## SESSION OF THE CITY COUNCIL

Street Paving and Other Routine Matters Before Junction City Solons.

## WOOLGROWERS' CONVENTION.

Large Attendance Expected In Ogden Next January; Live Stock Exhibit a Feature.

OGDEN, Aug. 31.—At the session of the city council last night, President James A. Smith of Smithsonian Business college, on behalf of tax payers representing 465 feet frontage on Twenty-fourth street between Lincoln and Grant avenues, appeared before the council and protested against the removal of the sandstone gutter on account of the new paving. Prof. Smith stated that when the curb and gutter were put down the abutting property owners were charged \$2.15, and did not think it was right that it should be removed for the new paving unless some reduction was made in the cost. Members of the special paving committee reported that it had been found necessary to remove the curb blocks, as they were out of line and the new paving could not be laid straight. After some further discussion, the matter was referred to the special paving and street committees and the city engineer and city attorney.

The street committee reported, recommending that the Salt Lake & Ogden railway be permitted to construct a grade crossing at Thirty-second street and Wall avenue, providing it bear the cost; adopted.

The purchase of about \$400 worth of brass letters to be placed in concrete sidewalks at street intersections for naming streets was ordered.

The special water committee recommended that the special report of Engineer Fortler on the waterworks system be filed and the recommendations in regard to street extensions be adopted.

## WOOLGROWERS' CONVENTION.

OGDEN, Aug. 31.—President F. W. Gooding, Secy. George S. Walker, both of Idaho, and Tim Kinney of Wyoming, and directors of the National Woolgrowers' association, are spending a few days in Ogden conferring with the local executive committee relative to the holding of the national convention in Ogden, Jan. 15, 16 and 17, 1910.

The visitors stated that they were well pleased with the arrangements made and said that it will be the largest convention ever held by the association. They say that on account of Ogden's central location with the railroads and its ample hotel accommodations, there will probably be about 2,500 delegates in attendance at the convention. One feature of the convention will be the livestock show, for which a number of valuable prizes have been hung up.

## FRUIT FOR FAIR.

OGDEN, Aug. 31.—Fruit Tree Inspector Rasmussen has returned to Ogden from a trip through Boxelder and Cache counties, where he has been gathering fruit and vegetables to be exhibited at the Four State fair which opens in Ogden for a week beginning next Monday. He states that while some lines of fruit are scarce it was successful in gathering a splendid display of fruit.

AFTER JANUARY FIRST  
Council Passes Prohibition Ordinance and Fixes Heavy Penalties for Infractions.

(Special to the "News.")  
PROVO, Aug. 30.—After the first of January next, Provo will be a dry town, so the city council decided last night at its regular session. The city fathers passed by a vote of 6 to 3 a new ordinance repealing all ordinances of the city relating to the liquor traffic and making it unlawful after Jan. 1, 1910, to manufacture, sell, give away or otherwise dispose of any kind of intoxicating liquor within the confines of the city, and the penalty for violation of the ordinance shall be a fine of not less than \$50, nor more than \$200, together with a jail sentence not to exceed six months.

**BOXELDER HIGH SCHOOL IN NEW BUILDING.**  
Splendid Condition of County Schools Since Consolidation Under One Board.

BRIGHAM CITY, Boxelder Co., Aug. 30.—At the opening of the school term next month the Boxelder county high school will be held in this city in its own building, portions of the new school, which is costing \$50,000, being nearly completed. Up to the present something over \$33,000 has been expended in the construction of the center and south wings, which will be occupied by the school at its opening on Sept. 20, while the construction of the north wing will be pushed as rapidly as practicable.

The new building is three stories above the basement, faces west, and makes a very imposing appearance in its commanding position, overlooking the beautiful Bear River valley. It is built of red pressed brick, in a gothic style with well-arranged class rooms, commodious assembly hall, and conveniently fitted gymnasium, and there will be a considerable expenditure to be expended in the establishment of a chemical laboratory and a domestic science department.

The high school gives regular four-year courses, and at the close of the last year, in May, the first graduates of the school received their certificates. These graduates were Alice Forsgren, Vera Bumble, Rose Smith, Andrew Anderson and Carlos Sederholm.

The county school board has just purchased four school buses at a cost of \$1,100, for the transportation of children to school in localities where the school buildings are some distance from the homes of the little ones. Owing to the extensive area of Boxelder, the question of transportation was one of the most difficult to meet, and had been urged strongly against county consolidation. The board of education, however, has solved the question most satisfactorily, and conditions are vastly better than formerly.

In the old arrangement it was a common occurrence for little ones to walk a mile and a half or two miles through snow or rain and mud, often at peril of their health, and reaching the school building late. Then they were in a mixed school, where the work could not be satisfactory. Now the little tots are carried in buses, without danger to their health, and are always on time; and at graded schools, where the best work is done. The expense has been comparatively light and has been offset

## AMERICAN FORK CITY ADOPTS PROHIBITION

Council Passes Ordinance Closing Saloons at the End of the Year.

(Special Correspondence.)  
AMERICAN FORK, Utah Co., Aug. 30.—The city council of American Fork, by a vote of 4 to 1, passed the following prohibition ordinance, and in all probability the cities of Lehi, Pleasant Grove and Alpine will pass a similar ordinance, as the great majority of citizens approve of the same:

### PROHIBITION ORDINANCE.

An ordinance to prohibit the manufacture, sale, giving away, or other disposition of intoxicating liquors, and repealing chapter 23 of the revised ordinances of American Fork City, relating to intoxicating liquor, being from section 163 to section 187, both inclusive, passed Sept. 2, 1905.

Be it ordained by the city council of American Fork City:

Section 1. It shall be unlawful for any person to manufacture, sell, give away, barter, deal out, or otherwise dispose of any intoxicating, malt, spirituous, vinous, mixed or fermented liquor within the limits of American Fork City. Every person who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine in any sum not less than \$50 and not more than \$200, and in addition to such fine shall be imprisoned not exceeding six months.

Section 2. That chapter 23, which includes sections 163 to 187, both inclusive, of the revised ordinances of American Fork City, relating to intoxicating liquors, passed September 2, 1905, be, and the same is, hereby repealed.

Section 3. This ordinance shall take effect January 1, 1910.

Passed this 28th day of August, A. D., 1909.

## WANTED ACTION DEFERRED.

Attorney W. E. Rydahl who recently resigned the position of assistant prosecuting attorney of the county (in order to look after his extensive law practice) met with the American Fork council and endeavored to induce the city fathers to let the saloons remain open until the next legislature met, and let the people decide, but the city fathers believe the people have already spoken in no uncertain terms regarding the question of prohibition, hence the action last Saturday night of passing the ordinance, closing all saloons after Dec. 31, 1909.
