

ORDERS ISSUED TO BATTLESHIP FLEET

Will Rendezvous Outside the Golden Gate at Nine o'Clock On Morning of May 6.

CONNECTICUT WILL LEAD WAY

Pageant Will be One of the Most Magnificent in a Sea Way, Ever Witnessed.

Monterey, Cal., May 1.—The Atlantic fleet of battleships steamed in here today to give the Monterey peninsula of California a place in the history of the American navy's record-breaking cruise around the world. The residents of Monterey and Pacific Grove and all the other settlements of the near vicinity made the occasion of the arrival a holiday. They lined the water front from the time when the fleet dropped anchor at 6 o'clock this morning and lingered long to view the beautiful spectacle of the 16 ships drawn up in divisional formation—four lines of four ships each, with the flagships Connecticut, Georgia, Alabama and Missouri at the head of each column. Throughout the day the streets and decks of the battleships were thronged with visitors.

AT SAN FRANCISCO.
New orders were issued today covering the entry of the fleet through the Golden Gate into San Francisco bay on Wednesday next. The revised plans provide for the most formidable and picturesque naval display in the history of the nation.

It is now ordered that all of the vessels of the Pacific fleet shall join the Atlantic battleships outside the Golden Gate and steam with them through the harbor entrance to the anchorage in the bay, where the review of the navy is to be held. Practically the entire fighting force of the navy, with the exception of a few newly commissioned ships in the east and a few gunboats in Philippine waters, will be in the great column of white and buff vessels that thread their way between the headlands of the gateway—Point Bonita the north and Point Lobos on the south. Sixty-six vessels will be in line and the long column will stretch as far out to sea as the eye can reach. The variety of fighting craft will range from the massive Connecticut down to the little destroyer Fox on only 154 tons displacement. Battleships, armored cruisers, protected cruisers, gunboats, destroyers, torpedo boats and auxiliaries—in fact, every class of vessel in the navy, except the obsolescent monitors—will be represented in this remarkable parade through the famous port entry.

THROUGH GOLDEN GATE.
The steaming of the ships through the Golden Gate will be a far more impressive and enduring picture than the review at anchor, which is to be held two days after the arrival, on Friday next. Rear Admiral Robley D. Evans will be either on the bridge of the Connecticut or in the emergency cabin where he commands a full view of the fleet, in entering San Francisco bay. Strict orders for a fair way for the host of naval vessels have been issued by the department of commerce and labor at Washington, and the scores of excursion steamers that will take crowds out to Angel Island, and beyond to view the spectacle will be under close federal supervision. A flag ensue cutters and naval launches will patrol the pathway and keep excursion and pleasure craft out of danger.

HOPE OF RENDEZVOUS.
The hour of rendezvous outside the Golden Gate—probably at the San Francisco lightship—has been fixed for 9 a. m. on Wednesday next, May 6. Three hours later, or as near as the calculations of the navigators can compute, the broad white bows of the Connecticut will appear within the gateway. The flagship will be followed by the 15 other veterans of the South American cruise, and by two additional battleships anchored outside the harbor entrance—the Nebraska and the Wisconsin—making 17 battleships in all, the largest number ever brought

CHRONIC STOMACH TROUBLE.

Another Case in Which the Tonic Treatment Was Successful After Other Methods Had Failed.

A very delicate stomach requires easily digested food but nature never intended that the food should be digested before it is eaten. The stomach must be strengthened to perform its own work, and what it needs is not food already digested, but a tonic. The processes of digestion are controlled by the blood and nerves, and medical science has produced no better digestive tonic than Dr. Williams' Pink Pills. This is shown by the statement of Mrs. Amos Rogers, the wife of a prosperous farmer, of Syracuse, DeKalb county, Ill. She says:

"I was a sufferer with stomach trouble for many years and was only able to eat liquid foods. I tried all kinds of medicines and the most skillful doctors and they did not help me. One doctor said I had cancer of the stomach; another ulcer, and others said it was my heart. During a visit to relatives at Oxford, N. Y., I was surprised to find the great benefit they had derived from the use of Dr. Williams' Pink Pills and began to take them myself. At the end of a few weeks I was eating solid food and continued to improve until cured. I had forgotten what refreshing sleep was until after using the pills but now I sleep well every night. My general health has been good and I always feel fresh and vigorous. Dr. Williams' Pink Pills in the house."

