MINING, BUSINESS AND STOCKS.

SHRINKAGE IN MINING STOCKS

Nearly All of the Active Stocks Declined Today.

CARISA FELL AWAY TO $1.37

Ajax Weaker—Uncle Sam Lower—Tesora and Victor Slumpy—Sacramento Sagging.

With very few exceptions prices continued their downward course on the Mining Exchange today. Business was quite heavy owing apparently, to realizations at present prices. Some few stocks withstood the onslaught of the bears and remained firm in spite of the local and eastern depression in the mining share market. Lower Mammoth, for instance, sold up to $3.00, while May Day hung around $1.44. Daly West was stringer at $38.50 and Ontario was unchanged at $12.00. Boss Tweed released some 1,000 shares at prices running as low as 56. Eagle and Blue Bell was firm at $1.14. All of the other stocks traded in show a shrinkage of from 1 to 10 per cent. The greatest declines occurred in Tesora and Victor. The former sold down to 61½, while the latter was traded in at 59. Carisa also suffered in the raid and after opening at $1.41 the stock fell away to $1.37, when the call closed. Ajax, which has always been a favorite with the speculative element fluctuated between $1.40 and $1.41 with nearly 10,000 shares changing hands. Daly was in good demand though it weakened from $3.10 to $2.98. Consolidated Mercur, which a few days ago, sold up to $2.57, was offered at $2.49 today, while Sacramento fell away to 21 after opening at 23¼. Only a few days ago it was traded in at 24¼. Century, of Park Valley, also felt the effects of the bear movement and sold at 3.25, and this in spite of the fact that the mine is improving and the mill is about ready to run. Ben Butler loosened up something like 12,000 shares at prices varying between 19 and 19¾. Star Consolidated weakened to 36¾ again, while West Morning Glory reacted to 5⅝ after selling down to 4⅞ yesterday. Little Chief weakened to 20½ this morning. Manhattan sold at 11-16. Sunbeam was traded in at 48, while Silver Shield sold at 2½ and 2⅝. Martha Washington was very active from 5¼ down to 4⅞.

CONDITIONS AT GRAND CENTRAL

Pres. Holbrook Says the Outlook is Encouraging in King William.

WORK RESUMED AT SAMPSON

Sam Levy in Charge of Bingham Property—Winnamuck Mill Starts Up—Rich Copper Shipment Sold.

President Holbrook of the Grand Central, who was in town today, reports an improvement in the property as the result of the development work now being done in the King William claim. Nothing is being done in the lowest levels of the mine, and the management is devoting much of its energy to the developing of the King William claim. Drifts are being run into that claim on the 200, 800 and 900 levels, and while the expected chute of ore has not been exposed the indications are said to be very favorable. Enough ore is being mined to pay expenses and the directors are still confident that it is only a question of time when dividends will be resumed.

Work Resumed at the Sampson.

Sam Levy left for Bingham today to take charge of work at the Sampson property which lies near the famous Brooklyn group in that camp. An energetic campaign of development work is promised for the old bonanza under Mr. Levy's direction. With this object in view the company, which is controlled by Willard F. Snyder and associates, has sent out supplies of lumber and rails. The mine is partly filled with water and the first work to be done consists in repairing the old workings and pumping out the water. Work on the property will probably be in full swing before winter sets in, and the shareholders may look for some heavy shipments from this property next season.

Conditions at the Ajax.

Secretary Burt of the Ajax talked with Superintendent Nebeker over the 'phone today and learned that the mine shows no special change either in the north or south drifts on the 1,000 level. The face of the north drift is still being pushed towards the Mammoth and from 15 to 18 inches of shipping ore appears in the face with some second class. The upraise is also being continued in ore. When questioned as to the length of the upraise, or the distance that the drift traversed the previous route, Mr. Burt said he had no definite information on these points. Mr. Weir is expected home some time next week, when more details will probably be given out. The company marketed a car of copper ore today which assayed nearly 20 per cent. Three more cars of similar ore are now being loaded. It is being extracted from the upper levels.

Winnamuck Mill Started Up.

