

DEAD MUTILATED TO TERRIFY LIVING

Russian Refugees Tell of Horrible
And Fiendish Doings by
Cossacks.

MOTHER KILLED HER CHILD.

Did This to Save It From the Cossacks
—Drunken Soldiers Carry a Baby
Spitted on a Bayonet.

New York, Jan. 5.—Reports of how the dead are mutilated to terrify the living in Russia were brought here today by Russian refugees, 700 of whom arrived on the steamer Pennsylvania. One woman told of having seen a young married woman kill her child rather than let the Cossacks murder the infant.

Another refugee related how in the town of Nova Moscow, five drunken soldiers marched through the streets carrying arms, a dead baby with a bayonet run through its body being displayed at the end of each gun.

Lelover Landominski, a dry goods merchant who had 20,000 roubles, or about \$10,000, which he had saved in his fight, said that it was a common thing to see men strung up feet first and lying dead along the route of the railroad. He left his wife and child in Russia and came here to escape a home for them.

Hirsch Luscinski, with his wife and two children, was another refugee. He is a lumber merchant at Lenkowsk, a town of 600 inhabitants. He said: "My house and lumber plant were burned one night and everything else that I own except 10,000 roubles, which I had buried. The Cossacks would never let me have the extent of the shocking outrages that are constantly inflicted on the women of our faith."

"I saw a Russian girl attacked on Oct. 14, and 300 Jews were put to death. The women were thrown out of the windows and the men were beaten over the head by rifle butts, and bayonets were run through the bodies of the children."

Wolf Sobak, from Crinshoff, near Odessa, said: "I saw the body of a Russian boy of about 11 years of age lying dead in the road, and on his breast was a label which read: 'This is the way to kill them off young.'"

"In the streets I saw two and three-year-old children torn limb from limb by the insane ruffians, who were inspired by the deed by the police themselves, who then saw the dead stuff thrown from a pillow which had been thrown from the window into her body."

Other refugees came as first cabin passengers, and they had an aggregate of about \$100,000 in cash and jewels in money belts.

CONFERENCE ON ARMY AND NAVY MATTERS.

Washington, Jan. 5.—An important conference which covered a wide range of discussion of the internal management of the war and navy departments was held at the White House tonight. It was participated in by Secy. Root, Taft, and Bonaparte, and Atty.-Gen. Moody, and lasted from 9:30 o'clock to 11:30. None of the cabinet officers present was willing to say specifically just what matters were under discussion, but Secy. Taft, in response to questions, admitted that the conclusions which may have been reached were not matters for legislative action, but were such as would require only executive approval. The principal changes in the navy personnel bill affecting the promotion of officers which is now before Congress were mentioned during the evening discussion. From the length of the conference it is believed that matters affecting the Philippines, Panama, San Domingo, the general staff of the navy and the general staff of the army also may have been brought up.

REPORT ON JEWISH RELIEF FUND DISTRIBUTIONS.

New York, Jan. 5.—The national committee for the relief of the Jewish sufferers in Russia received yesterday from the international committee in London a copy of the report the commissioners sent to Russia to distribute the relief fund collected in the United States and in Europe.

The report covers the commissioners' work from Nov. 22 to Dec. 10. Up to that date the emissaries had granted for distribution \$2,252,652 in the cities of Odessa, Moscow, Kremenitshug, Elizabetgrad, Rostov-on-Don, Kieff, Homel, Pottava and Ekaterinograd.

The Odessa district, according to the report, suffered more severely than any of the others, 48 massacres having occurred there. In the Kieff district outbreaks occurred in 40 towns and villages, ruining about 11,500 families. The commission believes that a recurrence of the outrages on the Jews is not unlikely. It was agreed with all local committees that Christians who had come to harm in defending Jews should be assisted on the same basis as the co-religionists of the commissioners. Important rules were adopted by the commission to guide it in its work, three of which were:

As far as possible, the prevention of emigration.
No purely ephemeral assistance.
Immediate grant of sufficient assistance to make the sufferers self-supporting.

BIG CLAIM FOR SALVAGE.

San Francisco, Jan. 5.—Never in the maritime history of the Pacific has such an enormous libel been placed on any vessel as the suit filed in admiralty today against the steamer City of Poughkeepsie by the owners of the steamer City of Poughkeepsie, who claim \$100,000 as reward for towing the distressed steamer safely into port. The Poughkeepsie is estimated to be worth about \$225,000, and it is said that the contest over salvage just begun will be stoutly contested by the marine underwriters.