The pills are guaranteed to be safe and harmless to the most delicate constitution. They contain no morphine, opiate, narcotic or anything to cause a drug habit. They do not act on the bowels, but they actually make new blood and strengthen the nerves. If you want good health you must have good blood.

Every dyspeptic should have a copy of our free diet book, "What to Eat and How to Eat." It contains much useful information. Send today for a copy. Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50c per box; six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y.

into one command. Next will come the two divisions of magnificent armored cruisers of the West Virginia type—12,000-tonned vessels—eight in all, and the other cruisers of the Pacific fleet. Following these will be the torpedo boat destroyer flotilla, which made the trip through the Straits of Magellan and the Pacific to the Pacific fleet, and at the end of the line will come the auxiliaries, six in number. The poor old black hulled, soot begrimed monitors will follow to make the recent cruise a success, along will be lacking.

DESTROYER FLOTILLA.
The Atlantic destroyer flotilla, which last saw the battleships at the western end of Magellan, will rejoin the fleet at Santa Cruz on Monday next.

Today was the tenth anniversary of the battle of Manila Bay, and there were no ceremonies commemorative of the event on any of the ships.

Rear Admiral W. H. Emery of the second division entertained his fellow flag officers and the captains of the fleet at luncheon in Monterey, attended by a number of detailed officers, dances to-night for the men at two bill halls, a confetti battle in the streets, boxing bouts, a lantern festival at Pacific Grove, a dance for the junior officers at the Presidio of Monterey and the illumination of the fleet were features of the fleet's first day. Tomorrow morning the 16 vessels separate, the first squadron, headed by the Connecticut, going across the bay to Santa Cruz for a three days' visit. The second squadron remains here until Monday morning when the vessels also go to Santa Cruz to remain until Tuesday evening, when the reunited fleet sails for San Francisco, stopping all night at the San Francisco lightship. Col. M. P. Maus, commanding the

Twenty-second infantry and commandant of the Monterey Presidio, paid an official visit to Admiral Thomas today as did Mayor Jackson and members of the local reception committee.

A BUSY DAY ON BOARD.

The day was a busy one on board the ships of the fleet. On the Vermont there was a meeting of the board of officers called by the director of Rear Admiral Evans, to consider and report recommendations for improvement in the turret systems of the battleships, based upon the experience of the battle practice of last fall and the record target practice this year at Magdalena bay. The meeting was a most important one, coming just at this time when the criticisms of the turrets have been so freely made, and the recommendations of the men who were actually in charge of the turret gun and are familiar with every detail of their working, probably will receive great weight with the department at Washington. The board was composed of Lieut. G. L. Smith, 12-inch turret officer on the Connecticut; J. M. Knocks, 8-inch turret officer on the Kansas; L. M. Overstreet, 12-inch turret officer on the Vermont; Z. H. Madison, 8-inch, Louisiana; H. H. Kendrick, 12-inch, Missouri; R. H. Wallis, 12-inch, Missouri; and Ensigns B. McAnndies, 12-inch turret officer on the Missouri, and H. E. Kimmet, powder division officer on the Georgia. The board will consider the question of turret placings, ammunition hoists, etc., and also the feasibility of flame proof powder hoists. A meeting of fleet ordnance officers called by Lieut. Commander Ridley McLean of Admiral Evans' staff, was held on the Illinois also to consider and report upon turret and powder handling problems.

EDITOR WILLIAMS DEAD.

