

SHORT LINE AND NEW GOLD FIELDS

Extension of Salmon River Branch To Thunder Mountain Considered.

SAMPLES OF SPLENDID ORE.

Specimens Exhibited in Short Line Offices Today, Which Go \$12,204 To the Ton.

The fine display of ores containing gold, silver, quicksilver and copper brought to this city by the Caswell brothers from Thunder Mountain, Idaho, were placed on exhibition this afternoon, in the general passenger office of the Short Line, where they are attracting much attention. The Messrs. Caswell return tomorrow, feeling convinced that their visit to the railroad offices in Boise and Salt Lake has stirred up the country.

The gold ore specimens are claimed to represent ore yielding \$12,204 of gold and silver to the ton, but nearly all gold, and the quicksilver specimens indicate ore running 7 to 20 per cent metal. The Caswells stated that where they struck the circular ore body it was 20 feet across, and the surface croppings indicated the presence of immense bodies of ore. In fact, the ore is scattered through the quartzite that is spread over the country.

The Caswells say it is sixty miles to a wagon road from the center of Thunder Mountain's riches, but there are good trails over which easy access is had to the deposits.

"However," remarked Dan Caswell, "there is no need of worrying over that, because there will be a railroad in there about as soon as a good wagon road could be built." Mr. Burley sort of picked up the case as he listened to this and looked out of his office window toward the north with an expectant far-away smile. "Why didn't you bring down the big \$500 sample from Boise?" asked Mr. Burley. "Mr. Caswell gave his trousers a nervous hitch as he replied, 'Why, we got tired hitting that 80-pound chunk 250 miles to Boise, and thought we'd leave it where it was.'"

Mr. Burley had a government mining expert looking over the specimens this morning, and he pretty nearly had as hard an attack of mountain fever as the general passenger agent was experiencing. While no official announcement is made, it is understood in Short Line circles that the extension of the Salmon River branch west of Mackay is merely a question of running surveys, grading and laying track.

STEEL FOR SAN PEDRO.

Seventy-five Cars of Rails in Transit from Chicago.

Seventy-five cars of steel rails are in transit from Chicago to Los Angeles, for the San Pedro road, and one hundred cars more are being shipped for shipment. In addition to this, 12,000 tons of steel have been contracted for with the Illinois Steel company, to be shipped west as fast as possible. Shipments are made over the Santa Fe, which has been cultivating friendly relations with the San Pedro company. The latter's breakwater in San Pedro harbor has been enlarged by \$25,000 tons of rock.

RECEPTION FOR VISITORS.

Program for Entertainment of Traveling Passenger Agents Friday.

"Rio Grande lines welcome to the traveling passenger agents and their families in the City of the Saints Friday, November 22, 1901, is the sentiment adorning the front page of a beautifully arranged program just issued today from the Rio Grande general passenger office in this city. The details is as follows:

Due in Zion 9:30 a. m. Breakfast on train; street cars from Rio Grande station to Knutsford hotel, where reception rooms have been arranged for the day; Sanitarium, 10 a. m. to 5 p. m. Complimentary bath by courtesy of Sanitarium management; luncheon, 12 noon to 1:30 p. m., Knutsford hotel. Compliments of Mr. G. S. Holmes, proprietor; trip to the Lake at 2:15 p. m. Cars will leave hotel at 3:55 sharp for Rio Grande station; on return from Lake at 2:45 p. m., street cars will start from Rio Grande station on a flying trip "Seeing Salt Lake City." By compliments of street car management, Tabernacle, complimentary organ recital at 4:45 p. m. (doors closed at 4:40 p. m.), by Prof. John J. McEllean and soloists; dinner, 5:30 to 7:30 p. m., Knutsford hotel. Compliments of Mr. G. S. Holmes, proprietor.

The grand exercises at the Knutsford are only for the visiting passenger men, and not for residents of this city except upon invitation. At 7:40 p. m. street cars will be in waiting to take the visitors to the Rio Grande depot where the special leaves at 8 o'clock for Glenwood. A neat view of Temple Square adorns the last page of the program.

For Advertising Purposes.

On the long table in the Short Line general passenger office, 100,000 mostadoin white potatoes weighing 60 and 62 ounces respectively. They were brought in by C. M. Savage as a gentle suggestion to the visitors to the Rio Grande depot where the special leaves at 8 o'clock for Glenwood. A neat view of Temple Square adorns the last page of the program.