After making a number of repairs in the old Winnamuck mill at Bingham, the new owners have started it up again under the direction of Prof. Roberts. The mill is capable of handling 100 tons of ore per day, and it is said to be working satisfactorily since the changes were made. Manager Lathrop reports no special change in the Tiewaukee, where ores are being concentrated in the Winnamuck mill. A large body of milling ore has been developed but no bodies of high grade ore are reported.

Rich Copper Shipment.

Two cars of high grade copper ore were on the market today from the Savanic property in Grand Gulch, near the borders of Southern Utah. It was said that the ore carried over 40 per cent in the red metal. Col. Pickett would not release the exact figures, but he said the shipment was very satisfactory. The company is employing a small force in drifting on the 70 and 100-foot levels, where some high grade copper ore is being developed.

Anaconda Dividend Declared.

A dispatch from New York states that the Anaconda Mining company has declared a dividend of $1.25 a share. For some time past the company has been declaring a dividend of $1.25 per share and an extra dividend of 75 cents at intervals of six months.

Report on Irish Gold Field.

An exchange says mining engineers from the Transvaal who are temporarily sojourning tt home until the close of the war permits them to return to their duties in South Africa have been making investigations in a part of Ireland which from time immemorial has been known to have deposits of gold and silver.

Under the auspices of the Royal Dublin society, Mr. E. St. John Lyburn, a mining engineer engaged for years past in Pretoria, has prospected a large region in the County Wicklow, where, over a hundred years ago, some rich finds were made of the precious metal. Prospector Lyburn in his report, just handed in to the Royal Dublin society, emphatically declares that did similar geological features present themselves in the Transvaal as he has found in the County Wicklow, a large mining corporation would at once be formed to test the extent of the deposits according to the most modern approved methods.

To Enlarge Weiser Smelter.

Charles W. Whitcomb of Boston, vice president and general manager of the Boston & Seven Devils Copper company, was in the city yesterday, says the Boise Statesman. Mr. Whitcomb states that the company has made a number of shipments this year of ore giving smelter returns of an average of 30 per cent copper, $4 gold and 22 silver. In extracting this ore something over 10,000 tons of 12 per cent material has been mined and is now on the dump. It is the policy to accumulate this lower grade ore for reduction in the smelter at Weiser. Mr. Whitcomb, who is vice president and general manager of this smelting enterprise, says it has definitely been determined to make the plant 150 tons daily capacity, instead of 100 tons as at first contemplated. This is entirely justified by the ore on hand and in sight. There will be some delay in getting the smelter in running order because of the steel strike, but it will be blown in by the first of December at the latest.

MINING NOTES.

Daly-West sold at $38.60 on the curb today.

George Fetterman is up from De Lamar, Nevada.

The construction of a new sampler is being mooted.

Dr. P. A. H. Franklin was at his desk for a short time this morning.

The Story claim in Bingham had a car of ore on the market today.

The name of the Skull Valley Mining company has ben changed to the Isabella Mining and Milling company.

It is said that Mayor Ezra Thompson paid as much as $39,000 for 1,000 shares of the Daly-West a day or two ago.

The Taylor-Brunton sampler reported two cars of ore from Nevada, one from Bingham and two from Frisco today.

The new jigs have not yet been installed at the Tesora mill, though the plant is said to be doing good work.

It was reported today that the San Rafael company has secured a flow of oil, though the report could not be verified.

Col. E. A. Wall returned from Tintic last evening. He reports a small force sinking and upraising on the Utah with no special results.

It was expected that Messrs. Smith and Caldwell would return this evening from an investigation of the West Morning Glory fire.

Some good lead ore is being opened up in the Don Pedro of Stockton. Yesterday's assays show as much as 40 per cent lead with from 4 to 12 ounces silver per ton.

F. H. Lathrop returned today from the Opah of Stateline, which is being put in shape for the early production of ore. All the machinery has arrived excepting two cars, which are expected in a couple of weeks.

Charles Butters, proprietor of the Butter's laboratory in this city, and a metallurgist of world wide fame, has returned from England. In his opinion it will be a long time before the South African mines will be working full blast.

