# MINING, BUSINESS AND STOCKS

# **WILL ORGANIZE BIG COMPANY**

Col. J. N. Huston Goes East to Launch a Three Million Dollar Concern.

WILL OPERATE IN DEER LODGE

Has Secured Ross and Buck Properties-Plans for Big Development Campaign.

Col. J. N. Huston, the New York capitalist who visited Fay. Nev., and Goldsprings, Utah, during the past week, during which he secured options on several properties in the Deer Lodge. Nev., district, returned east vesterday afternoon; but announced before his departure that steps would be taken immediately towards the organization of a new \$3,000,000 company. While his plans have not been definitely mapped out; it is probable that a \$250,000 bond issue will be decided on as a means of providing funds for equipment and de-

relopment purposes.

The ground that has come into possession of Col. Huston consists of the Ross and Buck mines and the Buck mountain portion of the Snowflake Col. Huston expects to return west

a few weeks later, but in the meantime his engineers will attend to the shaping up of things on this end of the line a vigorous and systematic campaign

#### ON MINING EXCHANGE. Stocks Displayed Much Activity on the Open Board.

mining exchange displayed considerable activity today, but the bulk of the trading was done among the low priced stocks. Some Little Bell was brought out, however, but at a price considerably under the figures that have been quoted for some time past. The stock began with a section 18.50 on a buyer and at \$8.12½ for cash. May Day did business at 14. cents and New York Bonanza was strong around 33 cents. Beck Tunnel stiffened slightly; but Columbus Con-solidated refused to go above \$7.40. The closing quotations and sales

#### BINGHAM CENTRAL MINE. Manager D. C. Jackling Says Develop-

ment is Going Ahead Nicely. C. Jackling, under whose direction

the property of the Bingham Central Mining company in Bingham is being exploited, reports good progress being made at all points of attack.

The upper tunnel is going ahead at a rapid pace, but has not reached the point where the orebodies are expected.

Whitley tunnel is being ahead with equal vigor, but Mr. Jackling is not figuring on making any im portant disclosures for another 140 In the lower tunnel has been developed an immense tonnage of low grade fluxing ore which mighht be of commercial value if a railroad were op-erated up to the mine. However, this ore will be utilized to good advantage later on. The ore is of about the same character as that being shipped to the White Knob smelter at Mackey, Ida., for use as flux for the silicious ore of the White Knob mine.

# LAKESIDE COPPER.

Articles of Incorporation Have Been Filed With Secretary of State,

The Lakeside Copper company of Og-den filed a copy of its articles of in-corporation in the secretary of state's office today. Its capital stock is \$50,000 divided into shares of the par value of 10 cents each. H. E. Baker is presi-dent; T. R. Tisdale, vice president; H. S. Stowe, secretary and treasurer. The company owns four claims in the Promentory district, Boxelder county,

#### TINTIC ORE RATES. H. S. Joseph Returns From Los Angeles.

Harry Joseph, one of the committee of Tintic mine operators, which is en-deavoring to induce the ratiroads to grant a reduction in the existing freight rates on ore shipped from Tintic points to the Salt Lake valley, returned from Los Angeles this morning where he went to consult with the general traffic department of the

alt Lake Route. The committee has not yet completed the compilation of the necessary data bearing on the matter of ton-nage desired by the transportation companies, but will probably have the list complete by the end of the week,

#### ONE FURNACE WORKING.

New Garfield Smelter Gradually Getting Into Operation.

At the offices of the American Smelting & Refining company it was learned during the day that one furnace at the new Garfield smelter is in operation and that the remainder of the battery will gradually be brought into line.
It may be several weeks before the big plant is going at full swing. It took six months to get the new Mur-

#### ray plant in working order. MAKING GOOD PROGRESS.

A letter dated the 7th inst, at Gold Batte, Nev., and written by Supt. Rossum of the Gold Butte mine, conveys the information that splendld progress is being made with the work of driv-ing the main tunnel. The rock has softened up considerably and is becom-ing more mineralized. Mr. Rossum adds that when he reaches the Gold Bluff vein he expects to be able to report a strike of unusual importance,

#### MINERS IN DEMAND.

There are no idle miners in Pioche at present, and in fact there is a shortage of mer all along the line, says the Record of Pioche, Efficient miners are very much in demand and the wages paid here compare and exceed n some instances many dividend par ing camps. Shaft men in dry safe places receive \$3.50 per eight hours while on each shift of three men one man is paid \$4. Men are permitted to board where they please and the rate per month is \$25. Other commodities of living are not so expensive here as in many camps where wages are no better.

#### MINING CLAIMS TRANSFERRED. Special Correspondence.

Provo, Aug 8.—G. T. Bridges has sold to Chas. E. Parker, both of Eureka, an undivided one-half interest in the Tip Top Nos. 1 and 2 mining claims situated in 1 tab. ated in Ltah county, near Eureka, for a consideration of \$1,500.

The Wycming Extension and Wyo-ming Extension No. 1, the Hamilton Nos. 1 and 2 mining claims in American Fork canyon have been transfer-red to the Daniels Mining & Milling company by A. E. Daniels and J. M. Hamilton of Salt Lake, for a consider-ation of \$1 and other valuable consid-

# SENSATIONAL ORE AT BLACK HORSE

H. S. Woolley Receives Information That Important Strike Has Been Made.

IN MABEL FRACTION CLAIM.

Three-foot Vein, the Writer States, Averages \$300 Per Ton Across The Face.