R. G. W. Publications.

The following memorandum of standard Rio Grande Western publications, issued within the last two or three years, shows that the passenger department in this city has not been idle: "Utah"—A Mountain-Walker. Treasury, 120,000 copies; Crossing the Rockies, 110,000; Salt Lake City—The City of the Saints, 10,000; Tourist's Guide to Salt Lake City, 50,000; Painters or Prospects—Agriculture, 15,000; Alpine Tour—Scenic Utah Side Trips, 50,000; Utah Mining Districts, 20,000; Prospector's Map and Guide, 25,000; It Will Be Summer-Time By and By, 140,000; Poets, per annum, 240,000.

SPIKE AND RAIL.

"Speed indicators" is what the street car conductors now call flat wheels.

G. A. Hull, general western agent at Denver of the Pennsylvania lines, is in town on business.

The Rogers Locomotive works at Paterson, N. J., will be enlarged by the syndicate that bought the plant.

The remodeling of the Short Line depot at Kemmerer makes it one of the best in the states of Wyoming and Utah.

The new 75-pound steel for the street railway is to be laid on the Third and Third South street sections of the new paving district.

The San Pedro line has received

CHANGE OF LIFE.

Some Sensible Advice to Women by Mrs. E. Sailer.

"DEAR MRS. PINKHAM:—When I passed through what is known as 'change of life,' I had two years' suffering—sudden heat, and as quick chills would pass over me; my appetite was variable and I never could tell for

MRS. E. SAILER, President German Relief Association, Los Angeles, Cal.

a day at a time how I would feel the next day. Five bottles of Lydia E. Pinkham's Vegetable Compound changed all that, my days became days of health, and I have enjoyed every day since—now six years.

"We have used considerably of your Vegetable Compound in our charitable work, as we find that to restore a poor mother to health so she can support herself and those dependent upon her, if such there be, is true charity than to give other aid. You have my hearty endorsement, for you have proven yourself a true friend to suffering women."—Mrs. E. Sailer, 750 1/2 Hill St., Los Angeles, Cal.—\$5.00 for full bottle, 10¢ for trial.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, for no other has had such great experience—her address is Lynn, Mass., and her advice free—if you are sick write her—you are foolish if you don't.

FIVE CASES OF DIPHTHERIA.

Diphtheria is getting a bad hold in Salt Lake. Five new cases were reported to the board of health today. Hugh, another son of Hugh Watson, 344 South Fourth West, has caught the disease. The other cases are Melva and Edna, daughters of a child of the name of Gugi at 213 West First South, and Parra Anderson of 646 East Second South. All these cases were identified as diphtheria by Herman Harnes, the city bacteriologist. This makes eighteen cases so far this month.

ECHO FROM M.T. WARD CASE

Philip Schwartz Claimed to Have Champagne Bill Against Much Married Man.

Judge Morse, However, Deemed Otherwise and Dismissed the Action—Contempt of Court Proceedings.

Philip Schwartz, an aged saloon man, came to grief in his case on trial before Judge Morse and a jury this morning in being ordered to show cause why he should not be punished for contempt of court for not obeying the order of the court, and his case against M. T. Ward was dismissed. Under the laws of the state a saloon keeper is prohibited from collecting for a retail liquor bill for liquors sold in less quantities than five gallons, and last spring on defendant's motion the court ordered that plaintiff furnish an itemized statement of the liquor purchased. At that time Schwartz professed an inability to state in what quantities the liquor purchased had been made. When he stated the itemized statement this morning that there were thirty-eight bottles of champagne, two bottles of port, etc., and seemed to have refreshed his memory to such an extent that he was able to furnish the itemized bill about which he had been very hazy when ordered by the court to specify, the judge came to the conclusion that the old man had been trying to be tricky. It is now up to him to show that he was not.

Settled Out of Court.

The suit of Naylor and Clark against Herbert Bros., in which plaintiffs sought to recover \$150 for pasturing and keeping a horse in the county, was today dismissed, having been settled out of court.

Committed to Reform School.

