

PERISHED ON THE PROVIDENCE

Steamer Was Overturned by a
Sudden Squall.

TWENTY-ONE DROWNED.

She Was Caught Broadside On by
Storm of Cyclonic Proportion—Was
Lifted Almost Out of the Water.

Vicksburg, Miss., March 12.—The
steamer Providence, plying between
Stanton and Lake Palmyra, was over-
turned at 2 o'clock this morning by a
sudden squall at Lone Landing, and
all of her passengers and crew were
drowned.

DEAD.

Capt. William Cassidy, Vicksburg,
master.

Charles Scott, Vicksburg, chief en-
gineer.

Clyde Repp, Vicksburg, cotton-seed
buyer.

Dr. N. A. Lancaster, a prominent
physician and planter of Palmyra.

The ill-fated boat left here at noon
yesterday on her regular trip, carrying
a large miscellaneous cargo of freight
and a large number of passengers.

At 2 o'clock this morning, just as the
steamer was entering Lake Palmyra,
a sudden wind and rain squall of cy-
clonic proportions came out of the west,
catching the Providence broadside on.

The little vessel was lifted almost en-
tirely out of the water, her upper works
and the hull turned bottom up in 40 feet of water.

Most of the crew and passengers were
asleep at the time, and had absolutely
no chance of escape. Only nine of the
boat's entire company were saved.

The property loss will amount to sev-
eral thousand dollars.

Messrs. Cassidy, Repp and Lancaster
were all married men and leave large
families.

A steamer will leave immediately to
attempt the recovery of the bodies.

New York After Nova Scotia Charter.

New York, March 12.—A. L. Meyer,
T. L. McKenna and J. C. Campbell of
New York and E. Querin of Montreal
are applying to the legislature of Nova
Scotia for a charter incorporation of the
North America Coal & Development
company, according to a special to the
Herald from Halifax, N. S. These men
have obtained control of the large coal
area in Cape Breton. The capital is
\$1,000,000. The incorporators are prac-
tically the same people who, associated
with Dr. Edward Webb are building the
Cape Breton railway from Louisbourg to
the Strait of Canso.

Inaugurate Galveston-London Line

Galveston, Texas, March 12.—The
steamer Cayo Romano has been or-
dered here and will inaugurate the ex-
posed line and will inaugurate the Gal-
veston-London line, which has under-
taken a contract to export 50,000,000
pounds of Texas cotton to London. The
vessels are to sail regularly after the
inauguration of the service. The Cayo
Romano is due today.

THE KAISER TO
THE PRESIDENT.

Washington, March 12.—The follow-
ing cablegrams were made public here
today:

"Wilhelmshaven, March 12, 1902.

"President of the United States of
America, Washington.

"Now that my brother has left the
hospital shore of the United States,
homeward bound, I feel it a pleasing
duty to express to you how deeply
grateful I am for the whole of the Ger-
man people are for the splendid hospi-
tality and the cordiality of the recep-
tion which was accorded to Prince Her-
ry by all classes of the American peo-
ple."

"My outstretched hand has been met
by you with a firm, manly and solid
grip. May your visit to this country
with peace and good will between the
two great nations. My best compli-
ments and wishes to Miss Alice."

"WILLIAM, K. R."

"Washington, March 12, 1902.

"Emperor William, Wilhelmshaven:

"Your brother's visit to this country
has accomplished much in showing the
depth of kindly feeling which exists be-
tween the two nations. It has been
most fortunate in every way, and I
trust you will permit me to congrat-
ulate you on the admirable manner in
which he has borne himself. He has
won the genuine and hearty sympathy
and regard of all with whom he has
been brought in contact. We have wel-
comed him for his own sake, and we
have welcomed him still more heartily
as the representative of yourself and of
the mighty German people. I thank
you in the name of the American peo-
ple for the part which you have done, and
I thank you personally in addition for
the gracious form which your courtesy
took."

PHILIPPINE TRIBES.