A visitor from Tintic stated today that the Victor strike has been overdone. A chute of ore is certainly in sight, but it is said to be less important than some have reported it. Manager McCune, who returned from Butte today, stated that there was nothing new to report.

The Brooklyn Mining and Milling company filed articles of incorporation yesterday afternoon. The capital stock is $400,000, in shares of $1 each. The officers are: J. A. Graham, president, Charles Olsen, vice president; R. S. Connor, secretary and treasurer. These with H. L. Benner and W. G. Davis, form the directorate. The company owns the Brooklyn group of nine mining claims in Park Valley, Boxelder county.

Articles of the Copper King Mining company have been filed with the county clery. The capital stock is $20,000, divided into 200,000 shares, of the par value of $10 each. H. T. B. Grey is president of the company; T. W. Bouton, vice president; G. J. Badertacher, secretary and treasurer. C. M. Mauck and H. A. Turnley complete the directorate. The company owns the twenty mining claims in Blue Creek district, Boxelder county.

OPENING WAS VERY WEAK.

Many of the Railroads Lost a Point or More at the First.

First Sales of Amalgamated Copper Brought Declines—Then Received Support from Outside.

New York, Sept. 26.—The market opened active but weak. Declines were within fractional bounds except in a few prominent stocks. The coalers, the southwesterns, grangers and the Pacifics were the weakest, Chesapeake & Ohio, Southern railway preferred, Atchison, Missouri, Kansas & Texas preferred and Erie first preferred losing a point. The first sale of Amalgamated Copper was of 700 shares at a decline of ¼ but outside support rallied the stock 1¼. Anaconda also opened down ¼ and then rallied ½. Support was forthcoming elsewhere in the market and there were recoveries from the first prices. The rally in the coppers encouraged the bulls to bid up the railroad list and St. Paul, Union Pacific, Pennsylvania and Missouri Pacific sold fractionally above yesterday's close. The steel stocks wiped out their loss on renewed buying of Manhattan and the Vanderbilts, which advanced some of them a point at the rally.

Profit taking in Amalgamated Copper began when it touched 90⅞, and a decline of 1⅝ depressed the general market slightly. General Electric lost 4½ and St. Louis-Southwestern preferred 2⅜. The market steadied again until Missouri Pacific sagged 1⅜. The market became dull but slowly hardened to the best prices. Missouri Pacific recovered to about last night's level. Amalgamated Copper touched 91¾ and Anaconda 36½. The pressure against the market was largely centralized and only a few stocks sold below the earlier low level, notably St. Paul and Missouri Pacific. The last mentioned fell to 95. Amalgamated Copper held a shade above last night and when it later rose above 90 the general tone became better.

Missouri Pacific rallied ⅝ and other Gould stocks hardened.

The paucity of the demand encouraged the bear professionals to attack the market and they forced the granger and Pacific stocks to the lowest. Some resistance was made by Anaconda and the United States Steel stocks, but Amalgamated Copper yielded 1½. The market was supported again and rallied strongly, Amalgamated Copper touching 92.

Bonds were irregular.

CLOSING PRICES.

New York, Sept. 26.—Anaconda, 37⅜; Wis. Central, 21½; do. pfd., 41¼; Republic Steel, 15½; Southern Railway, 31⅝, do. pfd., 86½; W. U., 89½; Southern Pacific, 56⅝; C. & O., 45¼; L. & N., 103⅝; Missouri Pacific, 97⅛; N. & W., 53⅞; Leather, 12¾; do. pfd., 89½; Gas, 106½; Rock Island, 140; Pacific Mail, 46¼; Reading, 41⅛; Erie, 41¼; U. S. Steel, 42¾; C. & A., 37.

ENGLAND AND TURKEY.

Paris Patrie Says that a Conflict Has Broken Out Between Them.

Paris, Sept. 26.—The Patrie today prints a sensational story to the effect that a conflict has broken out between Great Britain and Turkey, saying that three British war vessels have been ordered to the Persian gulf to suppress revolts at Touet, in British province of Bagdad, and that the Turkish government has dispatched a strong detachment of troops with instructions to oppose the landing of the British forces. Russia, Germany and France, the paper also says, have agreed to support Turkey.

