in Technical Training.

"77"

The popularity of "Seventy-Seven," Dr. Humphrey's Famous Specific for Grip and Colds, is due to:
The cures and the way they are made.
The quickness of the cure—breaking up a cold promptly.
The completeness of the cure—no ill effects left behind.
The tonic effect—the energy is sustained during and after the cold.
The convenience—a small bottle of pleasant pellets that fits the vest pocket.

At all Druggists 25 cents, or mailed on receipt of price. Doctor's Book Mailed Free.
Humphrey's Homeopathic Medicine Co., Corner William and John Streets, New York.

COLDS

ion labor is responsible. Particular stress is laid on the efforts of labor to secure the passage of an eight-hour day before Congress, which is called "vicious." Recipients of these letters are asked to become members of the Manufacturers' association. The letters bear the signature of David M. Parry of Indianapolis, the president.

Ada Dennis Murder Mystery.

Washington, Oct. 24.—The coroner's inquest was held here today over the remains of Mrs. Ada Gilbert Dennis, the fashionable dressmaker, who died Wednesday as a result of the mysterious assault committed upon her ten months ago.

One of the important witnesses, Richard Cole, a colored porter, who attended to some of her callers, was absent on account of illness.
On account of the revival of talk regarding the possible connection between the tragedy and the subsequent suicide of Samuel J. Presley, a printer, two of the latter's brothers from New Orleans were in attendance today.

Dr. Wade H. Atkinson, who attended the murdered woman, and Mrs. Jane E. Dennis, her aged mother-in-law, gave testimony that threw no light on the case. Mrs. Dennis said Presley had never visited her daughter, and that she knew of no male visitors.

Recipients of Coronation Honors.

London, Oct. 24.—Nearly 400 recipients of coronation honors were invested by King Edward at Buckingham palace today. The investiture was carried out in the ballroom with unusual ceremony. All the great officers of state were present, and the scene was particularly brilliant, as all the participants, in accordance with the king's instructions, wore all the ribbons, orders or medals they possessed.

REDUCTION OF THE ARMY.

Order for It Issued by Direction of The President.

Washington, Oct. 24.—A general order to the army was issued today announcing that by direction of the president the organization of the enlisted strength of the army under the reorganization act of Feb. 2, 1901, shall be reduced to 56,589, the minimum authorized by law. Under this order the various arms of service are to be reorganized as follows:

Infantry companies, 65; coast art-

illery companies, 109; field artillery batteries, 120; two siege batteries, 160 each; cavalry troops, 65; engineer companies, 104; except that at the service schools at Fort Leavenworth and Fort Riley the cavalry troops are allowed 85 enlisted men. Another exception is made in the case of the legion guard of infantry at Pekin, which is fixed at 90 men.

The reductions are to be effected by casualties as they occur, through expiration of service, etc., or by transfers, so that recruiting, especially for artillery and engineers, will be confined to the re-enlistment of deserving soldiers who apply within three months of discharge, or such other enlistments as may be especially authorized.

The Grampus Ready for Trial.

San Francisco, Oct. 23.—The submarine torpedo boat Grampus, recently built at the Union Iron Works, is in dry dock being made ready for her official trial on the bay. This will include not only the submarine boat trip but a cruise of some distance with perhaps a test of her efficiency in approaching a vessel unawares.

To Regulate Wireless Stations.

New York, Oct. 23.—It is reported, says a Tribune dispatch from London, that the proposed international conference for regulating relations between the wireless telegraph stations of the various nations will take place in Berlin about the end of next March. America, Austria, England, France, Italy and Russia responded to the initiative of Germany in the most friendly spirit and the majority of these states have now intimated to the Berlin government that they will accept an invitation to such a conference in Berlin on condition that the program is fixed beforehand and sent with the invitation. It is not yet quite certain whether it will be possible to draw up a program before the end of February next.

Salisbury's Condition Favorable.

New York, Oct. 23.—Despite the rumors in circulation that the Marquis of Salisbury is in a critical condition, the Herald's London correspondent cables that he is in a position to state that Lord Cranborne, Lord Salisbury's eldest son, has just received extremely favorable news of the former prime minister's progress toward renewed health. Lord Salisbury will, however, remain abroad for two months longer.

Cleveland Will Stump New Jersey.

New York, Oct. 23.—For the first time since he left the White House former President Cleveland will take the stump in a political campaign and speak at a Democratic rally in Morristown, N. J., on the evening of Oct. 25. He will address the voters for the benefit of the party in general in Morris county and particularly to help the cause of De Witt C. Flanagan, nominee of the Fifth district.

