Ariz., July 4.-A motorcyclist has beaten a railroad company, in a contest over a mail contract down in Arizona. The route to be covered is between Tucson and Twin Buttes. In his bid the motorcyclist stated that he would make a round trip daily on his machine, and that he could make the run in two and one-hait hours. In addition he agreed to make a regular collection and distribution at a num-ber of ranches that cannot be reached by the railroad. This was of so much advantage to the postoffice department that it promptly closed the contract, thus taking the business away from the railroad that had formerly hand-led it.

burglars some time last night or

(Special to the "News,") Ogden, July 4 .- The safe of the Pickett Grocery company was blown open by burglars some time last night or early this morining. There was in it 560, of which amount \$50 was in gold and this the thieves secured. The remaining cash was in currency, and was burned in the fire following the explosion. Ledgers, cash book, and other papers, were also destroyed by the blaze. Both doors of the safe were blown off. There is no clue as to the perpetra-tors, though the police were notified as soon as the fact of the safe-cracking was discovered. Everything possible is being done by the officers to apprehend

in the aisless to their utmost limit of endurance. Of wagon traffic, the report was ful-ly as extravagant. Over 500 rigs, vary-ing from light buggles to gravel wag-ons, had passed up the canyon, and each was loaded to twice its capacity with campers of all ages. Delivery wagons, hearing the names of well known firms, were prominent among those passing along in the parade, while youngsters grinned between the upright spokes of light drays, and from the rear end of grocery styles. The problem of getting Salt Lake's canyons near to the population has not been solved so well in Salt Lake as at Provo and Ogden. For this reason the automobile parties most often went in one of these two directions, preferring the Ogden canyon boulevard to the cob-ble covered roads of Parley's and the Cottonwoods. Cottonwoods FEW STAYED AT HOME. Those who staved in town were too

Mr. Johnson, who is credited will being more radical than even Mr. Bryan, discussed with the latter certain proposed planks of the platform and gave Mr. Bryan first hand information of the factional fight in Ohio. It is this light factional light in Ohio. It is this light which makes it apparently certain that M. E. Ingalls, recently mentioned as a vice presidential candidate, cannot get the undivided support of his own state. Mr. Johnson is opposed to him as a member of the opposing wing of the party in Ohio. being 31 of Ohio's 46 delegates, ac-cording to admissions by Johnson's friends, wants to transfer Johnson's position as Ohio member of the na-tional committee to Harvey Garber, Mr. Bryan would be greatly pleased if the strife in this state could be brought to a close, and will use his influence to effect a compromise. Mr. Johnson's so-called, radical ten-dencies evidenced themselves when in conversing with Mr. Bryan he resur-rected the government ownership ques-tion by suggesting that such a plank ought to go in on moral grounds. He considered it a moral duty for the government to take over railroads street car lines and public utilities gen-erally against "corporation greed and dishonsets".

it is shown that during the period in which the cellars for Main street buildings were being dug this spring by Raleigh and Harmon, Raleigh was buying from this firm 2,733 loads of dirt at 20 and 25 cents a load, the total price running up to \$783.25. The first warrant is dated April 20, and was at the time the Raleign-Harmon people were time the Raleigh-Harmon people were digging upper Main street excavation. The second is dated May 1, about the time the Raleigh-Harmon firm, Bryant Yeung, foreman, was working on a West Temple excavation. The third is only two weeks old and is coincident with the Raleigh and Harmon work on a Third South street cellar.

J. HAM. LEWIS ARRIVES. The latest vice presidential candi-date to reach the city is Col. J. Ham-ilton Lewis of Chicago, who, while making no extravagant claims, admits that he would not decline the nomina-tion if the friends who are pressing his candidacy should succeed in landing the prize for him. He says he will have supporters in Georgia, Virgirila, Washington, Idaho and other states. Mr. Lewis democratically walked from the railroad station to his hotel, stop-ping on the way to exchange greet-ings with friends and express his views on the topics of the day. He pro-nand on the subject of the platform declaration on injunctions said: "I must insist that the Democration in 1990, and by ratification in and the subject of the platform apologies for the past, or indicate a mounced unequivocally for Mr. Bryan, and on the subject of the platform and the subject of the platform apologies for the past, or indicate a mounced our position 's a a principle and should let the matter rest there. and should let the matter rest there. atted.

