

Delivered Fine Lecture on the "Gush and Gring of Pedagogy.

WILL SHOULD BE DEVELOPED.

In the Evening the Noted Visitor Gave An Address at Barratt Hall on Self Culture.

A large audience assembled in the museum builliding of the University of Utah yesterday afternoon to hear esident E. Benjamin Andrews of the University of Nebraska deliver his tecture on the "Gush and Grind of Pedagogy," and to say that the audience was interested and pleased would he putting it mildly. Dr. Andrews was introduced by Prof. Stewart. From the beginning to the close of the lecture the speaker had the undivided stiention of his hearers. Dr. Andrews said in part:

THE MEANING OF GUSH.

" shall change my intended theme for this occasion and speak on The Gush and Grind of Pedagogy.' What do we mean by gush? It is the thing now being specialized in a certain Chischool where, in a fashion, the CLEO child is permitted to do as he chooses. ss is placed on spontanelty and All stress is placed on spontaners and not on development of the will. All things interesting to the children are selected at the expense of will power developed in mastering difficult things. The school that has all spontaneity and no will power is the school of gush.

REAL FOOLS ARE FEW.

must be said that gush has its geed points. A pupil so taught is trained in his own way. None but fools are fools, and real fools are few. There ssibilities in children which may cloped by the gush process. Such terns points as children have may be peated and developed in this way. It has good points, but there is a line of cleavage over which it is not wise to follow it. It has its infelicities. It develop the one-line man or spe-st, and will develop in him the be-that he can at will master any branches of learning, just as he did his specialty. He cannot do this, Pupils and teachers fall into this comerror. Wher this gush method is earned to an extreme it is sure to do harm. We should develop spontanelty, life and its problems are large, we should expand our minds and

ods to meet their needs, e should always remember that we shall never like the things we shall have to do. We do not like the multiplication table but it is absolutely nec essary to all men who aspire to be slove a laborer. All physical sciences are founded on mathematics, yet no man over loved to acquire such knowl-

GRIND OF PEDAGOGY.

"Of the grind of pedagogy I would cite the case of an old Mexican war veteran who held a school in awe by means of a horse pistol, and that of my own youth where a teacher carried nears of a horse pistol, and that of hess, loss of appende, siepleseness ber-my own youth where a teacher carried vousness, or any disorder of the stom-s ruler and beat us with it. Sponta-neary was dead there and the grind of study was uppermost. The man was cruel with us, but to him it was a sense of duty. We dreaded the thrash-sense of duty. We dreaded the thrash-

"First is a good body. I have known. those who seemed to enjoy poor health; in fact, there was a time, not heaith; in fact, there was a time, not so long ago, when it was deemed poor form in a teacher to have a healthy body. Now we believe in a healthy mind in a sound body. No man can have spirituality or mentality in a diseased body. "Secondly, we should have a thor-ometic devolved with Vire

are some extra elements which enter

oughly developed will, Fifty years ago we did little for the will. A man is far from a thorough education, who is far from a thorough education, who is not master of his will. How important is the power to put the sense of duty into an act! Boys should be taught in the home to do things necessary to keep articles in repair; that they may feel the promptings of duty and find the will to do. We should train the will, and train new. On occasions we should exert our senses to the utmost just to see what is in us and he ready. just to see what is in us, and he ready to answer the higher demands of the will when made. Then we should sirike a pace and keep at it. Know just what we can do, and always do

Thirdly, we should cultivate the esthetic sensibility. This sense must be trained. There is a love of beauty This sen given of the Creator to all men, and wee be to us if we keep it down. We should create esthetic surroundings. Environment, here as elsewhere, has

that.

may be

I note your comment in Tuesday's "News" relating to my sermion which much to do with oulture. "Fourthly, we should develop our you publish in the same issue. I cer-Unless a man loves his | tainly have no complaint to this very moral nature God and his fellow man he is not a cultured map. This culture is possible fair method of using me and probably if we continued the discussion indefifor us all, if we will only have it. Rich or poor, in town or country, all can have these blossings if they will it so, nitely we would occupy just as dislinctive positions as we do now. I "Some of the sources of this culture write, however, for one reason to acconsidered. Whence com knowledge the textual correction you culture? It is acquired from mother nature. All science finds its works in make in regard to the book from which the verse referring to the tables of nature. The earth is the starting point of biology, zoology and all that touches the law was taken. In my sermon I am very sure I referred to it correctly on man or animal. No artisti ca match the beauties of nature. Th as corving from Exodus, but in the somewhat hastily prepared abstract, prepared Sunday afternoon for the press, I mis-wrote it, and lack of time natch the beauties of natural out ich man can get no more beauty out

of God's starry sky than the tramp. If we do not get out of nature all she thrusts on us, we are poorly cultured. and solely because we so elect. "Literature is a valuable and an in-valuable gift to man. Literature is

