WEATHER CUTS NO ICE.

There were a lot of reople kicking about the weather yesterday. Some didn't have an umbrella, others were without rain coats, and some were ccoped up in gloomy offices, dingy and cold with here and there a leak in the roof to make things interesting. But the folks in the Security Trust build-But ing were cosy and snug in their bright new offices, and the weather didn't cut any ice. In fact many of them in their fresh, pretty offices, thought that spring had really come until they looked out of the window. But there's cheer enough in the new offices of the Security Trust building to drive away any set of blues that might intrude on such a day as yesterday.

trict schoolhouse.

Democratic and Republican official of the tity administration are in con-ference almost daily on the division of patronage for the city offices. been as reed to divide the clerkships equally between the two parties and the necessary changes will be made if possible next Friday, April 1. The great majority of the present employes being Republicans, the new agreement means that quite a number will have to make room for Democratic applicants.

A meeting was held yesterday, at-tended by the mayor, Councilmen Fernstrom and A. J. Davis of the waterworks committee, and Supt. Hines, at which the waterworks department was discussed as to employes. The result of the conference was not made known.

. . . Tomorrow evening is the time set for the holding of Republican primaries to elect delegates to the state convention, which is to elect delegates to the na-tional convention. Interesting contests are looked for in many of the pri-maries between the Kearns and anti-Kearns forces. The latter are led by former Congressman George Suther-land, and the result tomorrow evening will prove a worthy test of strength.

The Republican national-delegate primaries will be well out of the way before the Democrats enter the field.
