The arrest of two members of the gang, whose ages range from 11 years to 15 years, charged with stealing chick-ens, caused them to "snitch" on the rest and tell where their den was lo-cated. Officer Jacobs took the case up and soon located the "robbers' roost." It was an old shack in the middle of one of the business blocks. In it were found work benches and tools and a number of bloycles, some of which were new. There was every appliance for the repainting and rebuilding of stolen bloycles. Some of the repair outfits were stolen from the shop of Brown-ing Brothers. ing Brothers.

In compliance with the general pub-lic sentiment here, the Cache county board has increased the wholesale and retail liquor licenses to just double what they were formerly. This puts the retail license at \$1,800 per year and the wholesale at \$1,200 g year. The board, in agreeing upon the saloon matter, also ordered that the time of closing being fixed at 10 p. m., and the ordinance will be so drawn. It is believed that this increase will make the law practically prohibitive. If it does not, the closing hours will probably be cut down to 7 o'clock. This action is part of the campaign to make this county dry. # S.S.S. CURES ECZEMA, ACNE, TETTER ETC.

While Eczema, Aone, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These affections are caused by irritating humors, or uratic acid in the blood. Such impurities inflame and irritate the delicate net-work of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually keptup while the blood remains infected. This exudation causes the form-ation of scales and crusts so often seen in Eczema, and when they are soratched off the flesh is left raw and more susceptible to other infection. scratched off the fiesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S. S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applica-tions can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S. S. S. restores to the thin, acrid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. PROVO, Aug. 7.—The second trial of Mrs. Elizabeth Moore, charged with a statutory offense, was held yester-day in the Fourth district court and resulted in a verdict of guility. Sen-tence was set for today. There was not much change from the evidence introduced by the state at the former trial. Mrs. Anna Senior of Sait Lake testified that defendant and C. H. Moore had rented a room from her and lived there several months this spring as husband and wife, and defendant had referred to Mr. Moore as her husband. The evi-dence of Mrs. Moore's admission to Sheriff Judd that Mr. Moore was her husband, admitted in the former trial was not admitted in the state, but he refused to testify to the marriage. After the evidence for the state was all in the defense moved for instruc-tions to the jury to acquit, which was refused. The defense introduced no testimony and after the argument the case was submitted. When Mrs. Moore appeared this morning for sentence her attorney moved for a new trial on the ground of insufficient evidence of defendant's marriage. The motion was denied. The attorney then moved for a stay of judg-ment on the ground that the informa-tion did not charge a public offense.