ARRESTED FOR MURDER.

Portland, Or., Jan. 5.—Charged with murder in the first degree for the shooting of aged Thomas Flemming in the hotel in North Portland of the Centennial of Dec. 15, "Tattoo" D. C. Kelley and "Honey" Rossman are under arrest, the former in this city and Rossman in Tacoma. Kelley and Rossman tally well with the descriptions of the men who held up the Centennial barroom and murdered Flemming, who

SUFFERED AGONIES FOR FOUR YEARS

Whole Foot Nothing But Proud Flesh
—Tried Different Physicians and
All Kinds of Ointments—Could
Walk Only With Crutches—Ohio
Man Says:

"CUTICURA REMEDIES THE BEST ON EARTH"

"In the year 1899 the side of my right leg was cut off from the little toe down to the heel, and the physician who had charged me was trying to sew up the side of my foot, but with no success. When he found out that wouldn't work, he began trying to heal the wound with all kinds of ointments, until at last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years and tried different physicians and all kinds of ointments. I could walk only with crutches. It is sixteen months ago since I began using Cuticura Soap and Ointment for my limb and foot. The first two months the Cuticura Remedies did not seem to work, but I kept on using them both. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day, after five years of suffering. The cost of Cuticura Ointment and Soap was only \$5; the doctor's bill was more like \$500. You can publish my name and refer any one to write to me about Cuticura Remedies. I will answer all letters if postage is enclosed. John M. Lloyd, 718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

Complete Remedies and Internal Treatment for Every Kind of Skin Disease, including Eczema, Psoriasis, Scabies, Ringworm, etc. Cuticura Soap, Ointment, and Pills. (In form of Pills, Cuticura is a single cure for all skin diseases.)

Wanted: Free to Cure Skin and Blood Diseases.

attempted to capture the robbers as they left the place with about \$125 in cash, which they took from the till after lining up a dozen or more men who were in the place. Another man who was in the barroom was shot in the arm. Rossman, who is believed to have been implicated a year ago in a series of robberies in Tacoma, was arrested in that city yesterday and Kelley was arrested at the depot in this city this afternoon just as he was about to leave for the north. Several peculiar circumstances in connection with the men seem to encourage the police in the belief that the right men are in custody. Both men have police records.

PANAMA LABOR OFFICE CLOSED.

Kingston, Jamaica, Jan. 5.—The agents of the Panama canal commission who have been here for some time for the purpose of hiring laborers to work on the canal closed their offices today by orders from Washington, ordering Gov. Strettonham's attitude in refusing to allow laborers to go to Panama without a deposit of \$5 each. Mr. O'Connell, who was in charge of the office, sailed for Colon tonight.

PUBLIC LANDS WITHDRAWN.

Washington, Jan. 5.—By an order issued Dec. 30 last by the secretary of the interior and made public today, more than a million acres of public lands in Arizona and New Mexico were withdrawn from all forms of disposal except under the mineral laws for inclusion within forest reserves. The distribution by acres is as follows: Arizona, Navajo reserve, 49,518; Black Mesa reserve, 200,000; Buckhorn reserve, 345,000; New Mexico, Magdalena reserve, 148,000; San Mateo reserve, 450,000.

DR. WISE REMAINS.

Portland, Or., Jan. 5.—Rev. Dr.

SITUATION IN BALTIC PROVINCES

Report to the Emperor Declares
It is Serious Though Re-
volt is Crushed.

WITTE DECIDES TO RESIGN.

Will Retire as Soon as the National
Assembly Meets—His Posi-
tion Not Shaky.

St. Petersburg, Jan. 6, 1:55 a. m.—The Associated Press has been permitted to inspect a report prepared for the emperor regarding the situation in the Baltic provinces. The report declares that though open revolt has been crushed in many parts of the provinces and though the local authorities who were deposed by the revolutionists are resuming the reins of government under the protection of the troops the situation is still a very serious one.

In the districts of Dorpat and Pernau, in northwestern Livonia, the troops are unable to move except in heavy force. A body of cavalry which made a forced night march from Walk surprised an insurgent band at Rupa, but the peasants resisted until their ranks had been torn and shattered, when they surrendered their arms and their leaders.

There is a strong concentration of insurgents in the villages of Melnik and Lencal, farther to the westward, which must be attacked and broken up.

A band of insurgents attacked Gen. Norlov and his escort of a squadron of cavalry near Marienburg, but the attack was repulsed and the leaders were captured. The latter were immediately tried by drumhead court-martial and shot.

