In Science, of a recent issue, we are told of two experts differing in their opinion-the result of examination of sugar-as to the adulteration of saccharine products with glu cose. Professor A. R. Leeds stated that he was coabled, after investigations, to contradict 'with decisiveness the notion that table syrups are largely, almost universally, adulterated with glucose syrups." The other chemist, Professor Harvey W. Wiley, says, with equal con-fidence, that "a very large proportion of all the glucose made is used for the manufacture of table syrups." Science also says that it is in receipt of a communication stating that in the west nine-tenths of the syrups on the market have but 5 to 15 per WASHINGTON, 4. - Executive Mansion, 11.15 p.m.-The President cent. of cane sugar, and adds: "If Professor Leeds wishes his future communications on adulterations to be read with 'vivid interest,' or his reports to reach what he terms 'a commanding position in the litera-ture of adulterations,' he will offer some evidence that Professor Wiley is in error, while a few facts, showbe read with 'vivid interest,' or his is in error, while a few facts, show-ing the destination of the 500 tons of glucose and grape sugar manu-factured every day, will be timely and welcome." is in error, while a few facts, show-

A young German student named Washington, Aug. 5.-Executive Mansion, 8 20 a.m.-The President Blersch, staying near Aigle, in the Valois, Switzerland, made the as-cent, June 25th, of the Grands Ro-chers, a mountain about 5,000 feet high, close to Ormont-Dessons. The feat is not difficult nor dangerous, if the person will only follow the beat-en track. Mr. Biersch got safely up, but returning, concluded he would take a short cut, and felicit-Valois, Switzerland, made the as-
