WESTERN LEAGUE.

Sioux City, Sopt. 25.—The first game to-day was interesting, not only for its importance to Denyer in the pennant, but it was for all around ball playing the best game played here this year. Sioux City won by timely hitting in its haif of the ninth. The second game of seven innings, by agreement, was a good exhibition. Scores:

Batteries-Lindeman and Kelly; Eyler and Lucia,

Omaha, Sept. 25.—The Western league season closed today, and the home team celebrated the ocacsion by winning two games from St. Joseph and incidentally winning the pennant. Today's games were won by consecutive hitting. The local pitchers kept hits wells scattered, the visitors falling to score in the last game. Scores:

Batteries-Brown and Gonding; Clark and Garvin.

Des Moines, Sept. 25.—Des Moines wound up the season today by defeating Colorado Springs by a score of 5 to 3. Colorado Springs was outplayed in the field and at bat. Score:

PACIFIC NATIONAL LEAGUE. W. L. P.C

Salt Lake wen Saturday's game and also yesterday's. The latter was easily the most brilliant and sensational struggle seen on the local diamond this senson, but was witnessed

by only about 100 fans. Rain prevented a double-header, but the single game played was worth four ordirary games. The grounds were in bad condition but this did not prevent both teams playing almost errorless ball, Salt Lake escaped without a bungle and Butte made only one.

Butte made only one.

During the struggle, five double plays and one triple, the first of the season, were made. Bluth was first to participate in the triple in the seventh liming. Bases were occupied by Dowling and Bandelin whos Runkle knocked a swift one toward third Bluth got the ball like a flash, and whipped it to Delmas who shot it to Clark to second.

As the score indicates, there was some biting on both sides. Salt Lake touched up Bandelin for 10, while the Miners got 10 Thomas for 12. The score follows:

Reilly was bere five weeks ago and an offer was made which he accepted. It was agreed to say nothing about it until the time of the season. This is indeed good news to the fans here as the fast little infielder is very popular with public and players alike.

"PENNY" GOSSIP.

As stated in this column last week, Floyd McFarland intends going to Australia this winter, Floyd left last evening for the Antipodes.

Hardy Downing has left for his home in Sun Jose, Cal. Before leaving Salt Lake Hoyd sent his entry for the six-day race at Madison Square Garden, New York, in

Iver Lawson has arrived in New York from England, and is now probably on his way to Salt Lake. He is expected to arrive here the latter part of this week. He will visit among his friends here for a week or two, and will then leave for Australia. Iver proposes to capture some of the big prizes over there this winter.

The statement made in this column some time ago that W. E. Samudson and Saxon Williams would enter the big sixday race at New York this winter, was correct. These riders have sent their names to the management of Madison Square Gardens, and they will leave in about two weeks for the metropolis. They have signed contracts to ride in the great annual event, and both are confident of nolding their own with the best riders on the track, Pedlar Palmer and Emil Agraz will also participate in the race.

The finals of the golf handicap tournament played at the Country club yesterday went to R. H. Officer who easily defeated Fred Hale. In justice to Hale, however, it should be said that he did not play in his usually good form,

Only a few days and the law now stands hetween duck hunters and their victims, and when the restriction is removed, we may look for an army of crackshots leaving the city prepared to bring back 'steen thousand birds. R. H. E. The first football game in which the University team will take part is scheduled for next Saturday. It will be with the Boulder, Colo., team, an aggregation that will be hard to beat. Coach Maddock of the U. of U. began today to select the men who will compose the Utah team, and as he has had a large number of good men to work with, it is not doubted that he will organize a rattling good team. He regrets the first game comes so soon, as he would rather have more time soon, as he would rather have more time to prepare for the struggle. But the team from the hill will be a good one, and may be depended upon to give a good account of itself.

Battling Nelson has turned his back on the chicago cranks who refused to fight the Dane when he was an unknown. Nelson refuses either to forgive or to forget. Here is a statement from his manager to the sporting editor of the Globe-Democrat;

"Please state officially that Battling Nelson will not meet Youner, Mowatt or any of the fighters whom Herrera has beaten, for a while at least. Those fighters have continually refused to sign with Nelson until he has showed championship form. Now, of course, they look for that large loser's end which is attached to a championship which is attached to a championship

Since Kid McCoy lit on Santa Monica as a place to train for his fight with Twin Sullivan on Sept. 27 the trustees of the town by the sea nave been in despair. First there is talk of adding a squad of cops to the force now cashing warrants at the city hall and then some one suggests cading in the rurales from the adjoining country to act as a sort of aid to the regulars now working. The Hoosier boxer draws more people to the beach in one day than all the other attractions do in a month, but the expanse in population is giving the guardians of the populace too much to do preserving order and they are kicking to the city fathers. McCoy's plunge into the surf each morning is the cause of a big gathering on the beach. The people like to watch the Kid duck into the high combers and they congregate early in order not to miss the scene. The Hoosier does not take the brakers any differently than does any other man, but just the idea of seeing the celebrated boxer do his stunt makes the people hang around with open mounts until it is time for McCoy to wend his way to the bath-house.