The advice received by the government report the capture of an important arsenal of the revolutionists at Temernik, in southern Russia, in which were found not only rifles, bombs and explosives, but also a small field gun. Another arsenal near Nakhichevan caught fire and an explosion followed, resulting in the killing of 12 persons and the wounding of nine others.

The Novoe Vremya is printing a series of articles in defense of Premier Witte, which are attracting much attention and are assumed to be inspired by the premier himself. The most important statement made is that Witte has taken a definite resolution to retire as soon as the national assembly meets. With the turning over of the reins of power to the people's representatives he will regard his task as finished.

The whole course of events since the reform manifesto was issued is attributed by the paper to the refusal of the Conservatives to support the government. It is explained that many of the reforms which Witte and his cabinet have been continually berated for not realizing were not promulgated because every bit of law-giving was seized on by the "reds" to advance the cause of an armed revolution, until finally the government, being without the active support of the conservative classes, was forced in self-protection to adopt repressive measures.

The policy it is now following is solely for the purpose of making possible the holding of the elections and accelerating the convocation of the national assembly. The government is yet uncertain as to what the results of the elections will be, but it is confident that the parties of law and order will have a majority.

All the rumors that Witte's position is shaky are characterized as pure inventions. The writer of the article says: "Witte is as firm in the saddle as ever. His health is good and he is proceeding on the conviction that at least three-quarters of the Russian people approve of his struggle against the revolution."

PEACE IN THE ISLANDS.

Manila, Jan. 5.—The local newspaper printed dispatches from San Francisco today stating that troops were being sent to the islands to quell a possible uprising of the natives. Both the military and civil officers say that the conditions were never better, and all the troops could be withdrawn from the islands without danger.

A NEW UNNAMED PLAY.

Milwaukee, Jan. 5.—A new unnamed play was presented for the first time at Davidson theater tonight in which all characters are Indians. It was written by Donald MacLaren of Milwaukee, for

AFTER DIGESTION— WHAT?

It's not enough to digest your food, and send it to pulp or liquid inside you, but it must also be properly absorbed, carried to the proper organs, filtered, purified, and carried by your blood to the various parts of your body which are worn out and stand in need of repair.

This is a system of complicated machinery, engineering, chemistry, and physics, before which all of man's most wonderful achievements since the world began, pale into insignificance. And, when you come to think of it, such a marvel of any complicated piece of machinery itself, is the man who, when it has broken down can repair it and make it go again.

Really, the most marvelous achievement in the vast field of man's manifold endeavors, which never fails to cure, or set in running order again, the complicated mechanism of man's internal digestive arrangements.

For any craving for improper food, continued hunger, continual thirst, or loss of appetite in greater or lesser form, take Stuart's Dyspepsia Tablets.

At the least sign of distress after eating, take Stuart's Dyspepsia Tablets. On the least pain or discomfort, in stomach, liver, back, or bowels, take Stuart's Dyspepsia Tablets.

For any craving for improper food, continual hunger, continual thirst, or loss of appetite in greater or lesser form, take Stuart's Dyspepsia Tablets. They will give you such pain, suffering and discomfort, and will add greatly to your span of life.

Stuart's Dyspepsia Tablets will make you live long and happily. Try them. Book on Dyspepsia free. Address F. A. Stuart Co., Marshall, Mich.

Stephen S. Wise of this city, who received a call from Temple Emanuel, New York, tonight announced that he would not accept the offer of Dr. Wise has other plans for his future religious work, which prevent him accepting the call of the New York congregation.

DECORATIONS FOR OFFICERS.

Secy. Root Asks Congress to Permit Them to Accept Them.

Washington, Jan. 5.—The secretary of state has asked Congress to authorize the following officers of the army to accept certain decorations conferred by the emperor of Russia:

Brig.-Gen. F. H. Barry, Col. John Van R. Hoff of the medical department; Lieut.-Col. W. S. Schuyler, general staff; Maj. M. Macomb, general staff; Capt. Carl Reichman, Seventeenth Infantry, and Capt. Sydney A. Cloman, general staff.

The secretary has asked Congress to authorize Brig.-Gen. J. F. Bell, Capt. Grote-Hutchinson of the general staff, and Capt. B. Motke, general staff, to accept decorations of the Order of the Legion of Honor, conferred on them by the French government.

PEACE IN THE ISLANDS.

Manila, Jan. 5.—The local newspaper printed dispatches from San Francisco today stating that troops were being sent to the islands to quell a possible uprising of the natives. Both the military and civil officers say that the conditions were never better, and all the troops could be withdrawn from the islands without danger.