According to a letter received during the day by H. S. Woolley, a strike of considerable importance has been made

in the Black Horse, Nev., district. The writer states that a three-foot ledge of gold ore has been found in the Mable Fraction claim, which averages across the face over \$300 to the ton in gold and that an assay taken from a picked sample showed the presence of 5,913.9 ounces to gold, which would give the specimen a valuation

on the basis of \$20 an ounce. The Matte Fraction claim, Mr. Woolley states, adjoins the Cyclone claim, which lies between the Mable Fraction and the San Pedro, the latter being operated by the Mines Develop-ment company, of which Mr. Woolley

The Black Horse district is situated a few miles north of Osceola, Nev., and has been the scene of considerable ac-tivity during the past few months.

#### WHERE IT'S WARM.

Fred Myton in Charge of Property on Edge of Death Valley.

Major H. P. Myton has received a letter from his son, Fred, who is in charge of the development of a mining property in the edge of Death Valley in California. He states the weather has been "no hotter than 130 degrees in the shade" at any time this summer. Mr. Myton was located for some time

at Searchlight, Nev., but was attracted to the Death valley region last spring and lost no time in getting into the crountry with the result that he has succeeded in getting hold of something that looks like it will develop into a good producer.

#### INDEPENDENCE GROUP.

Goldsprings Property Optioned to Short & Elliott.

Charles A. Short, manager of the Jenny Gold Mining company's properties at Goldsprings, Iron county, was in the city yesterday and departed for that camp again last night.

Just before leaving Mr. Short released the information that he had secured an option on the Independence group of claims for a consideration which he

not care to name. The option was made out in favor of Short & Elliott. The property is situated about a quarter of a mile west of the Goldsprings townsite and is to undergo im-

#### BUY INTO ELY.

David Keith and Thomas Kearns Secure Valuable Property There.

mediate development.

David Keith and Thomas Kearns have closed a deal for the purchase of the property of the Ely Mining & Milling company's group, also the Maceo group, at Ely, Nev. Altogether, the Sait Lakers have acquired 23 claims, which are situated in one of the best

parts of the camp.

The Ely Mining & Milling company was organized a number of years ago and built a cyanide mill for the treat-ment of oxidized gold ore. As depth was attained, however, copper put it in appearance and, as was the case of the Highland Boy of Bingham, the mill of no benefit to the property and as finally abandoned. The Ely company was owned and controlled by Salt Lake people. The Maceo group was owned by D. C. McDonald, who receives some cash in addition to a block of

Messrs, Keith and Kearns have undoubtedly acquired a very promising lot of ground in the Nevada camp. Just cross the gulch from the Ely is the Chainman mine, which was also equipped with a large mill at a cost of over \$200,000. When this plant was completed, it proved to be of no value to the Chainman company, Copper apcared in the lower workings; eastern shareholders became discouraged and finally let the mine go to the Nevada Consolidated company for a song.

#### NEVADA-UTAH MINES.

Meadow Valley No. 5 Shaft Nearly Down to 700 Level.

The Pioche Record, in reviewing mining conditions in the camp in which it is published, says of the work being nducted by the Nevada-Utah Mines & Smelters corporation:

"Meadow Vailey shaft No. 5 is now approaching the 700-foot level, when additional forces will be put on drifting, crosscutting and blocking out ore, while No. 1 is being pushed with an unsual vigor to the lower levels." usual vigor to the lower levels.

"Much surface improvements have been made and the policy of boring below camp to supply water for ex-tensive electrical and metalurgical works yet to be erected is meeting with satisfactory results. In the second with satisfactory results. In their well two miles north of town the supply of water obtained is so great that adequate pumps at hand are unable to drain the same results obtain at Jackrabbit, 15 miles northwest.

The Day mine in that vicinity has been equipped with ore bins, bunk houses and wire tramway preparatory to extensive working when the railroad hall have been completed. Numerous her improvements have been made the company and they are ever acve, conservative and their operations here. And to them is jurgely due the extension of the San Pedro into Pioche which will begin

#### ACTUAL CROP SITUATION.

New York, Aug. 9.-W. C. Brown, vice president of the New York Central system, returned recently from a jour-ney of more than 8,000 miles through the middle west, undertaken with the object of ascertaining the actual crop-situation. He visited the states of Illinois, Indiana, Missouri and Iowa and has prepared special reports on the condition in Kansas and Nebraska.

In all of these, according to his ob-servations, the crops this year will be remarkable as to both quality and quantity. In speaking of his trip, Mr.

I believe that the United States this year will have a larger harvest of grain of all sorts than ever before and that it will market it at a better price, considering the size of the crops. The wheat crop in the six states in which I have personally made investigation will be magnificent. Kansas this year is going to produce a wheat crop of about 90,000,000 bushels. Last year it produced \$7,000,000 bushels. The corn crop is in splendid condition. In Kan-sas and Nebraska a corn crop on as large a scale as ever before is practicassured. Iowa will produce 250. 255 000,000. In Missouri, with the exception of four counties in the northall the counties will have great corn crops."

Friday is Stephens' Singers' day at Wandamere.

CHICAGO.

Chicago Aug. 9.—Clearing weather both in the northwest and southwest induced free profit taking today and caused a sharp break in the price of wheat in the local market. At the decline the market was supported by commission houses. September opened it to it higher at 73% to 73% and declined to 72%.

Additional rain in the corn belt caused weakness in corn. September opened unchanged to is higher at 48% to 45% sold off to 48%.

Outs were weak in sympathy with wheat and corn. September opened is up at 31%, and declined to it.

Provisions were weak on a decline in the price of hogs. September pork was unchanged at 16.56; lard was 507% lower at 8.7098, 72%, and ribs were 10 cents lower at 2.071%. Beets in cans, each 20