Wu's Son Member of Morris Guards.

New York, Oct. 23.—Chao Chu, son of Wu Ting Fang, the Chinese minister, has donned a uniform and is drilling with a rifle, says a dispatch from Atlantic City to the Press. He is attending school here and has been admitted to membership in the Morris guards, the crack military organization of South Jersey.

Two Prize Dogs Dead.

New York, Oct. 23.—A touch of excitement was felt at the closing of the Ladies' Kennel association dog show at Madison Square Garden, when it was discovered that two dogs, Lady Ellen

and Crib, valued at \$500 and \$700 respectively, were dead. Every indication was that the animals had been poisoned by unknown persons. Lady Ellen won first prize in the open class for bull dogs.

Sister Mary Dolores Dead.

New York, Oct. 23.—Sister Mary Dolores, one of the founders and for many years the procurator of the convent of Mount De Sales, near this city, is dead, says a Baltimore dispatch to the Times. She was 73 years old. Sister Dolores was known throughout the country by hundreds of women in society and literary life who were educated at Mount De Sales. On Feb. 17, 1900, she celebrated her golden jubilee.

GEN. J. F. WESTON'S REPORT.

Subsistence Problems in Philippines Are Very Complex.

Washington, Oct. 23.—The annual report of Gen. John F. Weston, chief commissary of the army, shows that there was placed to the credit of the bureau \$16,354,444, and there has been expended \$2,651,003 during the fiscal year ending June 30, 1902.

Concerning affairs in the Philippines Gen. Weston says:
"Subsistence problems in the Philippines have presented at all times complex and difficult problems, but the present period has been one of extreme difficulty to meet satisfactorily. New and shifting conditions have arisen at every step, and what was today becomes a difficulty tomorrow, so that it has been impossible to map out any definite plan or make a provident recommendation; but it is expected that a settlement and satisfactory basis will soon be reached upon which intelligent action may be founded. The policy of concentration which has resulted in large reductions in military forces and posts, and by which troops are to be stationed at sea coast ports and along the railroad will make toward an early and satisfactory solution."

"The question of transportation is the most difficult and important one which has to be dealt with now, and this is particularly true with regard to the department of the south Philippines. While it is recognized that there are difficulties incident to the situation, the fact remains that lack of adequate and satisfactory transportation facilities is the cause of just and endless complaint and brings criticism and odium on the subsistence department for failure in a matter over which it has no control, but which so vitally concerns it. Troops in many places are wholly dependent upon the subsistence department for their food supply and their complaint of being deprived of supplies not only absolutely essential to health, such as beef, fresh vegetables and ice, but also of comfort for their wants and comfort. Large losses are entailed by delays in shipments of perishable stores."

Gen. Weston recommends that wherever permanent posts are located in the Philippines cold storage and ice making plants be provided.

NO DOUKHOBORS WANTED.

British Columbia Has No Use for Such Immigrants.

Victoria, B. C., Oct. 24.—The Doukhobors of Assiniboia were today officially notified that they are not wanted in British Columbia. Sir Henry Joly de Lotbiniere, acting on the advice of his ministers, has sent to the petitioners, who asked for the setting aside of a portion of the province for their use, the following reply:

"I have duly submitted your petition to the provincial government. The government, while ready to welcome with pleasure desirable immigrants, refuses absolutely to enter into negotiations with a body of immigrants who at the outset declare that they will not conform with the laws of the country."

Smallpox Epidemic Among Indians.

Helena, Mont., Oct. 24.—Dr. A. F. Longweave, secretary of the state board of health, has returned from Havre, where he had gone at the request of the authorities for consultation concerning the smallpox epidemic among the Indians of Montana. He reports that the epidemic of smallpox among the Cree and Chippewa Indians camped about that city.

The doctor stated on his return that he found a camp of 13 Indians suffering from the disease. The disease is in its early stages in various stages. Before he left Havre the local authorities had ordered compulsory vaccination throughout the city, and the complete isolation of all the Indians. Quarantine stations were placed about the outskirts of the city to prevent the entrance of any additional bands of wandering Indians who might be traveling that way.

Rev. O. I. Bennett's Ankles Broken.

Caldwell, Ida., Oct. 24.—While ascending the roof of the new Christian church to paint the same, the scaffolding on which Rev. O. I. Bennett was standing gave way and he fell to the ground, fracturing both ankles. The unfortunate man was taken to the home of S. S. Foote, and Drs. Isham and Maxey were summoned. An examination revealed that both ankles were broken and fractured and he sustained internal injuries.

Geodetic Survey Steamers Return.