El Paso, Tex., May 1.—Arthur Williams, associate editor of the Washington, D. C. Herald, died here today of tuberculosis. His health failed while he was in attendance at the Jamestown exposition for the Herald last year.

PUSSEY WANTS A CORNER.

Winston Spencer Churchill in Dundee Seeking a "Safe Seat."

Dundee, May 1.—Winston Spencer Churchill, president of the board of trade, whose recent failure to be returned to parliament from the north-western division of Manchester, has forced him to seek a "safe seat," arrived here this morning to contest the vacancy caused by the elevation to the peerage of Edmund Robertson. Mr. Churchill has a well-organized opposition to fight, but it will require an enormous turnover of votes to defeat him. The Unionist candidate, Sir George Baxter, has a powerful local influence and the labor candidate, G. H. Stuart, while a novelty in this country, is an out-and-out Prohibitionist. E. Scrymgeour of the United Irish League is anxious for the Irish voters to give their complete support to Mr. Churchill on the ground that Premier Asquith has adopted Mr. Churchill's pledges at Manchester regarding the policy of the government.

MURKIN INCIDENT CLOSED.

Murkin, May 2.—The assault episode of April 5 at the American consulate, has been closed. The American staff has been exonerated and three of the Japanese officials have been punished.

NO CANNED MILK.

Henceforth in Chicago Dealers Must Use Bottles Only.

Chicago, May 2.—No more milk will be sold from cans by the small store dealers of Chicago. Hereafter only the sanitary bottle product may be carried by the dealers, under a ruling made yesterday by the department of health.

This single regulation, it is believed, will do more to improve the purity of the city's milk supply than any action taken in many years. The regulations this year are stricter than ever before in the history of the department.

Applicants for permits to keep cows must agree to submit their cows to the tuberculin test at least once a year, that the stable shall be cleaned once a day, and that no cow shall be confined in any yard or tethered on any street or common within 30 feet of any dwelling, school, church, store, or public building.

One of the important new regulations concerning stores where milk is stored provides that windows must be filled with fly screens and there must be self-closing green doors between May 1 and Nov. 1.

JEFF DAVIS ATTACKS PRESS

Calls Its Members Postgraduates In All Kinds of Slander And Defamation.

HE DEFIES THEIR TAUNTS.

Volunteers Information That He Thinks Rockefeller and Morgan Should Be Indicted.

Washington, May 1.—In the senate today, Senator Jeff Davis of Arkansas moved to discharge the committee on judiciary from the further consideration of his bill for "the suppression of trusts, pools, and combinations in trade."

He spoke for about two hours, reading much of the time from a type written statement which he said he had prepared in advance, "so that no in-temperate language might escape his lips on this occasion," a thing which he said he had never done before. During his speech he roundly denounced the trusts, commended the president's recent message outlining measures of relief, spoke of the Roosevelt recommendation with regard to the motto "In God We Trust" on coins, and declared that John D. Rockefeller and J. Pierpont Morgan should be indicted for treason.

He also paid his respects to the press, his words being as follows: "Let scavengers of placidity howl! God's living truth—where are its defenders? Miserable travesties upon noble manhood, post-graduates in all sorts of slander and defamation, I challenge the subsidized press; the people know your designs and spurn your riches. Go, damnable imps of the pelf and greed! I defy your taunts, I fear to fragmenize my political career, if I comply with your execrable will. Still and distort my utterances."

"Not satisfied, if such be your brutal frenzy, I am your foe from this moment on; then, if it be your further pleasure, know from my stiffening bones every vestige of quivering flesh; how I am writhed bestially through my own innocent blood as it drips from your fingers."

"Drug me, if you want, what remains in the flesh and the vermin of your soul and burn it upon the altar of Babel or scatter it before the friendly winds of heaven to your better—the curdled crows of the field. All that they may do, and more, if there can be open further depths of infamy to a polluted, besotted press. These ready servants of greed—what have they not done and are not doing to fasten still more securely an autocracy upon us?"

