, charged with drunkenness, were each fined $5.

Ivins Cook pleaded guilty to having been drunk; he had been sent up so frequently for the offense that the Justice imposed a fine of $20, with the alternative of 20 days in jail.

Heber Phelps, Fred. Phelps, Norton Curtis and Raymond Curtis pleaded not guilty to disturbing the peace, and their trial was set for this afternoon.

The Music Appreciated.

A gentleman who is a member of the Mining Institute, having himself appreciated very highly the organ recitals of Prof. Daynes, has been instrumental in having an appointment made for another recital. It will take place in the Tabernacle at 5 o'clock next Friday afternoon, largely for the benefit of visiting gentlemen connected with the Institute. The general public will be welcomed, but it is desired that all who attend be seated promptly at the hour named, as late comers disturb the audience, and mar the pleasure the music affords.

Death of a Young Man.

By letter from L. A. Bailey we learn of the death of George, son of President William Paxman, of Juab Stake, which occurred at Provo, July 1st. Deceased had been laboring on the Manti Temple at carpentry for two years. He was afflicted with rupture and, becoming ill, took stage for Nephi. On the way the trouble was aggravated, and he was sent to Provo to have it treated. An operation was performed for his relief, but was too late, and he succumbed. He is spoken of as an excellent young man, and leaves a wife and one child.

Did Not Arrive.

The immigrants did not reach Ogden last evening in accordance with the expectation founded on a telegram received by Apostle F. D. Richards yesterday, and referred to in last evening's News. Another telegram, dated Cheyenne, July 5th, received by Brother Richards, says that the company will reach Ogden at 5 10 this evening, which would give ample time for connection with the Utah Central train which leaves Ogden at six o'clock, and reaches this city at half past seven. The immigrants may therefor be expected to reach this city this evening.

Who Wants an Employe?

The following dated Pittsburg, Pa., June 27th, 1887, is self explanatory:

"If any one who reads this would like to get a faithful man to herd sheep or to do any other kind of common labor, and could advance the means to emigrate one from this city, I would cheerfully recommend Brother Cyrus E. Dumm, whose address is 317 Conrad Street, Pittsburg, Pa. He is a faithful Latter-day Saint, and has a wife and four children (daughters). They are very desirous of gathering with the Saints, and would be eternally grateful to any person that would assist them, and Brother Dumm would repay the amount with his labor.

Very respectfully,
ISAAC W. PIERCE,
President Pennsylvania Conference."

War on the Worms.

For some yet unexplained reason one of the most persistent pests of our orchardists seems to be rapidly disappearing. The tent caterpillar, that used to hang the repulsive folds of its poisonous canopy for almost every bough, this season is comparatively scarce, and where it does make its appearance the gardeners are making short work of it with the knife and the torch. It is to be hoped that this good work may go on until the last vestige of the plague is driven from our fields and orchards forever. A little vigorous work now will do the business and leave no germs for another season.

A Pest from the Pacific Coast.

California fruit growers have been loudly complaining for some time past of what is termed the cottony-cushion scale, for which they seem so far to have found no antidote, and they claim that it is constantly spreading, year after year. It has also made its appearance in this Territory, but as yet is limited to certain localities. It appears at a distance like white frost in small isolated patches on the leaves and limbs of the orchard, and is found most plentiful on the apple trees. On close inspection underneath the white fur will be found small red bugs in various stages of development. That these are injurious to the tree cannot be doubted, and if we desire to maintain the good reputation of our fruit something will have to be done to check the ravages of this invader. Any one having a knowledge of an effectual remedy for this evil should certainly make it public.

The Tabernacle Fire.

That section of the Tabernacle roof which was injured by the flames of the fire balloon on the Fourth has been promptly removed and replaced by new material. It is now arranged that a watchman shall take charge of the building, and water being conveyed by pipes from the water mains, is instantly available for flooding the building in any part, consequently it may be considered comparatively safe from fire in future.

THE CONVENTION.

The Work of Framing a State Constitution Drawing to a Close.

In the further proceedings of the Constitutional Convention yesterday afternoon, a considerable portion of the committee reports was acted upon, and numerous amendments made. A motion to change the name of the State from Utah to Deseret was lost by an overwhelming majority. At the close of the day's labors, the Convention adjourned to 9 a.m. to-day.

This morning the consideration of the committee reports was continued by the committee of the whole.

Article XI, "Education," was further amended, the following being added to section 2:

"Nor shall any professor, instructor or teacher be preferred, employed or rejected in said schools on account of his religious faith, or belief, or his affiliation or sympathy with any denomination, creed or sect."

Article XII, "Militia," was then taken up. A number of amendments were made, and the article was passed.

Article XIII, "Public Institutions," was accepted.

Article XIV, "Boundaries," Article XV, "Miscellaneous Provisions," and Article XVI, "Amendments," were read the first and second times by title. These articles were then taken up on third reading. The date of holding general elections was changed from the first Monday in August to the Tuesday next after the first Monday in November in each year. With a few other changes the articles were accepted.

The Committee of the Whole arose, and the Convention resumed its session.

The Committee on Schedule and Election made a partial report on article XVII, "Schedule and Election," covering sections 1, 2, 3, 4, 6, 9, 10, 11, 12, 13, 14, 15, 16 and 17. Sections 5, 7 and 8 were not reported on. They refer to placing the constitution before the people for ratification.

The Convention then went into committee of the whole, and took up the report of the committee. Article XVII, as far as reported, was read, amended, and accepted by the committee. It is provided that a certified copy of the Constitution shall be published in one or more newspapers on or before July 15, 1887.

