AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few competitions which have won the confidence of mankind and become household words, among not. only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long, as AYER'S CHERRY PECTORAL.

It has been known to the public about forty years, by a long continued series of marvelous cures, that have won for it a confidence in its virtues, never equaled by any other medicine. It still makes the most wonderful cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their painful effects, that is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved, thus. Early defence. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its early use in sudden attacks.

EVENING NEWS.

Wednesday, - - March. 1, 1882.

UTAH LEGISLATURE.

COUNCIL.

Tuesday, Feb. 28, 1882, 2 p.m.

Council met pursuant to adjournment.

Roll called. Quorum present.

Prayer by the chaplain.

Councilor Wells presented a petition of F. Schoenfeldt and 82 others, praying that the boundary line of Salt Lake City on the west, as defined in the new charter, be not allowed, but that the limits be confined to the River Jordan, as the extension of the boundary over Jordan interferes with two precincts—Brighton and West Point. Referred to the committee on municipal corporations.

Councilor Thurber, of the committee on irrigation and canals, reported back H. F. 22, amending several sections of the Compiled Laws, in relation to irrigation companies, with amendments. Amendments adopted.

Councilor E. Snow, of the committee on municipal corporations, reported back the bill changing the boundaries of Manti City, with a slight amendment. Amendment adopted.

Councilor Smoot, of the committee on revenue, reported back C. F. 20 and C. F. 21, providing for registering territorial and county warrants, adversely, as in the opinion of the committee the legislation asked for is deemed unnecessary. Laid on the table till called for.

Councilor Barton, of the committee on counties, reported back the petition of H. P. Cutlin and others, citizens of Pinto and Hebron, asking that the boundary lines of Washington and Iron counties be changed so that these settlements might be placed in Washington County, reporting adversely thereon, as by referring to the corrected survey map, Pinto is in Washington County, and the few settlers in Hebron would not justify the change of the lines.

Councilor E. Snow protested against the report of the committee as being unjust to the petitioners, for these settlers have branched out from St. George, and their kindred ties are there, and it would be some 30 miles nearer to this county seat than to the county town of Iron County. The petitioners had just grounds of complaint, and he was in favor of granting the petition, though the representative of Iron County had opposed the measure.

Councilor Thurber moved that the report be re-committed and that the committee be instructed to bring in a bill granting the request of the petitioners.

Councilor Barton, from the committee on counties, reported back C. F. 27, providing for quarantine grounds in counties, recommending its adoption.

Councilor Wells, of the committee on judiciary, reported back H. F. 28, amending a large number of sections of title 20 of the Compiled Laws. Amendments generally adopted and the bill passed.

A message was received from the House notifying the Council that the House had concurred in the memorial to Congress; also that C. F. 19 had been passed with amendments.

H. F. 22, amending several sections of the irrigation laws, was read and passed.

The Council bill for the collection of small debts was read as amended by the House, and the amendments concurred in except two.

A message was received from His Excellency the Governor disapproving the Council sheriff fee bill, as the bill only applies to sheriffs, and in the view of the Governor the bill should apply to all officers of precinct, county and district courts.

Benediction by the chaplain.

Council adjourned until Wednesday at 2 p.m.

HOUSE.

Tuesday, 2 p.m.

The House was called to order promptly as per adjournment. The journal of yesterday was read and approved.

The following petitions were presented by Mr. Jaques, from Thomas E. George, asking for a change of name. Referred.

By Mr Booth, from J. M. Hamilton and 132 others, asking for a provision for a system of sewerage in Salt Lake City. Referred without reading.

By Mr. Booth, from Peter Madsen and 64 others protesting against the proposed change in the boundary lines of Provo City. Referred without being read.

The committee on claims, by Mr. Penrose, the chairman, to whom was referred the petition of Eli B. Kelsey, asking for an appropriation to pay for certain jurors and witnesses fees for 1874-5, certificates of which he had purchased, reported that after having duly investigated the matter they found that no appropriation had been made for that purpose in the years named, but other provisions therefor had been made by law, and therefore recommended that the appropriation be not made. The report was accepted and the recommendation adopted.

The committee on agriculture, by Mr. Preston, chairman, reported that as the consideration of the bill in relation to dogs more appropriately belonged to the committee on ways and means, being a matter of revenue, they therefore recommended its reference to that committee.

Also, favorably upon the passage of the House bill relating to barbed and other wire fences, which had been amended.

Also, favorably upon the passage of the Council bill relating to the running at large or herding of sheep within three miles of settlements and dairies. The reports were accepted.

The committee on ways and means, by Mr. Perry, chairman, reported their recommendation to the passage of H. F. 64 to amend section 18 of chapter 8 of the Compiled Laws. Accepted.

Mr. Booth reported amendments to the bill to incorporate Park City, made by the committee on municipal corporations and towns. Accepted.

Mr. Farr reported the disapproval of the committee on judiciary of the bill to establish a territorial board of police commissioners, as legislation upon the subject is unnecessary.

Also their recommendation to the objection of the bill to amend 1780 of the Compiled Laws.

Also that the committee approved of the bills to appoint committees to revise and publish the Compiled Laws.

The several reports were accepted and the recommendation adopted.

Mr. Peterson from the committee on highways, concerning the petition of A. P. Scow and 121 others asking for an appropriation of $3,000 to construct a wagon road through the eastern portion of Iron county into San Juan county, reported that the committee recommended an appropriation of $2,000, $1,000 of which to be expended under the direction of Mr. A. P. Scow, of Escalante, Iron Co., and the balance under the direction of Jens Nellson, of San Juan Co.

On motion of Mr. Penrose the petition and recommendation were referred to the committee on appropriations.

