The state, it is beneved, has won the first round in the battle of witnesses by producing a mass of evidence which seems to leave no doubt that the body found in the woods in the St. Joe coun-try was that of Fred Tyler. This mothing Jacob Yeager, brother-in-law of the dead man, added his testimony. His description of Tyler conformed to that given by other witnesses for the state. He declared he had known Tyler for nine years and had identified the body by the shape of the skull, the color of the hair, the calioused feet and the crooked finger. He declared he had made the shoes found near the body and had given them to a merchant in Santa to sell for him. where it is supposed the ball came out

"It is your privilege not to concede anything, not even common courtesy," was Mr. Delmas' reply. "I am exercising by privilege," snapped Mr. Jerome. Dr. Evans proceded to read the vol-uminous will. When he had finished reading Mr. Delmas asked: "Can you state whether Mr. Thaw at the time of executing the will and the codicil was of sound or unsound mind, taking all you know of the case into consideration?" New York, Feb. 19 .- The defense in

the Thaw case, having practically con-

cluded its attempt to prove that Harry

K. Thaw was insane at the time he

killed Stanford White, now faces the

problem of proving that this insanity

was of a temporary nature and that

he has recovered from it. Mr. Hart-

ridge of Thaw's counsel, announced

yesterday that Dr. Graeme M. Ham-

mond and Dr. Smith E. Jelliffe. both noted alienists, will be placed on the

stand today after Dr. Evans' testimony has been concluded. Neither of these

experts has been mentioned as having

seen Thaw immediately after his in-

carceration in the Tombs and it is therefore believed that they will be

called for the purpose of showing that

Thaw is now sane, Neither Dr. Britton

D. Evans nor Dr. Charles G. Wagner

has stated whether or not he believed Thaw to be same now, although Dr. Evans testified that there was a notice

able improvement in his condition aft-

er his first three visits to the Tombs.

Whatever it is that Dr. Jelliffe and Dr.

Hammond will testify to, it is planned

that they be called today. Dr. Ham-

mond has recovered from a slight in-

disposition and was again in court yesterday after an absence of a week,

which was read in evidence yesterday. The names of these girls, which are mantioned in the document, were not read yesterday and will not be dis-closed by Evelyn Thaw when she testi-files, but Dist. Atty. Jerome has them, and it is understood has seen all the girls referred to and has obtained from them their story. That he will be ably to put any of these stories before the jury there is little probability. But he can perhaps use them in his cross-ex-amination of Evelyn Thaw. The proceedings late yesterday after-noon gave a hint of what is to come when Mr. Jerome begins his cross-ex-aminations. He made a brief prelimin-ary cross-examination of. Dr. Evans and plainly showed that when he goes into the general cross-examination, of the experts it will be very searching. There are few if any lawyers who have a better knowledge of medicine as applied to neurology and insanity, and that he will take full advantage of his knowledge is certain. Mr. Jerome and Dr. Evans are not on friendly terms, and the clash between them will be interesting. On the other hand, if was shown that Mr. Delmas will do everything in his power to protect his witnesses from Mr. Jerome's sarcasm
