Boston.-At a meeting of direct **Opposite the WHITE HOUSE**, ors of the U. P. Railway to-day SALT LAKE CITY, UTAH. the vacancies in the executive his farm by a hired man, equivalent to from three to five bushels of wheat. It will be seen from this that by eagaging much hired help the farmer could soon consume nearly his minutes area and Horace F. Clark. The vacancy in the committee on land grants was filled by the selec-

of the products of his farm left for himself. Labor is expensive as well as being fre-quently difficult to obtain, and seeing that this is so, a very important ques-it in that should be considered by the farmers is that of "Labor-raving Machinery versus Manual Labor." Those who have adopted tree labor-saving machinery and dispensed, so far as practicable, with hired help gener-ally, we might say universally, say that they have found this course by far the most pleasant and profitable. It may be urged by some that they are too poor to purchase machinery with which to work their farms, but this objection can easily be set side. Where one man is too poor to pur-chase suitable agricultural implements and maghinery, from four to a dozen, or as many as necessary, can co-operate to make the necessary purchases, and where the

he, necessary purchases, and where the A dispatch from the Great Eastnachines are of an extra expensive char-

acter settlements can combine for their purchase. Z. C. M. I., who are prepared to supply every implement or machine necessary for the cultivation of the soil are ready to acodate purchasers by giving them easy

- Some men at Louisville wer betting on the weight of a large mule, when one man, who was a good judge of the weight of live stock got behind the mule, and was measuring, when something ap-peared to loosen up the mule. Just before the expert died, he gave it as his opinion that if the mule was as heavy all over as he was behind postponed, the professor said, for the first time in forty years. ---- Punch's notion of nobility is that a man of birth secondary the index of Z. C. M. I. has had a large

number of improvements made in this de-partment, in the erection of large buildas heavy all over as he was behind, he must weigh not far from 47,000 ings, &c., to keep the stock under cover In addition to those recently completed ounda building, forty feet sq