NO PARAMOUNT ISSUES.

There will be no pronouncement for a paramount issue in the cam-paign, as silver was made in 1896 and the independence of the Philippines in 1900; but the intention is to include several planks in a group so as to give them all equal prominence. This is them all equal prominence. This is in accord with Mr. Bryan's idea that there should be a general pronounce-ment against favoritism to certain classes

ANTI BRYAN PLANS.

Plans are being made intended to lop off the Bryan vote in the conven-tion to such an extent as to prevent his nomination on the first ballot, if possible, through the application of what is known as the unit rule of yoting. With the first ballot out of the next the onnonents of Mr Bryan

what is known as the unit rule of voting. With the first ballot out of the way, the opponents of Mr. Bryan declare that all instructions will then be off and the convention can proceed with the work of nominating a ticket entirely free from obligation to the Nebraskan leader, and in the true spirit of Democracy in convention. Just how this plan is to be worked out and put into operation, and just what will be its effect on the official roll call, are questions to which no definite answer can be given even by those advocating the plan. In accordance with this idea, it was stated today that Chalman Gufey, of the pennsylvania delegation, contem-plated calling a meeting of his dele-gation for the purpose of taking ac-tion on this question. The Pennsyl-vania situation in this respect is, how-ever, slightly unique, as the enforce-ment of the antir rule has heretofore given but not instruction by the Elways obtained upon a simple sug-gestion, but not instruction by the state convention. The last state con-vention railed to make this suggestion and Mr. Guffey's reported intention to put it into effect as a calcus action is uniform with past practises with the exception of lacking the suggestion to do so by the state convention. With Pennsylvania making the precedent for state delegations to bind themselves to vote in convention as a unit, the following states could, with the same propriety, take the same action: always obtained upon a simple

GOVERNMENT OWNERSHIP. Mr. Bryan, however, considers the government ownership plank as not being an issue in this campaign even on Mr. Johnson's "moral" grounds. Mr. Johnson does not want the chair-manship of the national committee. He told Mr. Bryan he was too busy for one thing, and he knew of no cor-porations from which he might raise-campaign contributions without their requiring legislation or immunity of some sort in return. Mr. Johnson also frowns on any mention of himself for second place on the ticket. The surprise of Alton B. Parker that Mr. Bryan favors a national anti-in-junction plank similar to the Nebraska plank occasioned greater surprise here. After reading the Parker inter-view from Colorado yesterday, local Democrats who see Mr. Bryan almost daily professed astonishment that the New York delegate had information of the Nebraskan's present views that

the Nebraskan's present views that they themselves had been unable to gain from him. It is by no means certain that Mr. Bryan's ideas on the matter of an anti-injunction provision

matter of an anti-Injunction provision have not undergone a change since the state plank was adopted. He has in-terviewed many leaders of the party on the point since then, but he has confidence in scarcely anyone. Mayor Brown of this city, and possibly Dahl-man of Omaha, are among the very few who know exactly what Mr. Bry-an wants. Of all the delegates who have stopped on their way to henver few who know exactly what Mr. Bry-an wants. Of all the delegates who have stopped on their way to Denver and talked with the candidate, none had admitted that Mr. Bryan went into details as to this mooted plank, and most of them have come away saying he merely demanded a vigorous and honest expression by the dele-gates on the subject. The first section of the Pennsyl-vania delegation, 51 strong, was among the first to make the pilgrimage to Fairview. They were an enthusiastic lot and boasted two candidates for vice president, John Murphy of Sheridan and former State Treasurer William H. Berry, both of whom were mem-bers of the delegation. Many of the delegates were accompanied by members of their families and all boarded special cases soon after their arrival for Fairview. Mr. Murphy says 51 of the 68 Penn-sylvania delegations and members of the delegates are for Bryan. Competition is admittedly keen be-tween the Murphy, and Guify sections of the delegations. And members of the Murphy section. Which formed the nucelus of this morning Pennsyl-vania arrivals, are making the most of their delegation. Contesting dele-gates representing seven Philadelphia districts were members of the Murphy party which went to Fairview and hope to interest Mr. Fryan in their case.