Secretary Bateman Says Facilities Will Be Improved This Year.

The state fair grounds are in a chronic state of activity, the buildings are being pushed into readiness, and the track and attachments made ready for early occupancy. It is the intention of the fair management to make every day a big day, the fair week including Oct. 4-8, and to have the displays unsurpassed in the history of the state. The diving horse will be a special feature of the fair and attract a great deal of attention.

TIMELY COMMENT ON THE NEW PARTY

Editors Throughout Utah and Idaho Handle the Subject Without Much Reservation.

PRETTY CHEAP LOT OF CUYS

Is What the Dixie Advocate Calls the Disgrantled Salt Lake Politicians Who Are Howling.

Criticisms on the new "American' party and especially on the storm-starters who are responsible for its birth continue to occupy prominent places in the editorial columns of the press of Utah and Idaho. The following installment, clipped this morning from the various exchanges, will undoubtedly be read with interest:

Dixle Advocate, St. George: Those defeated Salt Lake politicians who are now making such a howl about "Church influence," are a pretty cheap lot of guys. They have been trying to run everything and everybody, and now when they find themselves sat down upon, they squirm and howl and try to drag the "Mormon" Church into the muddle in order to have someone to blame for their defeat. Since Senator Kearns has tasted of the "flesh-pot" he is determined to either gorge himself with political power or disrupt the party that elected him to office. And while he has unlimited means at his command the prospects are that he will do -neither.

Richfield Sup: The question that is now agitating the politicians is how many votes will be cast by the American party. Estimates range from 500 to more than 5,000. The Sun is inclined to think that as election day draws near the un-American, fanatical, sorehead American party will grow weaker. There is nothing except sore

weaker. There is nothing except soreness and malice to hold it together, and the exhibition of sores is not a thing on which a party can grow and turive. The new "American" party was ushered into existence in Salt Lake City on Wednesday night of last week. It proposes to fight the "Mormon" Church for its alleged interference in politics, and to resort to any sort of questionable methods to defeat Smoot and Smootlsm. The new party will be but a Smootism. The new party will be but a small factor in the campaign. The ticket it proposes placing in the field will attract little attention. Voters are not going to be duped into deserting their party ship during a campaign so mo-mentous as the one now on in Utah.

Goodwin's Weekly: Had Senator Kearns any objection to any Republi-can "Mormon" legislators four years ago? Per contra was he not so foud of them that he wanted to make handsome presents to several of them.

Provo Enquirer: There has been more cry of Church influence during the past term of Senator Kearns, according to the anti-"Mormon" press, than at present, but not having the promise or prospect of a re-election, Senator prospect of a re-election, Senator Kearns at once begins an auti-Church party. It is so plain that said party party. It is so plain that said party is but for personal purposes, that the loyal Liberals of the past do not feel inclined now to follow the Kearns lead-

Pocatello Advocate: The Democratic party of Idaho at the present time is just in the position of the negro boy in the following story:

A certain man in C- is noted for a pair of the worst crossed crosseyes in the country. Not long ago he decided to kill a calf belonging to him for the purpose of putting it on the market. He called a negro hoy to hold the calf while he knocked it in the head with an axe. The boy selzed the calf and the man got his axe. Suddenly Sambo dropped his hold on

the bovine and exclaimed:
"Hol' on dar, Massa Tom; I wants ter ax you a question. Well, Sambo, what is it?"

'Is you gwine to hit whar you's look-

Yes; right where I'm looking. "Den, Massa Tom, fer de Lawd's sake git somebody els to hol' dis calf." Until Senator Dubois is cured of his terrible bad case of political crosseyes. the Democrats of the state will let go of his "church influence" bovine and ask him "fer de Lawd's sake git somebody else to hol' dis calf."

Pocatello Tribune: And now the Democrats of Oneida county have about decided to hold no county convention and go it without a ticket. Yet Oneida county was the birthplace of the original anti-"Mermon" party with Sena-tor Dubois as foster parent. Verily, the way of the reformer (?) is hard and full of rocks!

Fremont County News: Just how Senator Dubois could go to Utah and assist in launching the American party in that state, as against the Democratic and then return to Idaho, and almost insist that the Democrats of this state loyally support the Democratic ticket, we are unable to compre-

Pocatelio Tribure: Rev. Benjamin Clay, the Dubois-Heitfeldt nominee for Clay, the flubois-Hettield nominee for Congress, in an interview a few days ago in Boise, stated that he expected to make the "Mormon" issue the principal topic of his speeches in this campaign throughout Idaho. This statement is in the purph accord with News ment is in thorough accord with Senator Dubois' remarks in his opening speech at the Columbia theater in Boise which he devoted entirely to the "Morquestion and a bitter assault upon its leaders.