Nellie E. Kilbourn, a 15-year-old girl, was this morning committed to the reform school for incorrigibility. The testimony submitted that she was a girl of wayward habits, and had been seen by the police at the Metropolitan hotel and in the Daft building, where she and another girl hired rooms with a news agent called Wiggins, and another youth.

Found Against Constable.

In the Tingle-Caffall trial the jury returned this morning with a verdict finding the constable liable for the injuries to a sealed verdict. Finding the issues for the plaintiff and awarding him \$215 as sought for. John Tingle was a peddler, and Constable Caffall levied on his horse and buggy, which he claimed was exempt from execution.

COURT NOTES.

A. E. Tryon, charged with house-breaking, entered a plea of guilty and will be sentenced on Saturday.

The suit of the Consolidated Implement company against John R. Hart has been dismissed on plaintiff's motion.

John Williams and John Kelly, two of the soldiers who are charged with robbery, were arraigned in the criminal division of the district court this morning and pleaded not guilty.

Judge Stewart this morning announced that he had decided not to grant a new trial in the case of Daniel and George Stringfellow vs. R. M. Gray et al., the motion for which was argued last week.

PEOPLE WHO ARE PASSING

Ex-Gov. Frank Steunenberg of Idaho is a guest at the Kenyon from Caldwell. The governor is a prominent member of the Idaho State Engineers' Association, which has for its object the reclamation of 200,000 to 250,000 acres of now unproductive land in southeastern Idaho. State Engineer Ross, I. B. Pertine and other prominent men are interested with the governor in the scheme. He does not say much about politics, but his friends say he has a knife up his sleeve for the thick and thin Democracy in Idaho, and

PHYSICIANS ARE AROUSED

People Are Asked to Co-operate in Stamping Out Disease.

DR. BEATTY IS EMPHATIC.

Says Residents Are to Blame for the Lack of Quarantine Methods That Are in Vogue.

"If the public continues to be as careless and indifferent towards the spread of disease in this city in the future as it has been in the past," said Dr. Beatty this morning, "there is no telling where we will land."

As his words indicate, Dr. Beatty is of the earnest conviction that the city is menaced at this time and that the only agency that can avert the trouble is the people themselves. The means by which they can do this, says the doctor, is to see that every provision of the quarantine regulations is strictly lived up to, and in cases of violation be ready to testify against the accused.

"Unless the people do this," says he, "the physicians are helpless. We have a time for the men to post at every quarantined door to enforce the proper observance of the law. The people must guard themselves and awake to a vivid realization of the fact that they themselves are the key to the situation. What is most embarrassing to us is to have some one come into our office and complain bitterly against the failure of the health officers to enforce quarantine measures where they are being disregarded by some neighbor of the complaining citizen, and then have the latter blankly refuse to tell his own name or to have it connected with the affair at all. What can we do in such cases? This morning a man came into the office and complained that a neighbor of his had a child with the scarlet fever, and that he lived in the same house and went to his work every day, and that his wife visited among the neighbors. We asked him if he was willing to swear to it on the stand and he said he didn't want his name used in connection with the matter whatever. There is the situation."

"We have accomplished one step, however, towards the suppression of contagion, which I hope will do some good. By authority of the City Council we have two men in citizen's clothes, empowered with police authority, traversing the city every day, on bicycles, looking up the cases where the quarantine law is broken and reporting them to the health officers. Every man responsible for such gross carelessness as to disregard the regulations of the law shall be prosecuted to the very limit."

Dr. Beatty is preparing a statement for the public in which he will call attention of the latter to the situation that now prevails. He will also recommend that every school room in the city be thoroughly disinfected during the Thanksgiving holiday. He says that eternal vigilance is the price of health, just as much as anything else, and that every parent should endeavor to constitute himself a committee of one to protect the health of his child against the transgressions of the quarantine law, as he would protect his life and the life of his family by seeking to slay it with a weapon.

Excavating has begun on the property just south of the progress block on the east side of East Temple street, and the new two-story Dinwoodey block will be erected there as soon as possible.

MAIL CARRIERS FINED.

Charged With Violating the Quarantine Law—Failed to Report Sickness.