Seattle, Oct. 24.—Three of the United States coast geodetic survey steamers, the Gedney, Capt. E. F. Dickens; Patterson, Capt. J. R. Pratt; and McClure, Capt. Westdahl, which for the past summer have been engaged in Alaskan waters, arrived in port today. They will remain here awaiting orders.

Mr. Patterson was here on Oct. 16, but left that day to convey Mrs. Shaw, wife of the secretary of the treasury to Victoria, where she met her son, Earl H. Shaw, who has been with the party about the glacier. The Gedney has been working in the straits, near the Muir glacier, finishing up the work which was started from both ends last year. Before she left it was completed, and now the hydrographic and topographic details of the straits are of record. The data will be forwarded to Washington at once.

The McClure has been doing the same class of work in Prince William sound and has about finished. The Patterson was working in Bering sea, St. Lawrence islands and Nunivak, where points have been established. Throughout the entire season none of the boats has had an accident or report. The weather generally has been good and the health of all aboard was the best. Several of the officers will apply for leaves of absence in a short time.

AUTOPSY ON MRS. KINGSLEY.

Heart Wound Had Healed and Septic Poisoning Caused Death.

New York, Oct. 23.—An autopsy over the body of Mrs. Annie Kingsley, who was the subject of an operation at Bellevue, when her surgeon placed a needle in her heart, shows that the wound had healed perfectly and that her death several days later, was due to septic poisoning caused by the unclean blade with which she was stabbed. It is believed that her husband, the doctors found that the cavity of the left ventricle, which was pierced, was absolutely tight—that is, the walls had united as a result of the operation. Without it she would have died to death in very short time. The poisonous blade caused inflammation of the muscles and arteries of the heart.

MARY MAC LANE'S RETURN.

She Leaves Frosty Boston for Her Own Dear Butte.

Butte, Mont., Oct. 24.—Disgusted with frosty Boston and its superciliously-raised longnettes with the "dreadness

and emptiness of it all" Mary MacLane, our own Mary, has packed her trunk and is now on the way back to her happy home in this city. Boston people do not appreciate Mary as she thought they should, hence her return. Mary is positive she has genius, but as Boston was slow, so slow, in recognizing it that the authoress concluded to return to the mines of Montana.

It is said that she has been receiving over 100 proposals of marriage daily by letter, and enough requests for a lock of her hair to make her baldhead, if she granted them, during her stay at the Hub. She has been studying chemistry and technology, but is discouraged at her slow progress, making another reason for leaving Boston. She will arrive home Monday.

Tin Plate Manufacturers Agree.

Pittsburg, Oct. 24.—Officials of the American Tin-Plate company and a conference committee of the Amalgamated association held a long session this afternoon after the tin-workers convention had finally adjourned, and tonight adopted an agreement that will allow the American Tin-Plate company to bid on the tin-plate orders of the Standard Oil company that are now being supplied by the Welsh manufacturers. The workers offered a concession to the company and to all manufacturers of a 3 per cent reduction from their wages under the following terms:

"That the men should be paid the full rate, as at present.
That the 3 per cent deduction shall be set aside by the company and placed in the hands of the treasurer of the Amalgamated association as a special fund.
That out of this fund the Amalgamated association shall pay back to the American Tin-Plate company a sum equal to 25 per cent of the cost of the manufacture of all plates that are sold to the Standard Oil company or any other concern now using the rebate on Welsh tin when it is exported in made-up form."

Fears for Morocco Missionaries.

London, Oct. 24.—The English missionary, Mr. Cooper, who was murdered at Fez, Morocco, recently, had a wife and two children, and there is considerable apprehension as to their fate, as well as that of four other women missionaries, for it is known there has been a considerable recrudescence of anti-foreign feeling. Letters from the Kansas mission of Mequien, composed of 12 Americans, describe the situation as critical. The missionaries say they are "shut up like rats in a hold."

TRULY AN HELPLEET.

Walsen's Wife Now Assisting Him to Break Jail.

George W. Walsen, formerly a guest of Warden Dow, and after his return to civil life, arrested in this city on the charge of embezzlement brought by his wife, the treasurer of Lemhi county, Ida., is still entrenched in the affections of his elderly spouse, notwithstanding her action; and she has been trying to help him break jail. Of this the Salmon City Herald says:

"Mrs. George W. Walsen last Wednesday night, by prearrangement with her husband, who is in the county jail, brought him a box of heavy clothing, underwear, driving gloves, etc., from jail. In the outfit furnished was a tin box containing \$120 in bills.
"On Sunday night this same woman

completed the work by carrying her husband a heavy revolver, ammunition and some morphine pills, the latter intended to put his cellmate to sleep, while he made his getaway. Mr. Walsen says his wife told him that in gathering these things together she was assisted by a prominent citizen of Salmon and one of Brooklyn. Their names are withheld in respect to their standing in society.

