

APPOINTMENTS ON THE SHORT LINE.

Donald P. Stubbs is to be District Freight and Passenger Agent at Boise.

EFFECTIVE ON DECEMBER 15.

Henry Coulam is Also Promoted to The Position of Chief Clerk at Main Street Agency.

Effective Dec. 15, Donald P. Stubbs, son of J. C. Stubbs the traffic director of the Harriman line with headquarters in Chicago, will take up his residence at Boise, Idaho, as district freight and passenger agent for the Oregon Short Line. The appointment has been made following the vacancy caused by the promotion of Frank J. Plakst to assistant general freight agent of the system here.

Mr. Stubbs will be one of the youngest district freight and passenger agents in the country, being but 25 years of age, nevertheless he is an experienced railroad man, having been connected with the business for six years.

Until the outbreak of yellow fever in the south he was division passenger agent for the Southern Pacific at Lafayette, La. Since that time he has been in Idaho in the Twin Falls district where his father took up a quarter section under the irrigation scheme at that point.

HENRY COULAM PROMOTED.

Another promotion is also announced today, that of Henry Coulam, rate clerk at general freight headquarters of the Oregon Short Line, who on Monday will move down to the general agency, 101 south Main, as chief clerk to Dist. Freight and Passenger Agent D. H. Gray, taking the place of Mr. Cobb whose promotion to that of traveling freight agent was announced in last night's "News."

Mr. Coulam is a Salt Lake boy who for seven years past has been connected with the traffic department of the Short Line.

HIT A SWITCH ENGINE.

Union Pacific No. 3 in a Smashup— Crews Hurt.

Ogden, Utah, Dec. 1.—Union Pacific No. 3 struck a switch engine at Granger last night. Both engines were wrecked, the engine crew was injured. Traffic is delayed 12 hours.

"GARFIELD SHUTTLE."

New Passenger Service to be Put in On the San Pedro.

The operating department of the Salt Lake Route is getting ready to put on a new service from Salt Lake to Garfield and return to take care of the rapidly growing business between the two points. Under the proposed schedule there will be three trains in and out in addition to the two to Tinto and four to and from Los Angeles. When the new schedule goes into effect the last two named trains will not carry passengers to Garfield. The passenger department proposes to call the new service the Garfield Shuttle. The train will consist of three coaches and a baggage car and will leave Salt Lake at 7:30 and 11:30 a. m. and 2:45 p. m.

MORE CHANGES.

C. N. Prescott Said to be Going to The Short Line.

St. Paul, Nov. 30.—A. B. Ford will become tomorrow the master mechanic of the Minot division of the Great Northern road. He formerly was traveling engineer of the Montana Central road. Mr. Ford takes the place of C. T. Waters, transferred to the Montana division of the Great Northern, in succession to F. M. Freyburg, who had gone to the Montana Central road. Mr. Freyburg's predecessor, C. N. Prescott, has resigned to take a position on the Oregon Short Line.

Inquiry on Oregon Short Line headquarters this morning failed to elicit any information as to the position to be filled by C. N. Prescott.

HARRIMAN'S BIG ORDER.

Is in the Market for 7,345 New Freight Cars.

San Francisco, Dec. 1.—For his Southern Pacific and other roads E. H. Harriman is in the market for 45 tank cars, 1,500 steel under-frame box cars of 10,000 pounds capacity each and 50 steel under-frame refrigerator cars of 10,000 pounds capacity each. It is also said that he will soon place contracts for 5,000 more freight cars. The new refrigerator cars are wanted, it is said, to handle banana shipments to the west from New Orleans and for certain other purposes not connected with the California fruit trade.

EXCURSION FROM CANADA.

The Oregon Short Line announces that on Dec. 15 it will run the first excursion south from Canada to Salt Lake. This innovation has been inaugurated at the request of a number of former Utahans who are now residing in Alberta and who would like to come to Salt Lake for Christmas.

While there have been a number of excursions in the past from Salt Lake to Canada this is the first that has been put in from the northern end of the line.

AIR BRAKE SUIT.

San Francisco, Dec. 1.—The Southern Pacific officials have been served with notice of a suit against them by the government in the United States district court at Portland, Or., to collect penalties for their violation of the safety appliance act passed by Congress in 1903 and subsequently amended in 1905. The suit in question requires every train should have a sufficient number of cars so equipped with power or train brakes that the engineer on the locomotive drawing such train can control its speed without requiring brakemen to use common hand brakes for that purpose.

