of the Cullen Hotel.

Sergeant of Police John B. Burbidge is said to have a fairly good mining prospect, which he jumped a few nights ago, situated in the rear of the Cullen hotel

John did not discover the "bonanza" himself, but was put on to it by a cripple named Louis St. Claire. Chancing to meet Monday night the two started to talk about the price of copper and the action of Utah mining men with respect to lead. St. Claire enquired of the sergeant if he had heard the "lat-

est" and John confessed that he hadn't seen the "News" for that evening. Af-ter exacting a promise from the policeman that he wouldn't breathe a word to a living soul, St. Claire said a certain well known character had told him that he had deposited the sum of \$450 a few feet below the surface of the ground in an alley just west of the Cullen. John made a diagram of the exact spot and late that night, it is said, repaired to the place, armed with

pick and shovel. He dug like a golddigger for several hours and went to considerable depth, but "nary a plunk" did he uncover. After reaching the two-foot level John struck a sand bed. He then struck a match and dropped on his knees and commenced a search for the vein. More matches vere struck and the mining policeman continued his search in vain. Then John became wrathy and gave vent to a few plain words. Next he was seen to jump to his feet and catching hold of the pick, hurled it several hundred

The whole thing is a hoax," he said as he put on his coat and vest and made the street. And now when John's friends ask him how his hands became calloused, his reply is, "I did a little gardening the other day and it kind of used me up.

PRES. SNOW IMPROVING.

President Snow, who has been ill for the past week, passed a restful nightthe best since his present indisposition, and the prospects are now very promising for a complete and speedy recov-

KILL THE BABIES

Careless Mothers Who Use Dangerous Purgatives.

A Menace to Mankind Easily Avoided by the Use of a Rational Remedy-Every Mother Should Heed the Warning.

The slaughter of the innocents was noth-

The slaughter of the innocents was noth-ing in comparison with the destruction of infants caused by "physic." Not so very long ago the poor little suf-ferers were usually forced to swallow vio-lent purges, and it was luck if they got over it all right. The stomach and bowels of the baby are sources of constant disconfort. The milk food sours in the baby's delicate little in-sides, and forms curd, and the fermenta-tion of this undigested substance makes praces which produce wind colic. Then the little people begin to scream with agony, and the excited mother or nurse pours down the physic.

nitie people cermi to scream with about and the excited mother or nurse pours cown the physic. That's the time for the use of C^{*} scarets Candy Catharile. If the babe be stickling, the mother makes her milk mildly purga-tive by eating a Cascaret. Older infants eat a little piece like cardy. In all cases Cascarets are mild but positive, never grip nor gripe, stop sour stomach, move the bowels naturally, and put things right as they should be "Now. Mamma, buy and try Cascarets to-day. It's what they do, not what we say hey'll do, proves their merit. All drug-gists, ice, 25c or 50c, or mailed for price. Send for booklet and free sample. Address sterling Remedy Co., Chicago; Montreal, Can., or New York.

This is the CASCARET tablet. This is the CASCARET tablet. Every tablet of the only genuine Cascarets bears the magic letters "CCC." Look at the tablet before you buy, and beware of frauds, imitations and substitutes.

line-up is as follows: O. S. L. Position.

The Ogden team will play at Poca-tello today and tomorrow, and the Junction city players expect to add two more to their string of victories. THE BICYCLE RACES.

R. G. W.

Great Crowd at the Salt Palace Last Night.

The splendid sport provided at the Salt Palace track so far this season is fully appreciated, and bicycle racing is growing in favor, as shown by the banner audience of 4,000 people that assembled last night.

While the time on two or three of the events was not fast and the sensa-tional finishes of the last meeting were lacking, the events were all run off in splendid style, and some of them pleased the great crowd immensely. This was especially true of the tandem race, when the terrific spurt of Iver Lawson and John Chapman, in a vaia attempt to catch Turville and Gunn fairly brought the audience up standing and hearty cheers were given both victors and vanquished. Another popular event was the one

mile professional. In the second heat Lawson forged away ahead on ver. the last lap, but Ensign spurted and made a dead heat of it.

THE AMATEURS.

The sport opened with the one mile amateur run in fine style by the young-sters. Samuelson captured first place, Grames second, and Guthrie third. Time, 2:30.

TWO MILE OPEN.

Meakin won the two mile open handily, but came near getting shut out Almy, towards the close, was third man, when the pace maker suddenly spurted, leaving a wide gap betweeen himself and the next wheel. The second man was taken by surprise, but Meakin shot out and hung on to the first wheel. In the final struggle on the last half lap, Meakin ran away

from the field, Heagren second, Grames third. Time, 4:41.

The Last Race.

The one mile lap race, professional, was a pretty exhibition of fast riding and generalship. Iver Lawson excelled In both of these qualities and won, scoring 29 points; Chapman second, 28 points; Turville third, 20 points; Chaf-fer fourth, 6 points. Time, 2:07 2-5.

The Tandem Race.