"Mr. Walsen says he had consented on the urgent appeals of his wife to accept these aids and to break jail. But instead of doing so he posted the sheriff, and while the goods were being delivered at the jail two witnesses took in the whole proceedings. The sheriff now has the entire outfit.

"In the stuff is a triplicate key to the county treasury office, which Mrs. Walsen in her testimony to the grand jury is said to have represented as being lost.

County Atty. Boyd was seen yesterday and said that the facts are essentially as above stated, but that he had no statement to make as to the course he would pursue."

TOO MANY POOR.

Impenitency Cases Becoming a Drug Upon the Market.

The practice of filing affidavits of impenitency and thereby saving the cost of commencing actions in the district court, which would otherwise be \$8, is becoming entirely too frequent among certain attorneys, according to the opinion of the judges and clerk of the court. In many cases it is the opinion that the county is imposed upon and that the plaintiff in some of the cases could pay the filing fees were it not so easy to get out of it by merely making an affidavit of impenitency.

Judge Hall had a case of this character yesterday. In the case of Hanna King vs. Agnes Lynch et al, Atty. Sheekel, on behalf of plaintiff, asked the court to grant an amended decree in the case. The action was brought to foreclose a chattel mortgage given to secure the payment of a promissory note for \$555 and \$50 attorney's fee. The original decree was granted by Judge Hall on May 8, but the attorney for plaintiff asked that an amended decree be granted.

The request was granted but with the provision that the same should not be filed until the court costs are paid. When Atty. Sheekel called the court's attention to the fact that the case was a charity case, he was asked why, if his client was suing for \$555, she could not afford to pay the court costs. To make matters worse it developed that the plaintiff is a resident of the state of Washington and it is simply a case of advantage of the generous laws of this state. Judge Hall was of the opinion that if plaintiff expected to recover over \$500 she could at least borrow enough money to pay the court costs, so the amended decree will not be filed until the costs are paid.

NEW LIBRARY BOOKS.

Thirty-two volumes will be added to the public library Monday morning, Oct. 27, 1902, as follows:

MISCELLANEOUS.

Club annuals presented by Mr. Henry Altman:
Manhattan Club, 1901.
New York Yacht Club, 1901.
Union Club, 1901.
University Club, 1901.
Crawford—History of the Fall of Fort Sumter.

Evans—Ancient Stone Implements of Great Britain.
Hamilton, Lady Anne—Secret History of the Court of England; from the accession of Geo. III to death of Geo. IV. 2 vols.

Burill—The Madonna in Art.
Hoddy and Weems—Life of Gen. Francis Marion.
Hitchman—Eighteenth Century Studies.

Scrubbers (Ed.)—Mineral Industry: Its statistics, technology and trade in the United States and other countries.
Svechtine—Writings of Madame Swetchine.

Woods—Life of Washington.
Wills—Behind an Eastern Veil; a narrative depicting the inner life of ladies of the upper class in Persia.

FICTION.

Burnham—The Right Princess; A Christian Science Novel.
Crawford—Marzio's Crucifix.
Doyle—Exploits of Brigadier Gerard.
Eyster—A Chinese Quaker; an unedifying novel.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

