

procession the following exercises were had:

Prayer by Bishop Simpson of Philadelphia.

Address of welcome in behalf of Colorado, by Governor Grant, and on behalf of the city by Mayor Routt.

Oration by the Hon. Warner Miller of New York.

Benediction by the Rev. C. H. Marshall.

The order for starting the two hundred and fifty horse power steam engine was given, and the Exposition of 1893 was declared open by the Hon. W. A. H. Loveland, President of the Association.

The address of Senator Miller was a masterly effort, and called forth unbounded applause.

The day has been all that could be desired, the enthusiasm of the people unbounded, and the opening exercises on the above programme a decided success. The Exposition opens this year with the most flattering prospects. Nearly all the important features of last year's exhibit remain, while many others are being added daily, and from nearly every State and Territory in the Union. Large annexes have become a necessity to accommodate the increasing demand for space, and are near completion. The main building is a massive structure, built of brick and stone, 500x300 feet, costing \$150,000. While the youngest of the sisterhood of States, Colorado, lays claim to being one of the first in enterprise and public spirit.

NEW YORK, 17.—The Herald editorially says, of the threatened strike of the Brotherhood of Telegraphers: "That although their petition is couched in respectable terms it leaves an impression of asking too much. It requests that a day's work be made eight hours instead of nine, and a night's work seven instead of eight hours, a reduction of one-ninth in one case and one-eighth in the other. At the same time it wants all the wages increased 15 per cent., irrespective of age, skill or position of the operator, besides extra compensation for Sunday work. The real effect of these demands will be best illustrated by example. An operator receives say \$75 per month, or counting nine hours to a day and six days to the week, about 35 cents per hour. Under the proposed rate the monthly wages will be \$86.25. The day work would be eight hours during six days in the week, or about 45 cents per hour, an actual increase of more than 27 per cent. In regard to Wheatstone operators, an increase of 65 per cent. is demanded for them. On the whole it may be doubted whether the operators have presented a strong case. That evils exist it cannot be questioned, but they will not be remedied by the course taken.

The executive committee of the Western Union Telegraph Co. will meet to-morrow, and the petition of the operators will then be brought to their consideration. One officer of the company said to-day it was impossible to say what action would be taken. The general opinion was that the demand was excessive and unreasonable. No action yet taken by the Mutual Co.

ST. LOUIS, 18.—People in the southwest corner of Missouri and the northwest corner of Arkansas are beating the bushes for three scoundrels, and they may decorate a tree. They are wanted for a diabolical crime, the particulars of which are just received,—the robbery of a farmer named John Flynn, living on the Missouri and Arkansas line, under sensational circumstances. On the night of the 15th three men called at Flynn's and secured lodgings. They claimed to be stock buyers, two of them claiming to be brothers gave the name of Morris, and New Athens, Texas, as their place of residence. The other was known as Holt, and asserted that Gen. C. B. Holland, of Springfield, Mo., was his relative. About midnight Flynn and his family were aroused by the men bursting into their sleeping room on the first floor of the dwelling and demanding all the money in the house. Two daughters of Flynn attempted to leave the room when the robbers fired on them, wounding one in the arm and the other in the shoulder. Flynn himself was knocked down with the butt end of a revolver, and his wife fainted from terror. The bandits then hastily plundered the house, secured \$400 or \$500, the proceeds of a cattle sale made by Flynn a few days previous, mounted their horses and rode away.

FORT WAYNE, 18.—The celebrated case of John Studebaker & Co., vs. the United States Express Co.,

on trial before Judge Fraser here, went to the jury yesterday afternoon; the jury was out but forty five minutes, and returned a verdict for the plaintiff, assessing the damage at \$5,475. On December 15, 1891, defendant received a package containing \$5,000, consigned to plaintiff, when the package was delivered, it was found to contain nothing but waste paper, although the seals were unbroken. The suit was brought to recover this amount with the above result. Defendants made a motion for a new trial.

CHICAGO, 18.—The trouble between the Western Union Telegraph Company and the Brotherhood of Telegraphers will, it is thought by some, reach a climax at noon to-day, the leading spirits of the Brotherhood feel confident that such will be the case. While the officers of the Western Union are somewhat divided up to the time when decided action will be taken, a prominent official yesterday stated to a reporter that in his judgment 12 o'clock on Wednesday would not be the critical moment, if however, such should prove to be the case, the offices of the Western Union will not be locked up, but with one-third of the present force the company will do the best it can under the circumstances. The most important telegraph matter will be cared for and by degrees the balance of it will be taken up and disposed of in the line of its importance.

Business men are appreciative and it seems that the distressing effects of a general strike are fully appreciated by the business men of Chicago, and many of them are proffering sympathy to the company and offer to do everything in their power to avoid a strike, and it comes they will be glad to extend any aid in their power to start the strike. A large number of the business men of this city, including several bank presidents, yesterday informed the Western Union officials of their feelings and in every instance they appeared to be friendly toward the company. Some of them intimated that it was likely that a portion of the operators had reasons for action of some sort, but if the figures published in the Inter-Ocean of yesterday were correct ones those who had wrongs to be righted should appeal to headquarters the same as employees of private corporations.

NEW YORK, 18.—The fight between the cigar manufacturers and their employers has begun. This morning the bunch makers employed in the different shops represented in the Manufacturer's Union were discharged. It is the duty of the bunch makers to prepare fillers of cigars for the mold and they generally keep about a day and a half ahead of the cigar makers proper, who put on the wrappers. Some of the men, more particularly those who do not belong to the Progressive Union, expressed their disgust at being thrown out of work in forcible terms.

There are in the neighborhood of 8,000 packers, strippers and others, who will have to be idle while the lock out lasts, the entire number of men out of work on this account is upwards of 10,000. A good many of the larger manufacturers have from half a dozen to a dozen tenant houses where cigar making is carried on. In each house there are 20 families. The manufacturer's union has appointed a committee to take charge of their interests during the lockout. The members of the committee say that the association is determined to make a stand now against the arbitrary and unjust demands of the unions.

CHICAGO, 18.—The linemen of the Telephone Companies of this city went out on a strike at noon to-day, and will hold a meeting at 2 o'clock this afternoon to outline their future course of action.

Seima, Alabama, has sixty arctesian wells with sixty different kinds of water.

The inventor of the monitor, Captain John Ericsson, is a hale and hard working octogenarian.

The Philadelphia News suggests that the eighty-five-cent dollars be donated to the statue of Liberty.

The cholera continues to advance eastward, and is raging in Egypt with increased virulence. Fugitives are said to be flying in all directions, and in many cases are carrying infection with them.

It is said that the Confederate bonds bought in this country are shipped to a London house, which in turn disposes of them to Amsterdam

buyers. American sharpers beat the Dutch.

According to the Berlin press, the moral situation of the German capital is deplorable. Murders, suicides and accidents of all descriptions have pestered the great city during the month of May and the first half of June. On the 25th inst. only, 81 corpses were delivered at the amphitheatre or at the morgue. Among them were two cases of infanticide, five women, and three men who had poisoned themselves, three women, seven men and a boy drowned, and thirty-three persons who had lost their lives through unknown causes.

## No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

CIN., O., Nov. 16, 1887.  
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

That safe, good old German Family Medicine for all complaints of the Stomach, Liver, Kidneys and Bowels; Carminative, Alterative and gently Cathartic.

REDINGTON & CO.,  
San Francisco, U. S. A.