The matter of the election of justices was referred to a special committee, and the Convention took recess till 2 p. m.

The question of minority representation was again raised by Mr. Snow, who moved that an amendment be inserted, prescribing that "the legislature shall provide by law for minority representation." The motion was lost by a vote of 10 to 33.

The Convention was in session when the News went to press.

This afternoon the Convention met in regular session, and took up the Constitution by sections for consideration.

A proposition to leave the power to the legislature to provide that in civil actions three-fourths of a jury may find a verdict, was carried.

A motion to strike out the provision for naval forces was voted down.

From the "Pen."

Yesterday three "Mormons" who have been confined six months in the penitentiary for living with their wives, were brought before Commissioner Norrell, with a view to being released from custody, they having served the full term of imprisonment and 32 days extra for the fine imposed. These "Mormons" were Thomas McNeill, Hugh Adams and Robert Henderson, of Logan, Cache County. It was shown that they were all poor men, but the Commissioner refused to discharge them. Brother Adams was successful in borrowing the amount of his fine, paid it and was released. The other were, however, sent back to the penitentiary. Attorney Moyle represented to the Commissioner that such a proceeding was an outrage and that official finally discharged Thomas McNiell. In the case of Robert Henderson, however, he refused to change, and a further hearing will be heard tomorrow.

In the case of Brother McNiell, shortly after he was taken to the penitentiary he was called out and notified of his discharge. Though he is 65 years of age and feeble, he was compelled to walk the four miles in the broiling sun to the city and carry his bedding and clothes.

The Mining Engineers.

This evening the members of the American Institute of Mining Engineers are expected to arrive in this city.

At 8:30 they will hold their first session at the Chamber of Commerce. Addresses of welcome by the local committee will be made, also by the citizens' committee; and to these a reply will be made by the President of the Institute.

At 9 a.m. to-morrow they will go by special train from the depot of the Utah Central Railway to the Hanauer (formerly Morgan) Smelting Works, at Morgan Station, six miles south of Salt Lake City, R. H. Terbune, superintendent; to the Germania Smelting and Refining Works Germania Station, seven miles south of this city, Samuel James, Superintendent, to the Mingo Works, Sandy, thirteen miles below the city, J. N. Tileman, Superintendent.

At 2:15 they will run out over the Utah & Nevada as far as Garfield Beach and at 9:30 in the evening will be tendered a citizens' banquet at the Walker House.

On Friday, at 5 p. m., the engineers will attend an organ recital by Prof. J. J. Daynes, in the Tabernacle.

On Friday at 9 a. m, the second session will be held at the Chamber of Commerce, and at 2 p. m. the third and closing session will commence.

At 7 30 p. m. they go to Lake Park.

On Saturday at 6 a. m. they leave by special train for Park City.

A New Roofing Compound.

Brother W. Turner, of the Sixteenth Ward, this city, has just secured the agency for Utah, for a new roofing compound. Brother Wm. Turner has been testing its qualities for not less than three months, during which time he has put it on a number of buildings where it has given the utmost satisfaction. The Wasatch building has been covered with it, as have also Mulloy & Paul's livery stable, the Co-operative Wagon and Machine Co's building, Henry Dinwoodey's store and other places. The peculiarity of the paint is that it is a compound, the ingredients being so mixed as to give it an elastic quality. For this reason it will expand or contract according to the weather and therefore does not crack. Brother Turner will guarantee that the hottest of suns and the most exposed of places will not cause the paint to run. He is doing a good business and made the purchase after a careful test as to its merits, when he felt he could conscientiously recommend it to the public as he does now in the advertisement which appears elsewhere. He invites inquiry and any person curious to know whether the compound is meritorious may refer to Mr. R. Cleghorn, superintendent of Z. C. M. I. drug store.

CITY COUNCIL.

The City Council met in regular session on Tuesday evening, at 7 o'clock Mayor Armstrong presiding.

Charles B. Garney petitioned the city to sell him the vacant lot at the corner of Fifth West and North Temple streets. The petition was not granted.

John Chapman asked for a free license to peddle fruits, notions, etc., for one year. Granted.

S. G. Read petitioned for the remission of his license and taxes. That part of the petition relating to license was granted.

Councilor Wells stated that two flumes were badly needed at the corner of Fifth East and Eighth South streets, and upon his motion they were ordered put in.

M. W. Taylor applied for the amount of taxes on lots which have been sold for taxes and reverted to the city. Referred to the committee on finance.

Certificates of tax sales for 1885 and last year were referred to the finance committee.

The bill of Dr. Richards, amounting to $35, for professional service to a teamster in the city employ who had his arm broken, was allowed and the amount appropriated.

One thousand dollars were appropriated to the watermaster to pay the bill of David James & Co., for laying wooden pipes from the canal and connection with sprinkling hydrants.

The ordinance recently passed in regard to water rates made it necessary to appoint a collector and assessor of water rates. On motion of Counselor Grant, B. Y. Hampton was appointed to the office.

The Council then adjourned.

Funeral of W. Lambourne.

Yesterday afternoon, July 5th, the funeral service over the remains of the late Elder William Lambourne, of the Twentieth Ward, was held at the family residence. A large number of relatives and friends were present. The speakers were Elder Thomas Higham sen., Bishop O. F. Whitney and Elder C. R. Savage. The demise of the deceased occurred on Sunday, July 3d. He had been ailing for some time, yet his death was so unexpected that probably many of his acquaintances will learn of it for the first time from this notice. He was a respected, unobtrusive man, faithful to his religion. He was a native of Chievely, Berkshire, England, where he embraced the Gospel many years ago, and came to Utah in 1866. He was in his 65th year.
