Europeans Killed at Alexandria.

ALEXANDRIA, 12.—There were serious riots to-day between natives and Europeans. Several persons were killed and wounded and a number of houses destroyed. The police at first remained inactive. A riotous demonstration took place before the French consulate, in which several were mortally wounded. The disturbance continued some time before the authorities took steps to suppress them. The English consul was severely hurt, receiving a gun shot wound. An engineer of the British man-of-war was killed. The disturbances continued five hours, when the military appeared and dispersed the rioters.

LONDON, 12.—A telegram published here says, an official report of the riot in Alexandria gives the number of Europeans killed at 67.

The *Times'* correspondent at Cairo lays the responsibility for the riots upon Arabi Pasha. Dervich Pasha had summoned him to resign, and there seemed no alternative but submission or defiance, but since the riots broke out Dervich Pasha has had to appeal to Arabi Pasha as commanding the only available force to restore order.

In the House of Commons Dilke, Under Foreign Secretary, read telegrams from Alexandria stating that the vice consul is convalescent and that the riots were not of a political character.

Dispatches from Alexandria, dated 2 o'clock this afternoon, say the town is quiet.

Another dispatch from Alexandria says: Kotherue Des Loewis, inhabited chiefly by Europeans, is completely wrecked. The Europeans fired from their windows, killing many Arabs. The latter made terrible havoc among the Europeans in the streets. The British Consul was dragged from his carriage and terribly beaten. Dervich Pasha and Arabi Pasha, left Cairo for Alexandria. The engineer of the British man-of-war was stabbed to death.

Priestly Proclamation.

DUBLIN, 11.—The Irish bishops have issued an important address promising the support of the clergy to the people in peacefully agitating for their rights, but condemning as the worst enemies, countrymen who recommend illegal courses, particularly those belonging to secret societies. The bishops condemn the recent horrible murders, but believe they were due to evictions, which it is the duty of the government to stop at any cost. The bishops point out that which is morally wrong cannot be politically right. It is the indisputable right they say, of the Irish to live on their own soil; it is the right and often the duty of those oppressed either by state or by individuals to seek redress by lawful means. On these grounds a natural movement has the approval of priests and bishops and even the Pope, and of all just and generous men without distinction of race or creed, but it is notorious the means often employed are utterly subversive of social order.

Floods.

PESTH, 11.—Disasterous floods occurred at Versecz. A number of houses and two bridges were destroyed. Twelve children and several adults were drowned.

Another Account.

CAIRO, 12.—The following report of the riot has been received from Alexandria: Cookson, the English [illegible] ing from the great square to the Governor's residence, he saw two Europeans respectably dressed and apparently naval officers in plain clothes, knocked down. A Greek was shot and killed by a soldier five yards from Cookson's carriage, and others even closer, were knocked down and stabbed. A soldier cut at the consul's kavass with a sword. The carriage of the Greek consul was stopped by a number of soldiers, and the occupants dragged out. The consul was severely beaten. Cookson escaped severe treatment by his coachman lashing the horse, but he was struck on the head, and one of his arms was broken. The Italian consul was wounded by a stone. The wife of the Austrian Consul-General was attacked and insulted. Accounts as to the origin of the riot are conflicting.

Ignatieff Relieved.

ST. PETERSBURG, 12.—General Ignatieff, at his own request, has been relieved of the post of Minister of the Interior, on the ground of ill-health, and appointed president of the Academy and member of the Senate. He retains his membership of the counsel of Empire and his adjutancy. Count Eolsto, formerly president of the Academy, is appointed minister of the interior.

BRIEF TELEGRAMS.

At Columbus, Ex-Governor Denson is gradually declining and death is looked for at any hour.

The iron mills in Covington, Newport and Aurora are all at work to-day under agreement.

Lord Granville stated that Admiral Seymour was empowered to land sailors at Alexandria, if necessary.

Representatives of both parties are beginning to talk hopefully of adjournment within the next 30 days.

The House has concurred in the Senate amendment to the army appropriation bill, fixing compulsory retirement.

The House pension committee agreed to recommend a pension of $500 per year for ex-President Taylor's daughter.

The issue of standard silver dollars from the mints for the week ending June 10th, was 207,998, against 243,999 issued during the corresponding period of last year.

In the House of Lords this afternoon Lord Dalhousie moved the second reading of the bill legalizing marriage with a deceased wife's sister; rejected, yeas 128, nays 132.

The ways and means committee will meet on Tuesday to consider the subject, and some of its members think it possible to get away by July 4th. Many members are absent and those now in the city are impatient to return home.

The grand jury reconvened and proceeded with the consideration of the Star route cases, taking up route No 35,040, under contract to J. M. Salisbury, from Pembina to Fargo. A number of witnesses from that section went before them in that connection.

The St. Louis *Republican's* Kirksville special says: The wife of Frank Mason, the leader of the bank robbers, has turned up and restored $1,300 in gold stolen from the Brookfield Bank. A special grand jury has found indictments against all the robbers, charging them with robbery and assault to kill.

Ex-Vice-President Wheeler, has formally declined to serve upon the tariff commission. His declination may be followed by others. The President intends to nominate substitutes for Wheeler and Phelps this week. The declination leaves the commission entirely made up of comparatively unknown men.

Among the good results of Villard's visit to the West is an order that hereafter there shall be no more than 160 acres of North Pacific land sold to any person. For months past the West, and especially the Yellowstone Valley, has been swarmed with Eastern speculators, buying up large tracts of land to be held for a rise. Villard's order completely checkmates the speculators.

At Baltimore, a large meeting of Israelites was held this afternoon to adopt some organized system of aiding the Russian refugees. Abraham Hatchman presided. Three hundred dollars was subscribed for immediate aid. A committee was appointed to act conjointly with the Hebrew Benevolent Society to provide financial assistance and to procure employment for the refugees. The secretary was directed to notify the New York committee to send no more refugees from that city to Baltimore at present, as the number now here and others to arrive very soon, were as many as could be provided for.

"I'm not going to school any more," said a little four-year-old boy to his mamma, on his return from his first day at the kindergarten. "Why, my dear, don't you like to see the little girls and boys?" "Yes, but I don't want to go," persisted the boy; "'cause my teacher says that to-morrow she's going to try to put an idea into my head."

That amphibious individual of rubber suit fame, Capt. Paul Boyton, never attempts a trip without St. Jacobs Oil, the great rheumatic and neuralgic specific.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few early editions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever acquired so wide a reputation, or maintained it so long, as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvelous cures, that have won for it a confidence in its virtues, never equaled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medicine. Indeed, the CHERRY PECTORAL has really robbed those terrible diseases of their terrors to a great extent, and given a feeling of immunity from their fearful effects, that is well founded, if the remedy be taken in season. Every family should have it, for their share, for the speedy and prompt relief of its members from needless suffering, and even life is saved by the timely defence. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its early use in sudden attacks.