All passenger trains are properly equipped with air brakes, so the act refers more particularly to freight trains. The Southern Pacific has many of its cars so equipped and as a rule will not take a car from another road coming in through trains unless it has air brakes. The suit is therefore in the nature of a surprise and is probably the first action of the kind brought in the federal courts on the coast.

Everybody's Magazine 15 cents \$1.50 a year

Special representative wanted for Everybody's Magazine in towns where there are no dealers.

The Utah railroad, is in from Mack, Colo., this morning.

Frank Groesbeck, traveling passenger agent for the Rio Grande, goes to Los Angeles tomorrow night over the Salt Lake Route.

General Supt. A. E. Welby has been called into Denver for a conference on operating matters connected with the Rio Grande.

Seven belated trains that were laid out by a derailment yesterday on the west end of the Short Line in Nevada, arrived in Ogden this morning.

General Agent Bauman of the passenger department of the Rio Grande, leaves for Denver this afternoon to be present at a time card meeting.

NERVOUS WOMEN.

Take Horford's Acid Phosphate.

Quiets the nerves, relieves nausea and indigestion and induces refreshing sleep.

AMUSEMENTS.

Nothing more breezy, refreshing and hilarious has come from the pen of George Ade than "The College Widow" and that is saying no small thing when one recalls the "County Chairman" and "The Sho Gun." The Theater last night was packed from orchestra to gallery with a tumultuous throng that never for a moment suffered the stream of merriment to be checked. It may be that the man or woman not thoroughly posted on conditions in college life would think the episode on which "The College Widow" is founded, somewhat far-fetched, but nearly everyone in last night's gathering appreciated the humor and the satire to the fullest extent. The whole presentation is a handsome one as regards boys, girls, scenery, costumes and general arrangement. While there is no one in the east who stands out as an undoubtedly brilliant figure, there is nothing in the play repelling unusual attainments, and as long as every part is filled naturally and easily, all the requirements are met. This is not to say that there are no individual instances of good acting. Many admirable types were presented in brief form, and it is hard to say where the principal credit belongs. Mr. Chase as the freshman, Bob Hicks, Mr. Ornd as his father, Mr. Walker as the prosperous railroad president, Mr. Truesdell as the hero, Mr. Carr as "silent" Murdock, Mr. Carr as the town marshal, Miss Nugent as the waitress, and Miss Dunlap as the tom boy, were all true to life and presented school characters as the theatergoer knows. Miss Dorothy Tennant in the part of the widow was pretty and capable, though not especially forceful. The stage management was admirable throughout and nothing could have been finer than the working up of the football act.

The same bill goes the remainder of the week and is certainly good for the heaviest sort of business.

A well satisfied Thanksgiving audience was that which left the Grand last night after sitting and standing to witness one of the best productions put on at the popular play house this season. "On the Bridge at Midnight" has its sensational moments, but between them are whole acts full of clean comedy and delicate bits of pathos that are irresistible even to the most hardened of spectators. The story is based on the fortunes of "Reddy" the newsboy, who follows from adversity into prosperity, on the road to which the boy, who turns out to be a girl, does many a good turn to his friend the hero. The company is a capable one. Frank Weed as "Herman von Schultzeberg," a German baron, but known generally as simply "Germany," makes much of the laughter and a good portion of the pathos, while "Reddy" the newsboy is also acceptable, both as a boy and as the long missing girl, who is needed to bring things to a happy conclusion. "On the Bridge at Midnight" remains at the Grand for the rest of the week, with the usual Saturday matinee.

The expected engagement of the Kilites at the Salt Palace did not materialize yesterday. It was questionable management to book a concert on a cold night in a place so far removed from the center of town. Added to this it was found to be against the fire ordinance to heat the building, so the engagement was abandoned and the members of the Kilites band last night distributed themselves among the various places of amusement.

The Lyric will open another prosperous week tomorrow afternoon with something novel and brilliant in the burlesque and vaudeville line. This will be the Urdons, who will present an extravaganza entitled "Mixed, Muddled and Fixed." The features in the olio line are O. Hana Sam, whose act "Scenes from Japan" is said to have created a furore in the principal cities of Europe. It is on the living picture order, but is something entirely new and original. The vaudeville acts include Madden & Jones, premier Irish comedians; the two Ashtons, comedy brothers, Brooks Brothers, comedians, Jesse Janette, singer and dancer, and Blackford and Hunter, a clever sister team.

