#### American Loss 9 Killed, 16 Wounded -Filipinos Resume Activity and are Badly Whipped.

[Early Dispatches.] Manila, April 22.-Last week has been one of the bloodiest of the war since the first day's fighting around Manila.

Authentic reports, mostly official, show a total of 378 Filipinos killed, twelve officers and 244 men captured and many more wounded.

The number wounded is hardly guessable. Considering that the Filipinos entirely lack hospital facilities, a great majority of the wounded will die. Probably the week's work finished 1,000 insurgents.

The American loss was nine killed and sixteen wounded. Two sergeants and one private were killed in ambushes while escorting provision trains. The insurgents have been aggressive in almost every province of Luzon.

Gen. Pio dol Pflar's band, numbering 300, which was out of sight for three months, the leader being reported killed, has reappeared in its old field about San Miguel. Pflar is supposed to be again in com-mand. He gave the American garrison at San Miguel, consisting of three com-nanies of the Theirweith infantry

South African reports the strength of the Dutch is grossly exaggerated. The war office was silent at midnight, and the results of Rundle's advance to ward Wepener were not announced, al-though there was little reason to doubt there had been serious fighting Saturday

There were details of Gen. Methuen's fight near Boshof, but these did not materially alter previous accounts. SAYS THERE ARE 105,000.

London, April 22 .- The Lourenzo Marthes correspondent of the Times under Saturday's date says: "Information received from responsible sources shows that at one time the two resublics had 105,000 men in the field, in-cluding the colonial rebels.