"It seems to be their special function, not simply to pervert truth, but to breed and terrorize public men. 'Dare a senator align himself with the people? What? Yes; men—illustrious servants of the people—have lifted honest voices here and elsewhere against the monster of plutocracy, to fall abused, politically assassinated—and by whom? By the trusts wearing masks. Ah, sir, newspaper masks."

President, insignificant as an 1, if my political career be marred, let them sharpen their blades, for I will be here at the appointed hour, and while here, only God can stay my voice in the arena of organized labor and the yeomanry of America."

A POTTERY COLLECTION.

Exploring Expedition Going to Ecuador to Enrich It.

New York, May 2.—To enrich the already large collection of pottery and other specimens of the earliest civilization in South America belonging to George G. Heye of this city, Prof. Marshall H. Seville of Columbia university is about to start on an exploring expedition. Prof. Seville, who is connected with the archaeology department at Columbia, has obtained leave of absence for the remainder of the present session and will sail for South America on the Atinto of the Royal Mail Line this afternoon. He will be in South America on his mission all of May, June and July.

INTERESTING OPERATION.

One to Restore Sight of a Blind Rhinoceros to be Performed.

New York, May 2.—Veterinary surgeons have been invited to be present at the Bronx zoo on Monday when an operation will be performed upon Mogul, a blind rhinoceros with three broken ribs. The operation will be an effort to restore the animal's sight. Mogul lost his sight while resisting capture.

PROFESSOR OF MATHEMATICS.

Chicago, May 2.—Prof. Henry Seeley White of Vassar college has been selected by the University of Chicago to fill the vacancy in the department of mathematics caused by the death of Prof. Heinrich Maschke. Prof. White is one of the best known mathematicians in America and is president of the American Mathematical society.

The Rev. Thomas A. Hoban, pastor of First Baptist church, Detroit, Mich., has been appointed associate professor of homiletics. He received his doctor's degree from the University of Chicago in 1901.

A YEAR IN A TRAIN.

From Salzburg comes a story of an extraordinary feat made by a commercial traveler resident in that city, which he has just won, says the Vienna correspondent of the Telegraph.

The traveler, who spent eighteen months in New York on business, made the acquaintance of a well-known American sportsman. The question arose in the course of conversation how long a man could stand continuous traveling in a railroad car. The traveler bet that he could remain a whole year in a train, going up and down the same distance. The American bet \$1,200 he could not hold out so long.

The traveler undertook that from midnight on December 31, 1906, he would travel continuously on the line from Vienna to Linz, Salzburg, and Innsbruck, going and returning.

The traveler entered an express train, and throughout 1907 he dined, slept, dressed on board. His only outfit was a suitcase containing his long and monotonous task he was seized with influenza, which threatened to make him lose his money, but his constitution enabled him to hold out, and some days ago he received the amount he deposited. His health, with the exception of slight nervous shock, is good.—London Evening News.

RACE TROUBLES IN MARTINIQUE

Recent Shooting, With Fatal Results, at Fort de France, The Result of Them.

FEELING INTENSELY BITTER.

Whites in French Possession—Have Determined They Will Not be Dominated by the Blacks.

New York, May 2.—The shooting with fatal results at Fort de France, Martinique, was no surprise to one man at least, in that city, who occupies a prominent position with a well known exporting firm, could not allow his name to be made public, in view of the fact that he was connected politically with one party on the island, the anti-negro element. This man received a cable message immediately after the shooting of M. Siger.

"For years there has been a race war between the negroes and the whites, and the mayor has been the foremost in spreading among the negroes the doctrine of 'down with the whites,' telling them that if the white race dominated, they (the negroes) would be sold into slavery and such nonsense," said this man, at his office yesterday.