Chun All Ready to Leave.

Berlin, Sept. 26.—Prince Chun will leave this city Sunday and will embark on the German steamer Bayern at Genoa, October 1, the vessel on which he came to Europe. He will return to Berlin tomorrow and will make his farewell visit to the foreign office Saturday.

Heavy Fire in Guayquil.

Guayaquil, Ecuador, Sept. 26.—A fire here last night destroyed eleven blocks in the south end of the city. The loss probably will amount to a million sucres, a little less than a million dollars. The insurance on the buildings destroyed amount to 200,000 sucres.

Columbia University Students Rebel

New York, Sept. 26.—The Herald says: Columbia university students are rebelling against the resolutions against hazing they were made to sign by the faculty last year. During the week the various classes have met and decided to place stringent rules over the freshman body because of the curtailment of the upper classmen's privilege.

President Seth Low, in an effort to forestall a repetition of last season's occurrences has addressed a note to each of the under-graduate bodies in which he calls attention to the spirit of the resolution they signed and asks their continued co-operation.

Albany Law School Opens.

New York, Sept. 26.—A special to the Tribune from Albany, N. Y., says:

The fifty-first session of the Albany Law school, from which William McKinley was graduated, has just commenced. Gen. Amasa J. Parker, the president of the board of trustees, at the opening exercises of the school said:

"The class that Mr. McKinley belonged to was known as the 'War class' and it is claimed that every grade in the army, from major-general down to private, was represented."

Belgian Miners Will Strike.

Liege, Belgium, Sept. 26.—At a number of meetings held this morning the coal miners resolved to declare a general strike in the Liege coal basin.

To Prevent Tuberculosis.

Berlin, Sept. 26.—The Prussian school inspectors are paying particular attention to the prevention of tuberculosis. The department of school inspection has received a pamphlet concerning the disease, written by an American physician, with an order from the minister of public instruction directing the inspectors to consult with the teachers regarding preventive measures.

Matriculation at Berlin University.

Berlin, Sept. 26.—Matriculation will occur at the University of Berlin this year from October 11 to November 5.

SYRUP OF FIGS

NEVER IMITATED—QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N. Y.
For sale by all Druggists.—Price 50c. per bottle.

WANTED.

GARDNER DAILY STORE NEWS.

Of all the Boys' clothes made in this country—

There's none that we've seen that will outwear the Gardner clothes for Boys.

There are some that look as well at first—

But after a month's wear—then comes the difference.

The wear is the one point about our clothes that we're more careful of than any other.

The fabrics must be just so—the linings must be just so—and the putting together must be just so.

The clothes for fall are the best we ever had.

All styles—little vest—knee pants style for 3 to 8 years. Regular double breasted and three-piece style, ages 7 to 16; and long pants style, ages 12 to 19.

Price range—$1.50 to $15.00.

Mail orders promptly filled. Write for catalogue.

ONE PRICE J. P. Gardner, 136-138 MAIN ST.

AMERICAN CUT GLASS.

Burlington Route

Why Take The Burlington?

A better way to put the question is: Why take any other railroad?

The Burlington takes you to Omaha or Chicago without a single change of cars—quickly, cheaply, comfortably—past the finest scenery in America, over a wonderfully good track and surrounded by every luxury of modern travel.

Through sleeping cars leave the R. G. W. depot at 3:15 p. m. daily. Through tourist cars Wednesdays and Fridays.

Drop in—or write. We'll gladly give you further information.

Lewis' 98 % Lye,
Powdered and Perfumed.
(PATENTED)

The strongest and purest made. Unlike other Lyes, it is finely powdered, packed in a can having two lids, one easily cut and the other removable for constant use. It will make the best Perfumed Hard Soap in 20 minutes without boiling. It is the best for cleansing waste pipes, disinfecting sinks, closets, cleaning paint bottles, barrels; washing trees and killing insects; for engineers and machinists' uses; for painters, to remove oil paints, etc.