Orson Houghton, a mail carrier, was arrested today at the instance of City Physician King, charged with having violated the quarantine regulations. Dr. King alleges that there is a case of scarlet fever in Mr. Houghton's house and the latter has failed to report it to the health authorities. It is said that a daughter of the family, who is attending the public school, has been stricken with the disease last Friday. Her absence was reported to School Physician Whitney, who, it is said, went to the house. No. 7 Washington Court, and upon inspection, discovered that the child had scarlet fever.

Dr. King declares that the spread of contagion in this city is due to just such negligence, which he characterizes in stronger terms.

This afternoon Judge Dehl fined Houghton \$25.

Don't ruin your stomach with starchy foods. Eat GRANORSE and GRANOLA. ST. HELENA SANITARIUM FOOD CO.

BUSINESS NOTES.

Today's clearings amounted to \$902,132.70, as compared with \$472,677.62 for the corresponding day of last year and \$254,346 for the same day of last week.

The American Wool and Cotton Reporter of last week gives the following interesting statement of this year's wool market in Boston. The receipts of wool in Boston last week amounted to 11,465 bales, against 8,694 bales last week and 3,207 bales a year ago. The total receipts since January 1 have been 57,663 bales of domestic and 119,775 bales of foreign, against 34,704 bales of domestic and 125,594 bales of foreign for the corresponding period of 1900. This is an increase of 22,959 bales of domestic and a decrease of 6,821 bales of foreign. Since January 1 the total shipments amounted to 22,457,006 pounds. The sales of the week in Boston amounted to \$264,500 pounds of foreign making a total of \$2,925,500 pounds, against a total of \$2,445,000 for the previous week, and a total of \$2,580,000 for the corresponding week last year. The sales since January 1 amounted to \$24,178,000, against \$14,763,500 for the corresponding period of last year.

Dun's Review says of last week's wool market: Activity at well supported prices marks the situation. Sales are less sensational, but there is still a steady demand and wholesome conditions. Sellers are not making any concessions, and enormous stocks are gradually subsiding. It is reported from the West that much wool is still being sold, but there is no inclination to accept prevailing figures. Others are willing to deal at the present basis, which prevents the advance that has for some time seemed inevitable.

Dun's Review for the week ending on last Saturday says of business conditions in this city: Continued mild weather affects demand to some extent, but business on the whole is up to expectations. Manufacturers of confectionery and softwares in holiday goods are busy. Retail trade in winter clothing,

PRIZES FOR THE "CHRISTMAS NEWS."

The Deseret News offers the following cash prizes for contributions to its Christmas edition to be issued Saturday, Dec. 21, 1901.

First—\$50 for the best Christmas story, not to exceed 8,000 words, (about seven columns of the "News" type.) Second—\$25 for the best Christmas poem, not to exceed 1,200 words.

All contributions to be in the "News" office not later than Dec. 3rd, 1901. Nothing received later than that date will be considered. Contestants are requested to sign their contributions with an initial letter or nom de plume, to conceal their identity, and to forward in separate envelope securely sealed, their real names and the initial or the nom de plume appended to their articles. On the outside of the envelope should be written "Proper name of—" (here indicates the initial or nom de plume used.) All members of the "News" staff will be excluded from the contest. The awards for the story and the poem will be made by competent judges to be announced later.

"Wheat in Utah will not sell for one dollar a bushel for a considerable time to come," said a prominent dealer in wheat and flour today, "and I very much doubt that it will reach a price over 10 cents higher than the present figures. Why, in San Francisco, there is all kinds of wheat at 80 cents a bushel, in Portland, at 57 1/2 cents and in Chicago, Kansas City and other eastern points at 20 to 23 1/2 cents. Wheat advances all over the world it will be plentiful in Utah at a price not greatly in excess of 30 cents a bushel. As to flour it is my opinion that it may sell at prices 20 or 30 cents higher than at present. There will be a question that the railroads will decide. Undoubtedly, if flour goes much higher there will be importations of it from the West, and if very considerable quantities are ordered, and special traffic rates are arranged for, flour will not sell at very much higher in this city. I think wheat and flour will be imported from western points and consequently the prices will not exceed the figures at present. Several of the principal bakers of the city were seen this morning about a story published by a morning paper to the effect that bread would either cost more per loaf or shabby bread would be given at the present prices. Two of the largest bakers state that they have absolutely no intention of increasing their prices of decreasing the amount given. 'If flour advances very much more in price,' said one, 'it will be shipped in from the East. The shortage of the grain supply is purely local and consequently after the prices for flour attain to the present level in advance of those maintained at present it will be possible to ship in eastern flour or wheat at advantage.' Wheat is now wholesaling in Salt Lake at prices from 70 to 75 cents per bushel and flour at \$2 for High Patent, \$1.25 for extra, and \$1.10 for baker's. Some of the prominent millers living in this city were called upon today and asked if the flour shortage, about to secure control of the Utah and southern Idaho mills, had anything to do with the recent rise in the prices of flour. They said that there is absolutely no truth in the statement that it had, and also said positively that as yet the combine has had nothing whatever to do with the local mills or prices, the advance being entirely the result of a shortage of wheat."