The sensational event of the night was unquestionably the one mile tandem handicap, for professionals. Iver Lawson and John Chapman were the Scratch men, with Turville and Gun. Caine and Green, Emery and Chaffee and Edmunds and Ensign strung out around the track. A terrific gait was made by all hands from the start, and as Lawson and Chapman swung past the hunch the excitement was intense The scratch men gained steadily on the leaders, Turville and Gunn, but the latter responded with a fine burst of speed that brought them safely over the tape. Edmunds and Ensign took third place. Time-1:50.

"THE TERRIBLE SWEDE."

John Lawson, the "Terrible Swede," who has just arrived from California, was at the track last night and the announcement that on Tuesday night he would run a fifteen mile race with Emery was greeted with applause,

ANNUAL CLASS BANQUET. University Sophomores Hold Forth at

Knutsford-Pleasant Reminiscences.

The sophomore class of the University held forth in the red room of the Knutsford hotel last evening, and each student covered himself and herself with honors. The banquet was a most dellcious one, but there were only thirteen students present to enjoy it, seven of whom were young lastes. Their young spirits, however, soon began to effervesce and wit and humor was going at

premium Joy Groo acted as toastmaster, and was in every way equal to the oc-casion. In response to the toast "Idi-osyncracies," Miss Nellie Clark very humorously pointed out the peculiari-ties of each member of the class. Classes Snow, Clibbe convulsed the

George Snow Gibbs convulsed the guests with his humorous animadversions on "What man is, consists of what is in his head and breast; but your lovely avoman is simply that in which she's dressed." His closing quotation was "Women are like pictures; of no value in the hands of a fool, till he sees men of sense bid high for the purchase." Miss Maggle Cahoon re-sponded to the toast "The Radiator Question," and the stories which she had them tell were very anusing. "Aids to the Janitor," by Louis Bar-ker, was very funny, and Miss Mabel K. Wallace delighted the company by reading a very clever snatch of poetry on the "Reign of the Miss."

The table was decorated with roses, and the menu and toast-cards were ar-

tistically printed with pen and ink Those present were the Misses Mabel Wallace, Clarissa M. Ellerbeck, Nel-Clark, Margaret E. Cahoon, Lucile Hewett and Mabel Harker, and Messrs. H. T. Hatfield, Louis Barker, Nelson Dickerman. Alfred Pritchard, Jay Groo and George S. Glbbs.

BOARD OF PUBLIC WORKS.

Chairman Fabian has called a special meeting of the board of public works for this evening to see if something cannot be done towards compelling Green & Reeve company or bondsmen to complete at once the work on the could run a fifteen mile race with

and the board feels that it should take of Sixth South and West Temple streets some kind of action in the matter.

nay be looked for. With the close war in South Africa the old project the of a railroad from the Cape to Cairo may be taken into consideration,

Want to Reorganize.

A proposition is being considered by officers of roads operating east of Chicago to reorganize the Central Freight Association, which includes all the roads east of Chicago and St. Louid and west of Pittsburg and Buffafo and north of the Ohio river. The association is one of the oldest of the traffic or-ganizations. Its chairman has almost absolute authority in all matters of rates and traffic arrangements and has power to inspect the books of any line n the combination to ascertain what rate it is making to shippers. It is stated that officers of the indi-

vidual companies believe that the or ganization is costing them too much money, and that the results of the outlay do not equal the expense. Cut rates are quoted daily, it is said, to the irge shippers and other concessions are being constantly granted by certain members of the association in spite of the wide authorities of the officers of the association who seem to be powerless to stop these practices.

It is believed that the usefulness of the organization will be increased by a reduction in the number of sub-heads of departments and other employes,

SPIKE AND RAIL.

Among the visitors to Lagoon yes-terday were 150 University students.

An effort is being made to hold here on July 3 the next meeting of the trans-Missouri Freight bureau.

Members of the Fourth ward had an outing at Lagoon yesterday, and the crowd was a big one. The last train left the resort at 11 o'clock last night. Tomorrow is the day set for the

blowing up of Sherman hill, on the Union Pacific's big cut off. Seven hundred kegs of powder will be used in the blast.

Work on the Sumpter Valley rallroad extension in Oregon will begin next week. The Utah Construction Company has sent out a lot of outfits on the surveyed line.

Mr. Babcock, of the Western, is expected to return from New York to-night. He has been in attendance upon the meeting of railroad executive officials in the nation's metropolis,

A violation of the anti-commission agreement is charged to the New York Central, The "last straw" will uith mately find its place on the camel's back-then, look out for "Mother Carey's chickens" and squalls.

Division Superintendent Malloy, of the Short Line has so far recovered from a long selge of liness as to an-nounce his intention to resume his du-ties on Monday. He has been quar-tered at Portland for some time and is returning to Pocatello, his regular headquarters.

A second Pacific coast excursion will leave Sait Lake on Monday under the auspices of the Southern Pacific Rail-road Company. The \$30 round trip rate is a great inducement to people to visit San Francisco. Over a hundred people have engaged passage from this city,

The directors of the Northern Pacific Railway Company have declared a lividend of 1 per cent on the commo stock for the past six months. The last dividend was a regular one of 1 per cent for six months and an extra dividend of 1 per cent. No extra dividend was declared today.