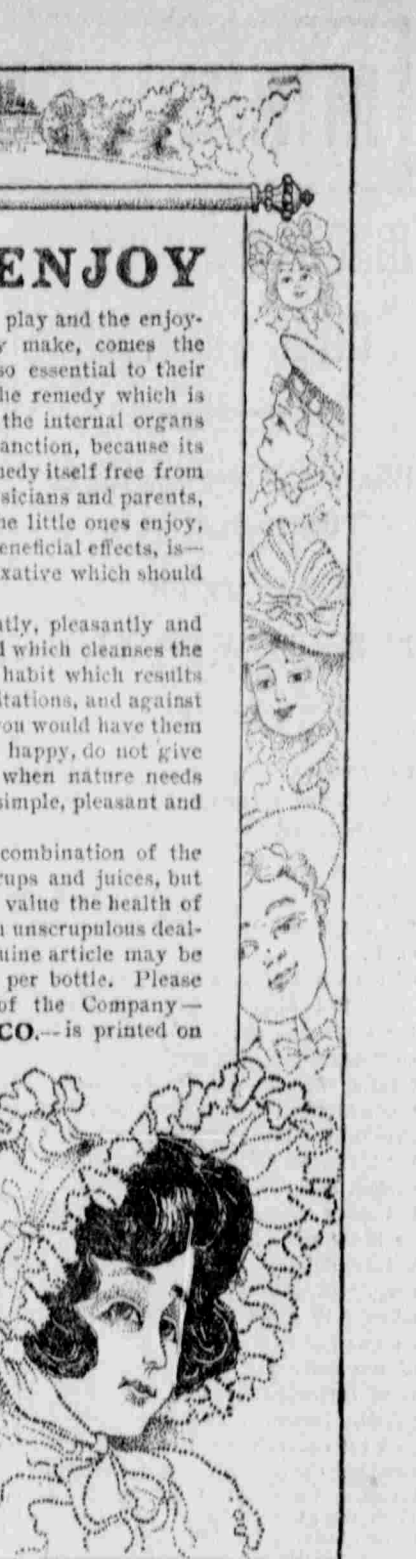

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine article may be bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember, the full name of the Company—
CALIFORNIA FIG SYRUP CO.—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.

MARRIAGE LICENSES.

Marriage licenses were issued to the following named persons this week by the county clerk:

J. H. Garrett, Salt Lake,	21
Lucy D. Wardrop, Salt Lake,	22
S. H. Johnson, Salt Lake,	23
Jennie Haddock, Pleasant Grove,	25
T. E. Noland, Salt Lake,	26
Rose Griffiths, Salt Lake,	27
A. S. Peters, Salt Lake,	29
Elizabeth L. Davis, Salt Lake,	30
Adam Eckersell, Rexburg, Ida.,	31
Rebecca Stephens, Rexburg, Ida.,	32
John Asplund, Murray,	33
Mina Johnson, Murray,	34
M. A. Reynolds, Springville,	35
Sabrina Cropper, Deseret,	36
Anna Miller, Lehi,	37
Annie Bushman, Lehi,	38
C. O. Johnson, Murray,	39
Gerda T. Hanson, Salt Lake,	40
G. L. Glade, Salt Lake,	41
Mary J. Watson, Salt Lake,	42
C. H. Whittemore, Salt Lake,	43
Rosa E. Guiver, Salt Lake,	44
L. C. Cooper, Lardo, Idaho,	45
Rimma E. Shaw, Sandy, Utah,	46
Philip Houtz, Springville,	47
Fannie V. Allen, Salt Lake,	48
Thomas Allen, Salt Lake,	49
Jane R. Bruce, Salt Lake,	50
J. A. Monroe, Salt Lake,	51
Teresa Smith, Salt Lake,	52
Frank Palmer, Salt Lake,	53
Minnie Keenan, Salt Lake,	54
A. W. McKan, Huntsville,	55
Christiana Wangersand, Huntsville,	56
P. G. Luff, Salt Lake,	57
Myrtle A. Pursell, Salt Lake,	58
H. G. Werner, Forest,	59
Anna D. Rosevelt, St. Louis, Mo.,	60
J. P. Bywater, Salt Lake,	61
Sadie Jones, Salt Lake,	62
Carl Johnson, Murray,	63

THE GIFT OF A TAINTED ANCESTRY.

Is an hereditary disease, and one for which a tainted ancestry or blood poisoned parentage is responsible. It is transmitted through the blood and shows itself in swelling and ulceration of the glands of the neck, catarrh of the head, weak eyes, sores, abscesses and skin eruptions, with a gradual wasting away of strength and vitality. It also attacks the bones and joints, resulting in white swelling, hip disease and deformities of every kind. We see the effects of this awful blood taint every day, but it exists in so many forms that often it passes for something else and is treated as an anther disease.

Scrofula robs the blood of its nutritive qualities, and it becomes too poor to produce healthy growth and development, and thin, emaciated bodies and pallid, waxy complexions are the result. Only a constitutional remedy, one that works through the blood, can reach a disease that has been transmitted through generations or been lurking in the blood since birth.

S. S. S. cleanses the blood of all scrofulous matter and tubercular deposits, and when rich, pure, health-sustaining blood is again flowing in the veins there is a gradual disappearance of all the dangerous symptoms of Scrofula; strength returns, and a complete cure is effected.

S. S. S. contains no strong minerals to further break down and derange the system, but can be taken by the very old, as well as the middle aged and young, without any harmful effects, or the least injury to the most delicate constitution.

If you have any signs of Scrofula, or your children are stunted or slow of growth, pale and sickly, write us, and our physicians will advise you free of charge.

The Swift Specific Co., Atlanta, Ga.
