LONDON, 24.—A dispatch from Constantinople says the Servians attempted to carry Yatre by assault and were repulsed with immense loss. They were pursued by the garrison to Yavor, about five miles distant.

A portion of the British fleet in Besika Bay are expected to proceed to the gulf of Kolo.

It is expected the Russian headquarters will shortly be transferred from Bogot to Selvi, which is about twenty-five miles south-west from

the former place. The Grand Duke Nicholas has telegraphed from Bogot to Prince Milan of Servia, congratulating him upon the successful opening of the campaign by the Servians.

It is thought these reinforcements will join General Zimmerman, and operate against the eastern side of the quadrilateral, primarily against Silistria, while a division of grenadiers and a division of the reserve formerly before Plevna will go to Biela and join the 12th army corps for a siege of Rustchuk.

Grand Duke Nicholas will join the army operating against Sophia. The Czarowitch is expected to command the army destined to ad-

vance through the Balkans further east, probably through the Trojan Pass.

A correspondent writing from Plevna, states that when the Turks made their sortie they left thousands of sick and wounded, starving and unattended. These unfortunates remained in this state three days, and hundreds of them died. Over 1,000 have already been buried and about 100 corpses come from the hospital daily; undoubtedly many who were not quite dead have been buried. Those killed in the battles were unburied on the 17th. The Turkish prisoners are encamped among them and almost starving. Plevna is one vast charnel house, surpassing in horror anything imaginable.

The radical journals state that the troops at Limoges were supplied with ammunition and two days' rations, and held in readiness to start for Paris. It is probable that on the reassembling of the Chamber of Deputies a motion will be made for a committee to inquire whether orders had really been given for a coup d'etat.

Milk Instead of Soap.

A lady writer to the New York Times says:

"Without giving any recipes for making soap, I wish to tell all the hard-worked farmers' wives how much labor they may save by not using such vast quantities of this article. Her hearly five years I have used soap only for washing clothes. In all that time I have not used one pound of soap for washing dishes and other kitchen purposes. My family has ranged from three to twenty-five. I have used cistern water, lime-stone water, as hard as possible, and hard water composed of other ingredients besides lime, and I find with Stove Grates and Fixings, wholeall these my plan works equally well. It is this: Have your water quite hot and add a very little milk to it. This softens the water, gives the dishes a fine gloss and preserves the hands; it removes the grease, even that from beef, and yet no grease is found floating on the water as when soap is used. The stone vessels I always set on the stove with a little water in them when the victuals are taken from them; thus they are hot when I am ready to wash them, and the grease is easily removed. I find that my tin ware keeps bright longer when cleaned in this way than by using soap or by scouring."

Before pumpkins are fed to cows, the seeds should be removed. They increase the flow of urine, and cause a falling off both of flesh and

BY UNIVERSAL ACCORD, Ayer's Cathartic Pills are the best of all successful chemical investigations and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative pill that medical science can devise. Being purely vegetable no harm can arise from their use. In intrinsic value and curative powers no other pills can be compared with them, and every person, knowing their virtues, will employ them when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild. but effectual, cathartic is required, For sale by all dealers.
