Claude Eillott, the new pitcher of the Giantis recently secured by Manager Ma-Giantis recently secured by Manager Ma-er, as is the Boston cruck. Eildott stands over six reet in his stockings, and is a big. husky country lad, with the strength of an ox. Claude has not traveled much, and he still gazes with awesome wonder at New York's tall buildings whenever he accumulates nerve enough to venture out into the city's crowded streets. He has not had much major league experi-ence as yet. He pitched for the Claulanti Reds early in the season, and for a time was their winning twirler, but Claude be-came homesitek and hied himself back to the farm. It was a difficult matter to get him away from the old hearth-side, but Manager McGraw did finally succeed in inducing him to become a Giant, al-though all the neighbors rolled up their cycs and groaned at the idea of his com-ing to wicked New York. The young pitcher has great speed and many curves, but he is crude in their use. He is being ceached constantly by McGraw and Bowerman, both of whom think he is a sure comer, and predict that he will develop into a National league star. He has a peculiar drop ball to which he puts an out curye, and, with the forrific speed he uses with it McGraw thinks will puzzle the best batters in the league. McGraw is confident he has a second "Cy" Young in Ellioit.

out. At the end of three miles Samuelson passed Gunn, but Chapman and Smith were crowding him closely. Several times Samuelson and Gunn nearly had a serious mixup. In rounding the turns, Gunn seemed unable to keep his machine down, and thres were rubbed several times. In rounding the turn during the fourth mile, dunn could not hold his machine down, and he was thrown heavily to the track with the big motor on top of him. Chap-man harrowly escaped running into him. Smith was forced to turn off the power to avoid running into Gunn as the latter slid down the track. The race was then between Chapman and Samuelson. The latter led until the latter part of the bell lap, when Chapman made a remarkable burst of speed and went around Samuel-son. The time was 655. Gunn was not seriously injured in the fall.

Jim Jeffries will no more talk about his weight than a girl will think of telling you her exact age. You have seen a horse shy at a goat or a cow grazing along a lonely highway. Well, if you want to see the Titanic champion back into the ditch and tip the cart over, just lead him near a pair of scales. At the sight of scales he will jump forty feet out of the road, and unless he is blindfolded, it is no tell-ing what damage he will do. Jeffries is not developing a "porch" that he should work and fret over his weight, but it can't be denied that he is not gaining in weight. He will be heavier when he meets Munroe than he ever was, but his latest accumulation of flesh is evenly dis-tributed over his body and not amassed on his stomach, as some might expect. Oakland, Aug. 9.--With C. Hall on the pitching slab for Scattle today, the San Francisco team had little trouble in bunching their hits and scored runs eas-ily. The hits against Barber were more distributed. Score:

It has been an awfully dry season for Champion Jeffries. He has traveled far in search of some sign of vegetation, but his search was all in valn. On the pugi-listic desert he stumbled across springs which were dry. They had dried up long ago; the heat was too intense. One was named Filtssimmons, others Sharkey spring, Ruhlin spout and Corbett geyser. All dead long ago. He has spot-ted one now which is not far away and shows some signs of life. It has been visited before and the traveler got his pienty. R. H.E

Tacoma, Aug. 9.—Tacoma had no trouble at all in defeating Portland today. Fitz-gerald was wild in the first inning and his three bases on balls were chiefly respon-sible for Portland's two scores.