The highways committee also reported concerning the petition of F. D. Richards and 130 others of Weber county asking for an appropriation of $5,000 to construct a bridge over Weber River, that the appropriation asked for be granted, to be expended under the supervision of the selectmen of that county.

On a motion for reference to the appropriations committee a discussion ensued. Mr. Peery considered the matter of sufficient importance to be considered by the House at once. The site for the proposed bridge about three miles south of the City of Ogden, is at the old crossing, at present very dangerous, and is in a direct line from Salt Lake City through the northern counties. The bridge will cost about $20,000, but in consultation with Mr. Farr we thought the county would assume the responsibility of building the bridge if the Territory would appropriate $5,000. Weber County has built more bridges than any other county in the Territory, and had fewer appropriations and less relief from the state. Many persons have been drowned in the river in fording at the place named. In connection with Davis County, Weber has recently constructed a bridge at Devil's Gate, at a cost of $12,000 The county has lately purchased the Ogden Canyon road at a great cost, which road was then made free from toll. He considered the county was worthy of assistance in building the bridge in question.

Mr. Penrose was in favor of the appropriation. He considered the bridge a necessity and a matter of territorial interest, but notwithstanding he wished the subject to go before the committee on appropriations first, there being numerous large amounts asked for in aid of worthy enterprises, and they should be considered together.

Mr. Hatch also favored the appropriation, but wished to call the attention of the House to the fact that the Territorial revenue was only $75,000, while the University building committee wanted $40,000, the Insane Asylum and Reform School want $30,000, the sum of $5,000 was appropriated for the wagon road enterprise in Iron County, $2,000 was asked for to build a through road to Arizona, $4,000 was asked for in behalf of a road in Sevier Canyon, Cache County must have $1,000 to make a road from Logan to Ogden, Summit has asked for $4,000 to build a road from Park City to Thornberg, Wasatch wants $5,000 to bridge a couple of rivers en route to Fort Thornburg, Uintah county, a very desirable portion of Utah, besides sundry other claims. If the Assembly is not judicious now, the finances will be too low to be handled.

Mr. Farr stated that the county court could not construct the bridge in question without assistance. A great many transients, sometimes whole families, drop at Ogden, being brought there by the various lines, all of whom the county must provide for until they can be sent to where they belong. The court has built a bridge over the Weber in the direction of Hooper. Citizens have often requested me to make application to this Assembly for an appropriation to construct this much needed bridge, but I have discouraged them until the present time A pile bridge could perhaps be built for $10,000, but a suspension bridge like the one projected would cost about $20,000.

The bill was referred to the appropriation committee.

The committee on elections to whom was referred the bill extending the right of suffrage to those having declared their intentions before a competetent court, to become citizens of the United States, reported an amendment to the preamble, and recommended the bill pass. Accepted.

Bills were introduced: By Mr. Preston, to establish a bureau of statistics in the interests of agriculture, manufacture and mining, apropos to that portion of the Governor's Message relating thereto. Also a bill to encourage the manufacture of sugar, and also a bill to tax ores and bullion. The bills were filed.

By Mr. Dalton, in relation to costs in criminal cases. Read by title and sent to the judiciary.

By Mr. Francis, concerning the duties of county clerks, read by title and referred to the judiciary.

By Mr. Partridge, to enforce the civil rights of the Territory. Referred.

By Mr. Jaques, by request, a bill to defend and guard the sanctity of the elective franchise in the Territory. Referred.

Also, a bill to provide means for the education of the poor. The bill was read. It provides that the sum of $10,000 be appropriated for the education of the children of the poor to be distributed in a specified manner by the trustees in the several school districts.

Mr. Booth, under House rule 30, prescribing a manner for the rejection of any bill on its introduction, moved that the bill be not received.

Mr. Jaques stated that he anticipated opposition in presenting the bill, but as he considered the University is only of service to the children of well-to do people, and the district school tuition is too high, something of this kind should be done in the interest of the poor, many of whom could not afford to send their children to the schools named without assistance. The University, in all, wants $80,000; the Insane Asylum wants $30,000, and it is only right that some provision be made specially in the interests of the poorer classes. Ordinary workingmen cannot send their children to the district schools with their ordinary wages. Poor people receive but a small amount of benefit from the school appropriations.

Mr. Preston queried as to who were the poor who would receive the benefit of the $10,000 if appropriated. In his district of country the children of the poor or those who could not afford to pay the tuition fees of their children, were furnished tickets of admission by the trustees, whereby they might obtain an education on the same level with those who did pay. Such a measure as the one proposed was unnecessary.

Mr. Jaques argued that the poor were generally too modest to acknowledge that they could not pay for the schooling of their children, and therefore would keep them at home rather than send them on charity or ask a free tuition.

As the result of the discussion the bill was rejected.

A communication from the Council was received, announcing the passage of the Council bill providing for inspectors of bees and the destruction of foul brood.

Mr. Stout inquired whether the county jails were so full that branches were necessary.

Mr. Hatch replied that if they were not all quite full at present they would be soon, consequently he for one wanted plenty of room.

Mr. Francis stated that the object of the bill was to legalize the action of several counties at present having branch jails, but not authorized by law. Thought that as some members anticipated a sojourn in them that the jails should be made comfortable and more numerous. The bill was rejected, ayes 2, noes 16.

H. F. 64 to amend section 18, chapter 8, of the Compiled laws. Referred to the ways and means committee.

F. 48, to provide for the revision, completion and publication of the Compiled Laws by a committee of three appointed by the present session, who shall report to the Assembly of 1884 with one bill containing all the laws arranged in chapters, etc., with marginal notes as to inconsistence, and of repealing, etc. The bill passed — ayes, 20.