David P. Barrows Tells About Them
To Senate Committee.

Washington, March 12.—David P. Bar-
rows, chief of the bureau of non-Chris-
tian tribes of the Philippine Islands, to-
day gave testimony before the senate
committee on Philippines. He separat-
ed the Philippines into two elements,
the civilized and the uncivilized. The
civilized class is small, only about a dozen fami-
lies.

ABOUT CATARRH CURES.

The Reason Why Inhalers and Local
Applications are Useless.

For many years catarrh was consid-
ered a local disease and was
treated entirely by local remedies,
salves, ointments, powders, sprays and
inhalers, and nearly all of these gave
a temporary relief, but a genuine per-
manent cure was very rare.

It is true the most annoying sym-
ptoms, like stoppage of the nose and
throat trouble, are purely local, but
they are simply symptoms and the real
seat of disease is far removed.

Catarrh is a constitutional disease,
a blood disorder, complicated usually
with disease of the liver and to sup-
ply local applications of sprays,
powders, inhalers, could ever reach the
real cause of the trouble is ridiculous.

The sensible and successful treat-
ment is to remove the catarrhal poison
from the system by regulating the liver
and purging the blood, and then can
only be done by an internal remedy,
which should consist of antiseptics and
remedies to act vigorously on the blood
and liver.

The best preparation of this kind
which fills all the requirements of a
safe constitutional treatment is Stuart's
Catarrh Tablets, composed of Blood
Purifier, Blood Tonic, and similar
components, which are absolutely
safe to take into the stomach and
which act upon the liver, stomach and
mucous membrane.

Stuart's Catarrh Tablets are large,
pleasant tasting lozenges to be slowly
dissolved in the mouth, thus reaching
the mucous membrane and windpipe
and reaching the stomach.

Dr. Edmondson, in speaking of the
new treatment for catarrh, says: "I
have accomplished the most satisfac-
tory results in all forms of catarrh of
the head, throat, bronchial tubes, as
well as catarrh of the stomach and liver
by using nothing else but Stuart's Ca-
tarrh Tablets. I long since threw aside
all other remedies and have been suc-
cessful at the best mere tempo-
rary make-shifts."

Stuart's Catarrh Tablets act immedi-
ately upon the liver and blood and
clear the whole system of catarrhal
poison. They are pleasant and very
convenient to use, and they are not
only the latest, but I believe them to
be the best and most reliable treat-
ment for any form of catarrh."

All druggists sell Stuart's Catarrh
Tablets at 50 cents for full sized package.

F. A. Stuart Co., Marshall, Mich.

It lies in every town of a population of
10,000. The remainder have no educa-
tion and no wealth and are controlled
economically and socially by the upper
class. For two years he has been lab-
oring under great misapprehension of
each other, but there was understanding
now. He agreed with Gov. Taft that
small garçons, quartered in the midst
of the Philippines hindered the life of
the town and acted as an irritant to the
natives. The upper class, he said, pos-
sessed an influence over the lower class
that the United States authorities have
been slow to appreciate.

Among the lower class, Mr. Barrows
said, there is a strong desire for social
betterment, as evidenced by the send-
ing of the children to school.

In response to a question by Mr. Hale,
he described the masses as being un-
educated and ignorant, following the
directions and feelings of their
leaders, whether in hostility to the
authority of the United States or in
the extreme of friendly feeling.

Mr. Barrows said that the declara-
tion by Congress that a liberal policy
is not to be followed would disappoint
the influential Filipinos and would
alienate the masses. He gave an ex-
tended account of the efforts making to
educate the Filipinos. He did not think
it possible or desirable to eradicate the
old dialects.

To Report Chinese Exclusion Bill.

Washington, March 12.—The senate
committee on immigration today
agreed to the report on the Chinese
exclusion bill, known as the Kahn-
Kahn measure. It is substantially
the same as the modified bill submitted
by the Pacific coast committee, only
a few verbal corrections having been
made.