A NEW UNNAMED PLAY.

Milwaukee, Jan. 5.—A new unnamed play was presented for the first time at Davidson theater tonight in which all characters are Indians. It was written by Donald MacLaren of Milwaukee, for

William A. Brady, and Grace George. Mr. Brady's wife, took the leading woman's role. Both MacLaren and Brady were called before the curtain for short speeches.

The play is of the period when the whites first came to America and tells of the love of an Indian brave for a beautiful girl. She is killed by one of the white men and the play closes with the brave hearing her body borne across a stream to the fairer land of which the great spirit is to receive the spirit of the child's daughter.

OLDEST GRADUATE OF WEST POINT DEAD.

New York, Jan. 5.—Eugene B. MacLean, who since 1861, has held the office of chief engineer in the comptroller's office, died tonight in his home in this city, of general debility and shock.

Mr. MacLean was graduated from West Point in the class of 1842, of which he was the sole survivor. Among his classmates were Gen. Longstreet and Newton. He served as a volunteer in the Mexican war. He resigned and became aide de camp to Jefferson Davis at the outbreak of the civil war.

ANNOYED PRESIDENT.

John Peabody Arrested and Lectured

For Writing Letters to Him.

Montclair, N. J., Jan. 5.—John Peabody, who lives just over the Orange mountains here, was arrested by secret service officers from Washington today on a charge of annoying President Roosevelt.

For months the president, it is alleged, has been receiving letters attacking him for his position on the Panama canal question, railroad rates, and in fact on every public matter that has come up for discussion. Peabody was taken before the authorities and, after a severe lecture, and on promising to cease annoying the president with his letters, he was allowed to go.

NEW JAPANESE CABINET.

Tokyo, Jan. 5.—Appointments to the cabinet were today authoritatively announced as follows:

Premier—Marquis Saionji.
Minister of Foreign Affairs—Count Kato.
Interior—Yamagata Isaburo.
Finance—Sakatani Yoshio.
Marine—Vice Admiral Saito Minoru.
War—Lieut.-Gen. Terauchi.

OLD PEOPLE CONSTANT SUFFERERS IN WINTER

Most old people are great sufferers in winter. They are seldom free from pains or ailments of some description, because they are not as able to withstand the severity of the climate, with its damp, changing weather, as are their younger, more vigorous companions. Cold weather starts the old aches and pains; they suffer with chilly sensations, cold extremities, poor appetite and digestion, nervousness, sleeplessness and other afflictions peculiar to old age. With advancing years the strength and vitality of the system begin to decline. The heart action is weak and irregular, the blood becomes thin and sluggish in its circulation, and often some old blood taint that has lain dormant in the system for years begins to manifest itself. A wart or pimple becomes a troublesome sore or ulcer, skin disease breaks out, or the night rheumatic pains felt in younger days now cause sleepless nights and hours of agony. There is no reason why old age should not be healthy and free from disease if the blood is kept pure and the system strong, and this can be done with S. S. S. It is a medicine that is especially adapted to old people, because it is made entirely of roots, herbs and barks, selected for their purifying, healing and building-up properties, and is very mild and gentle in its action. S. S. S. warms and reinvigorates the sluggish blood so that it moves with more rapidity, and clears it of all impurities and poisons. As this rich, healthy stream circulates through the body every part of the system is built up, the appetite and digestion improve, the heart action increases and the diseases and discomforts of old age pass away. S. S. S. cures Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, and all troubles arising from diseased blood.

S.S.S. PURELY VEGETABLE.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

ENGLAND'S MOROCCAN POLICY.

London, Jan. 6.—The Standard this morning says it learns that Sir Edward Grey, the foreign secretary, has formally announced through diplomatic channels his intention to carry out the policy of his predecessor, Lord Lansdowne, with regard to Morocco. Therefore, the paper adds, the apprehensions entertained abroad concerning the attitude to be assumed by Great Britain under the Liberal government have been removed with satisfaction of all interests concerned.

BOY STABS A BOY.

Chicago, Jan. 6.—A dispatch to the Tribune from Dallas says: "Ollie Claywell, 14 years of age, last night stabbed Carl Owens, aged 13, and is in jail, charged with murder. The boys were employed in the Texas Pacific general offices. Some one placed a placard on young Claywell's back reading 'Kick me.' The Owens boy kicked and a fight started. The boys were separated, but went into the street and the stabbing followed."

Millionaire's Poor Stomach.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. At all druggists.