Ogden, July 1-Ogden is celebrating the Fourth of July with a vim for the Horlous day saw the local league team tofeat the Salt Lakers by a decisive score of 6 to 8. Sponberg, who occupied the box for this city, didn't let the visitors have a bit. Despite the score the game was a good one, the best of the season. At every stage of the con-test there was enough danger to make the local fans witch every play closely. Besides allowing no hits Sponberg fanned 14 men, while Mapley fanned 5. This shows what a splendid battle be-tweer, slab artists the game was. Over 1,200 fans were present and rooted from the umpire's "play ball" until the last man was out. Orden had 5 men left on bases and Salt Lake 5. Orden's old time entcher, "Wild Bill" Hausen was at the third sack for the locals and the crowd tendere him an ovation. The score by innings: a. Bell missing, arrived last night at midnight over the Oregon Short Line and left at noon over the Union Pa-ciffe for Denver. The California delegates left over the Rio Grande at 1 o'clock, after spending the morning in seeing Salt Lake from the special cars. The "seeing" trip was scheduled, but what actually happened in both the case of the California and the other delega-tions, was that their membership had remained up so late last night to usher in the glorious Fourth that they slept long and soundly in their Pullman berths this morning. A few of them ventured out to visit the town, but the vest majority slept soundly until almost time for their trains to leave. At a caucus of the California dele-

Quinn on credentials: Chas. Edelman, to notify the presi-dent of his nomination; and Justice Wardell, to notify the vice president. The Eagles had planned a rather claborate reception for Theodore Bell, but he was forced to leave the delega-tion at Ogden last night to go to Neb-raska, for a conference with Bryan. For this reason they understook no celebration. Local Democrats with automobiles, however, met various members of the delegations at their cars, and carried them around town. At noon an organ recital completed the local entertainment.

Much of the mountain climbing and canyon seeking of today will be per-manent for the summer. The intense heat of yesterday hastened matters and caused people to combine plana for the 4th with plans for summer as a whole. Consequently the Big Col-tonwood road had its share of wagons, bound for Silver Lake, with tent poles protruding from the rear and a dish pan tied to the hind axel. AT THE RESORTS.

Yesterday's heat raised the tempera-ture of the lake to over 80 degrees, and ture of the lake to over 80 degrees, and even the morning trains to Saltain car-ried people anxious to take a dip. The Lagoon fresh water bathing also had its devotees, but in smaller number. A baseball game at this resort, horse racing at Wandamere, and the usual attractions at Saltair are the special lures up for the festive crowds.

BOYS RESPONSIBLE FOR MOST OF NOISE

There was a famine in the torpedo market by 10 o'clock this morchag. But most youths had previously taid in a store of supplies, so there was no real suffering. There has been a strong activity in torpedo cane performance today, the dropping of the cases on the pavement being followed by most villamous noises. Comparatively fow crackers have been set off in the bula-ness part of the town, although of bombs there were quite a milliber. There has been no throwing of con-fett, powdered tale, or cayenne sel-per. However, what may be done be-fore midnight is an open question. A round of the contral drug stores by moon, failed to discovered any me brought in for repairs. Large torpe-does or glant caps were expleded in several places under street cars, but no damage was done, and the idar-sengers appeared to take it as a mala-ter of course.

That there was more care and dis-cretion used roday than usual in the handling of Fourth of July pyretech-mics was evidenced by the fact that up to noan fordly only two serious ac-cidents were known to physicians and drug store managers. Not before in many years were so faw cases report-ed in this city, and should such average be kept up to the close of the day's fes-tivities, it will be a source of much southefaction.