A point which occasioned much con-
sideration by the committee was
whether or not the Chinese should be
excluded from the Philippines, or
whether the whole proposition should
be left to the Philippines commission.
The committee reported to retain the
provision of absolute exclusion, tak-
ing the ground that the United States
wished to retain the Philippines for
the Philippines, and that the latter
were as much opposed to the admission
of Chinese as were the Americans.

WAR COMING SOON.

Capt. F. H. Smith Declares Russia
and Japan Will Fight.

Seattle, Wash., March 12.—Capt. F.
H. Smith, a Russian expert, who ar-
rived yesterday on the Tosa
Maru from Japan, declares that
war between that country and Russia
is soon to come.

"Trouble over the Russian occupa-
tion of Manchuria is the cause of the
trouble," said Capt. Smith, "and the
Japanese are spilling for a chance to
win the prize. They are making all
preparations for the scrap that must
come very soon. When it does come
England will be forced to help the
militarized army and the war may in-
volve all Europe. In the meantime,
the Russians are pushing work on the
railroad across Manchuria and to this
the Japanese have no objections.
Russia, however, must defend the road
against the attacks of the natives.
Some 16,000 coolies are now employed
in the work."

IMMORALITY AMONG INDIANS.

Ex-Governor McConnell Alleges It
Exists in the Schools.

CONGRESS TO INVESTIGATE.

Both Houses Have Adopted Resolu-
tions for That Purpose—Gross
Debauching is Charged.

Spokane, Wash., March 12.—A special
to the Spokesman-Review from Wash-
ington says: "Indian Inspector W. J.
McConnell, former governor of Idaho
and formerly United States senator, is
here, alleging gross immorality in In-
dian schools. Congress will investigate
these charges. Both houses have adopt-
ed resolutions providing for an investi-
gation of Indian affairs."

"Senator Turner has presented vari-
ous reports and letters obtained by In-
spector McConnell and by him laid be-
fore the secretary of the interior. The
documents contain a sensational affir-
davit by W. W. Dunbar, late of Mohave
county, Arizona, concerning H. P.
Ewing, former superintendent of schools
and Indian agent on the Hualapai res-
ervation in Arizona. It charges the for-
mer agent with gross debauchery of In-
dian girls, and says:

"I was present when Indian Inspec-
tor McConnell came to make an investi-
gation of charges preferred against
H. P. Ewing, industrial teacher and
acting superintendent of schools, as
well as agent of the Hualapai Indians,
the charge being that of debauching
schoolgirls and other female Indians
under his charge."

"The first witness called was a
schoolgirl, one of the number whom it
was charged he had debauched. She
admitted that Ewing had had illicit
intercourse with her and had been liv-
ing with her for between two and three
years. It was also proved by other wit-
nesses who testified they had seen them
in bed together."

"It was brought out during the in-
vestigation that he had bought her
from her father some three years be-
fore, paying for her with a Navajo
blanket, one Winchester rifle and \$5.
The girl, at the time she was thus
sold, was under the age of 14 years. It
was my intention to bring proceedings
against him for having intercourse with
a female child under the age of 14
years, but I desisted from such by the
intercession of my superior. I being a
young man, I was called in to act as
district attorney at the time. It was
clearly proved by competent testi-
mony that he had debauched other
schoolgirls. The investigation was con-
ducted by Mr. Ewing taking school-
girls—and more particularly the
one whom it is alleged he bought into
his house in the evening, and I have
seen them coming out in the morning.
He employed no housekeeper or serv-
ants, and consequently they must have
remained alone with him over night.
Before the examination was completed
Mr. Ewing tendered to Mr. McConnell
his resignation, and no more witnesses
were examined. The investigation being
closed, Inspector McConnell was the
author of a similar charge against Mr. Ewing,
and as I then believed and still be-
lieve, Mr. Ewing intimidated the wit-
nesses, and was called in this case."

