

BOMB THROWERS AT WORK IN WARSAW

Baron von Nolken, Chief of Police,
Injured by Bomb Thrown
Into His Carriage.

PLOT TO KILL HIM WELL LAID.

Before Attack on Him Seven Men Had
Been Injured by a Bomb Outrage
In the Praga Station.

Warsaw, March 26.—A bomb was thrown into the carriage of Baron von Nolken, chief of police of Warsaw, at 8 o'clock this evening. The attack was the result of an elaborate conspiracy of the revolutionary party.

Shortly before 8 o'clock tonight an elegantly dressed man went to the police station at Praga, a large suburb of Warsaw on the other side of the Vistula, and threw a bomb into the courtyard of the station, wounding seven persons, two of them dangerously.

The man started to run away but was caught by the captain of the police. He was found to be a Jew, but his identity has not yet been discovered.

A telephone message was immediately sent to Baron von Nolken at the city hall, informing him of the outrage. Baron von Nolken, accompanied by a police official, took a carriage and started immediately for Praga.

When passing the castle where the governor-general resides, a man standing on the pavement threw a bomb at the carriage. Baron von Nolken, who was sitting on the side nearest the assailant, received the full charge of the bomb, while his companion escaped unhurt. The coachman was thrown from the box and the carriage was smashed. Baron von Nolken was removed to the city hall and doctors were summoned, who found he had received injuries on the head, neck, arm and leg, which are believed to be serious.

Meantime the police official accompanying Baron von Nolken saw the bomb-thrower fleeing and pursued and caught up with him, but the criminal proved the stronger and tore himself away. Another policeman fired twice after him without result.

Half an hour later a man whom the police believe to be the bomb-thrower was found dead in Sowia street. The police think the man shot himself to escape arrest.

A girl who was passing the spot when the bomb was thrown was wounded by splinters and was taken to the hospital. According to the theory of the police, the revolutionists calculated upon Baron von Nolken going to Praga on learning of the explosion of the bomb at the station there and knew he must pass the castle, that being the only road by which he could reach the only bridge across the Vistula.

The affair caused great excitement. A popular rumor says the revolutionaries adopted this course of informing the police that they have more bombs besides those discovered in the Powonski cemetery last year.

Baron von Nolken is very unpopular. He is hated by the masses of the Polish people, who held him responsible for the sanguinary suppression of the disturbances here at the end of January. He has been here only a year, having come from St. Petersburg, where he was chief of the mounted division of the police.

According to later information, the bomb which exploded at the Praga police station was not thrown into the courtyard, but into a room of the station where the men assembled before going on duty. Six policemen were wounded and all the furniture, as well as one wall, was destroyed. The bomb-thrower, in trying to escape, met a policeman and shot twice, wounding the officer in the stomach. The prisoner himself was wounded and has been placed in the hospital.

The man found dead in Sowia street proves to be a plain clothes policeman who was seen pursuing Baron von Nolken's assailant. The police believe that the latter turned on the policeman and shot him dead.

Baron von Nolken's injuries are serious, but it is thought he will recover.

A GOOD DEAL OF NONSENSE.

About "Blood Purifiers" and "Tonics."

Every drop of blood, every bone, nerve and tissue in the body can be renewed in but one way, and that is, from whole-some food properly digested. There is no other way and it is the only one. A medicine in itself can purify the blood or supply new tissues and strong nerves is ridiculous and it is the only one. The food that that dyspepsia or indigestion is a germ disease, or that other fallacy, that a weak stomach which refuses to digest food can be made to do so by irritating and inflaming the bowels by pills and cathartics.

Stuart's Dyspepsia Tablets cure indigestion, sour stomach, gas and bloating after meals, because they furnish the digestive principles which weak stomachs lack, and unless the deficiency of pepsin and diastase is supplied, the regular attempt to cure stomach trouble by the use of "tonics," "pills" and "cathartics" which have absolutely no digestive power, and their only effect is to give a temporary stimulation.

One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs and similar foods. The remainder of the population consisting of 3,000 natives and 5,000 time expired convicts, with women and children who have settled on the island.