A BUSINESS FRIEND.

To be Counted on Under All Circumstances.

One of the bright business women of New York city who found that coffee was wrecking her nervous system, bringing on neuritic attacks and making her "extremely irritable" writes that she has found a staunch friend in Postum Food Coffee.

"I left off the old kind of coffee completely and entirely. This I found was easy to do, since Postum was pleasing to my palate from the beginning. Indeed all my family are with me in thinking it delicious when it is properly prepared—and by that I mean boiled long enough."

"I have not had one single attack of neuritis since I began to drink Postum some months ago, my nerves have become steady and the old annoying irritability has, thank Postum, passed away. I cannot withhold this acknowledgment which is made in sincere gratitude." Name given by Postum Co., Battle Creek, Mich.

There's a reason for reading the little book, "The Road to Wellville," in pks.

LOOKS MUCH LIKE UNDUE SUSPICION.

Harmless Greeks Arrested for Attempting to Hold up Rev. E. I. Goshen.

COUNTYMEN DEFEND THEM.

Say the Men Were Lost and Were Simply Endeavoring to Ascertain Where They Were At.

A couple of alleged holdups came to grief last night and landed in jail for attempting to hold up Rev. Elmer I. Goshen and "Bennie" Roberts, a reporter.

The former was on South Temple street near Sixth East when he was suddenly stopped by two suspicious looking men. Before either had a chance to draw a gun, Mr. Goshen began slashing at them with his cane. The fellow ran down the street and Mr. Goshen boarded a car and hurried to the University club, where he telephoned to the police, giving them a description of the men.

In a few minutes several officers were sent out in the neighborhood of the attempted holdup. Every crossing was carefully guarded, and every pedestrian was made to give an account of himself.

Mr. Roberts, who went out with the officers, ran into the men on Second East. The fellows were ever been persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost-bites, skin eruptions, it does the work." 25c, 50c, Sold by Z. C. M. L. Drug Dept. B.

At the police station they said they were brothers and gave their names as James and Theodore Kotsopolis. One of the men was armed with a 38-caliber revolver and both had handkerchiefs that the officers believe were used for masks. They are Greeks and cannot speak very good English. They were booked on the charge of attempted hold-up.

WHAT GREEK LEADERS SAY.

N. P. Stathakos, Constantine Anargyros and S. G. Skirlis, three representative members of the local Greek colony, called at the "News" this morning in regard to the case. Each affirmed that the men were innocent of any wrongdoing. In fact, they asserted that in no instance had one of their fellow countrymen ever been accused of the crime of attempting to hold up a citizen. The story told by the gentlemen as a solution of the suspicious actions of the two accused men, was that they arrived from Mack, Colo., a couple of days ago and had gone last night out to the quarry in North Salt Lake, where some friends of theirs were working. On returning they omitted to get off the car on East Temple street and were carried on to the east side where they got off and wandered around. After an interval they saw Rev. Goshen and approached him with the object in view of asking to be directed to their lodgings. It was then that Mr. Goshen, imagining that he was about to be held up, made a break for downtown. The two Greeks, puzzled and scared by his actions, then continued on their way. Mr. Skirlis stated that Ben Roberts, a reporter on the Herald, with the same sequel.

WHO THE MEN ARE.

In talking regarding the affair Mr. Skirlis said: "The Greek names of the two men are Theodosia Katsargis and Demitrios Katsargis. They are brothers, the former having arrived in America about 18 months ago and the other a year ago. I know them well and secured work for them at Mack, Colo. They returned to Salt Lake, having completed their work on Wednesday night. Dr. Critchlow attended to Theodosia in this city for about six weeks and both men are known here where they bear good reputations."

In explanation of the fact that a gun was found on one of the men and that both had black handkerchiefs in their pockets, Mr. Skirlis stated that the gun was carried for protection, as the men went outside of the city limits and were nervous. As to the black handkerchiefs, he said that it was the custom among Greek laborers to use them, as they did not show the dirt so readily as cambric.

All three gentlemen scoffed at the idea that the Greeks were attempting to commit a felony and asserted that