"Another report removed of C. W.
Snyder, industrial teacher at the Wind
River boarding school, is urged. It is
charged that he married Viola Her-
bold, an Indian employe, last October,
after seducing her, and they now have
a promising child nearly or quite 4
months old."

"Several pages of documents are filled
with verbatim testimony of Indian girls
on boarding-school, revealing gross im-
moralities between themselves and In-
dian boys. In the senate document the
reporter McConnell declares there is
rightful mortality in the Indian
schools."

"In his report to the secretary of the
interior, which is embodied in this sen-
ate document, Inspector McConnell in-
cludes a report from the physician at
Fort Totten Indian school, declaring
that 10 per cent of all children at that
school are afflicted with contagious dis-
eases. Inspector McConnell protests
against the practice at various schools
of permitting consumptive tubercu-
lar cases to sleep in the same beds
with other pupils."

"Saved My Life and Kept Me from Insane Asylum"

Mrs. Wilcox is Now in Perfect
Health Through No Other
Agency Than

PAINE'S
Celery Compound

Earnest and Candid Statements
Made by a California Lady.

The absolute need of an honest and
genuine invigorator and health giver
in the spring season is deeply im-
pressed on the mind of every thinking
and intelligent man and woman.

The happy cure of Mrs. J. E. Wilcox,
of Winters, Cal., through the use of
Paine's Celery Compound, created wide-
spread astonishment and joy among her
friends and neighbors who were ex-
ceedingly anxious regarding her condi-
tion.

The best medical treatment failed
even to give Mrs. Wilcox a few days of
relief from her sufferings of mind and
body. At last, Paine's Celery Com-
pound saved her from a terrible end
and planted her feet firmly on the rock
of health.

Read Mrs. Wilcox's letter of testi-
mony, dear reader, and if you remain
dubious and unbelieving after such an
earnest and convincing confession of
cure, nothing but a direct act of Provi-
dence can snatch you from the dangers
and perils of your position. Mrs. Wil-
cox says:

"I feel it my duty to tell you what
Paine's Celery Compound did for me.
Some years ago my head troubled me
so that it seemed I should be crazy. I
was a very unwell woman. I looked for
the advice of two doctors who gave me
medicine to no effect and I did not
know what I would do. I did not want
to see any one, everything seemed so
dark and gloomy. I looked for relief,
my bowels were out of order, my kid-
neys troubled me, and I felt badly, but
before I had taken half of one bottle
of Paine's Celery Compound I felt like
a new person. Four bottles cured me
and I would recommend it to all who
feel the way I did. I can't praise it half
enough, for I know it saved my life
and kept me from imprisonment in an
insane asylum, which is as bad as
death."

Root Urges Staff Bill.

Washington, March 12.—Secy. Root
today made an argument before the
senate committee on military affairs in
support of the bill creating a general
staff and consolidating the quar-
ter-

master's, the commissary and the pay
bureau of the army under one head,
as known as the supply bureau. He
said that the experience of the depart-
ment during the war with Spain had
demonstrated the wisdom of this con-
solidation and that it was demanded
by all considerations of expediency,
efficiency and economy. He would the
creation of a general staff would give an
official standing to many war officers
now detailed for special work in the
war department. The work upon which
they are engaged, he said, the prepara-
tion for military operations, etc., is
very necessary in case of hos-
tilities. The committee did not agree
upon the bill.

Cat Suffocates a Child.

Denver, Colo., March 12.—While the
month-old baby of Gustav Brown, a
traveling salesman for Brown & Mc-
Creary, was in his carriage in the back
yard of the residence at 324 Gaston
street, a large cat jumped on the in-
fant and, despite its screams, inhaled
its breath until the child was suffocated.

The mother, hearing the child's
screams, rushed out of the house, but
was too late. Dr. Waxham was hur-
riedly summoned but all efforts at re-
suscitation failed. The father is absent
from the city.

New Departments at Berkeley.

Berkeley, Cal., March 12.—Two new