shoes, etc., is quiet, but in other lines satisfactory. Collections only fair, but money is in good supply and fair demand.

"We are all working together for the good of the state—Democrats, Republicans, Populists, Jew, Gentile, Mormon, and where the weal of Idaho is involved, politics, religions and differences of personal opinion don't count. Such things are then forgotten. Then the industrial interests of the state are looking up decidedly. Why, at Shoshone Falls there is a water power second only to Niagara, and a Pennsylvania syndicate with plenty of money back of them are preparing to install a big power plant there which will not only supply electricity for lighting and power in the mines of the adjacent country, but also furnish power to run the proposed electric power road between Halley and Nevada. The fall of the water is so heavy that you can feel the building shake as you sit in the hotel."

"Next year will be a great year for railroad building in Idaho, for the development of our canal systems, the higher grading of our roads and herds, and improvement generally in our farms, ranches and orchards. The matter of the locks in the river about the Dalles, and further improvement of the river, making Lewiston the head of navigation, will be pushed in Congress this winter, though the railroads will no doubt fight it."

When asked about the Corcoran pardon, Gov. Hunt smiled and only said he had nothing to say for publication. As to next fall's election, why, that was a long way off. It would be time enough to cross the bridge when it was reached.

WILL AWARD PRIZES.

The judges of award visited the High School late this afternoon and examined the work placed in competition for prizes offered by the Art Institute for the best art work done by pupils of the various grades.

WILL OF B. M. ELLERBECK.

Today Filed for Probate in the Chancery Division.

The will of Brigham M. Ellerbeck was today filed for probate by Thomas R. Ellerbeck, who asks that he and Horace Ellerbeck, brothers of the decedent, be appointed executors of the estate.

The other heirs are Alice R. Ellerbeck, Clayton, Wilton Ellerbeck, Sarah Ellerbeck, Karriek, James O. Ellerbeck.

The estate consists of a house and lot at the corner of First and B streets, where the decedent lived with his sister, Sarah Karriek and her children, and which he conveyed to her during her life, delivering the deed to his brother, Horace, with instructions that it was not to be recorded till three years after his death and not to be conveyed during this time. Mr. Karriek was to pay taxes, insurance, etc., but was authorized to surrender possession at any time within the three years. Of the personal property contained in the two rooms in this house Mr. Ellerbeck bequeaths one-fifth each to each of his heirs except his executors.

The decedent leaves 1,695 shares in the Utah Plumbing company, of which he desires Horace Ellerbeck to be re-

RUSH WILL BREAK IDAHO RECORDS

So Says Governor F. W. Hunt at The Knutsford Today.

TALKS ABOUT THUNDER MTN.

Big Power Plant for Shoshone Falls Being Projected by Syndicate of Pennsylvania Capitalists.

Governor F. W. Hunt of Idaho arrived from the north this morning and is a guest at the Knutsford hotel. To a "News" reporter who presently called on him the governor said that this was the first time he had been in Zion for a year or over, and had run down here for a day or two on private business.

When asked what he thought of the Thunder mountain country, his excellency replied that the world had no adequate idea of the vast extent of riches hidden in the mountains of that part of the state. "There will be the biggest kind of a rush when spring comes," said the governor; "in fact, there will be an immigration to Idaho that will break all the records in the history of the state. The state will go through the same experience as Colorado did in the early eighties when the great Leadville strike brought thousands of people from the east into her mountains and inaugurated a development that has made Colorado one of the world's great producers of the precious metals. So the spring of 1902 will witness a growth in mineral development in Idaho that will make the state in a few years the peer of any state in the Union. Indeed, I understand that prospectors are en route to the Idaho Klondike right now, even before winter has really begun. They propose to be ready for business as soon as the snow is sufficiently melted to enable them to begin operations."