"No one knows better than I," he continued, "how outside of the main centers the agitation against a white man's regime has been conducted for years. The feeling is intensely bitter. Recently M. Verdon, a young man, cried out in the street 'Long live the whites.' He was arrested and thrown into jail by the mayor for lese majeste, or something to that effect."

"The bitter feeling will continue, for the white race in the French possessions has determined that it will not be dominated by the blacks. I expect that more lives will be sacrificed."

One of the officers of the American Trading company which has important connections in Martinique, said that the company paid no attention to the political disturbances, but he did not think it was a conflict between the white and black inhabitants.

"While it was more fatal, due largely to the temperament of the people," this man said, "the political disturbance was probably no more important than the one at the Democratic convention in Carnegie."

A New York Doctor and Scientist has Perfected a New Scientific System of Treatment that Reduces Fat and Restores Health and Strength.

A Free Treatment Will Be Sent as a Free Gift to Every Fat Person Who Is a Reader of This Paper.

After many years spent in the laboratory, Doctor H. C. Bradford, a New York physician of standing and good repute, and now at the head of the well known United States Medical Dispensary, has made the startling announcement that he has produced a treatment that can absolutely reduce any man or woman to normal weight, and the reduction in weight is guaranteed from 3 TO 5 POUNDS A WEEK. The record of the cures already made is truly marvelous, and were it not for the high standing of the great physician and the convincing testimony of thousands of citizens all over the country it would seem almost beyond belief.

Dr. Bradford's treatment is recommended by physicians in their private practice, and is taken by prominent doctors themselves because they recognize in it the greatest and most successful treatment of the disease has ever been able to compound.

Excessive fat or obesity is a disease that has long been a source of trouble to many people. The typical man or woman of obesity is usually a person of a respectable amount of energy, of mind or body, is lean and spare. How many very fat people do you know who are over-fat? Count them on your fingers and you will find very few fat people really young and old. Over-fatness interferes with the action of the heart and other vital organs. That is why fat people puff and pant upon the least exertion, and often die suddenly from heart failure, kidney disease, or apoplexy.

Among those who have taken Dr. Bradford's treatment in order to obtain a permanent cure and be relieved from the dangerous condition, superfluous fat, and many well known citizens, Physicians, Doctors of Law, Teachers, Lecturers, Authors, Military Commanders, Opera Stars, Students, Dress-makers, and in fact persons in all the various walks of life.

Dr. Bradford asserts and will prove that when you have reached your ideal weight you can retain it. You will not become stout again. Your face and figure will be well shaped. Your skin will be clear and handsome and you will feel and look years younger. Do you or under chin, dabby cheeks, heavy abdomen, fat hips and other disagreeable evidences of obesity are removed. You will feel and look years younger and healthy and as the fat is reduced the skin becomes close fitting and the wrinkles, the flesh becomes firm and solid, the muscles regain strength, activity and vigor.

Address your communication in the strictest confidence. The doctor observes strict professional ethics, and is very particular on this point. A free trial treatment will be sent you as a gift, also his new book on Obesity, which describes and reveals many secrets regarding Obesity, its cause and cure. If you wish a free sample treatment and his new book, write a letter or postal card to the doctor today, mentioning as stated, it will be sent you free. Henry C. Bradford, M. D., President United States Medical Dispensary, Dept. 23, 25 East Twenty-second Street, New York City.

HAMILTON'S SMART SHOP

A Refined, Up-to-date Dresser gives a suggestion of the season in the clothes she wears. There is nothing more desirable in dress than the correct thing correctly worn. Why Not Be Appropriately Dressed for the Season?

The Dainty Airy Freshness of Our Goods

speaks of a rapidly advancing summer and the styles impress you with their Newness.

The Most Carefully Tailored Suits

in seasonable materials, velvets, light cloths and Rajahs. The Shapely Semi-fitted Jacket is characteristic of this summer's styles, while Skirts are still worn noticeably short for outdoor wear.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alkali important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