Candidate Heitfeldt at Pocatello on Wednesday night attempted to adopt a more conservative pronouncement, but Chairman Jackson, who is traveling Chairman Jackson, who is traveling with Mr. Heitfeldt, dldn't fail to set him right with his audience and to make his address as radically anti-"Mormon" as even Dubois could desire.

Idaho Falls Times: Our own Fred Dubois has been infusing Utah politics with anti-"Mormonism," and is doing all he can to make it stick. The new party in Salt Lake will give ear to the June senator even though the Idaho senator, even though his own state refuses to do so.

Montpelier Examiner: Strange, isn't t, that Mr. Heitfeld never conceived this plan of reform earlier in his political career. We wonder why he even permitted a "Mormon" to vote for him for United States senator, or why he did not refuse to accept the senatorship until that legislature, which elected him, had fully performed its duty by passing an anti-polygamy-Church-inpassing an anti-polygamy-thurch-in-terference law. The condition of the "Mormon" people then was much the same as now, except that there were more polygamists, yet the ex-senator never thought about such a campaign issue. Did it take Mr. Heitfeld eigh years to become aware of the awful condition in at least six of the 21 counties in the state or did Dubois really convince him at Lewiston how "gal-

This indictment of the Dubois faction we are ready to prosecute at any time and at any place before a jury of our fellow citizens, and couple with it the une-quivocal declaration that the motive which impels the course of the state-wreckers is the personal aspirations of Fred T. NEW STATE GUN CLUB.

Receding of Lake Gives This Organization 750 Additional Acres.

There is at least one company of Utah citizens to whom the receding of the waters of Great Salt Lake brings good fortune, for the sinking of the waters has brought an additional 720 acres of choice hunting land into the preserves of the New State Gun club located at the mouth of Jordan river. The land is lo-cated along the banks of the river, extending a mile further out than the old preserve into the marshes left by the receding lake. The club acquired title to the land Friday last by a decision rendered by Judge Rolapp of the Second Judicial district court at Ogden, in a test case brought against Luther Ellis for trespass.

Taking advantage of their rights in the new lands the Gun club has begun active preparations for the opening of the season. Artificial lakes and blinds are being constructed over the area and a patrol has been established to warr off trespassers. The recent cold snap has started an unusually large flight o ducks southward and the premises. the club are now full of the feathered game. Indications are that the open-ing of the season Saturday will result in one of the biggest kills in recent

WYOMING'S GREAT IRRIGATION SCHEME

Company Organizes for the Purpose of Diverting Water from The Shoshoue River.

WILL RECLAIM 240,000 ACRES.

Prime Mover in the Matter is Senator Charles A. Guernsey of That State.

Cheyenne, Wyo., Sept. 24.-The final papers were signed at the state capl

tol this afternoon in the application of opment company for water rights and other permits to divert water from the Shoshone river below Cody and redaim a tract of 240,000 acres of land lying on the south side of that stream. The contract with the state was signed by Gov. A. T. Bliss of Michigan, head of the Oregon Basin company, and other stockholders, and the state was rep-resented by Gov. Chatterton, Supt. Ty-nan and other officers. The following vere present when the important doou-

ments were signed: Governor Bliss of Michigan, Gover nor Chatterton, Supt. Tynan, Chief Engineer Johnston of Wyoming, Dr. Bilss of Saginaw, Mich., Attorney J. M. Zane W. T. Rohrer, T. F. Rice, G. M. Mc Kinney of Chicago, C. L. Wiley of Oma ha. W. T. Thomas of LaCrosse, Wis-consin, and Charles A. Guernsey of

Mr. Guernsey is the one who first interested the easterners in the big ir-rigation scheme, and he has worked steadily on the proposition for more than three years. Many obstacles have been encountered, and at times it appeared as though the scheme would have to be laid aside, but success has at last rewarded his efforts and nothing now stands in the way of the suc-cessful completion of the enterprise which is the most gigantic thing of its kind ever attempted by private capi-tal in this or any other country.

Under the terms of the contract the state is to receive 50 cents per acre for the land, which has already been seg-regated to the state of Wyoming un-der the Carey act. The Oregon Basin company agrees to do certain things and within a certain time. The company is granted a permit to take water from the Shoshone river and to construct so, many miles of certain transfer. struct so many miles of canals and laterals.

Senator Guernsey, who is one of the stockholders of the big concern as well as one of the leaders in the big enter-prise, states that work on the 28-mile canal connecting the Shoshone river with the big natural reservoir in Oregon basin, will be commenced at once. This will be completed and sufficient canals constructed from the reservoir to permit of the watering of a large tract of land next spring.

The big natural reservoir has a carrying capacity of 400,000 acre-feet and covers 51,000 acres. There will be about 60 miles of canal in all.