"We are all working together for the good of the state—Democrats, Republicans, Populists, Jew, Gentile, Mormon, and where the weal of Idaho is involved, politics, religions and differences of personal opinion don't count. Such things are then forgotten. Then the industrial interests of the state are looking up decidedly. Why, at Shoshone Falls there is a water power second only to Niagara, and a Pennsylvania syndicate with plenty of money back of them are preparing to install a big power plant there which will not only supply electricity for lighting and power in the mines of the adjacent country, but also furnish power to run the proposed electric power road between Halley and Nevada. The fall of the water is so heavy that you can feel the building shake as you sit in the hotel."

"Next year will be a great year for railroad building in Idaho, for the development of our canal systems, the higher grading of our roads and herds, and improvement generally in our farms, ranches and orchards. The matter of the locks in the river about the Dalles, and further improvement of the river, making Lewiston the head of navigation, will be pushed in Congress this winter, though the railroads will no doubt fight it."

When asked about the Corcoran pardon, Gov. Hunt smiled and only said he had nothing to say for publication. As to next fall's election, why, that was a long way off. It would be time enough to cross the bridge when it was reached.

Excavating has begun on the property just south of the progress block on the east side of East Temple street, and the new two-story Dinwoodey block will be erected there as soon as possible.

The handsome new three-story building erected on west Third South street for the McDonald Candy company will be completed this week, but owing to the rush of holiday business, it will not be occupied until after January 1st.

Hon. David Keith is in Park City today on mining business. His son stated, however, that last evening the City Council had adopted the various steps of plans for the proposed fireproof office building to be erected on the Walker House site, were submitted by the architects and are now under consideration. No decision of any kind has been reached at yet. It is stated that Mr. Keith is not satisfied with the plans submitted and that he will probably within a day or two decide upon an architect to prepare plans along lines furnished by himself.

P. J. Moran stated today that the \$50,000 pipe line now being constructed from City Creek canyon and on North Temple street will be completed by the middle of December. There are twenty six and seventy men at work on it and all the necessary 24-inch pipe is on the ground. The pipe line is between one and a quarter mile and a half miles long. Mr. Moran said the block on North Temple between State and Main will be completed in a few days.

Moylan C. Fox has sold the 900 head of Hereford, Durham and Holstein cattle which he had on his ranch north of Soda Springs. The cattle were disposed of at Omaha, at good prices—the cattle being full blood animals.

AFTERNOON MINING CALL.

Stocks Are Still Exhibiting Signs of Strength.

The exchange this afternoon was devoid of life, and though a softening from the morning was noticed in some of the lower end of the market, it held up well and some showed a decided gain.

Ajax was quoted at about the morning's figures, though no stocks changed hands. Carica increased its bid, selling up as high as \$1.04, but softened at the close and sold under the dollar mark.

It was when Daly West was reached that the first noticeable jump was made and over 200 shares sold, several lots going at figures around \$1.00. May Day was stronger and closed at 52, several sales being made at that figure. Today closed over 7,500 shares at figures around 52 1/2, but closed at 52 1/2.

Uncle Sam showed signs of weakness, selling around 87 1/2, not getting far away from that figure. The remaining stocks maintained the morning's advance.

Out door Exercise gives greatest good when it is supplemented by using in the bath

Woodbury's Facial Soap

It draws the sting of sunburn, heals chafes and bruises, freshens and invigorates the skin leaving it smooth, firm and white.

MINERS INCINERATED.

Fire Raging in Smuggler Union Mine, Colo., Today.

(Special to the "News.") Denver, Colo., Nov. 20.—Fire in Smuggler Union mine, discovered early this morning and an unknown number of miners have been incinerated or suffocated. One dead body was taken from the bunk house at the mouth of the tunnel. No further details obtainable at this hour. The mine is near Terride and communication is difficult.

APOSTLE YOUNG BETTER.

Apostle Brigham Young, who has been confined to his home for the past few days with a severe cold, is on the fair road to recovery. If the weather is favorable he expects to be able to attend the meeting of his quorum tomorrow.

PERSONALS.</
