Washington, 9.—Chalmers introduced a bill to restore a republican form of government to the State of Mississippi. Referred.

Some derisive laughter from the democratic side greeted the reading of the title to this bill. [It provides that Congressional and State elections shall be held on the same day in that State; such candidate for Congress shall be permitted to appoint, in writing, an inspector and clerk at each voting precinct, who shall be permitted to witall proceedings. It is made a crime punishable by fine and imprisonment for any person to assault, intimidate, threaten or insult any inspector or

constitutional argument in support of the right of Congress to legislate on the subject.

Horr favored the appointment of a commission of inquiry, with power to inquire into each particular case of ininquire into each particular case of injustice on the part of the railroads, and to compel the companies to furnish all data necessary to investigate each transactions. Reagan's substitute, norr asserted, discriminated in favor of roads in certain States, and against those which necessarily went through several States. It would strike down all cheap rates of the West and South, and the cheap transportation of flour and wheat from Kansas and Minnesota would be a thing of the past. It would put dear bread in the mouths of the great working millions of the East instead of cheup bread. He had no sympathy with that class of men who simply inveighed against railroad companies because they were corporations it was a cheap kind of business formen to go about crying "monopoly." The great wealth of Gould and Vanderbilt had not been taken from the pockets great wealth of Gould and Vanderbilt had not been taken from the pockets of the laboring men. The roads they built they paid for. They had made money by buying poorly managed roads, putting brains into them and making them profitable. Their gain was legitimate. They made money in another way, not from laboring men, but from men who went into Wali street and "thought they were smarter than those old fellows." If it could be proven to him that the railroads were becoming prosperous by extortionate charges, he would go as far as any man to correct the evil.

ELECTION PRAUDS IN OHIO.

SIX PERSONS BURNED TO DEATH.

BLOODY WORK OF SOUTHERN DESPERADOES, ETC.

Washington, 9.— The Attorney-General, in reply to a letter from Springer, chairman of the committee on expenditures of the Department of Justice, sent to that committee copies of correspondence on file in the department relative to the employment of U.S. Deputy Marshals at the Congressional election in Ohio, last October. Under date of Clucinnati, September 24th, Marshal Lot Wright, in a letter to the Attorney General, asyst The election for members of Congress in this State is held October 14th. It is estimated there will be needed to defray the expenses of said election the

TERRITORY, WEDNESDAY EVENING, DECEMBER 10.

H.H.

THE AND LIBERTY.

The next letter is dated September 29th, and is the reply of acting Attorney-General Phillips to the letter of Marshal Wright's of September 24th. It is as follows:

Tour letter of the 24th inst., is received, asking that an advance be made to you to defray the expenses of the Congressional election on the 14th proximo. You are informed that the Department, as a rule, does not advance funds for the expense mentioned, but pays for them a reasonable amount after the expenses have been incurred, upon presenting the account, when such account has no objectionable features. After the expenses have been incurred you will make up your account and forward the same to the department, when you will be informed of the amounts allowed each employe, and instructed as to the manner in which payments should be made In which payments should be made. The department may think, upon the rendering of your accounts, that the advance you ask for is all right. Your letter includes two items, namely: 126 supervisors at \$1,260: printing for supervisors, \$50, a matter distinct from the services of deputy marshals if by supervisors you mean those so named in the statute. If you mean United States supervisors, their accounts must, be kept separate from the deputy marshals, and will be paid in the manner and form mentioned above, bearing upon the accounts of deputy marshals.

Phillip's Second Letter. In another letter the Acting Attorney-General says: "In answer to an inquiry in your letter of the 25th ult., whether there is authority of law for employing special deputies from now until the day of election, I have to say that there is no limitation in the terms on time during which the appointment of such officers may be effective, but compensation is limited by the revised statutes to \$5 a day for not exceeding ten days' service, and no greater sum can be given."

The Next and Last Letter Is from Marshal Wright. It is dated October 29th, and is as follows: I forward to you this day a requisition for funds with which to pay deputy marshals and for other expenses pertaining to the Congressional election. As you will readily see, it is

deputy marshals and for other expenses pertaining to the Congressional election. As you will readily see, it is large, and while I regret the necessity for demanding the expenditure, it was the very best I was able to do under the circumstances. In addition to the above force I had many others who did excellent servic (not under pay), and yet I was unable to get the force necessary to protect the voters. We had matters well in hand in about fifty-five precincts, but in about six precincts the vote was not protected because I was unable to do it. Our force suffered many outrages at at the hands of the State and City authorities which, I apprehend, will be fully confirmed by what is about to take place in our courts. The situation in precincts not well handled is beyond the comprehension of those who have not been an eye-witness thereto, and I do not think any hundred deputies to a precinct could protect the vote therein. In one of these wards alone, during the night hefore election, over one hundred peaceable but defenseless men, without charge, were thrown into the celiar of the police station, and left there, without bed, food or water, till the polls closed, and then let out. During this time they were given to understand that if they would vote a left there, without bed, food or water, till the polls closed, and then let out. During this time they were given to understand that if they would vote a certain ticket it would be all right, and that they could go tree. This is a sample of what we have to contend with hare. Had I to go through it again, I could do better work with less expense, but I did the best I could under the circumstances. I have thought and intended to come in person to confer with you about this matter, but our husiness here is such now that it is

ses S. Grant for \$155,000.

Several days prior to the failure of Grant & Ward., Wm. H. Vanderbitt loaned General U.S. Grant \$150,000.

The money was not returned, but no step was taken in the matter until a few days ago, when Mr. Vanderbitt began acting in the Supreme Court for recovery of the same. General Grant consented that judgment should be taken against him for the full amount of the claim. The offer was accepted, and judgment was entered in the county gierk's office to-day, the amount being \$155,407.