valuable gift to man. Enterature is not always in great librariles. It is not necessary to read thousands of books to be cultured. I take it the Bible is the first and greatest book in existence. Then the Illiad of Homer; then Soph-ocles, then Shakespeare, then Dante, then Goethe and hastly, Milton. If you do not have these, it is your full. then Goethe and Instly, Milton. If you do not have these, it is your fault. They are in public libraries and they contain all the demonstrates and they ntain all the elements of true litera-

ture 'Art and all her inspirations are to be had through photography, by the poorest man among us. If you do not know its inspiration you are to blame, "Humanity must be large in you if you are to be a successful teacher. It the highest honor of my life that I am a teacher, because it brings me in contact with my fellow man, and helps me to give rayself to him. A shipwrecked vessel drifted into the mouth of the Amazon river. The crew were dying of thirst. They hailed another ship, calling for water. The an-swer came back, 'Drop your buckets where you are!' Ladies and gentlemen, the water of self-culture is all about you. Drop your buckets where you are!

SUPPLEMENTAL **BID FROM MORAN** Contractor Has Finally Won in Fight for Street Paving. PRICE REDUCED BY \$12,000. Board Accepted His Latest Offer and Matter Will be Sent to Council For Its Approval. Rather than be defeated in his efforts o secure four big street paving contracis from the city and in order to overcome the deadlock between the board of public works and the city council in regard to the matter, Con. tractor P. J. Moran yesterday after noon filed a supplemental bid on the work in which he reduced his recent bids in the total sum of \$12,000. The

COMPLETELY BROKEN DOWN

The Doctor Could Not Cure Me. Began Using Pe-ru-na.

Completely Restored to Health in Two Months.

"Please accept my sincere gratitude." So writes Mrs. Binkert, of New Mexico. Dr. Hariman, in the past few years, has received numberless letters with similar expressions of gratitude,

No physician in the world has a larger number of grateful patients scattered all over the civilized world than Dr. Hartman.

Not a day passes that he does not receive some token of appreciation from the patients he has cured of some chronic malady.

The remedy which has brought Dr. Hartman into such fame is Peruna.

People have generally bought it at the recommendation of some friend or neighbor.

Usually they begin taking it without any other advice than the directions that are on the bottle,

From this host of patients Dr. Hartman raraly receives any letter. But a small per cent, of those who buy Peruna find it necessary to write Dr. Hartman concerning the matter.

These inquirers receive a prompt reply, for which no charge is made. This generally results in a cure,

The multitude of heartfelt, sincere testimonials which pour in upon Dr. Hartman every year is a gratifying result of such a stupendous character as few physicians in the world can boast.

Mrs. T. F. Binkert, Albuquerque, New Mexico, care Traction Co., writes:

"I was completely broken-down a few years ago. My doctor's prescriptions did not seem to bring about the desired results, and I took my case in my own hands and began using Peruna. I felt better and stronger, had a splendid appetite in a very short time, and was pleased to think that I had discovered the right medicine for my case. In two months I was completely restored to health, was not troubled with headaches nor any other aches, and owe my good health to Peruna. Please accept my sincere gratitude."

Mrs. Ruth B. Brent, Holmes, HI., | Mrs. Kitty Bogue, R. F. D. 3, Middlewrites: "I was in poor health three field, Ohio, writes :

SIX BEST SELLING BOOKS

Record For May.

According to reports from the leading book sellers of the country, the six books which have sold best in the order of demand during the month sre:

Lady Balilmore, Wister \$1.50 The Spollers. Beach 1.50 The House of a Thousand Can-the day

DESERET NEWS BOOK STORE. 6 Main St.

tion that he unde rstood that Mora would deduct \$12,000 from his bids, and that the reduction should be made from Second South bid as well as the others. He, therefore, called Mr. Moran up on the telephone and the latte greed to make the reduction \$12,300, and have it apply to the Second South street contract, too. The members of the board were in

formed of the contractors' proposition after which Assistant City Attorney Dininny was asked as to the legality of rescinding the action of the board and awarding the contracts to Moran mean his supergenerated bids. The two upon his supplemental bids. The lat-ter replied that he was of the opinios that it would be legal as between the board and the contractor, but he would not say as to whether or not the propertyowners would be bound by it.

Barlow then moved that the action the board on June 15, in rejecting the bids be rescinded, and the motion was carried unanimously. Brooks then moved that the contracts be awarded to Moran in accordance with his bid over the telephone, and that the engi-neer be instructed to deduct the \$12,000 from the contracts. This motion also carried unanimously,

CONTRACTS AWARDED.

The contracts awarded to Moran are for paying First South street from West Temple to Third West; East Temple from Fourth to Ninth South; State from Fourth to Seventh South Fourth South from West Temple i ond East; Second South from Third to Tenth East streets. The tota amount of Moran's bids on June 15 was \$319,876.60. After deducting the \$12,000 it leaves the total \$307,876.60. The bids of the Barber Asphalt company on April 11 amounted to \$304,038.50, so that the bids as they now stand after de-ducting \$12,000 are still \$2,839.70 higher than the April bids.

The board also decided to give Moran the contract for repairing the street paving at \$1.75 per square yard. This means a total of about \$2,500 more for the wily contractor.
